Waiii, it's the 3rd! The 3rd!!

Hello to newcomers and long time no see to ones who have followed from the last book, I'm Akatsuki Myuuto.

Phew...man, I'm completely beat out now! (laugh)

It's thanks to everyone that this new book could come out!

(I meant on the economic side and mental side as well, haha...)

Anyway, compare to those veterans who have drawn for long time, am I a little ... immature?

Man, you see-- keeping on drawing manga is really a hard work to do! (> <)

These ones who still survive after all this time are fucking awesome... I always think like that whenever I feel a little lazy...

Well, back to this time manga! Its name is "Servant Bunny and Anthony", right? Because my last work had a plenty of heavy and serious things included in it, I decided to draw a relatively light book where you can enjoy the ero and fap, but in the end, it comes to the backtrack again...I think.

With the image of a Anthony who can does anything that I came up, maybe I should give in more thoughts and let him do many things more...

Well, even though things go like this everytime, I still feel I haven't done enough. Fuu...

If there is a chance that I do another book, maybe I should make it go in a serious way again and with more balance...?

Please support me at that time too.

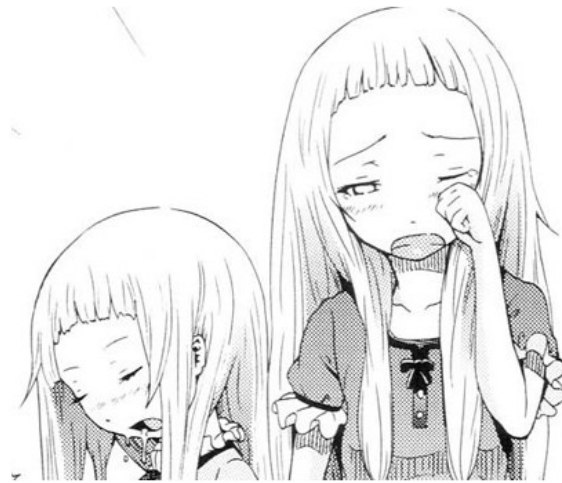

Anyway! My best regards to the editor who made this compilation and all of you, readers!!

And in the end, I'm going to write the same promise I have inside me this time too, by the way, everytime I write this, a certain line in "Southern Boy Papuwa" always float inside my head...

"Someday, I will make the dream I keep inside me come to the truth"

Akatsuki Myuuto

"When is that someday!!?"
