Now for a small message from the translator...

This concludes my first tank! *clap clap*
Looking back it wasn't really a brilliant choice. But, when I started I knew next to nothing about picking raws (still don't).
And after chapter 3 progress just died...
But when the scripts miraculously survived 2 crashes,
I decided to see it through.
So here you have it, over a year later - the finished tank!

Thanks for reading till the end!
