Itamu Satou
Birthday: 22nd May
Age: 20 years old
Height: 178 cm
Weight: 55 kg

Personality: Passive nihilist. Likes quiet places. He feels uneasy when women are within 2 meters radius from him. He panics and may even throw up when in contact with women.

His father died when he was two years old. He's been living with his single mother ever since. He's a top student who excelled at both sports and studies, and have made many friends. He was given a scholarship when entering high school. On his 15th birthday, he was raped by his mother. Since then, his personality has changed completely. He rarely speaks, and prefers to be left alone. On the following year, her mother suddenly died. It was said that she died while having sex, causing Itamu to harbor a feeling of distrust towards women. Because he was a minor when he lost both parents, his relatives who lived nearby took charge of taking care of him. Itamu's stay was unwelcomed by his uncle, due to his resentment towards Itamu's mother. Itamu soon became a delinquent, and turned into a loner. When he became an adult, he was kicked out of house, and into Nakaoka city. He meets Kimidori and Azure at his new home in Nakaoka.

Azure Ayase
Birthday: 6th December
Age: 23 years old
Height: 162 cm
Weight: 57 kg
Personality: calm and collected

A staff member of the Japanese branch for IRO (International Rehabilitation Organization). Her parents are Japanese, though she was raised in America. A child prodigy, she is well versed in Japanese, English, German, French, Italian, Spanish and various ancient languages. She is well read, but she rarely talks. She rarely shows much emotion as well, and she sometimes make very blunt statements without even batting an eye. She dislikes wearing undergarments. Everyone who knows her are well aware of that fact. She runs a successful clinic in Nakaoka city, where the IRO's branch is also located at. She is Kimidori's boss, and Itamu's attending physician. Her hobby is human observation, and she likes animals. She keeps two tentacle pets, Magnum (male) and Napalm (female). While it's pretty obvious that the tentacles' secretions contain aphrodisiac properties, she keeps them as a normal pet, the same way one keeps a normal domestic pet, like hamsters, dogs, cats, rabbits, parrots and whatnot. Her two pets have a liking for Itamu's, to the point of shoving themselves into his mouth and his... other orifice on the lower half of his body.

Kimidori Makino
Birthday: 5th April
Age: 19 years old
Height: 157 cm
Weight: 50 kg
personality: A cheerful, friendly person who never have ill intentions. Also a bit of an airhead.

The second daughter in her family, she lived a peaceful, ordinary life with her family. she is a born hermaphrodite, but she doesn't isn't bothered by it at all, and accepts it as part of her identity. The people who know her are well aware about it as well. all the women in her family are hermaphrodites, too. Upon graduating high school, she started working in azure's clinic while living with her as well. Kimidori believes that Itamu is the man she is looking for in her life. Since meeting him, she's been trying to show her love, but they always ended up having sex, with Itamu in the submissive position. Despite her feelings, Itamu doesn't feel the same towards her. No matter how many times Itamu tried to say no to her, Kimidori refuses to let anything stop her from showing her love. She's also an airhead, so she simply cannot act accordingly to many situations. Kimidori has a rather strong desire. She gets incredibly horny if she doesn't get off in 3 days. Also, she lacks a sense of taste. For instance, she enjoys eating burgers with a generous spread of strawberry jam.
