—That day, the mission given to Walküre's
Wolfiora Nighthowl was to serve as a long-term
support mission as an assistant to
Gundol, a high-ranking official in the Philslave Empire and
a researcher of the natural environment. She arrived at
Osuna Merne, a tropical rainforest in the south of
the Imperial territory where Gundol has his base, and began
her mission... First, she saluted and introduced herself.

Gundol is a researcher working in the rainforest. He welcomes Wolfiora, who has come to be his assistant. Wolfiora is immediately made to wear a choker, which he says is a permit to work in this environmentally protected area. As soon as he puts it on, Gundol reveals that the choker is actually a magical sex toy, and begins caressing Wolfiora's buttocks...

Even though she tries to resist Gandol's sexual harassment, the magic of the collar is activated, and Wolfiora takes it positively. Gandol then begins a physical examination of the tanned, busty beauty, who is now defenseless... He reveals her measurements, the number of times she masturbates per week (everyday), her erogenous zones (buttocks, anus), and her sexual proclivities (extreme masochism)...

And Gundul violently releases his pent-up sexual desires on her voluptuous body...He imprints on her that he is her master and ejaculates on her countless times...Wolfiora is told by her master that from tomorrow he will be engaging in even more vulgar acts, and is also forbidden from bathing or showering.

The next day, Wolfiora is dressed in a uniform appropriate for her role as an assistant and begins her duties. For meals, she prepares a nutritious jelly containing an aphrodisiac, which she puts in her own mouth for her master, who is busy with his hands...

She feeds her master by mouth. In return, Gundl fills the mouth of her lower abdomen with his penis... Gundl, who has a fetish for bad smells and filth, smears Wolfiora's face with his saliva. In return, she spits on him, and the two of them become even more filthy and lustful...

Gandol then orders Ulfiora to urinate on him and violently fondles his penis. Then they move on to outdoor activities. This is a nature reserve, so if she needs to defecate... There, Wolfiora is there as an assistant and serves as her master's toilet, and her large breasts and cleavage become an even browner,

The masochistic Wolfiora feels tingly excited by the sight of her own breasts becoming a toilet. Gandol then commands her to "dispose" of the filth. Wolfiora then lifts the brown toilet bowl and disposes of it with her mouth. As she chews the filth, her master commands her to get a taste for it. Gandol is excited by the sight of her and begins to use her ass...

Afterwards, as a research assistant, she is ordered to study the feces of animals living in the area with her mouth and nose...
Furthermore, as a way to become one with the forest, she is forced to cover her entire body in filth...

後編へ続く

Wolfiora, who has become one with the forest and become a beast of the forest, mates violently with her master...Then, prompted by her master to mark herself as a beast of the forest, she releases her anus, signaling the birth of a new beast in the forest...**Continued to the second part...**

Wolfiora was sent to the tropical rainforest of the Philslave Empire, Osuna-Merne, as an assistant for natural environment research. However, the mission was designed to satisfy the perverted desires of the nobleman Gandor, and Wolfiora's mind was taken over by a magical sex toy... And her unclean, perverted acts escalate with each passing day...

フィルスレイブ皇国領の熱帯雨林『オスナ・メルネ』に自然環境研究の補佐として派遣されたウルフィオラ。しかし、それは貴族ガンドルの変態劣情を満たすために仕組まれた任務で、ウルフィオラは魔淫具によって精神を支配されてしまう...そして不浄の変態行為は毎日にエスカレートしており...

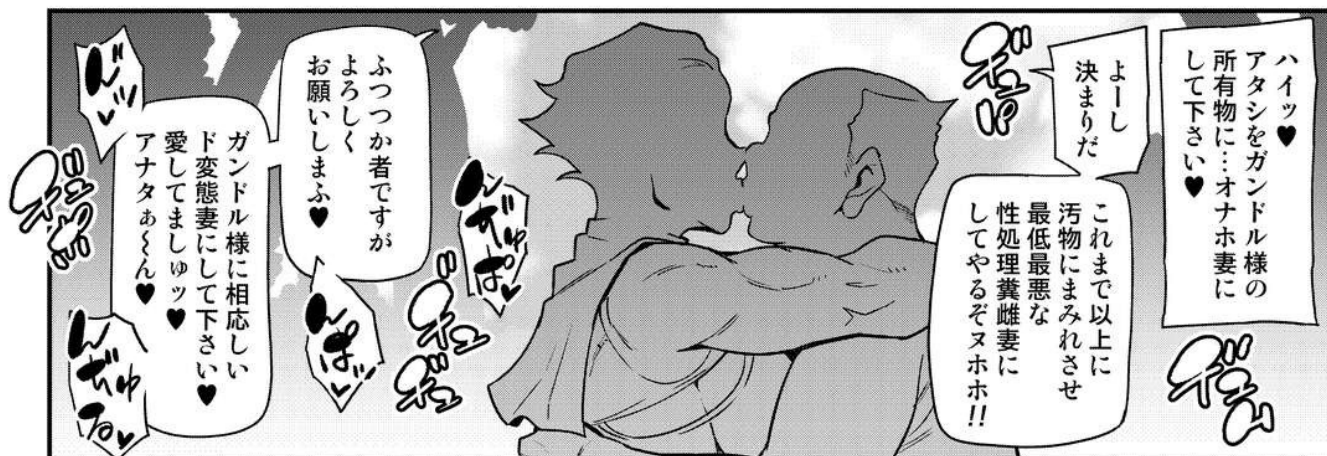

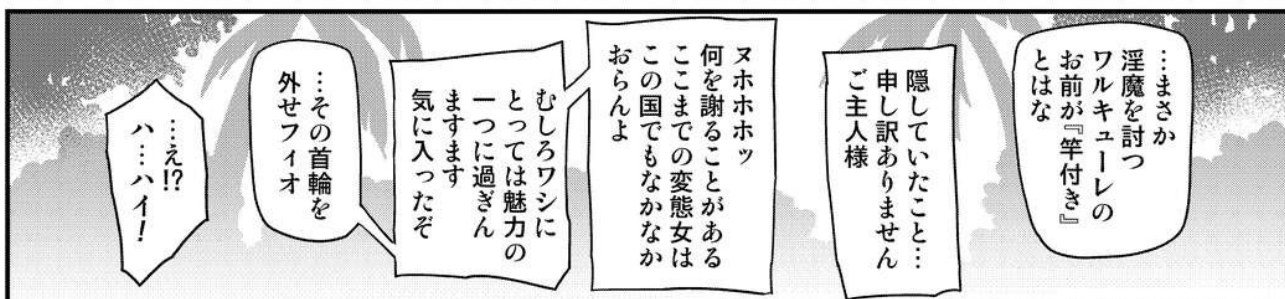

After enduring 50 enemas, Wolfiora is allowed to defecate in the toilet. However, the toilet is a child's potty. As a member of Valkyrie, Wolfiora goes on a "defecation mission," but because it's a child's potty, feces overflows.

Then a new plant monster, Manure Nepenthes, appears and lifts Wolfiora up with its tentacles. This plant has the ability to collect the urine and feces of animals and monsters, luring insect-type monsters. Because she had leaked urine and feces, she was absorbed into the plant...

Eventually, Wolfiora's paralysis heals, and she manages to defeat the monster and escape on her own. When Gundol rushes to her side, he sees her stroking her futanari penis, which has appeared due to excitement while covered in filth...Wolfiora is flustered that her master has seen her penis, but...

Unable to contain her lust, she ejaculates and climaxes. Wolfiara apologizes to Gandul for hiding the fact that she is a futanari, but Gandul takes an even greater liking to her, telling her that he is the only one who can accept and love her as a futanari, and urges her to become his wife... And so, Wolfiara becomes engaged while still covered in feces and urine.

From then on, training her futanari penis became a part of her daily routine. She had sex while having her penis stroked, and was shocked with electricity while wearing a Thunder Roper like a masturbator. She wore an embarrassing pig-like costume and was fed feces and urine that had accumulated in a children's toilet.

Six months have passed since she became Gandol's wife...Today, a party was held to entertain Gandol's colleagues who worked so hard to cover up the fact that Walfiora is a futanari and allow her to continue working at Walküre. Walfiora is completely depraved, tainted in both body and mind, and her hair is bleached by the urea from the urine and feces she has been constantly showered with.

First, she uses feces and urine as a lubricant to service the men's penises with her whole body. While having sex, she licks their assholes and accepts semen from someone other than her husband between her legs. Among the men is the son of Gandul's colleague. He is a beautiful young man who begs for Wolfiora to penetrate his ass with her futanari penis.

The beautiful young man with a futanari fetish accepts Wolfiora with his anus, which he usually keeps loose. After she ejaculates, he is put in an awkward position where his ass is licked and his penis, which is smaller than Wolfiora's, is roughly stroked.
