Elena accepts the mission. The headmaster praises her as a hero who once saved the country, but sexually harasses her voluptuous breasts. When she threatens the headmaster with the pressure of her magical powers, she is astonished and says, "Master, you're the same as always."

Elena becomes upset at this bad joke and sexual harassment, and leaves the place. As Elena's master, the headmaster wants her to find a boyfriend quickly and be happy, but... That night, Elena returns to the inn in the castle town, and gets completely naked in front of her apprentice Ast to explain the mission she has received.

However, when Ast sees her heart rate and the moisture in her crotch, he realizes that she is hiding the fact that she was sexually harassed. She apologizes to Ast, confesses once again that she was sexually harassed, speaks of her love for him, and begs for his forgiveness. There, the master-slave play ends, leaving Elena dumbfounded.

She climbs onto the bed and shows Ast the flood between her legs.
Ast buries his face in the moist jungle and savors the nectar of their love. As Elena has sex
with her younger boyfriend, she is torn between the feeling that their love is real and the guilt...

Then, the two share a passionate kiss, and Elena pretends to be a pig, begging for his saliva. They scream out their love for each other, and their moans echo through the night...

Elena tries on the uniforms of the "Valkyrie Corps," a foreign kingdom's army. The "Fundoshi Ninja," a secret agent from the East. The Lovely Princess' dress. The school's gym clothes.

After buying a variety of outfits, the two can't resist and head to a back alley. Elena puts her hands against the wall and begs for her lover's penis...Ast punishes her for behaving in such a lewd manner in such a place by performing anal sex on her.

As a further punishment, Ast casts the poison magic spell "The Diarrhea". Unable to bear the stomach pain, she defecates...!
