[Summary] Momoko came on a trip with her husband, daughter, and her husband. While Momoko was healing from the tiredness of travel in the family bath, her drunk son-in-law, Yuusuke, fucked her against her will, pretending to be drunk. Furthermore, only that wasn't sufficient, so at midnight, while Momoko was going to bed, she was further fucked. The next day, they pretended that nothing happened, while the family went sightseeing. However, the two of them came together on the Ferris wheel. Once again, due to Yuusuke's unforgivable and persistent domination, Momoko's body and mind were beginning to be drowned in pleasure.....
