MESSAGE FROM THE STAFF

TWO WORDS: *SPEED SCANS.*

- EDMX

Yo! Shini here... I'm the FNG here at Genesis Translations. I've been into anime and manga/dourjinshi for as long as I can remember so I'm proud to be working with a talented team to bring more joy (read "readable fap material") to the masses. Just to let y'all know I'm also waiting to audition with Funimation as a voice actor... so hopefully I will be working with both mediums!

I'm the new cleaner, so if it looks good that's my work... if it looks like crap Tech messed something up!!!!

This is my first "release" with G-Team, though I finished a few other projects before this one... blame Ed or Tech for those not being out yet. On the whole the project was pretty simple and a great work. Color presents its own issues to deal with and I hope y'all enjoy this release.

Be looking for more releases to come! Thanks!
