Well hello. I'm Scotch.

This time is the first I've drawn an original work rather than a parody - how did you like it? Since it's a fucking-only book, the story is flimsy, or rather practically non-existent, so I'd be happy if it was at least of use.

If I make another one next time, I think I'd like to flesh out the story a bit more. "Hmm, it would be great if I could draw crossdressing boy prostitutes as a series" is what I'm thinking. "Maybe I'll release it on Comitia" and such.

Well then, until next time.

I tried finishing the afterword on a different note than usual, because I was sleepy and the deadline was close, so I didn't have time to fool around.

A detailed illustration of a cluttered room, likely a dorm or a student's room. In the foreground, a white printer sits on a wooden floor next to a blue cup of iced coffee and a tall glass of iced coffee. To the right, a desk holds a laptop, a mouse, and some small figurines. A white game controller lies on the floor near the desk. In the background, there are several cans (Ebisu, Red Bull), a blue water cooler, and a large white bag. The word "BLAZE" is written in large, bold, black letters with a white outline across the center of the image.
