Hello! My name is Kimiko!
I am 43 years old. I live in Hyogo countryside.
I grow potatoes and green onion in small field.
My husband passed away 5 years ago.
And my daughter is moving away to Tokyo
for University. I wanted to try new things
because now I am lonely. So I install
this app, and became a host.
If you like Japanese countryside life, and
want to experience farming and relax with
nature, please come and visit me!
