Since most anime/manga released this season were sequels and continuations, I didn't get the urge to draw any parody work in particular. Danball Senki WARS was really interesting, but it is June 29th as I write this. I wonder if it would have been better if I had drawn something based on that, but it's too late now!

This is the story of a Dark Elf.
I have always wanted to write something more realistic than the usual commercial fantasy stuff. So I thought, why not make a doujin?

And here it is!

It's a simple "Since I saved you, let me fuck you!"-themed story.
I wanna find out real soon as to how successful I was in making it interesting and erotic.

And so, I'd be really grateful if you enjoyed the book.
