

Saba 07: Dog Mansion I
Black Dog White Dog

i s a k i (Shimesaba)

It takes effect instantly. It's quite interesting to watch

Just force him to inhale it

We have taken to using this with him

He cannot reach climax so it turns into an agonizing need

As a side-effect, the drug vastly increases pleasure

If you still want to resist, would you like me to shock you as well?

If you want it to stop, you should give a proper greeting

It's been a long time since you last bred something. You should savor it

Recently, Kuro has even been able to take a fist

Ah, yes

Or would the master prefer to do it personally?

We were trying to be nice to you, and look at what you've done

You went and broke his ass worse than it was before

Thank you very much for your patronage today

We eagerly await your visit next week as well

Bonus: Sex Slave Profiles

White Dog:

The white haired young man.

A newcomer who just joined (or was made to join?).

Defiantly rejects all training, and remains unbroken despite numerous punishments.

He is made to wear a bit to stop him from biting and talking back, and he is always escorted by staff members to curtail acting against customers or escape attempts.

As you'd expect by looking at him, his flesh is robust and capable of considerable violence. However, he is weak to emotional torment, and quickly cries and screams broken-heartedly, though his recovery is similarly rapid. Thanks to this disposition that makes him interesting to the customers, as well as his abnormally large penis and his strong physique, his popularity is not low.

For a male, he has an unusually high degree of shyness, and to go with that, particular disgust for sex animal training, and is full of vitality.

His sensitivity is excellent. He has a tendency to ejaculate prematurely, though he recovers immediately no matter how many times he reaches orgasm. Unnoticed by him, he has a slight masochistic streak, so moderate amounts of pain do not dampen his arousal.

If he is given an excess of medication or pleasure training, he loses reason and becomes a sex fiend to a frightening degree.

Our recommendation is to break down his rebellious attitude by assaulting him with pleasure and enjoying the process.

Black Dog:

The black haired young man.

Has been trained as an animal for his entire life. He has been made responsible for supporting the newcomers.

He is extraordinarily docile and obedient, as well as resilient, though his even-tempered reactions are also a disadvantage.

That he will not strike out or attempt to flee works well for attracting customers with cruel kinks.

He does not actually have any kind of ability to change pain and fear into pleasure.

Mentally, he is very strong. His body has been built up extensively, though you can hardly say that he's manly.

His sensitivity to both pain and pleasure is low, so he's the type to make up for his limited facial expressions with body language.

Despite the fact that he hasn't particularly been developed in that way, he is weak to anal play.

Though he prefers gentle pleasure most of all, every so often he is lent as a gift to SM clubs.

His genital size and energy are ordinary, but the hardness of his erection, and the force and volume of his ejaculations are incredible.

It's perfectly fine to torment him to the point of breaking with a wide variety of toys and methods, but if he is treated with a small amount of kindness his true servant's soul will be made apparent and he will become an active part of your enjoyment.
