That's right~

It's the seventh time already...

You were defeated by the antivirus software again?

Uh~

I'm not alright...

Are...

Are you alright?

Eh?

...Is impossible for you now!

Worm, going anywhere...

Trojan!

Hey~ thanks for your work~

You got into a corporate server right? How did it go?

HM? It was easy.

I was defeated by the antivirus software just now...

Trojan, you're amazing!

...Smashed it into pieces!

The virus and spyware...

That's not good~

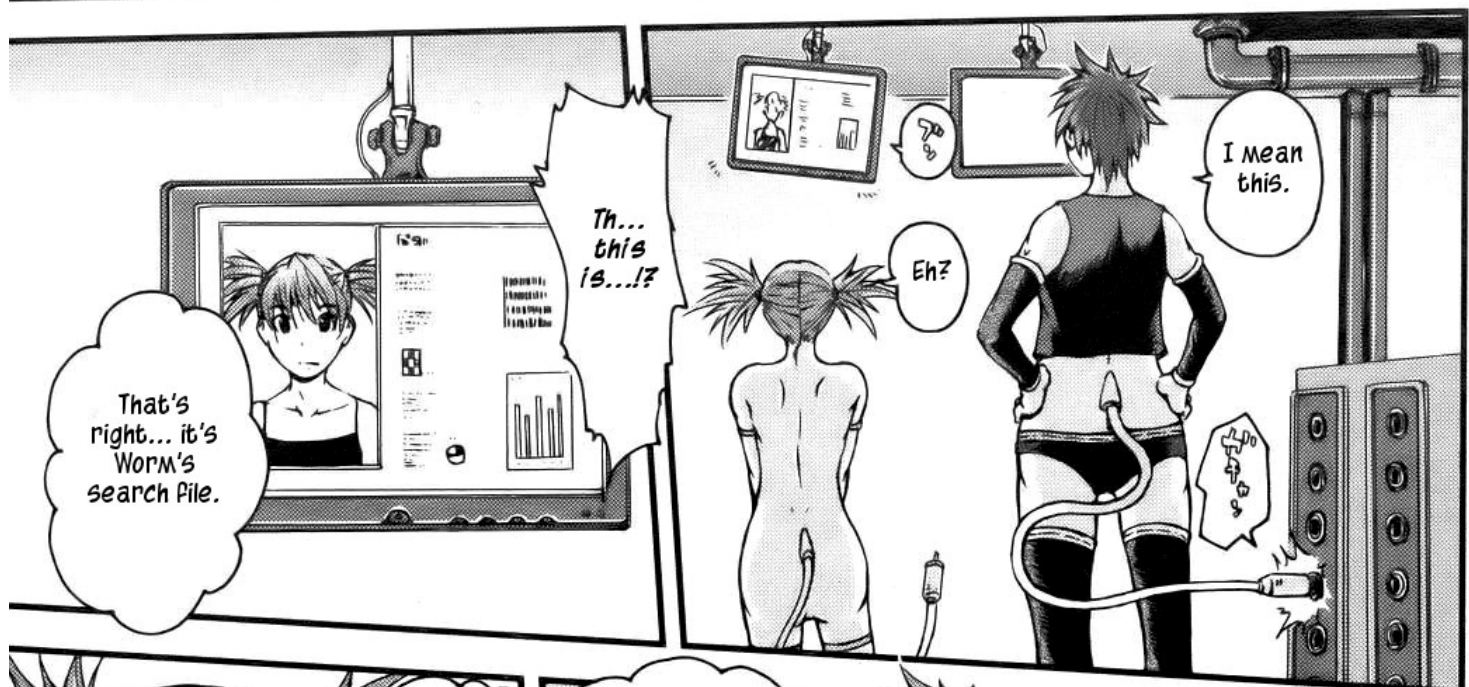

That.

Ah...

What do you mean!?

Earlier... you said it's impossible for me to go anywhere...

That's right... it's Worm's search file.

Th... this is...!?

Eh?

I mean this.

Eh? What should I do...

But it's okay! There's a way around this!

This is why you'll be caught before you can slip inside no matter where you go.

No way...

That file definition has been circulated around by the antivirus software.

Those guys can't tell if we're viruses.

If you get a body the antivirus software doesn't have a file definition for...

Upgrade?

You can upgrade!

HMM~

Y...

Yes please!

Shall I do it for you too Worm?

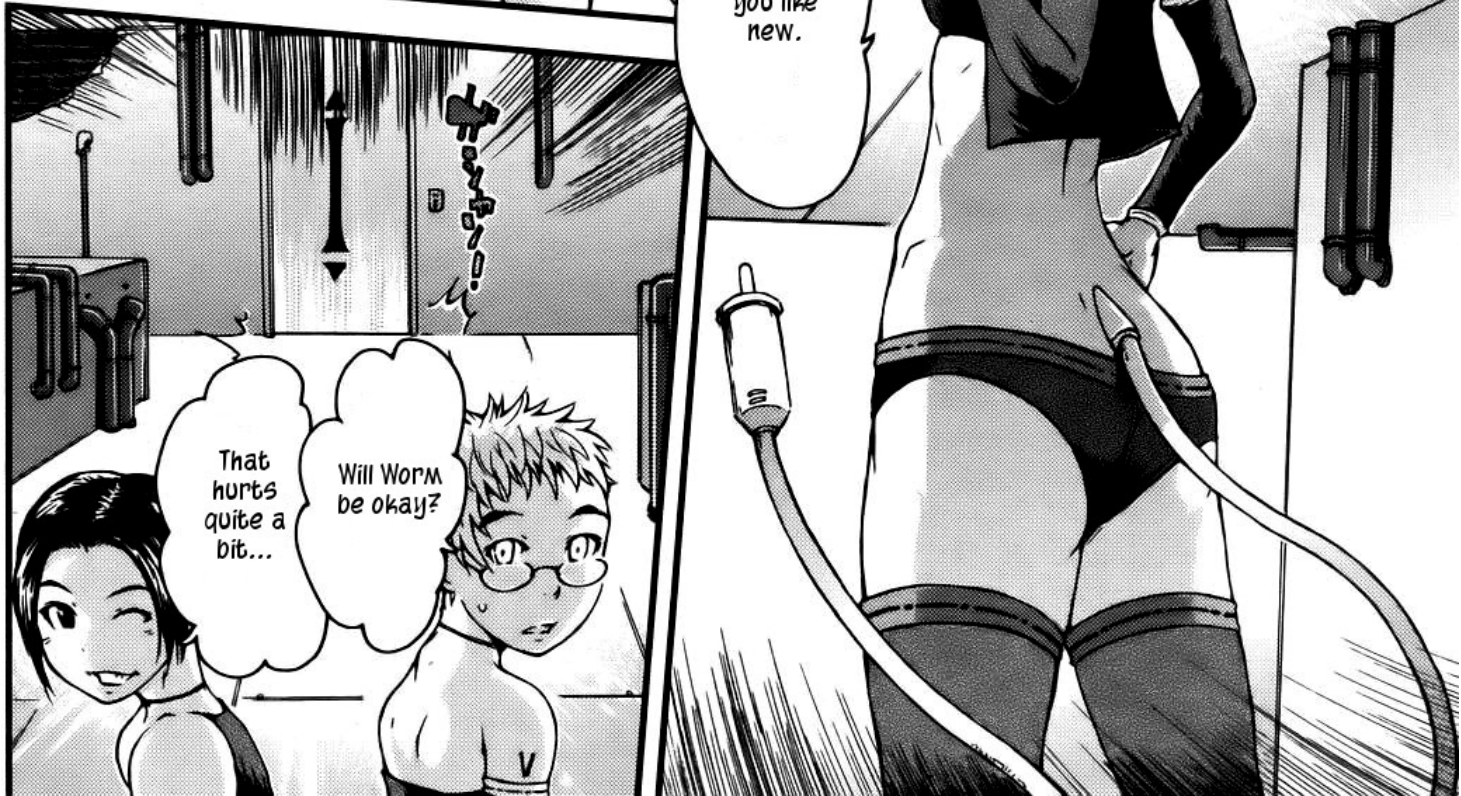

I just did it myself,

Yes!

C'mere,

I'll make you like new.

That hurts quite a bit...

Will Worm be okay?

Is it over...?

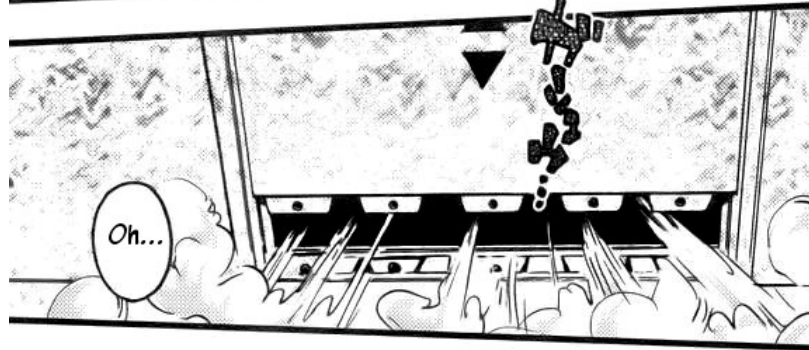

But this is... ah! No!

What, I'm upgrading you.

Waaah! Trojan, what are you doing!?

N... Noo-oo!?

Oh...

Y... yeah... I'm fine!

Well? How do you feel?

Hey- Thanks for waiting~

O... okay~

With this, you can go anywhere you want, Worm!

What's wrong?

.....

.....

I'll go back there one more time... and get my revenge!

Run riot to your heart's content.

I'm a bit nervous... going by myself... Trojan... could you come with me?

Um~

Huh!?

That's right...

Worm, you're going to a private PC?

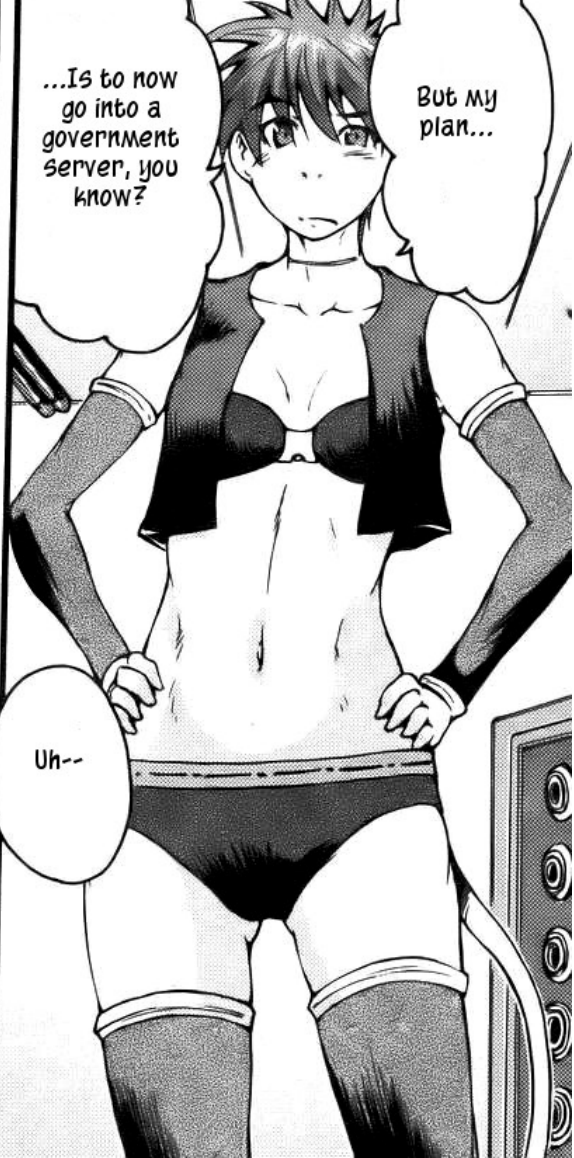

Really!?

It shouldn't take long then... how about I go with you for just a bit?

I... haven't gotten past the antivirus scan once...

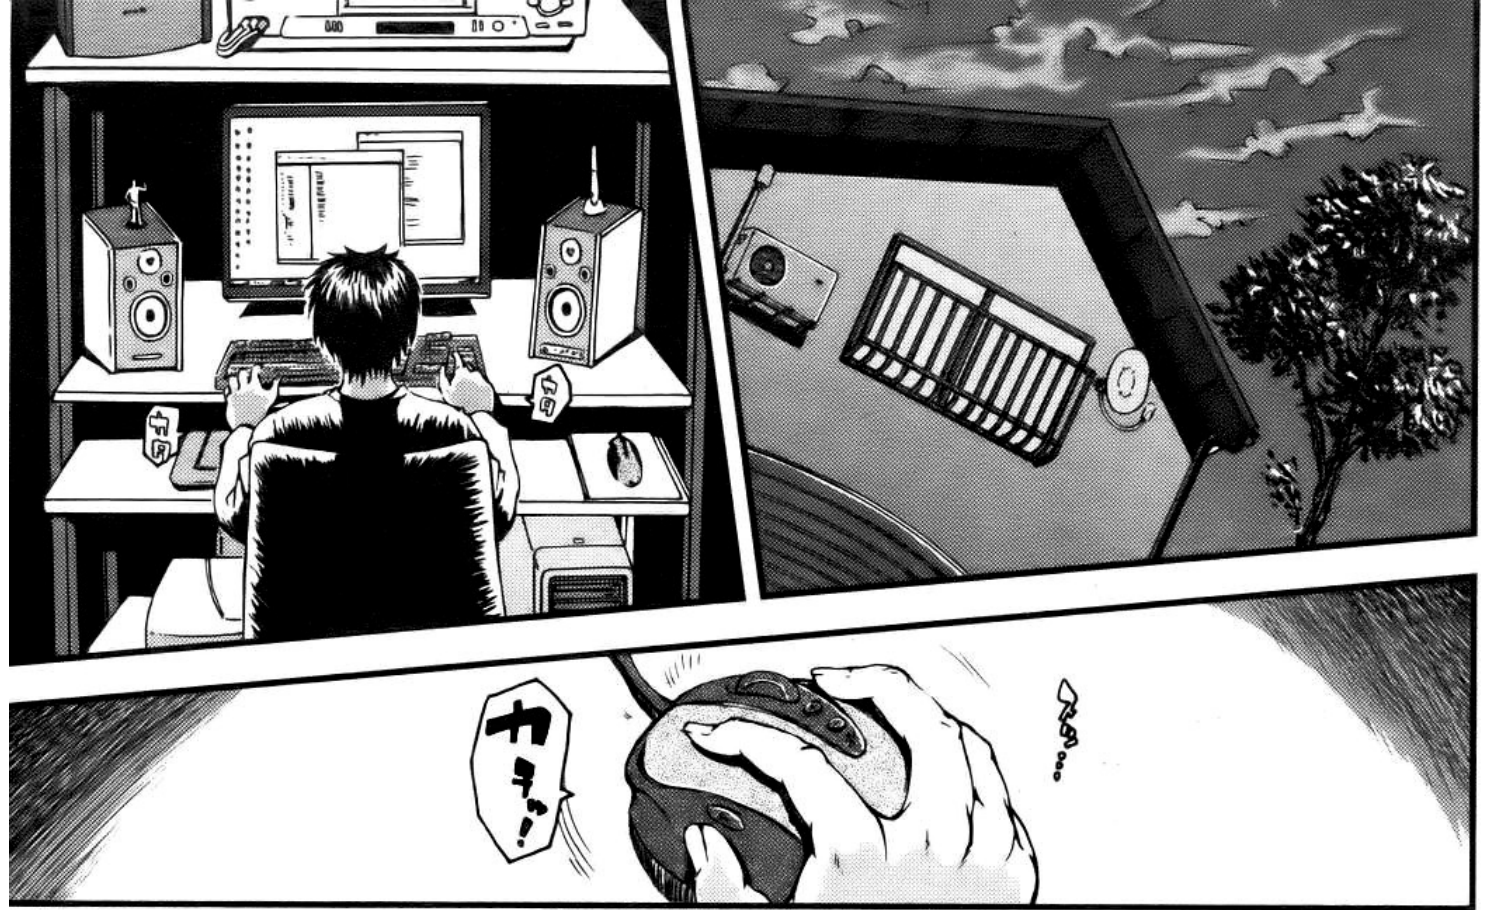

Why don't you go with her?

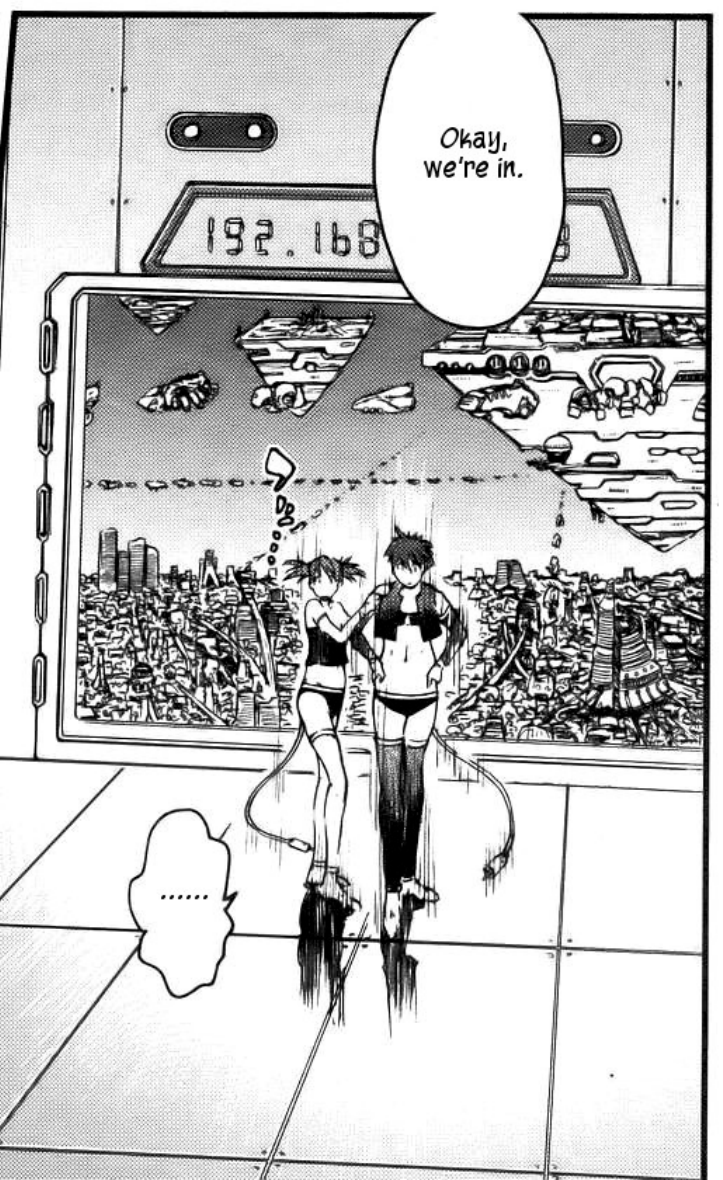

...Is to now go into a government server, you know?

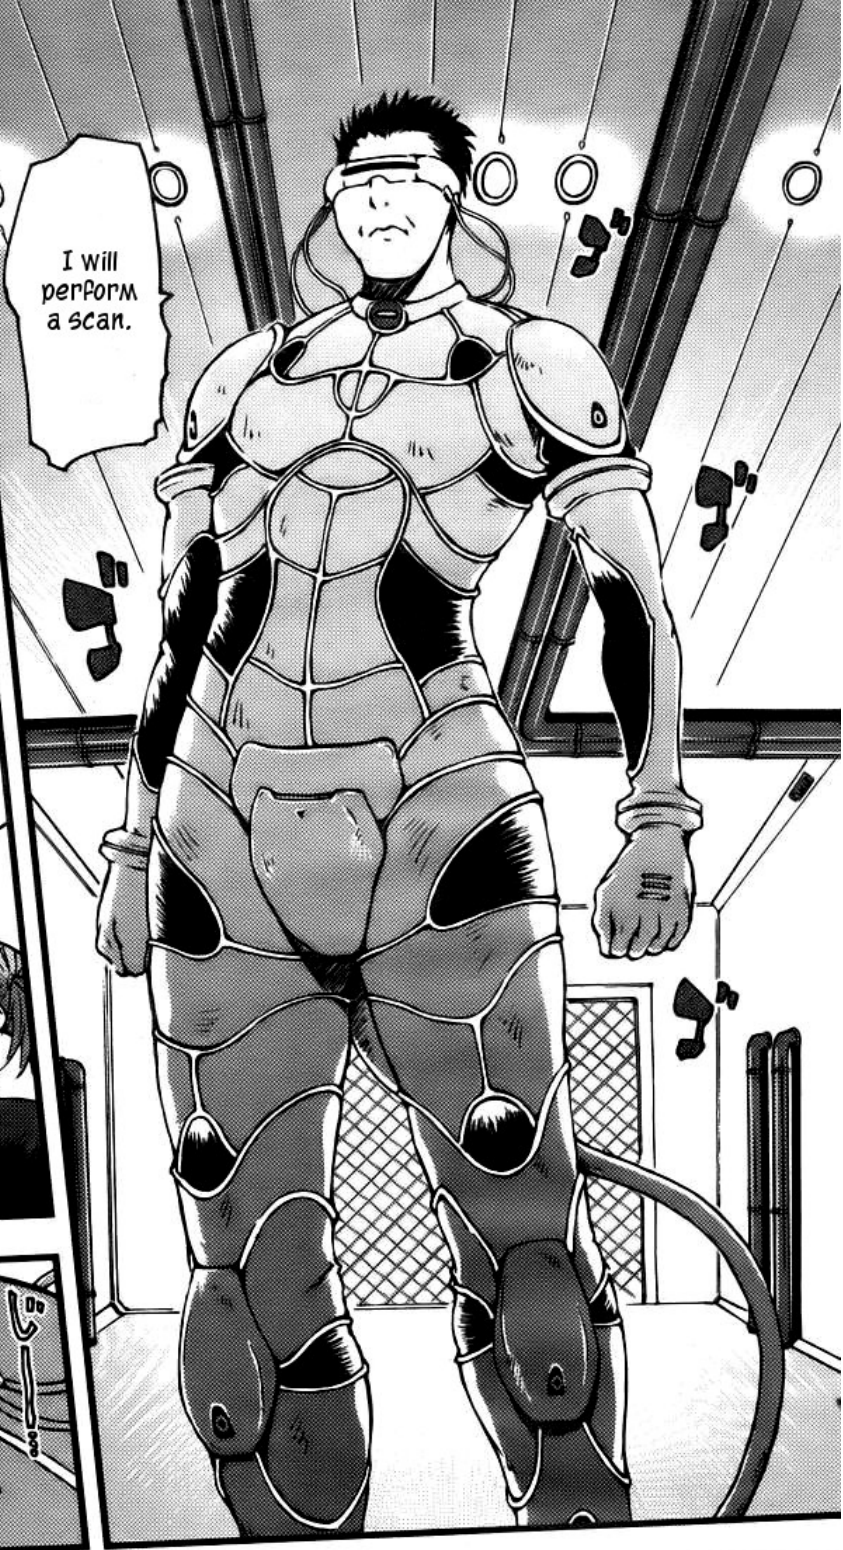

But my plan...

Uh--

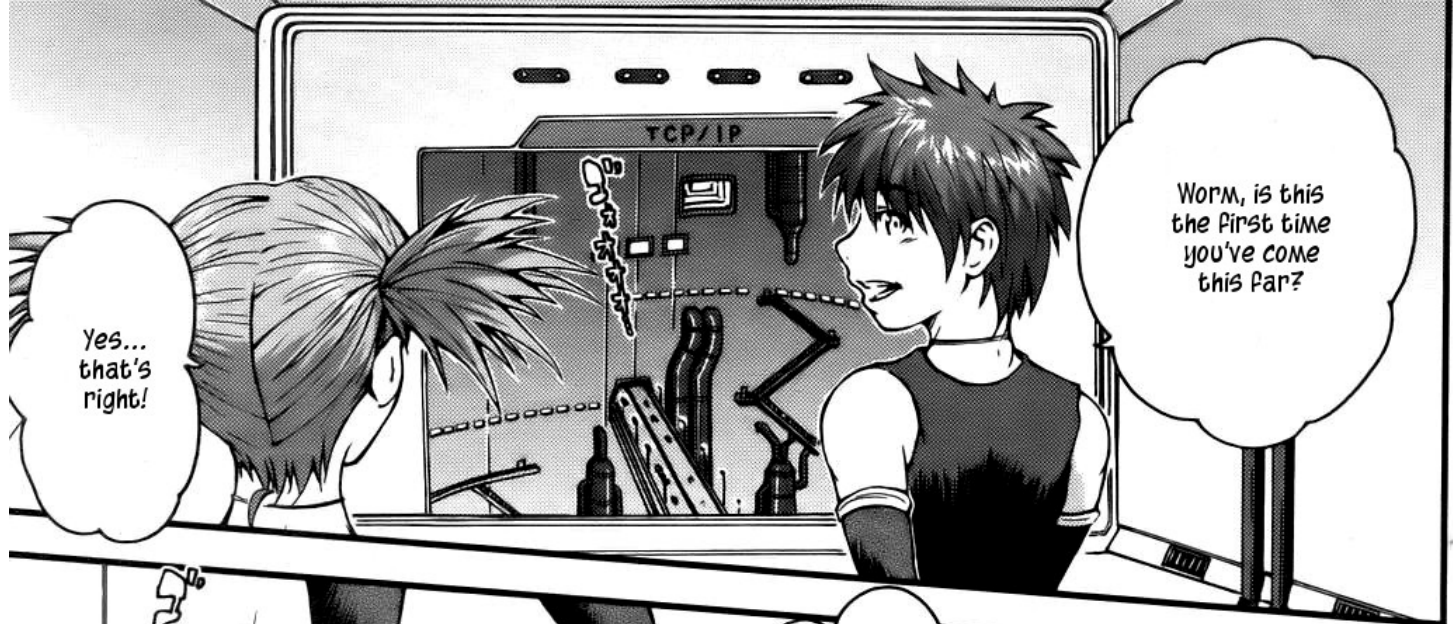

011100111011000101011101110101001010101011101010001010101011101

I will perform a scan.

Yes... that's right!

Worm, is this the first time you've come this far?

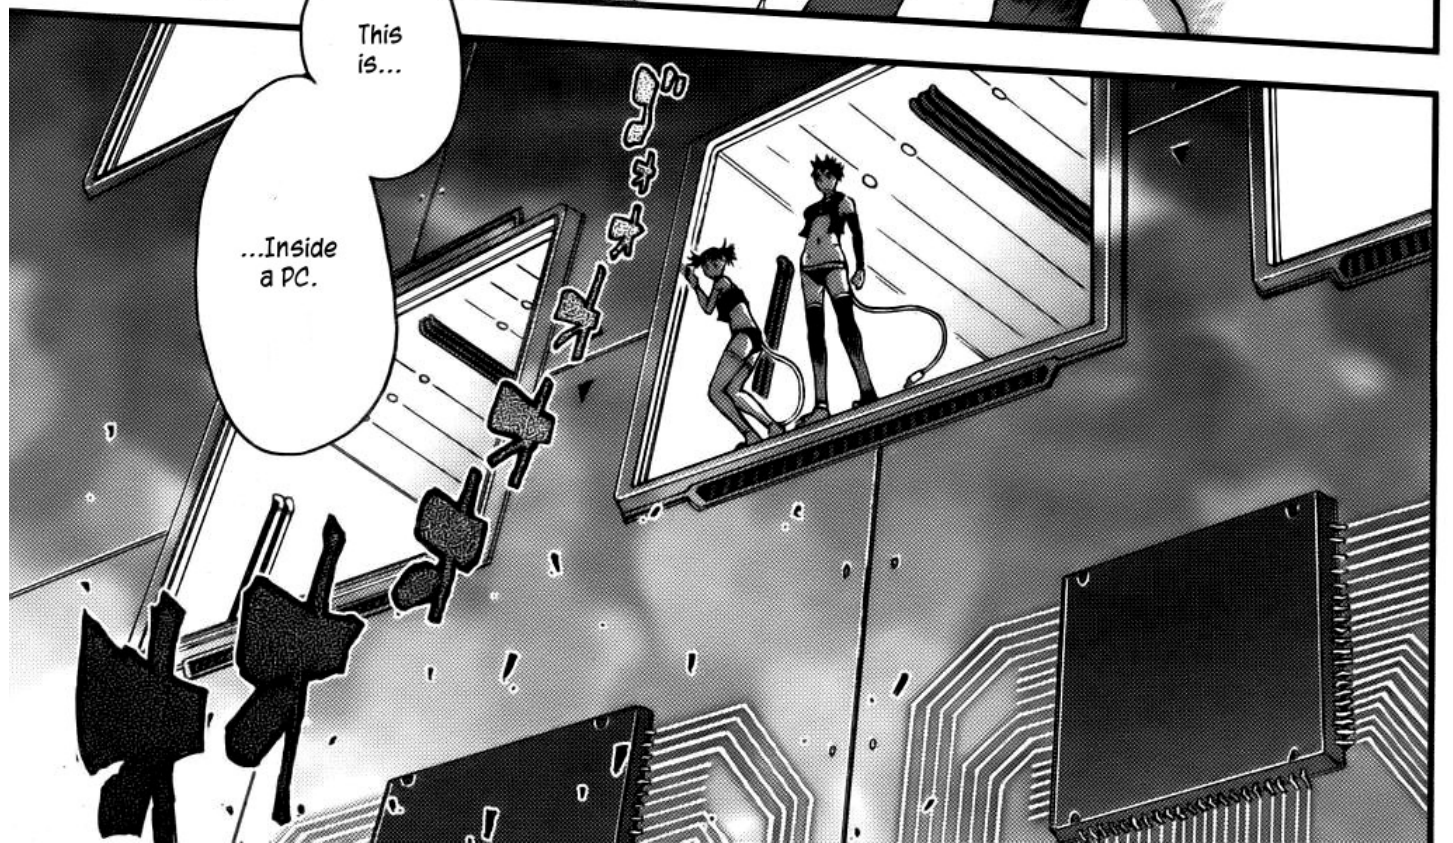

Something this size is perfect?

I see...

I guess for your first time,

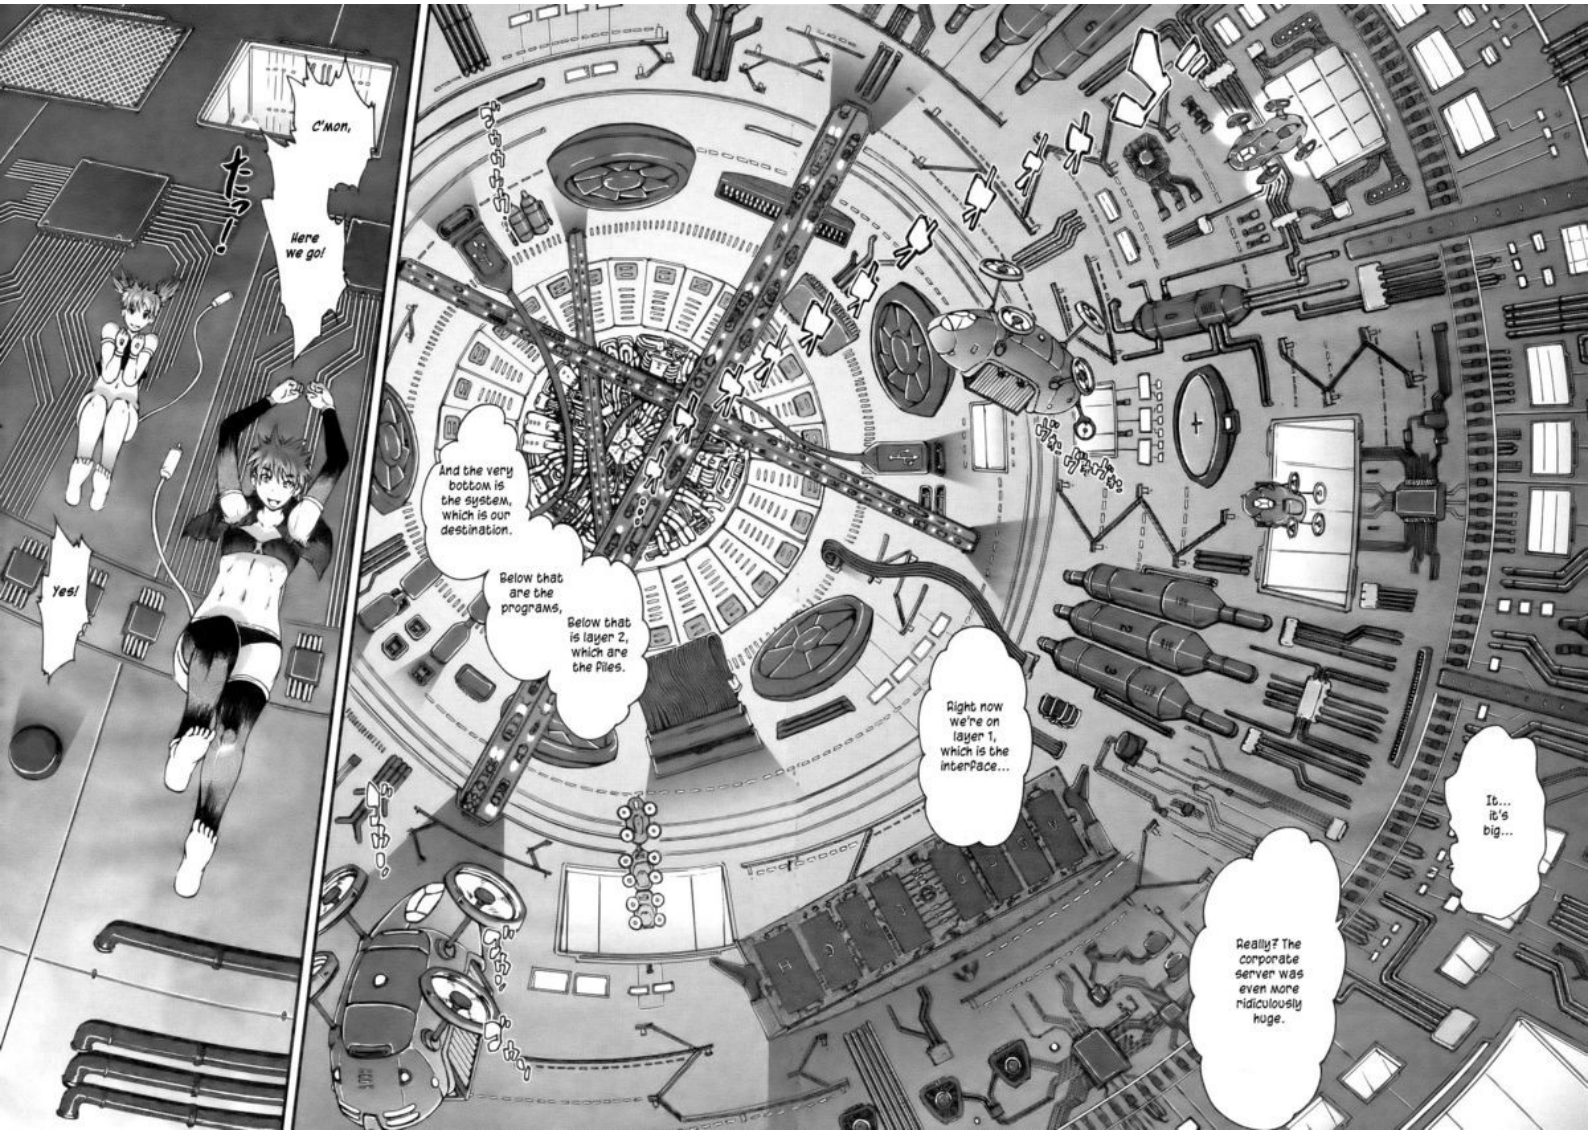

Look...

This is...

...Inside a PC.

C'mon,

Here we go!

たっ!

Yes!

And the very bottom is the system, which is our destination.

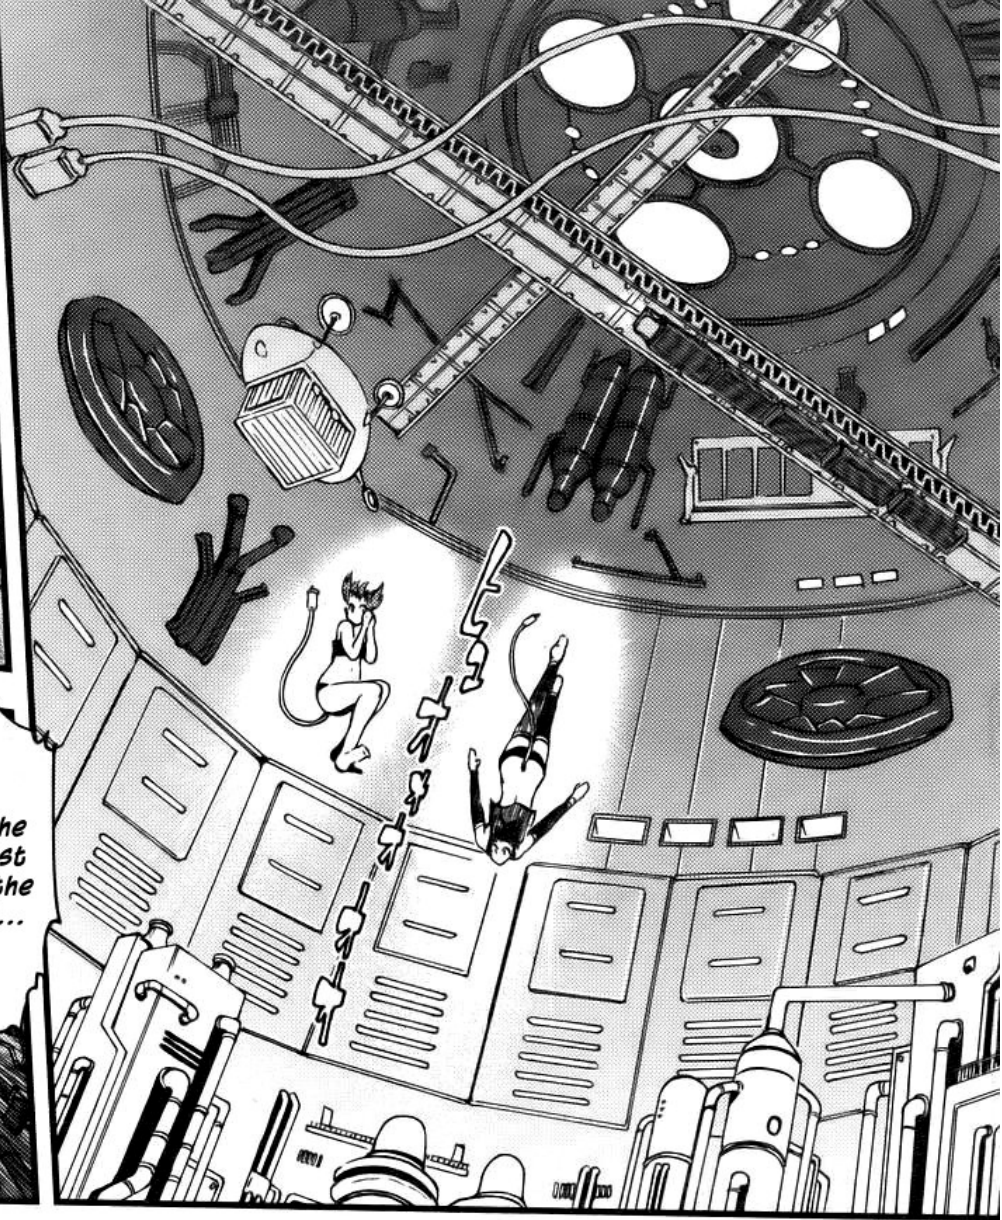

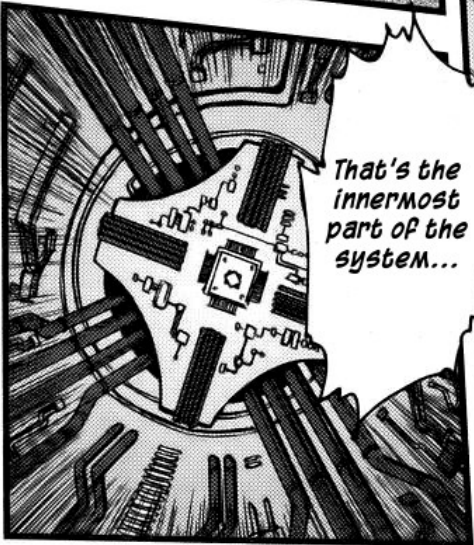

Below that are the programs,

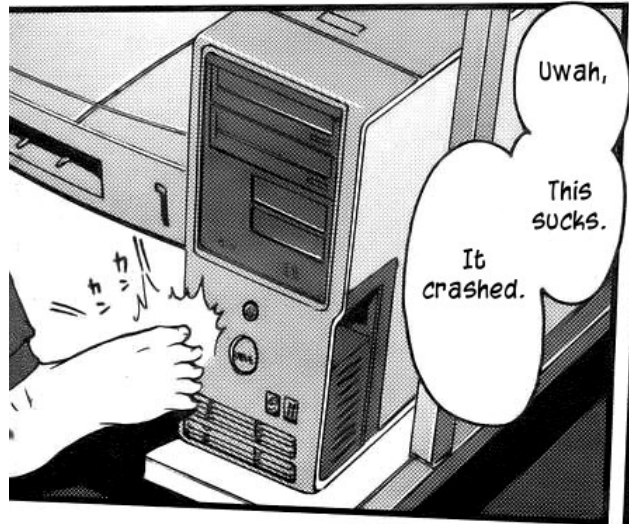

Below that is layer 2, which are the files.

Right now we're on layer 1, which is the interface...

It... it's big...

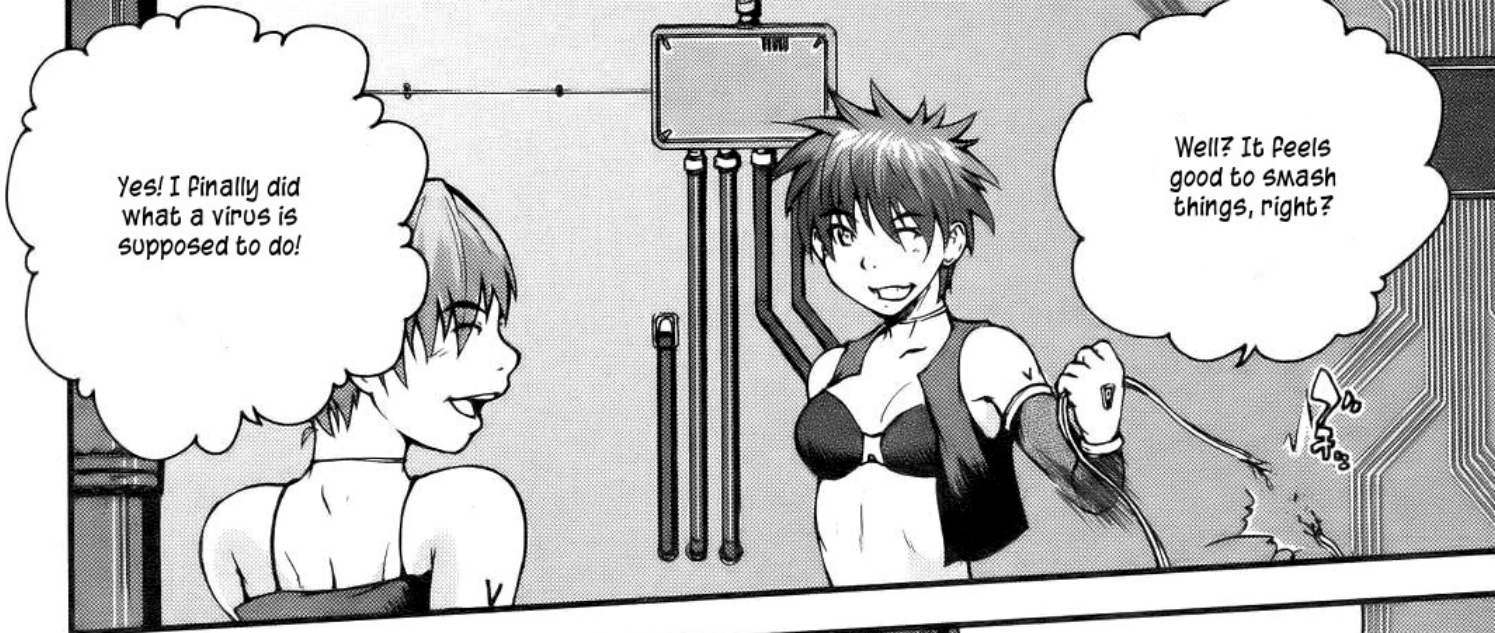

Really? The corporate server was even more ridiculously huge.

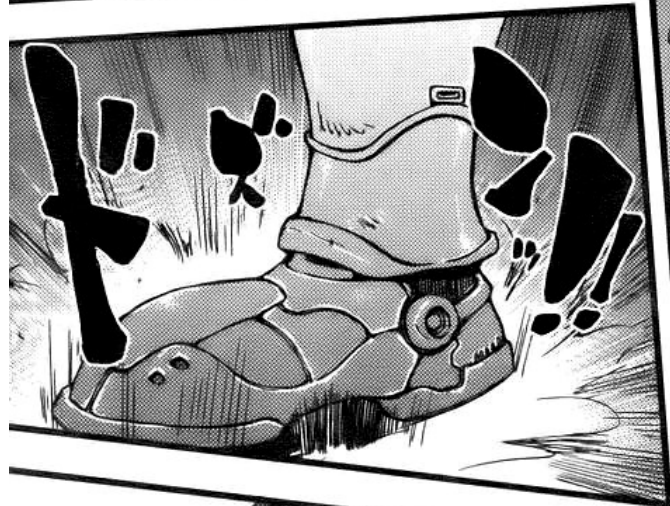

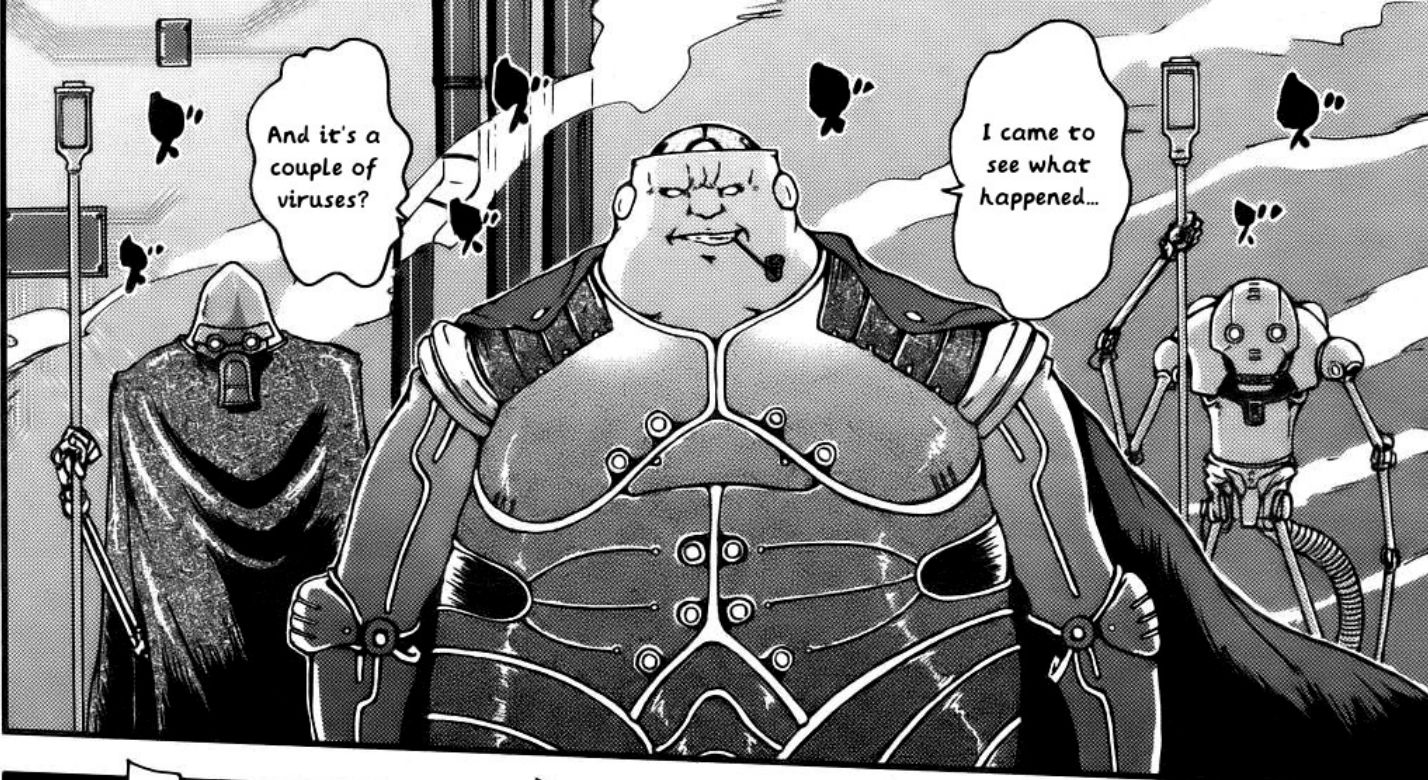

01110011101100010101110111011010100101010101110101000101010101110101

And it's a couple of viruses?

I came to see what happened...

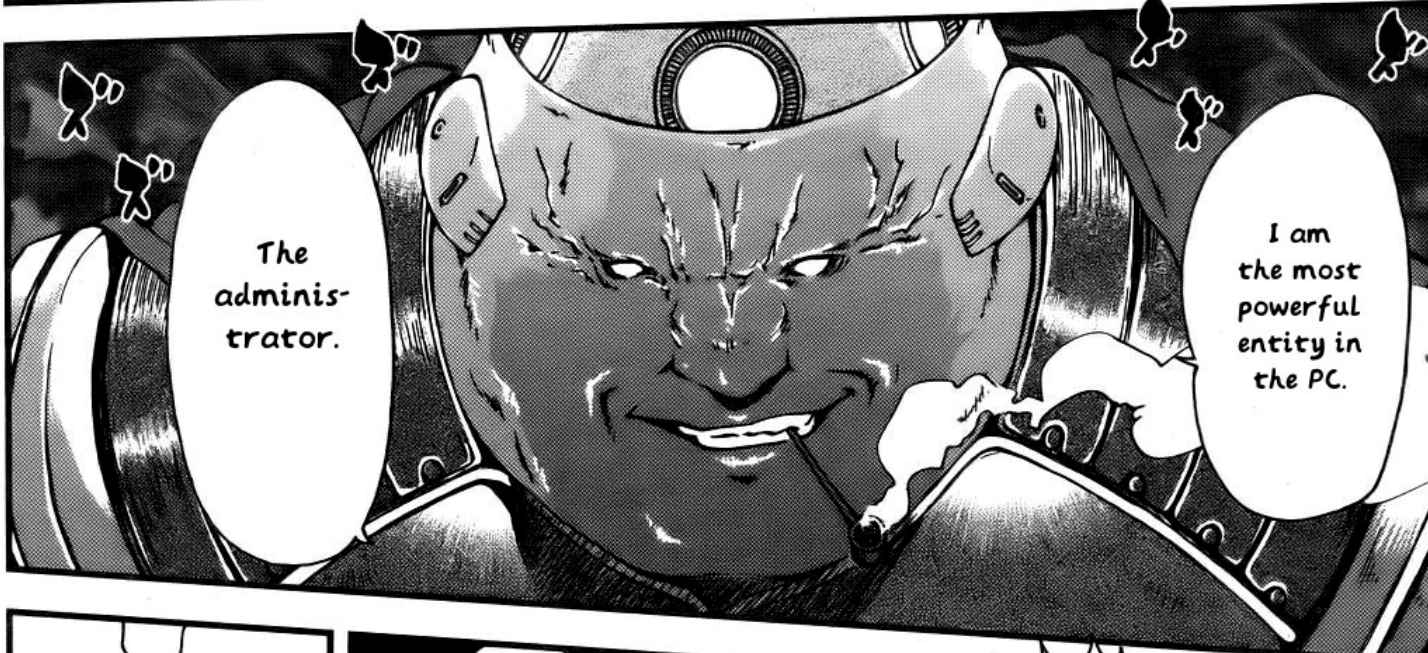

Wh...  
Who's he?

Kuh...

Ku...

So you... were the ones who crashed the system...

The administrator.

I am the most powerful entity in the PC.

Uh-- This is bad...

T... Trojan...

So run away as quick as you can, okay?

...There's no way you can win,

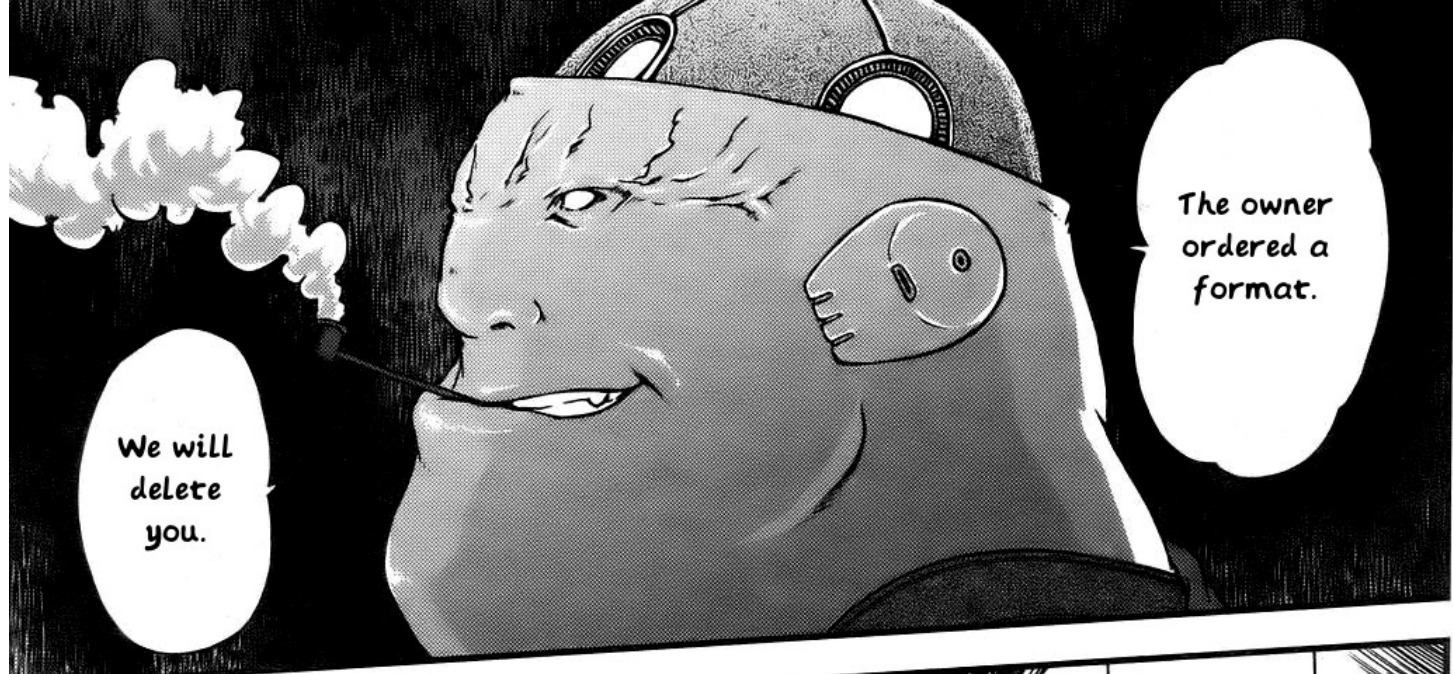

Are you listening? IF you meet the administrator...

Though you won't meet him often...

Adminis-  
trator!?

A-

We will delete you.

The owner ordered a format.

Format?

Did you say format!?

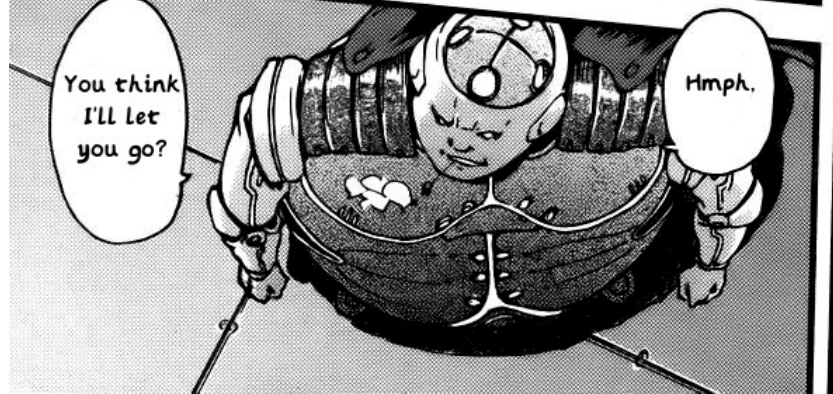

Y... Yes!

We're getting out of here!

We can still make it!

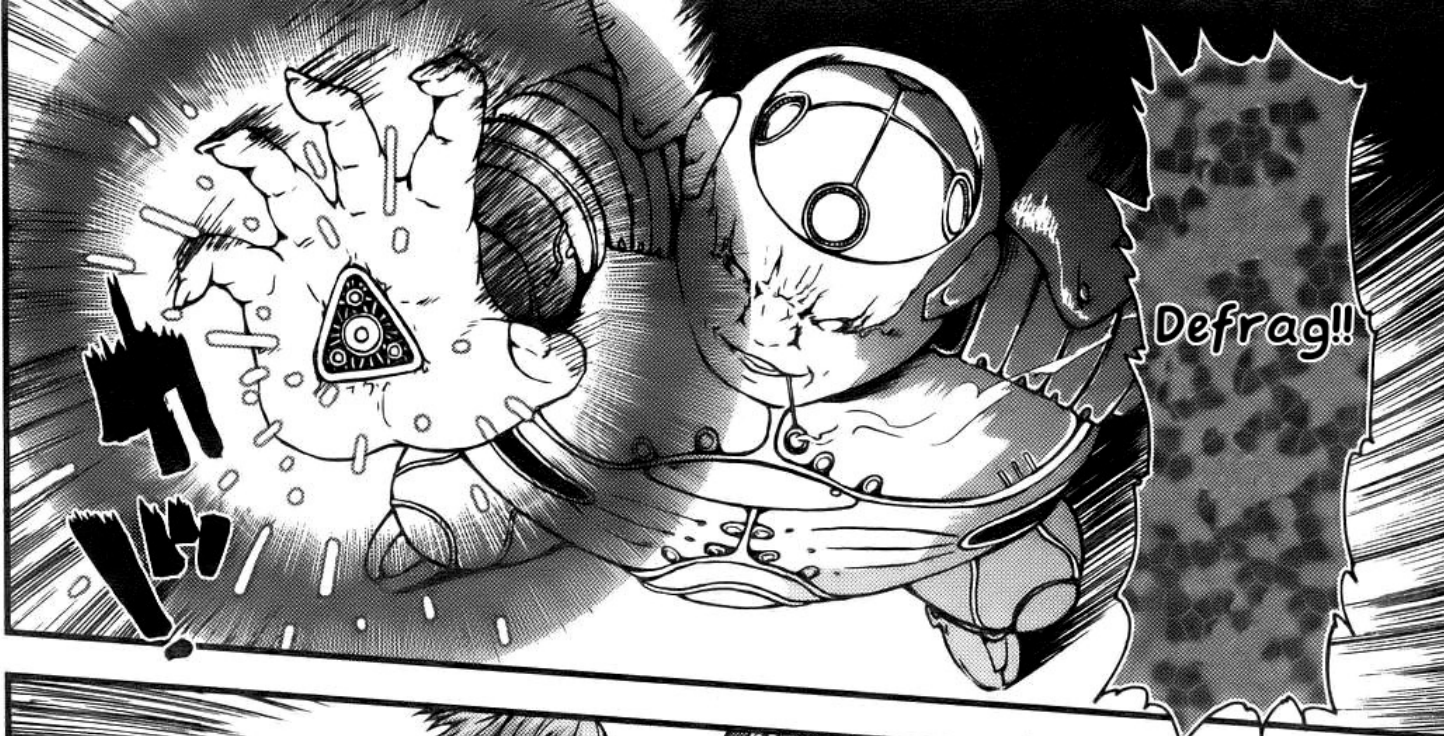

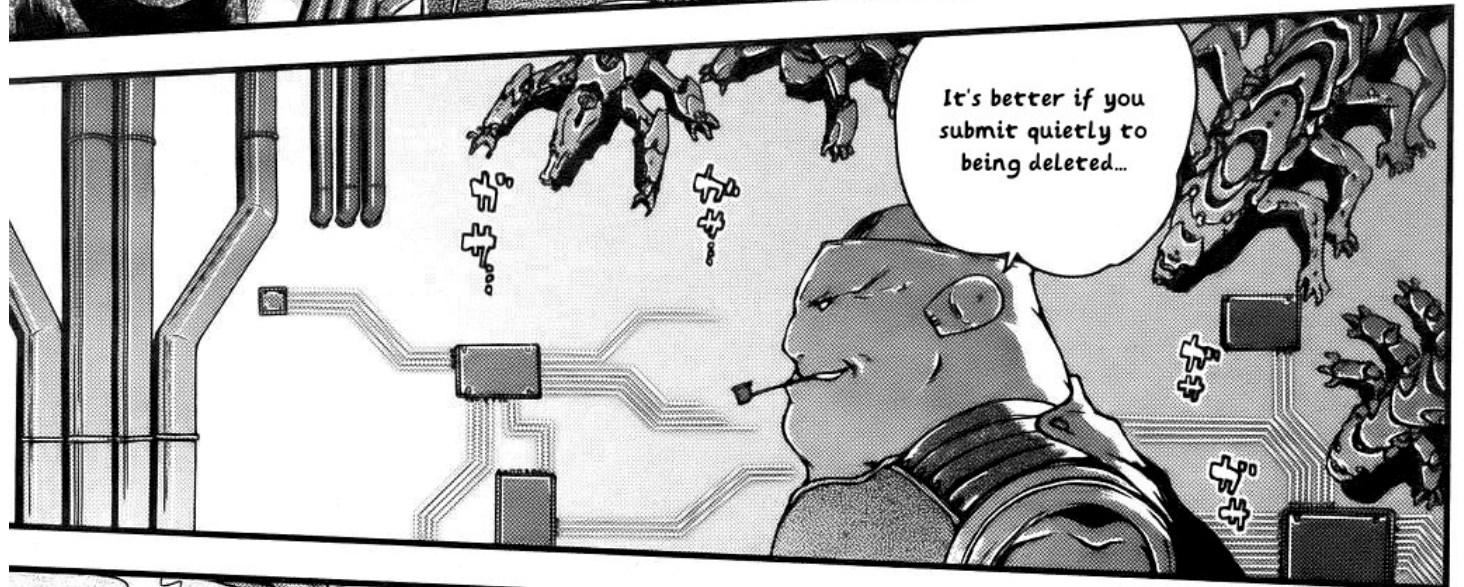

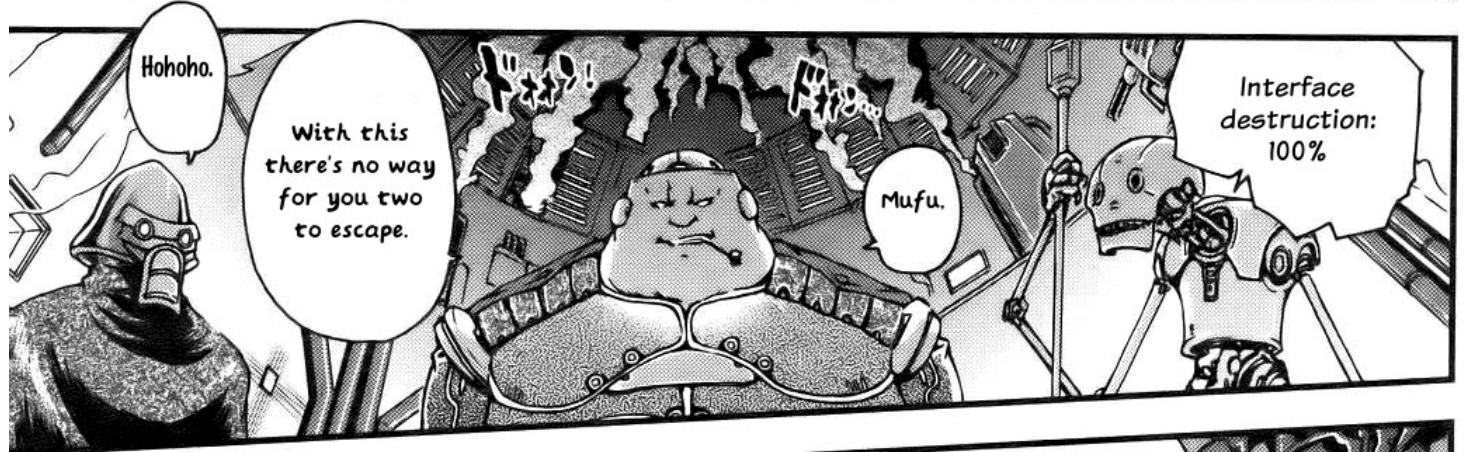

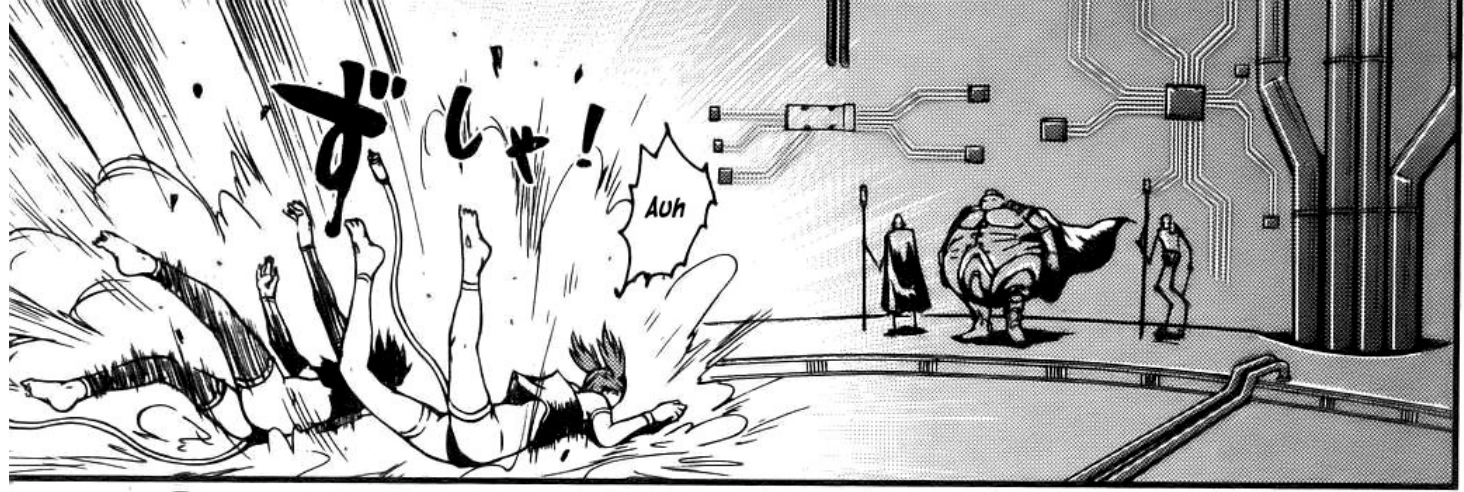

Destroy everything at once... and reconstruct it from the bottom up.

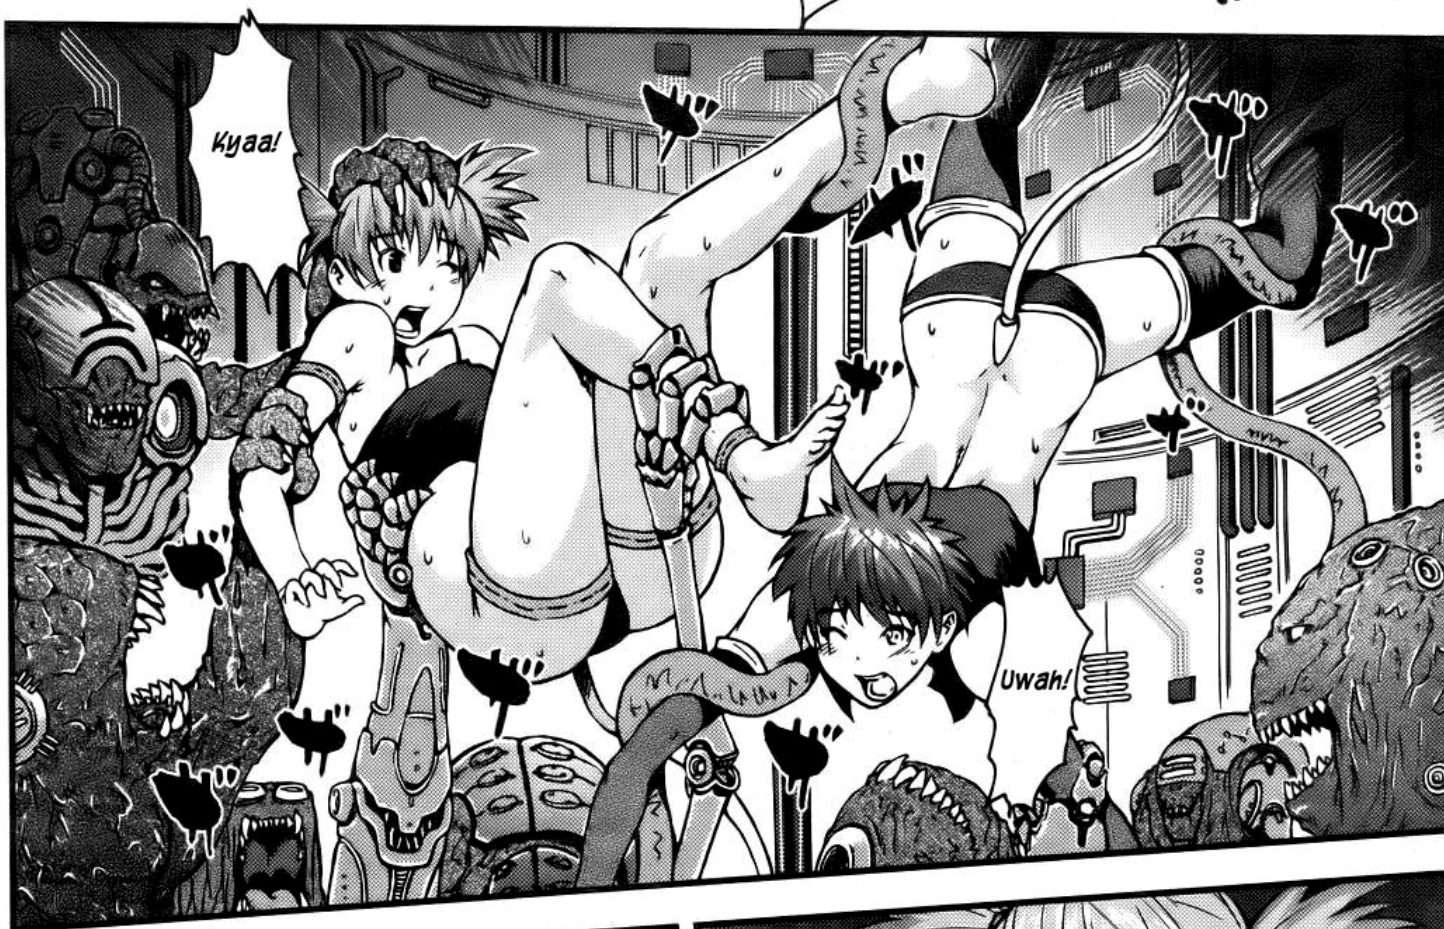

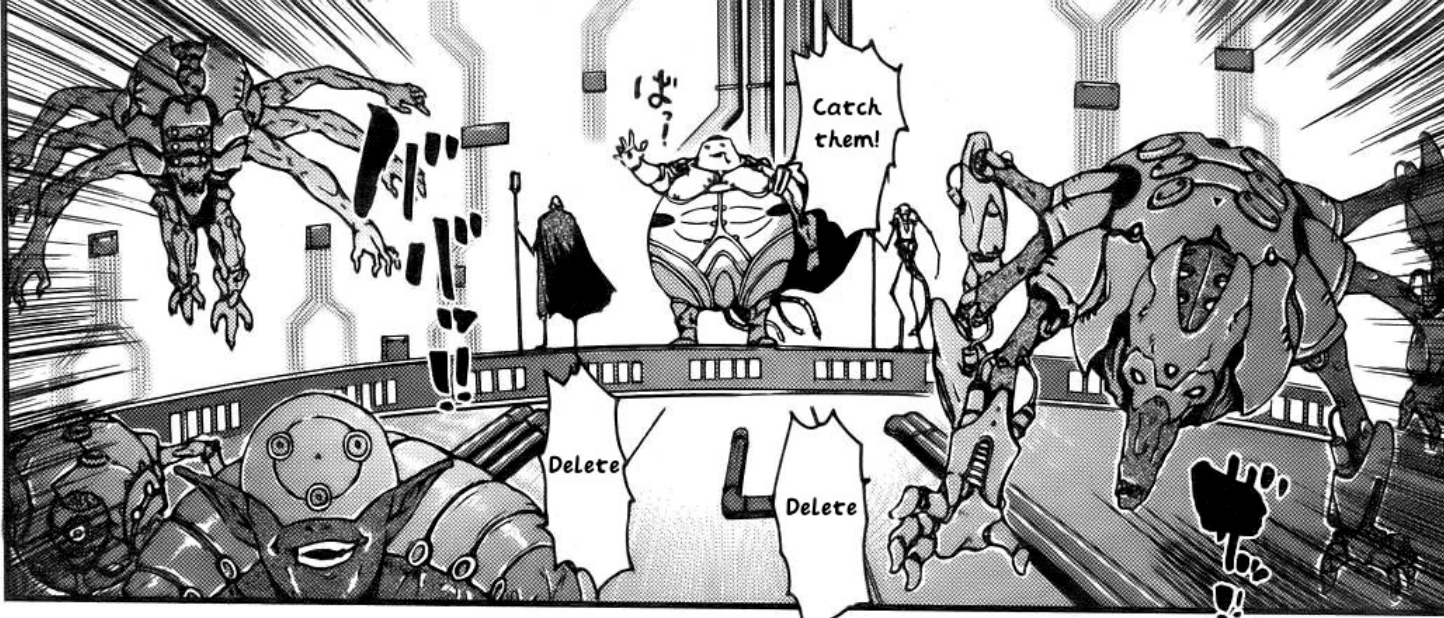

You think I'll let you go?

Hmph.

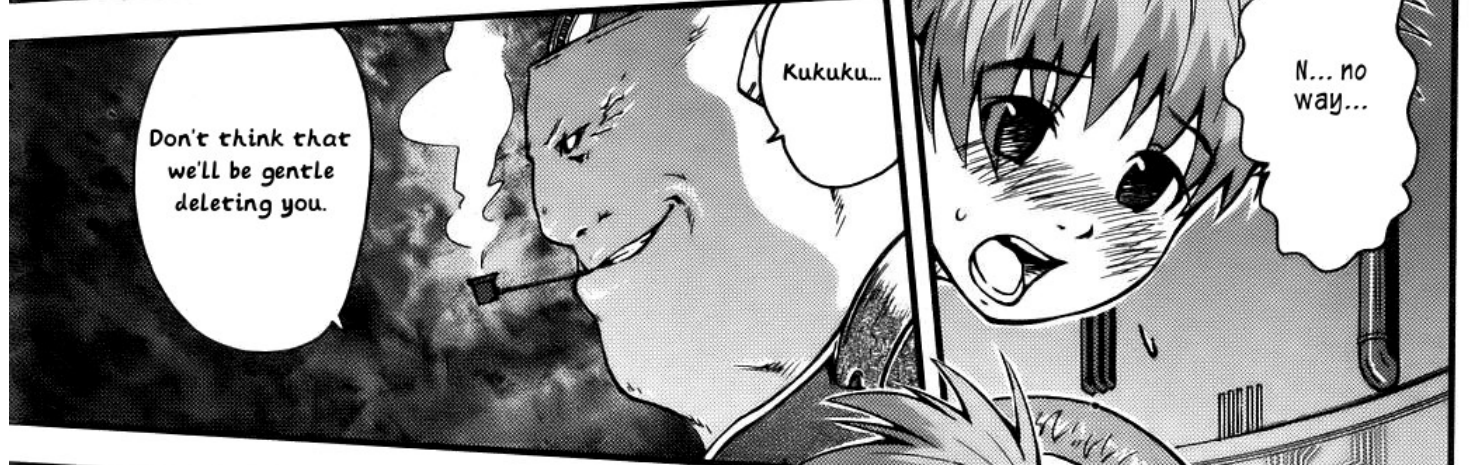

Uh... there's no exit, so there's nothing we can do...

Trojan! What should we do!?

Don't think that we'll be gentle deleting you.

Kukuku...

N... no way...

Aah...

ヒッ

ヒッ

ヒッ

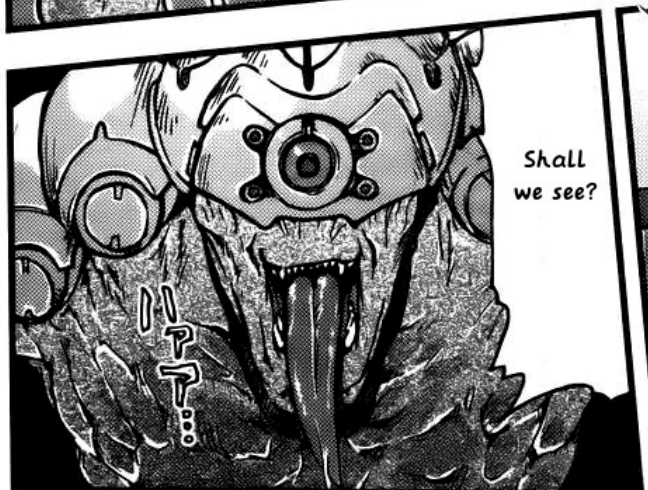

Mu!

I'll delete this one!

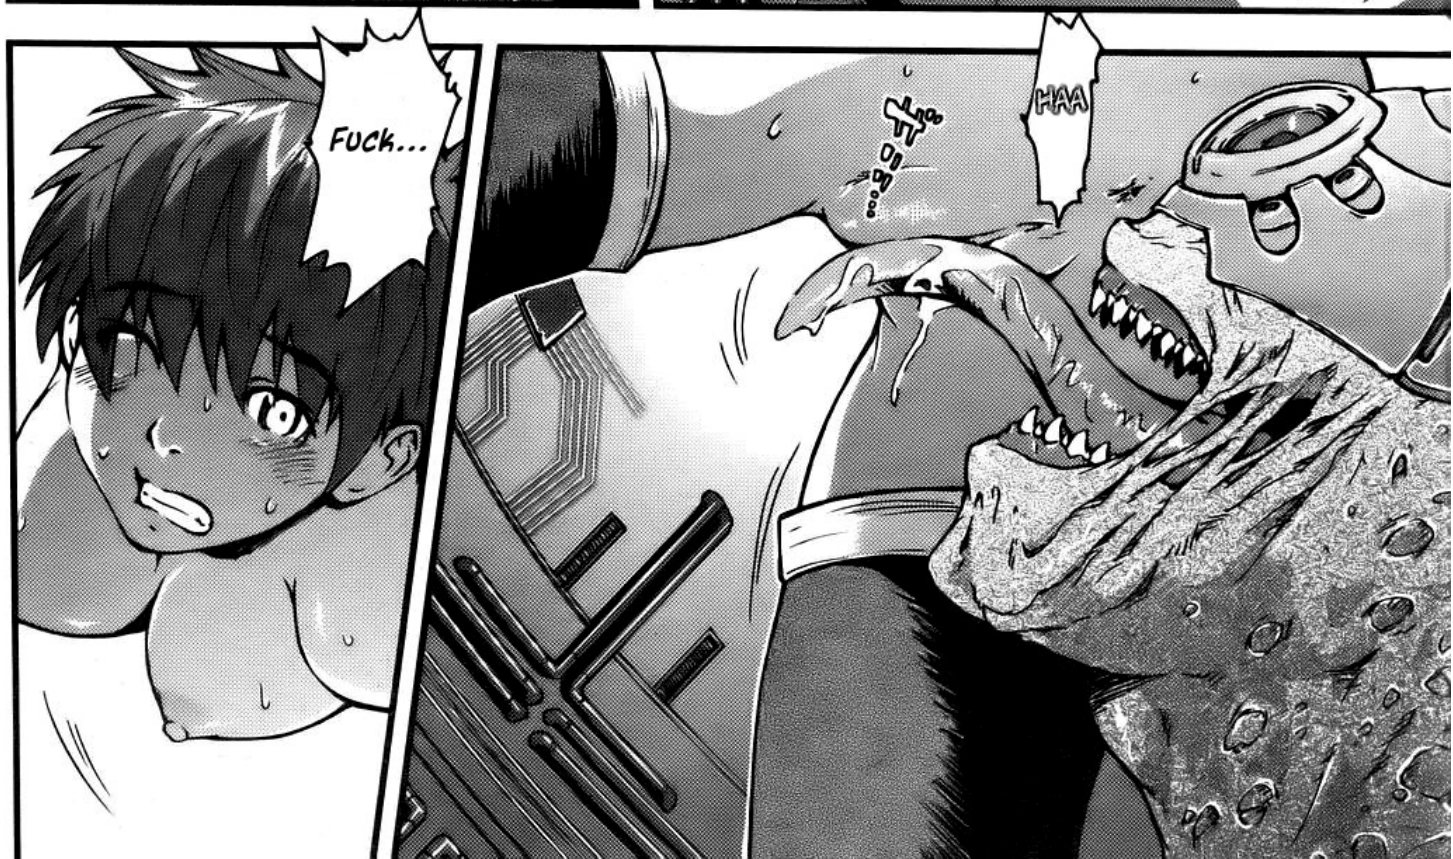

Shall we see?

Hurry up already~

01110011101100010101110110110101001010101110100101101101101010

We suffered terribly~

Uh~ We got beat.

What happened you two...!? Hey...

Oh! Welcome back you two.  
How was it?

We're back~

ぼろ...

びん...

You were defeated by the administrator?

I never thought the administrator would come out...

What kind of loser formats that quickly...

That PC owner...

Damn it-

Us too!?

You two also!

Eeh!?

And go back in one more time!

Unforgivable!! We'll figure out when he's finished reinstalling the OS...

Scary--

If that's how it's gonna be, we'll make him keep formatting the hard disk until it breaks!
