Mizugokoro

(n) swimming, following one's own desires.

I have looked and looked but I couldn't read the mangaka's name without furigana. There are so many combinations for the four kanjis and I just couldn't randomly pick one. I guess I have to apologize for that. If you can read it correctly, or if you really know about this mangaka, feel free to let me know.

The Baffled Polluxa

This is a gay manga. Although it might not bother some of you, we still feel that it's necessary to tell people about it. If it's not your cup of tea, don't read it. Simple as that.
