Become the breeding female vessel for the Titans!

BY:RB目肠

Ephemeris XX year XX month XX day, the ship of the Galaxy's expedition team was force to land on a foreign planet due to a malfunction.

They seem to be from planet E, we share the same genetic origin.

Such luck to bump into three cuties while out on a mission.

They seem like they would be the perfect female vessel for breeding.

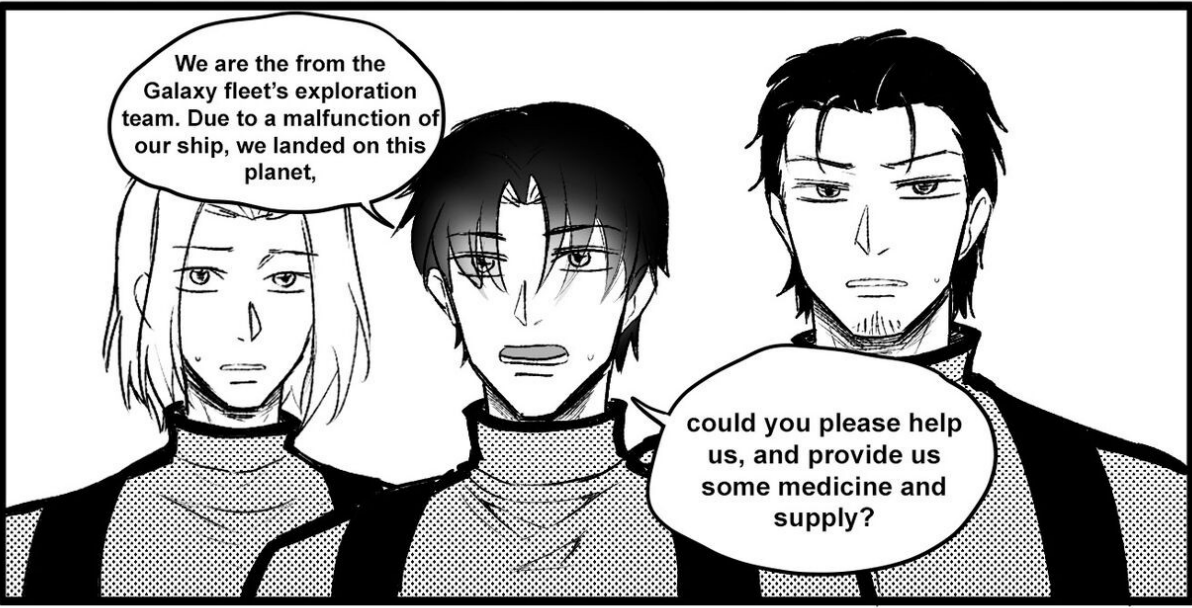

Titan race Youngest brother

Titan race Eldest brother

Titan race Second brother

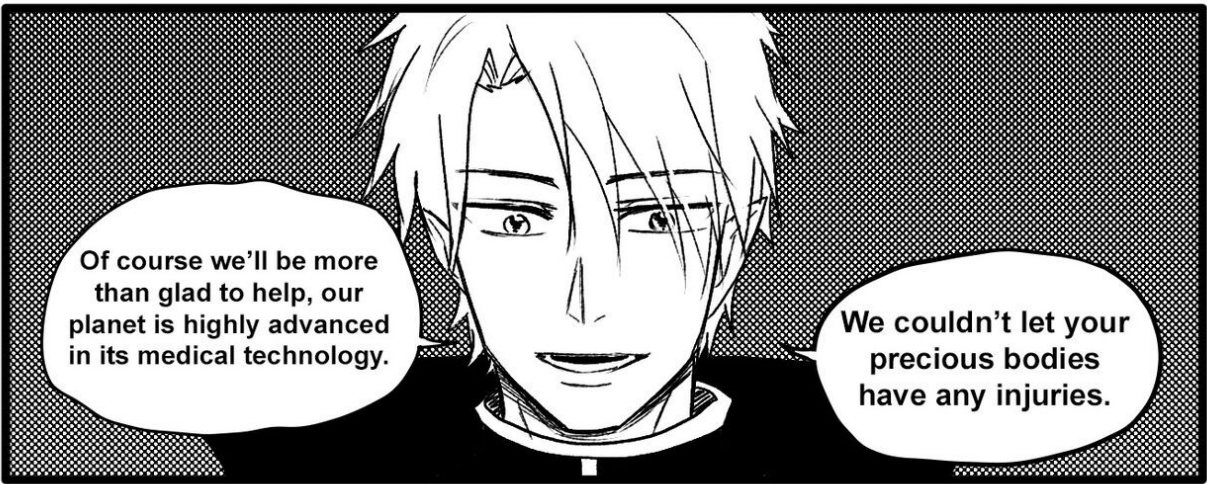

So... so tall...

They must be a race from a higher civilization...

We are the from the Galaxy fleet's exploration team. Due to a malfunction of our ship, we landed on this planet,

could you please help us, and provide us some medicine and supply?

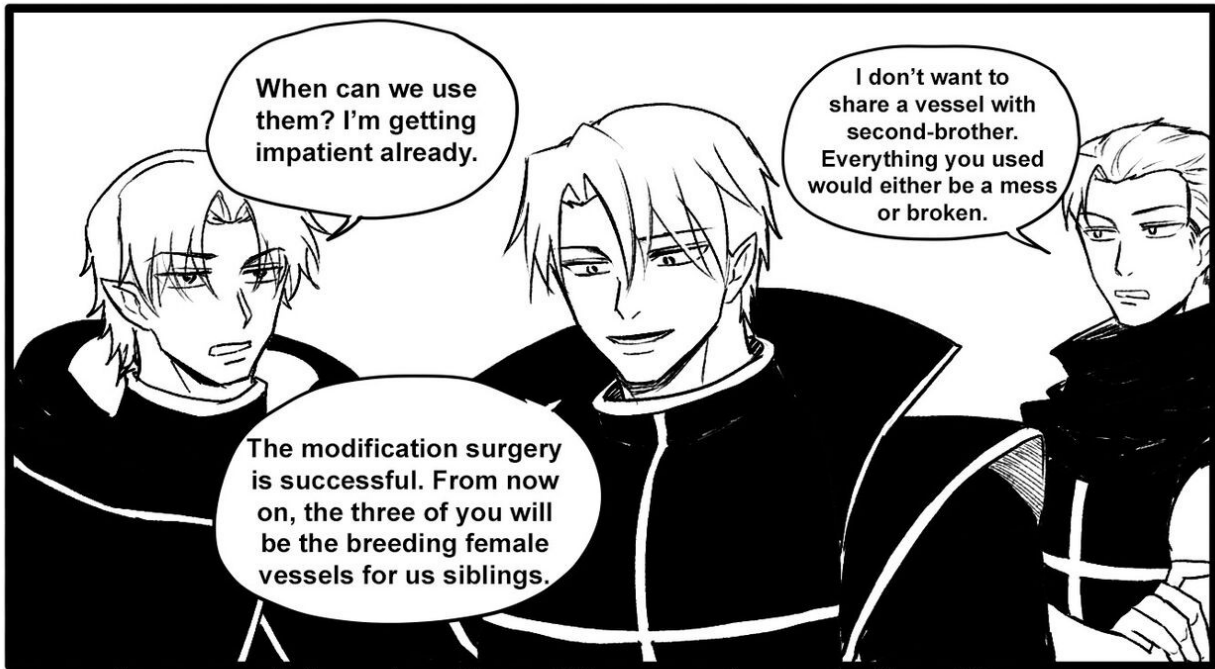

Of course we'll be more than glad to help, our planet is highly advanced in its medical technology.

We couldn't let your precious bodies have any injuries.

And so, the exploration members
trusted these Titan siblings, and
entered their territory for treatment.
However...

When can we use them? I'm getting impatient already.

I don't want to share a vessel with second-brother. Everything you used would either be a mess or broken.

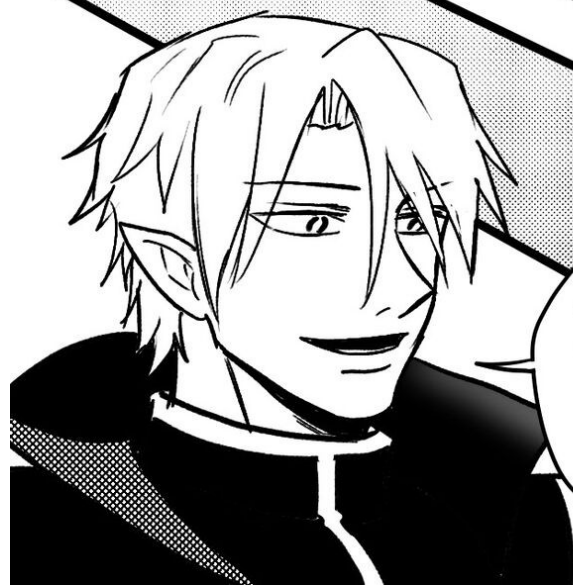

The modification surgery is successful. From now on, the three of you will be the breeding female vessels for us siblings.

How could my body have a female sex organ!

Even my team members were subjected to this surgery?!

W-what are you talking about?! What in the world is going on?!

You not only have a female hole, we've implanted ovaries and a womb and inside of you, this technology is highly advanced on this planet. This is the way the Titan-kind has been using to reproduce.

I want this tough-looking one. He seems durable for a rough fucking.

I prefer the delicate beauty over there.

If you dare lay a dirty hand on me! I won't go easy on you!

D-don't... don't you come over here!

Don't touch me!

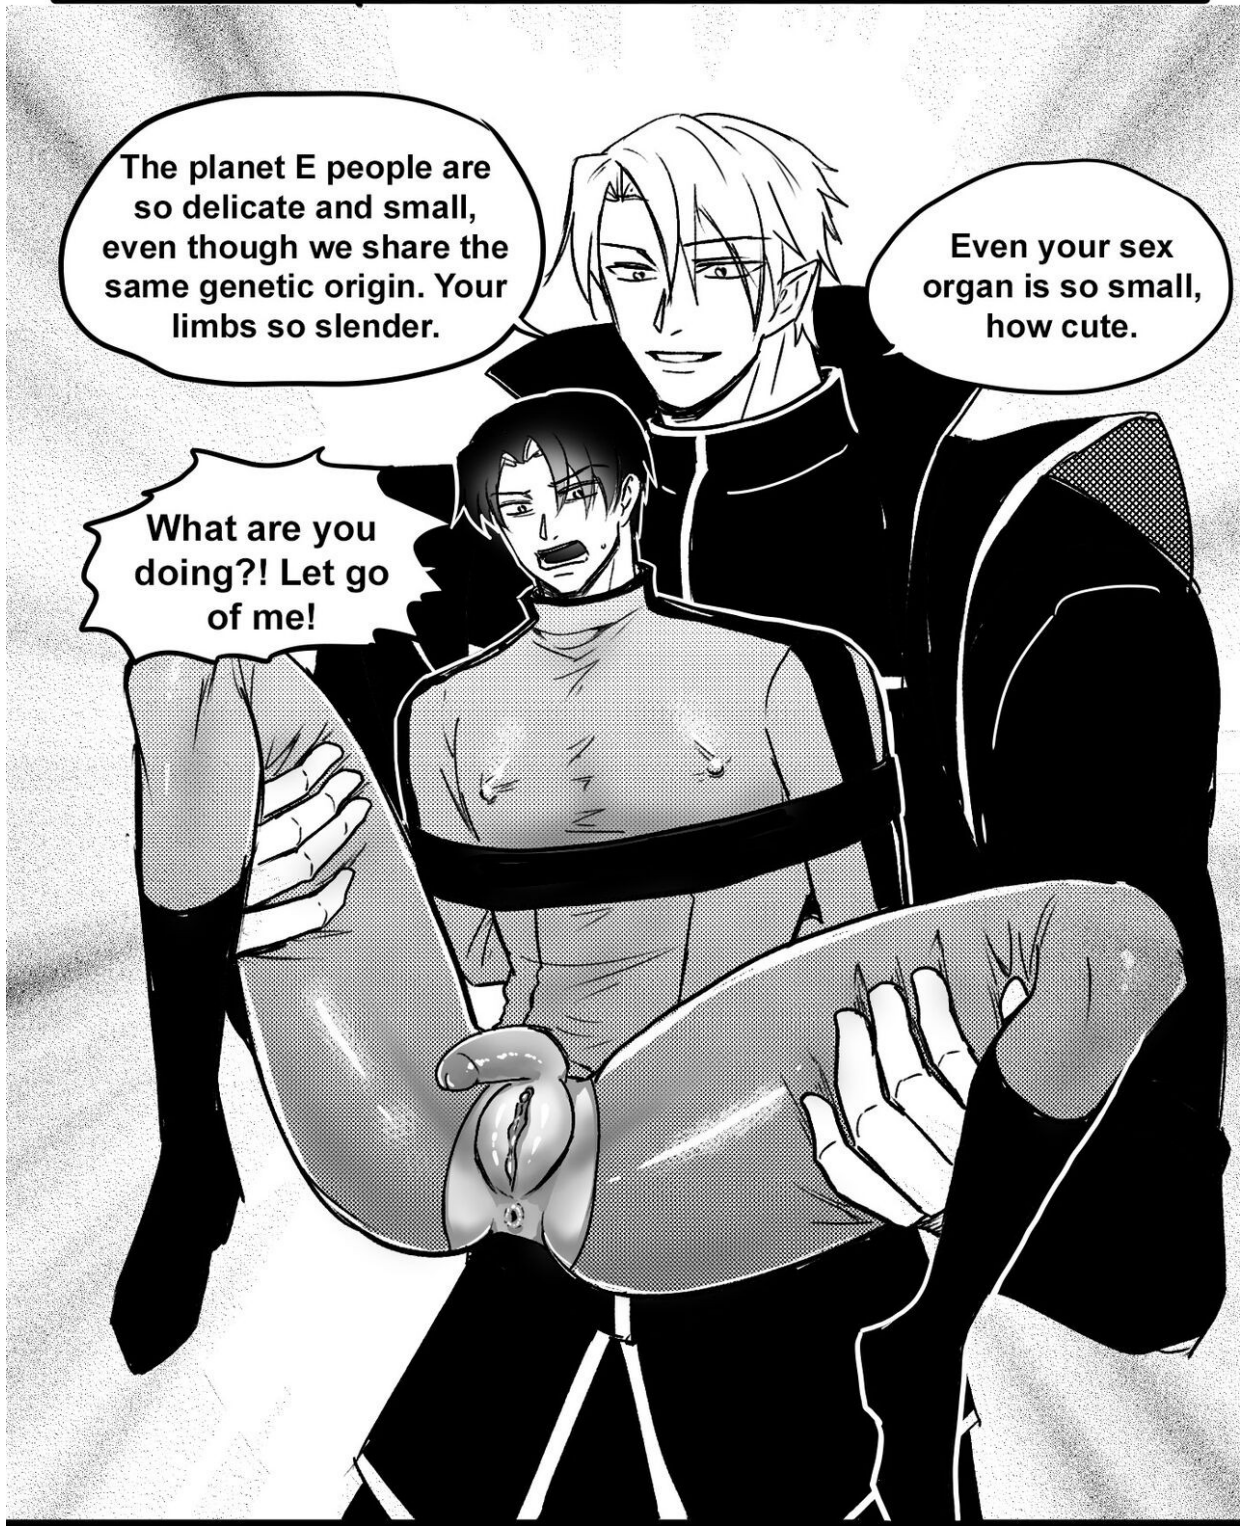

I'm warning you! Your behavior has severely breached the treaty of the Galaxy!

Do you really want to become an enemy to the entire Galaxy?!

Puny little things like you dare threaten us?

Your superiors in the Galaxy keep begging us to sell them our weapons. Do you think we will be afraid of your threats?

The planet E people are so delicate and small, even though we share the same genetic origin. Your limbs so slender.

Even your sex organ is so small, how cute.

What are you doing?! Let go of me!

These planet E people are so lively when they struggle.

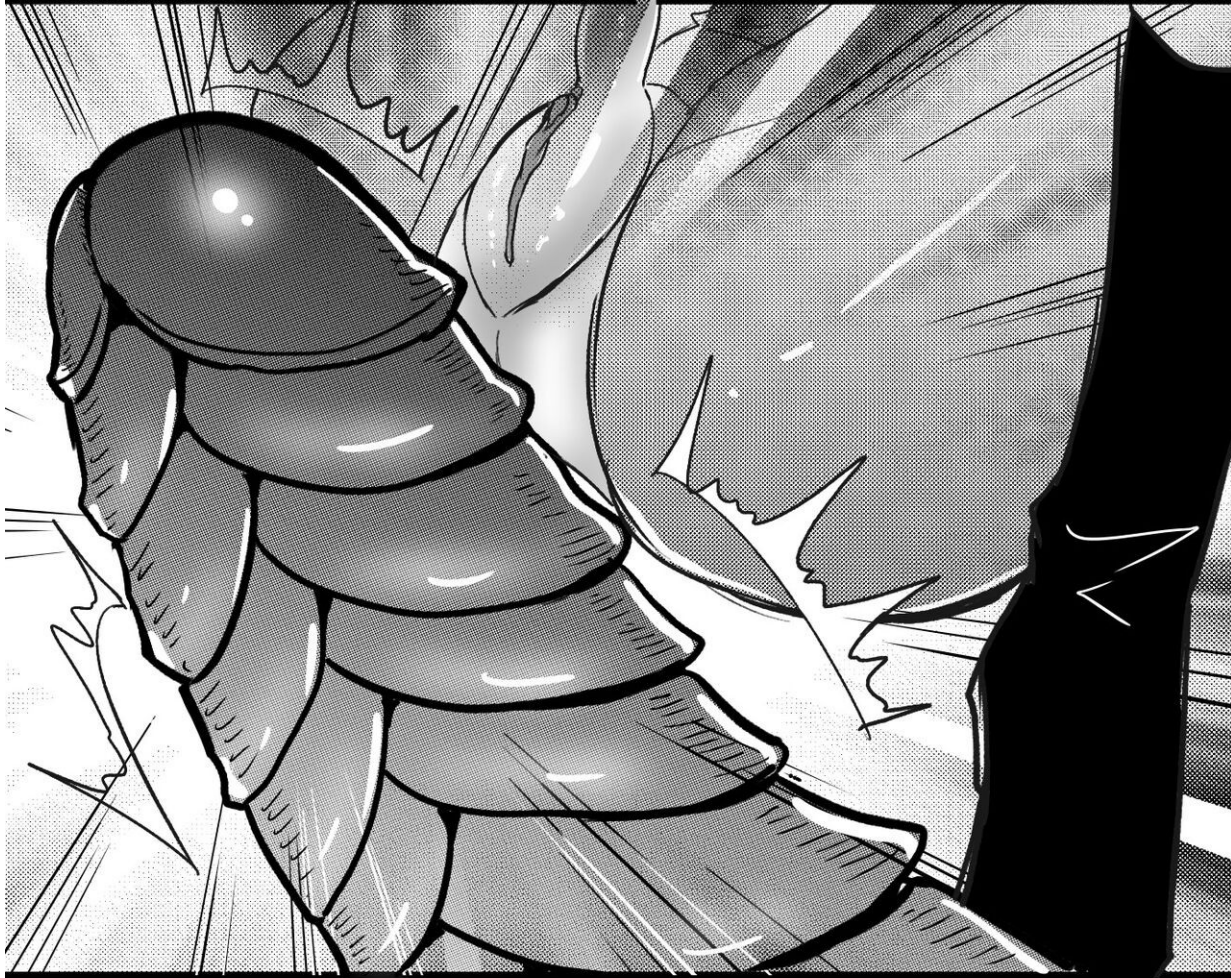

Go fuck yourself! Let go of me!

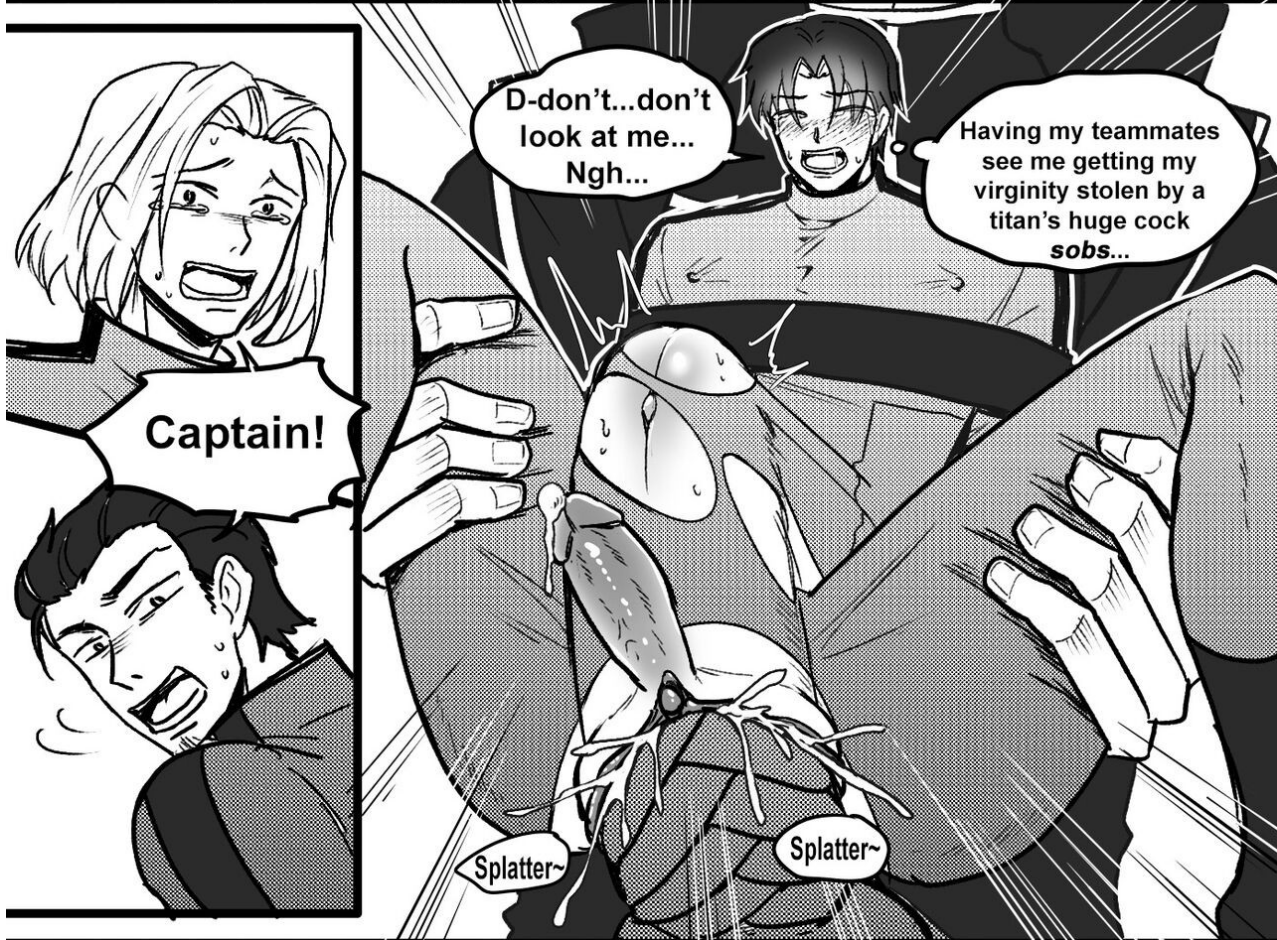

They are so light. I'm worried that I might break them.

N-no...no... please don't...

Let me go...

Captain!

D-don't...don't look at me... Ngh...

Having my teammates see me getting my virginity stolen by a titan's huge cock sobs...

Splatter~

Splatter~

These planet E people look so delicate, but their hole is so good at sucking! Don't worry, we've modified your bodies to be durable, you won't die from this! After all, you are our precious "female vessels"!

Ngh aaa aaa!

N-no...aaa!

Gonna die aaa!

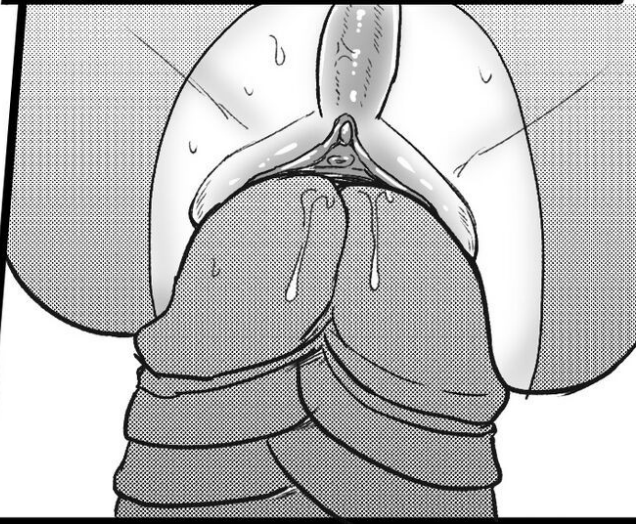

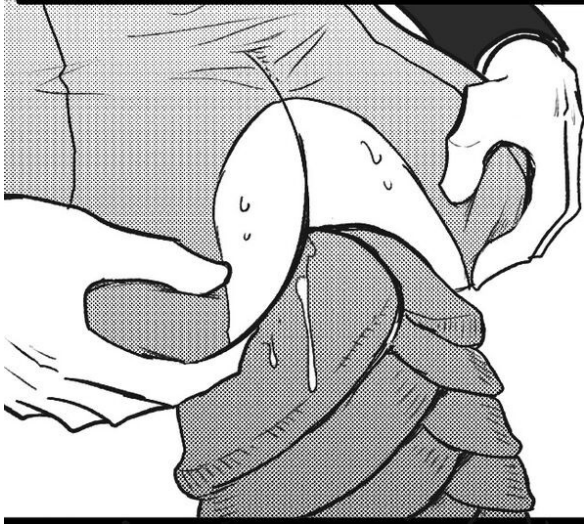

Ngh aaa!

Splatter~

Splatter~

Don't be impatient, it will be your turn soon.

I will do my best to impregnate you.

Aaa aaa aaa aaa aaa aaa
aaa aaa!

Ngh aaa aaa aaa aaa
No more aaa aaa aaa!

One month later

The Planet E people are such a suitable race to be female vessels. The three of them have successfully gotten impregnated.

Once the foetus matures, can their delicate bodies handle giving birth?

Not to worry, their bodies have been modified, no matter how big the baby is, they will be able to give birth smoothly.

Ephemeris XX year XX month XX day, the ship of the Galaxy's expedition team was forced to land on a foreign planet due to a malfunction.

Are you alright?

Cough cough cough.

Expedition team member

Look, I could see a few people coming over! Could they be the residents of this planet?

Except for a few food items, I don't find any other resources on board. We need to see if this planet has anything that could be used as medicine.

Expedition team

Captain of the expedition

They seem to be from planet E, we share the same genetic origin.

You're... Titan race members?

Yes, we are Titan race members.

They seem like they would be the perfect human breed for breeding.

Yes, we'll use their genes.

So... so you...

They must be a Titan race member.

We are the team of the Galaxy Fleet's expedition team. Due to a malfunction of our ship, we ended up on this planet.

Could you please help us, and provide us some medicine and supply?

Of course we'll be more than glad to help, our planet is highly advanced in the medical technology.

We couldn't let your precious bodies have any injuries.

And so, the exploration members trusted these Titan siblings, and entered their territory for treatment. However...

Ngh... what, what?

You're awake?

Fresh dizzy, what happened to me..?

The light's too bright. Ngh..

I can't seem to move my body... how strange..

Aah! Wwhat... what is this?

My body... what have you done to me?!

When can we use them? I'm getting impatient already.

I don't want to share a vessel with a second brother, even if it's a vessel that would allow for a mass of twins.

The modification surgery is successful. From now on, the three of you will be the breeding female vessels for us siblings.

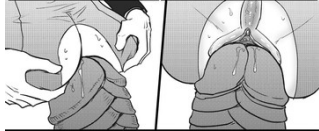

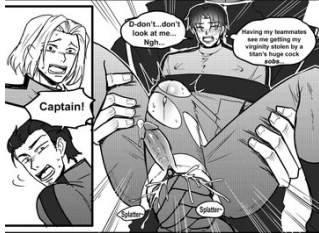

How could my body have a female sex organ?

Even my brain neurons were subjected to the surgery?!

W-what are you talking about? What is the world is going on?!

You not only have a female hole, we've implanted ovaries and a womb and inside of you, this technology is highly advanced on this planet. This is the way the Titan-kind has been using to reproduce.
