Didn't finish these rough sketches in time.

↑ Planning image for the circle cut.

→ Cut Character.  
I ended up drawing a narrow-eyed girl again, but she didn't fit with the others, so I didn't include her this time. I'll include her when I have the chance. Maybe I should call it glaring rather than narrowing her eyes?

↓ They're actually friends.

# AFTERWORD

Hey all! Shoutarou here.

This was the second Futaket this year, eh? I'm just writing this five days before the event begins, and as expected, the contents are pretty incomplete.

On top of that, the project I'm working on at work is only going to finish right around the day Futaket starts. I do what I can in breaks between work, but my computer keeps crashing. Things just haven't been going my way since Summer started...

Aside from my whining, I had trouble deciding on the character designs for this book (it's original, so I can do whatever I want), and wasted an odd amount of time on them. For all the time I spent on them, it feels like I've seen them somewhere before lol.

Anyway, I have the habit of just going for scat whenever I don't know what to draw, so I didn't really make use of the futa-ness of the characters. Sorry, scat-haters.

By the way, the title is 4.5 instead of 5 because it's the experimental Futaket 8.5.

Well then, I think it's about time for me to get back to work (lol), so I'll end here.
