But still...
Split up and
search the
ship!

The doctor
killed
herself?

Well, the
weapon is
still here so
there's no
real problem.

Ah, here
it is.

I cannot go on. But I can't
let anyone other than
you have the weapon.
You must guard the case
with your life.

Azelea, my work
has lead me to
creat something
terrible. It has
been weighing on
my conscious
heavily.

YOU MUST
BE JOKING
YOU DEAD
BITCH!

What's
wrong,
Major?!

You see that? It's
the key to the
case. You must
protect it by all
means!

There is
a picture
on the desk.

Then this will be your promotion exam.

First year?

Ninja, first year, Momoji. What are your orders?

Yes, master.

ぱかん

Awww come on! You know I hate these tests!

DON'T BE AN IDIOT!

The Xiao empire has developed a new weapon prototype. They will be transporting it tonight. Your mission is to steal the prototype for us.

But these are orders from above, we have no choice.

Believe me, I don't want to send you either. However, all my good students are out on other missions.

This is alerting a mission. GO!

This is a life-GO!

Hmm

Failure could mean the death of our country. Proceed with the utmost caution.

The woman in this picture is Major Azelea. Rumors have it she is the only one able to activate the new weapon. If you come across her during your mission, you are to take her captive and return with here.

GOD DAMNIT MOMIJI! YOU'RE SUPPOSED TO BE A NINJA!

Captain,
at our current
cruising speed
won't we be
behind schedule?

Goddamn
bitch.

I hope you
are willing
to take
responsibility
if we arrive
late.

That's
fine.

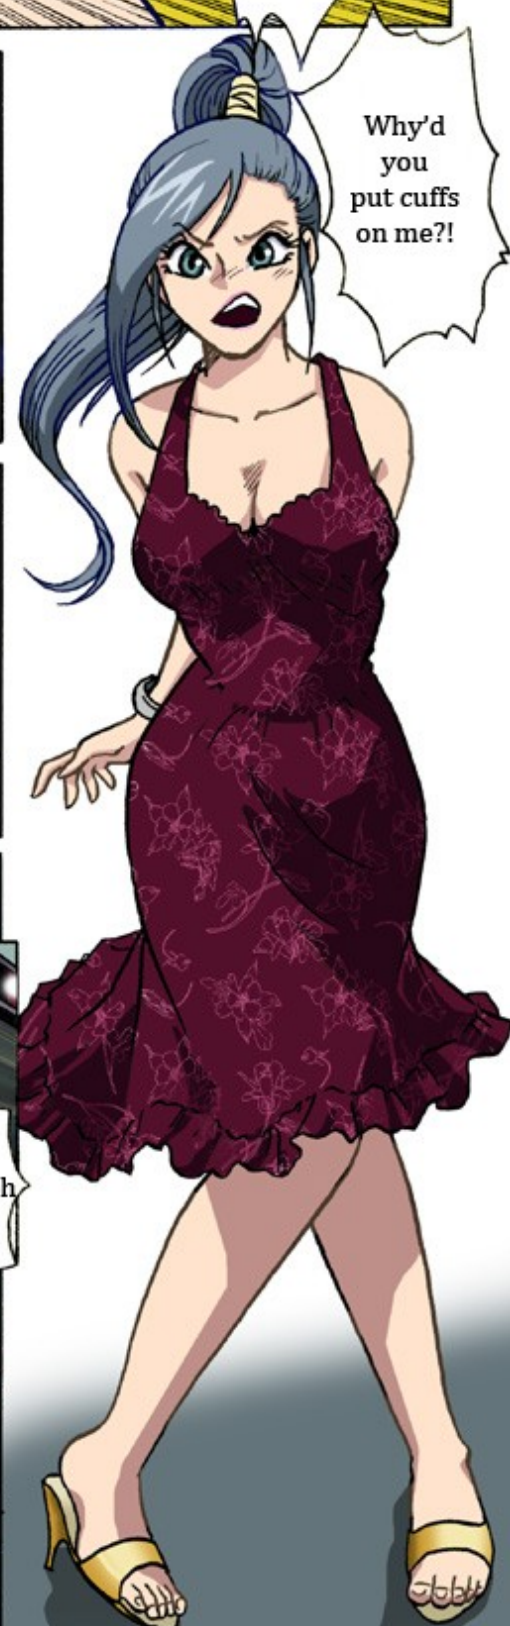

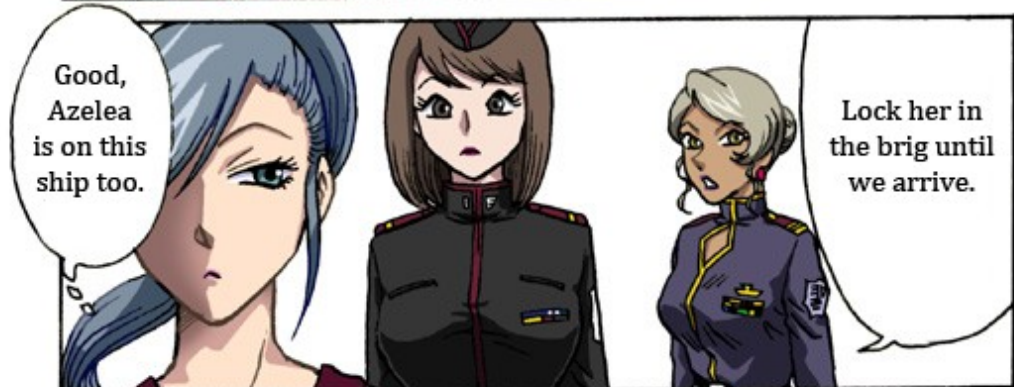

Yes...We are
passing through
an asteroid
field. I have
lowered our
speed out
of safety
concerns.

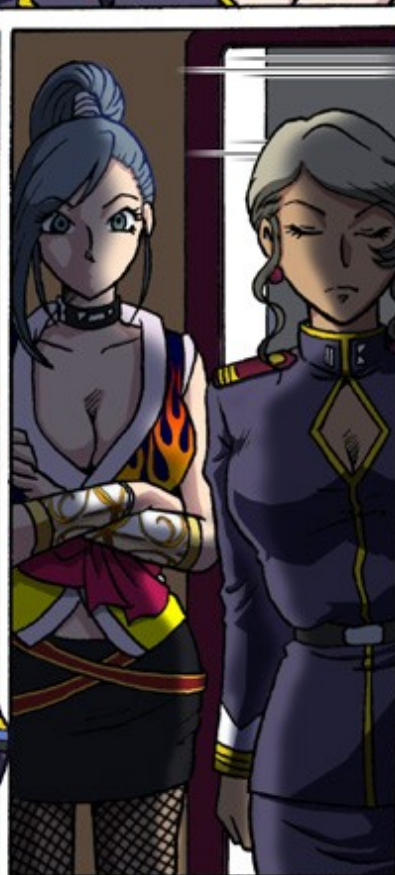

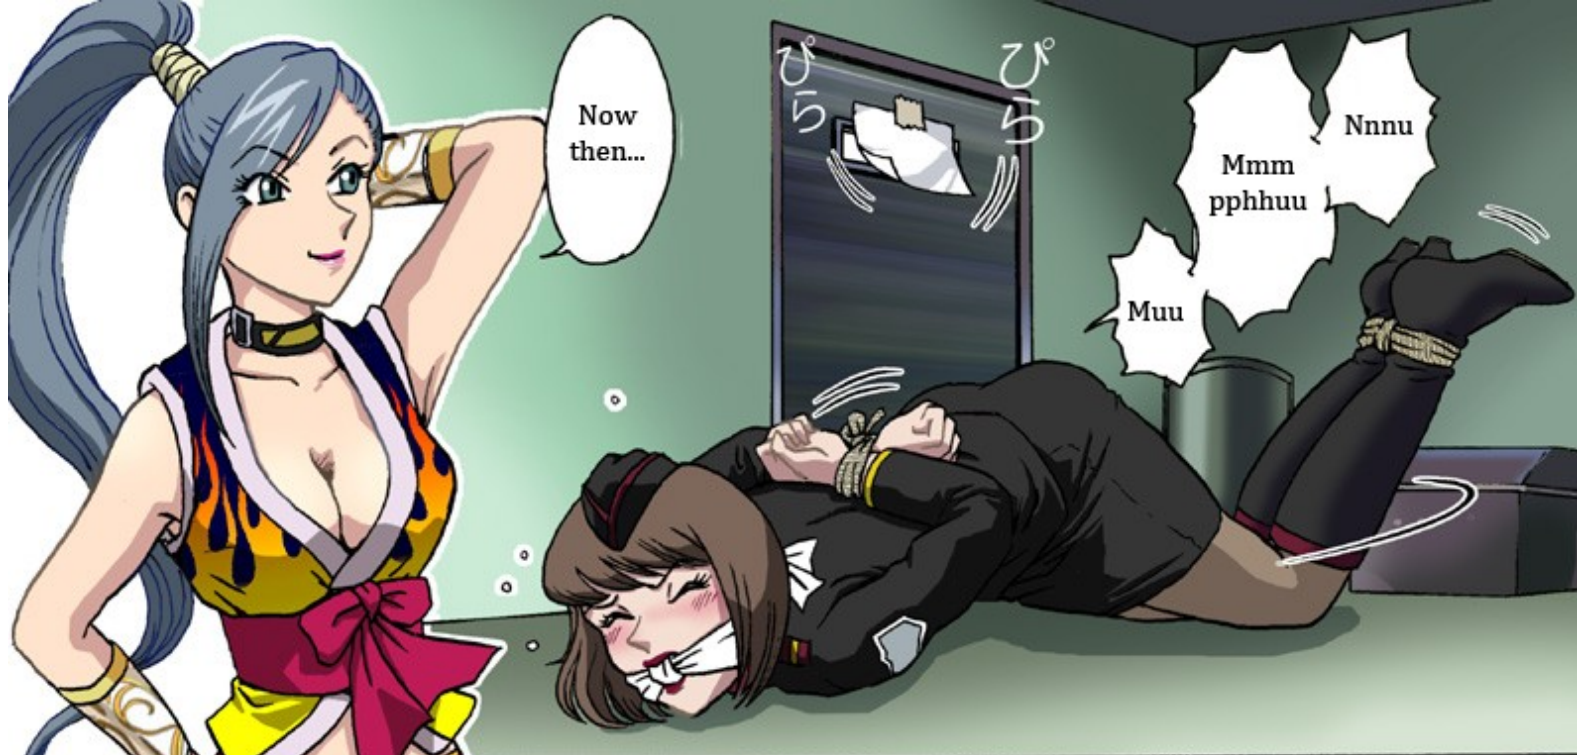

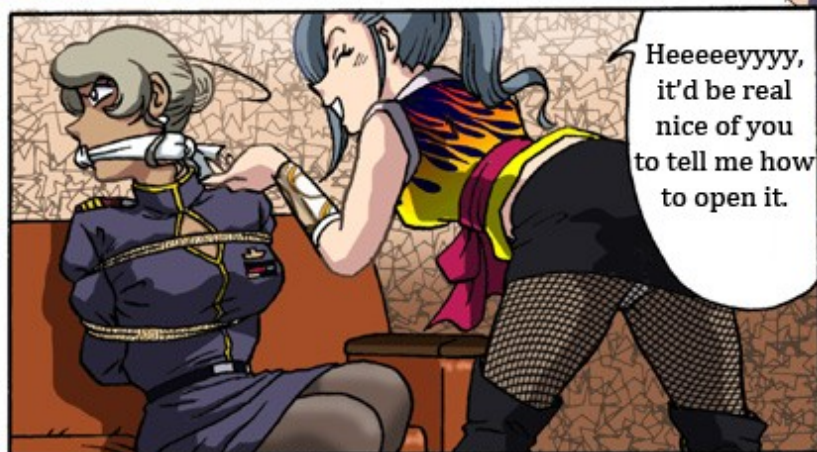

First, I just
have to
disguise myself
as a crew
member.

Captain,
we have
received a
distress signal
from a
private
ship.

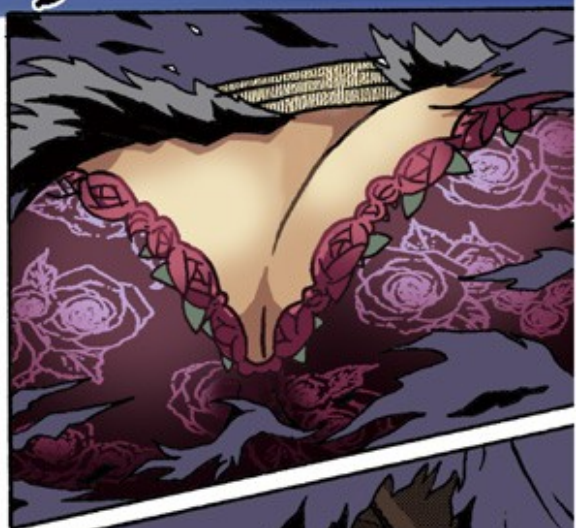

You're the stong
aggressive type!
I've got to see
more of you!

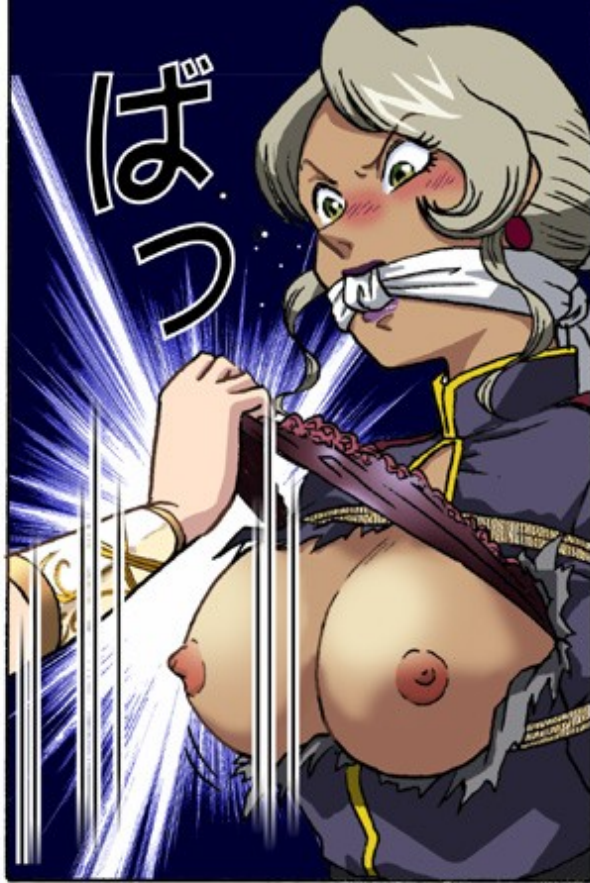

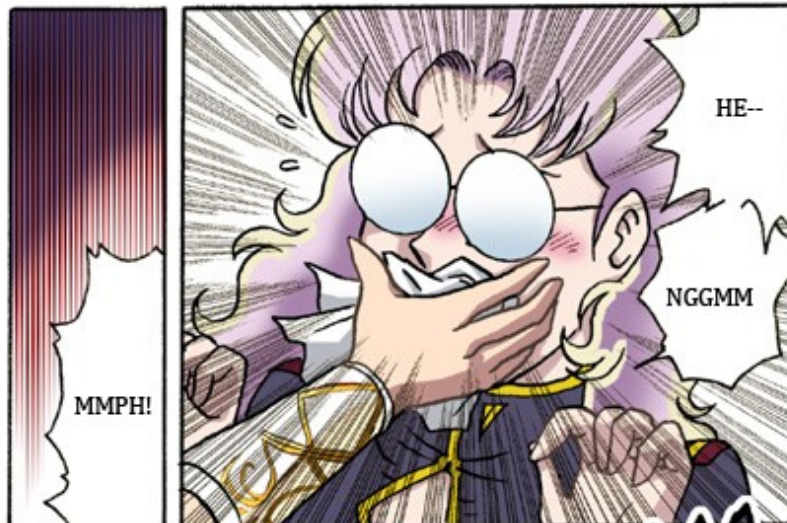

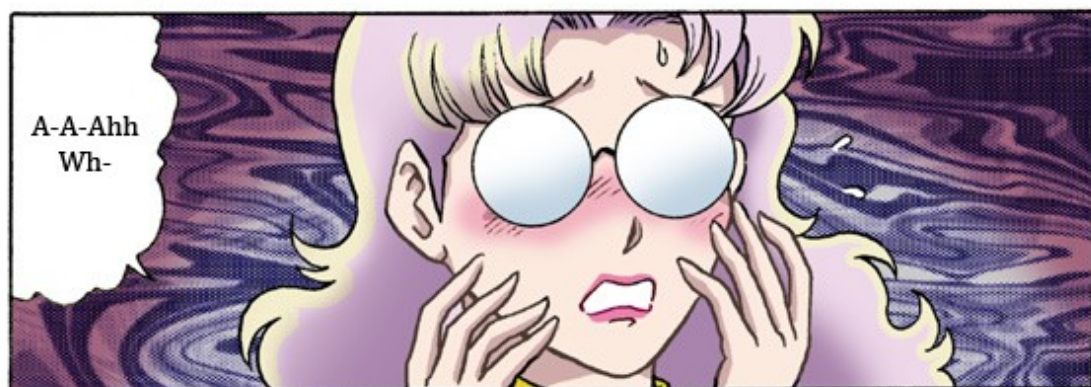

Face contours...
F.
Eye brows
mmm A.
Eyes are D!

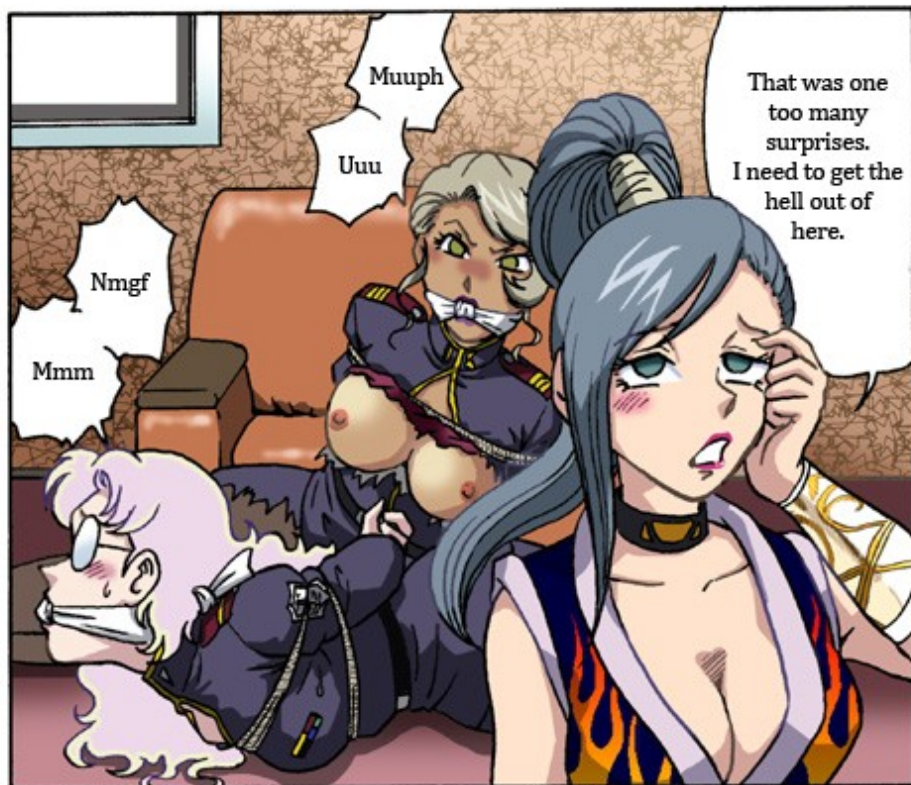

All the pride
you had
in your
uniform has
been cut away.
How does
it feel?

That was one too many surprises. I need to get the hell out of here.

WHAT?!
That can't be!

Captain! The suspicious person we seized earlier has escaped and commandeered a ship! She appears to have possibly taken Azelea and the prototype as well!

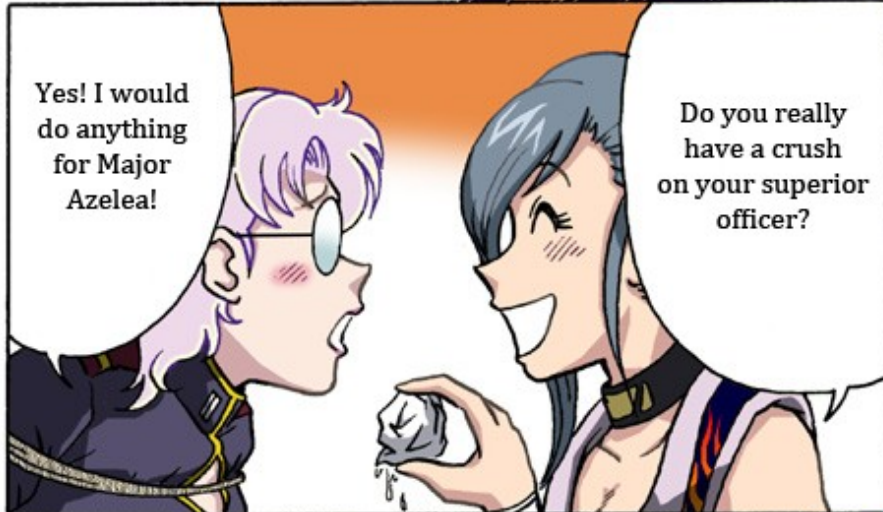

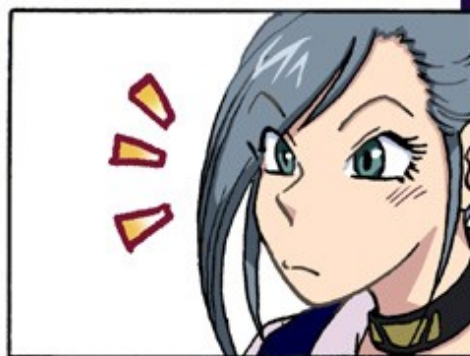

Lock onto them and begin a pursuit!

Now then! Let's take a look at this picture.

We can't locate them! There are too many asteroids to find them!

Yes! I would do anything for Major Azelea!

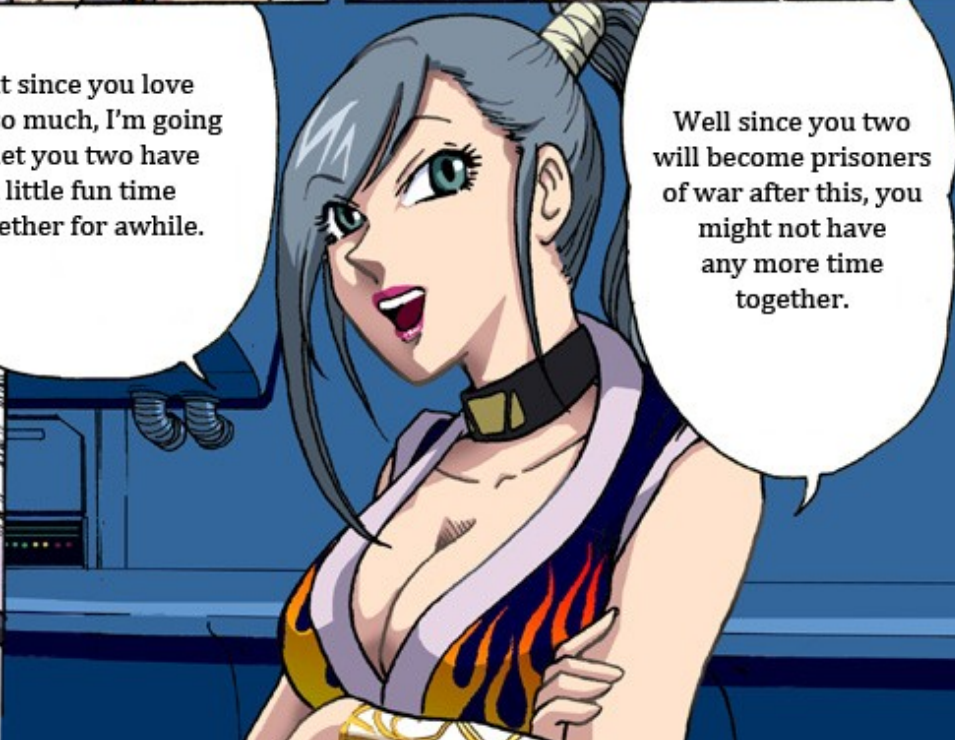

Do you really have a crush on your superior officer?

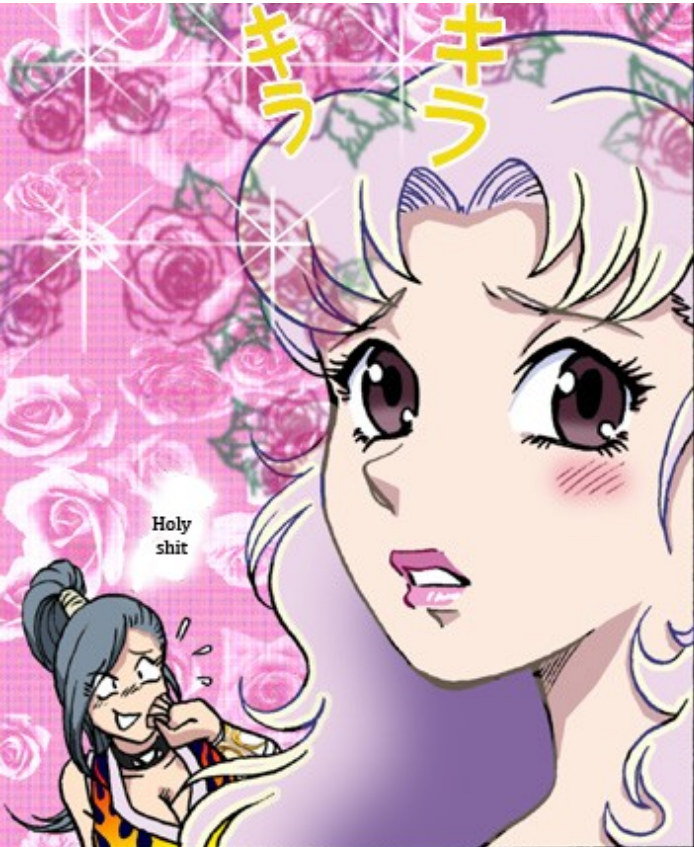

NUUUPH! (NOOO)!

Really?!

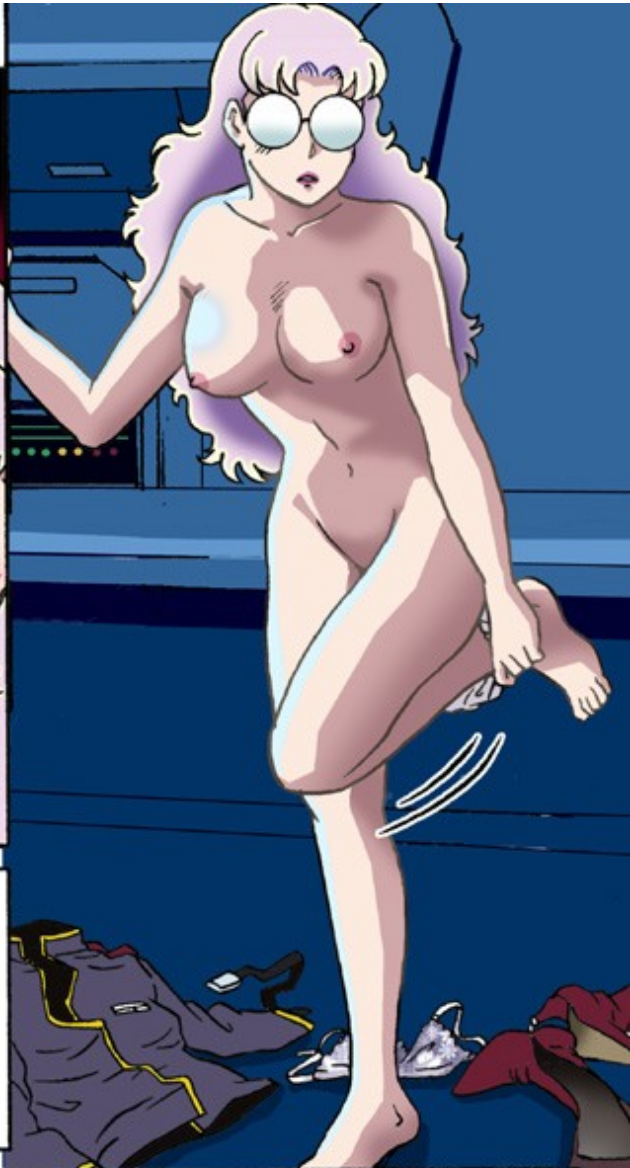

But since you love her so much, I'm going to let you two have a little fun time together for awhile.

Well since you two will become prisoners of war after this, you might not have any more time together.

Holy
shit

Okay...

Sorry, but
your hands
have to stay
tied.

You have been
captured so wonderfully.
Your exposed chest
is so beautiful. Your
brown skin is so
lovely, you are the
perfect woman.

My brave Azelea.
Bound hand and
foot. A gag in your
mouth. You're
completely
captured.

Major
Azelea...

It's so strong!
I can almost feel
it!
How amazing.

Ahhh...
The Major's
scent...

か
い

I was always
jealous of your
perfect breasts.
Now they look
even more
wonderful thanks
to the rope
pushing them
up!

So please,
don't resist
what that
evil lady
tells us
to do.

We've been captured
and bound. You can't
even speak.

It's
no use,
Major.

MPPPGFF!

She looks like
a masochist but
she might just
be a perfect
sadist.

This girl...The things
she's saying are
completely submissive
and yet I think she's
trying to make herself
seem heroic.

Mmmm

Mphhf

Good girl. Oh!
You're wet too!
Now let me
take a good
long look at
you.

Major,
please
open your
legs.

Hurry...

Prepare
to fire
all turrets!

Forgive
me.

Alas, I must
do my utmost
to protect the
secrets of
the new weapon.

Ahhh,
poor Azelea!
Falling into
the clutches of
that villain.

Time to die,
Azelea!

RUN
AWAY!

Oh shit!
I think
she's
serious!

She's shooting
at us, she's
obviously
not going
to listen.

She won't
fall for
that
shit!

OH GOD PLEASE
FORGIVE US!
I'M REALLY
REALLY
SORRY!

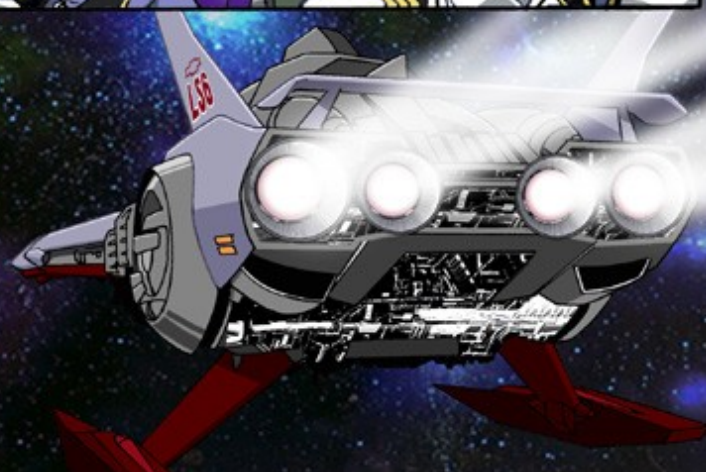

Planet Chevy, local time 3:30. We request an
immediate cease fire agreement! If you agree we
will set course at once to the nearest planetary
port and await your arrival.

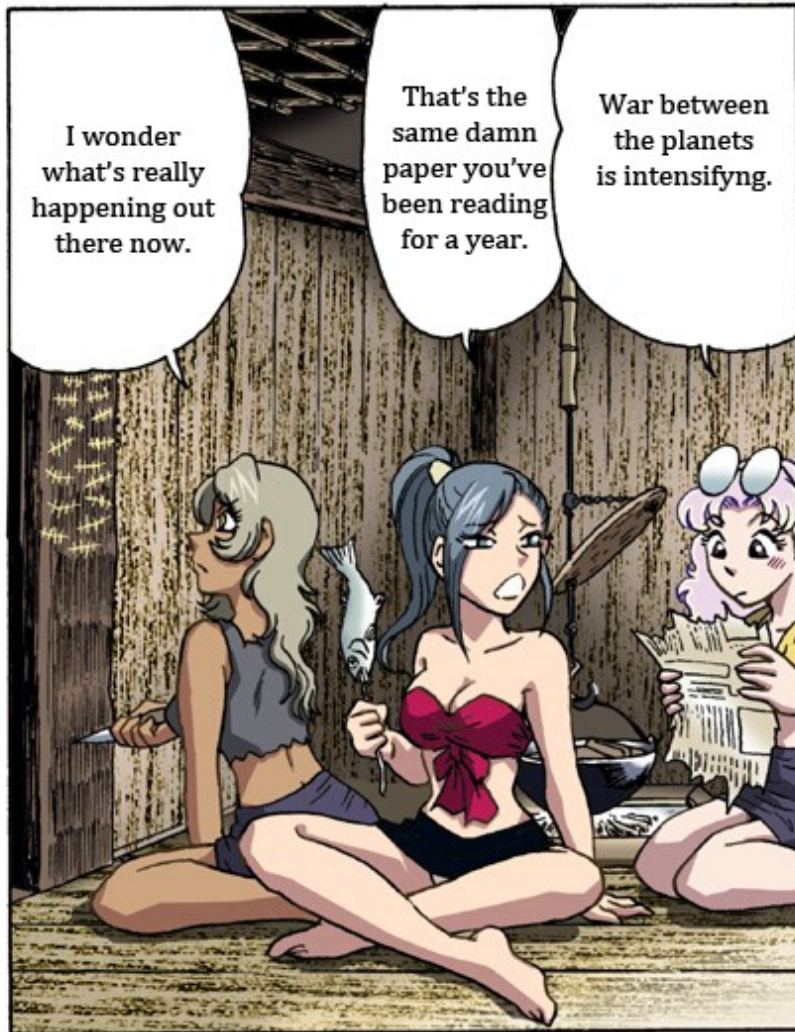

I would also remind you that if you continue
firing after receiving our request you will
be in violaton of various laws set forth by
the Interstellar Alliance.

Captain,
urgent message
from the
culprit.

Captain! Please!
We must
stand down!

I DIDN'T HEAR
SHIT! KEEP
FIRING AT
AZELEA!

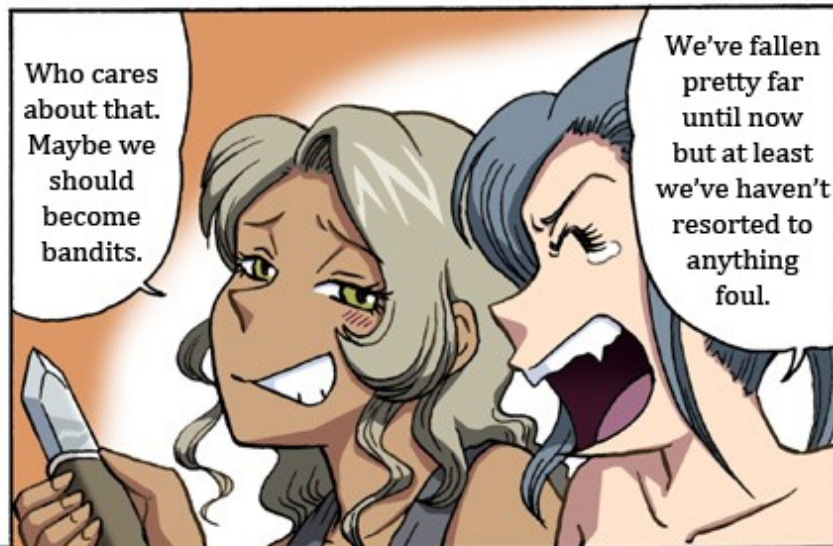

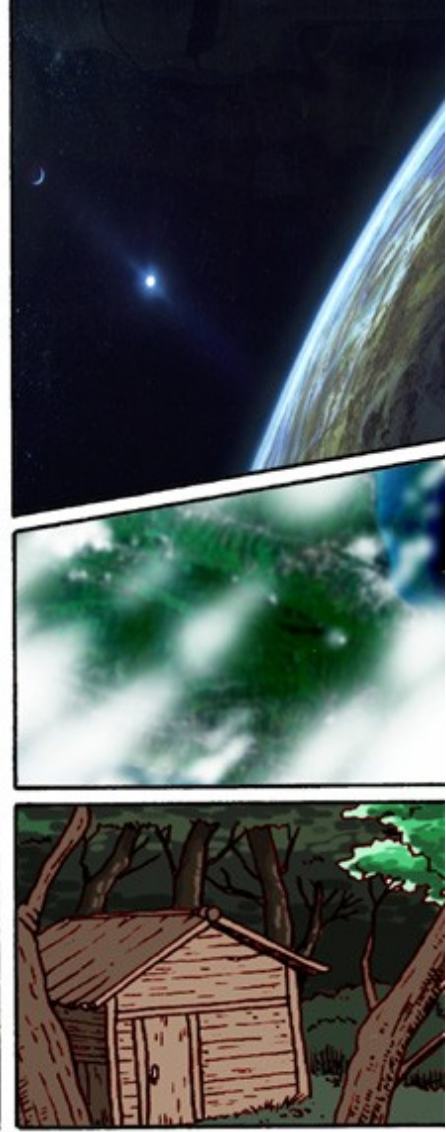

I wonder what's really happening out there now.

That's the same damn paper you've been reading for a year.

War between the planets is intensifyng.

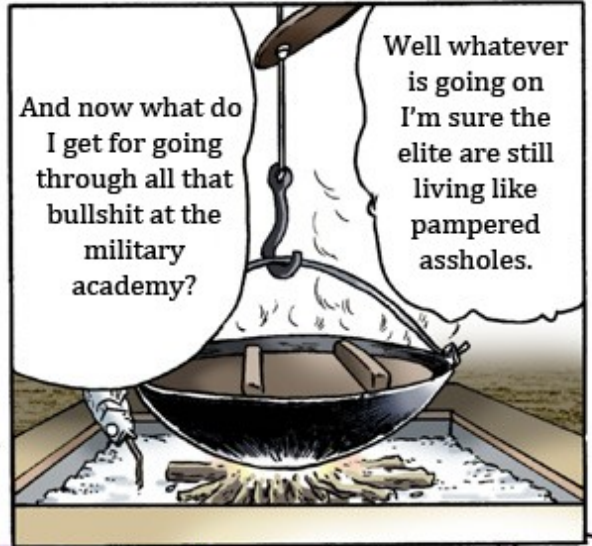

We've been hiding here for almost a year now...

Who cares about that. Maybe we should become bandits.

We've fallen pretty far until now but at least we've haven't resorted to anything foul.

And now what do I get for going through all that bullshit at the military academy?

Well whatever is going on I'm sure the elite are still living like pampered assholes.

Seriously?!

What a good idea...

Bandits...

It will help us stay out of public sight and some people still use it occasionally.

It's also a rather old road.

This highway links the airport over there on the right, to a nearby resort.

I'll take out the tires.

Here's someone.

SHE'S MY GODDAMN SUBORDINATE!

You're mistress is downright diabolical.

So there shouldn't be any extra people around to report our pillaging.

I screwed Azelea pretty bad but having heard she escaped I guess she "wins."

This money will let me live at this resort for a long time.

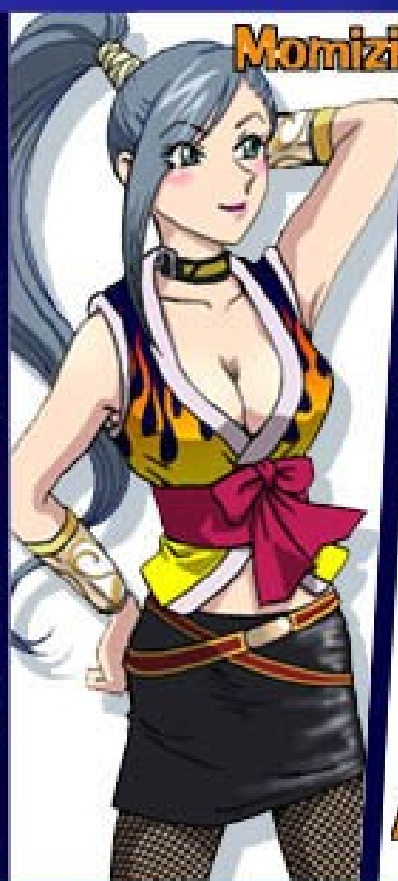

A flat?

KYAA!
