Arina
A super-heroine from planet Ester, whose power stems from sexual energy*. She is assigned to the Counter-Witchcraft Department to replace a co-worker, who went missing.
She is very skilled in fighting dirty witches and monsters, but when she's finds herself in a pinch, her latent masochistic traits tend to surface and thus, she sometimes loses her battles as well.

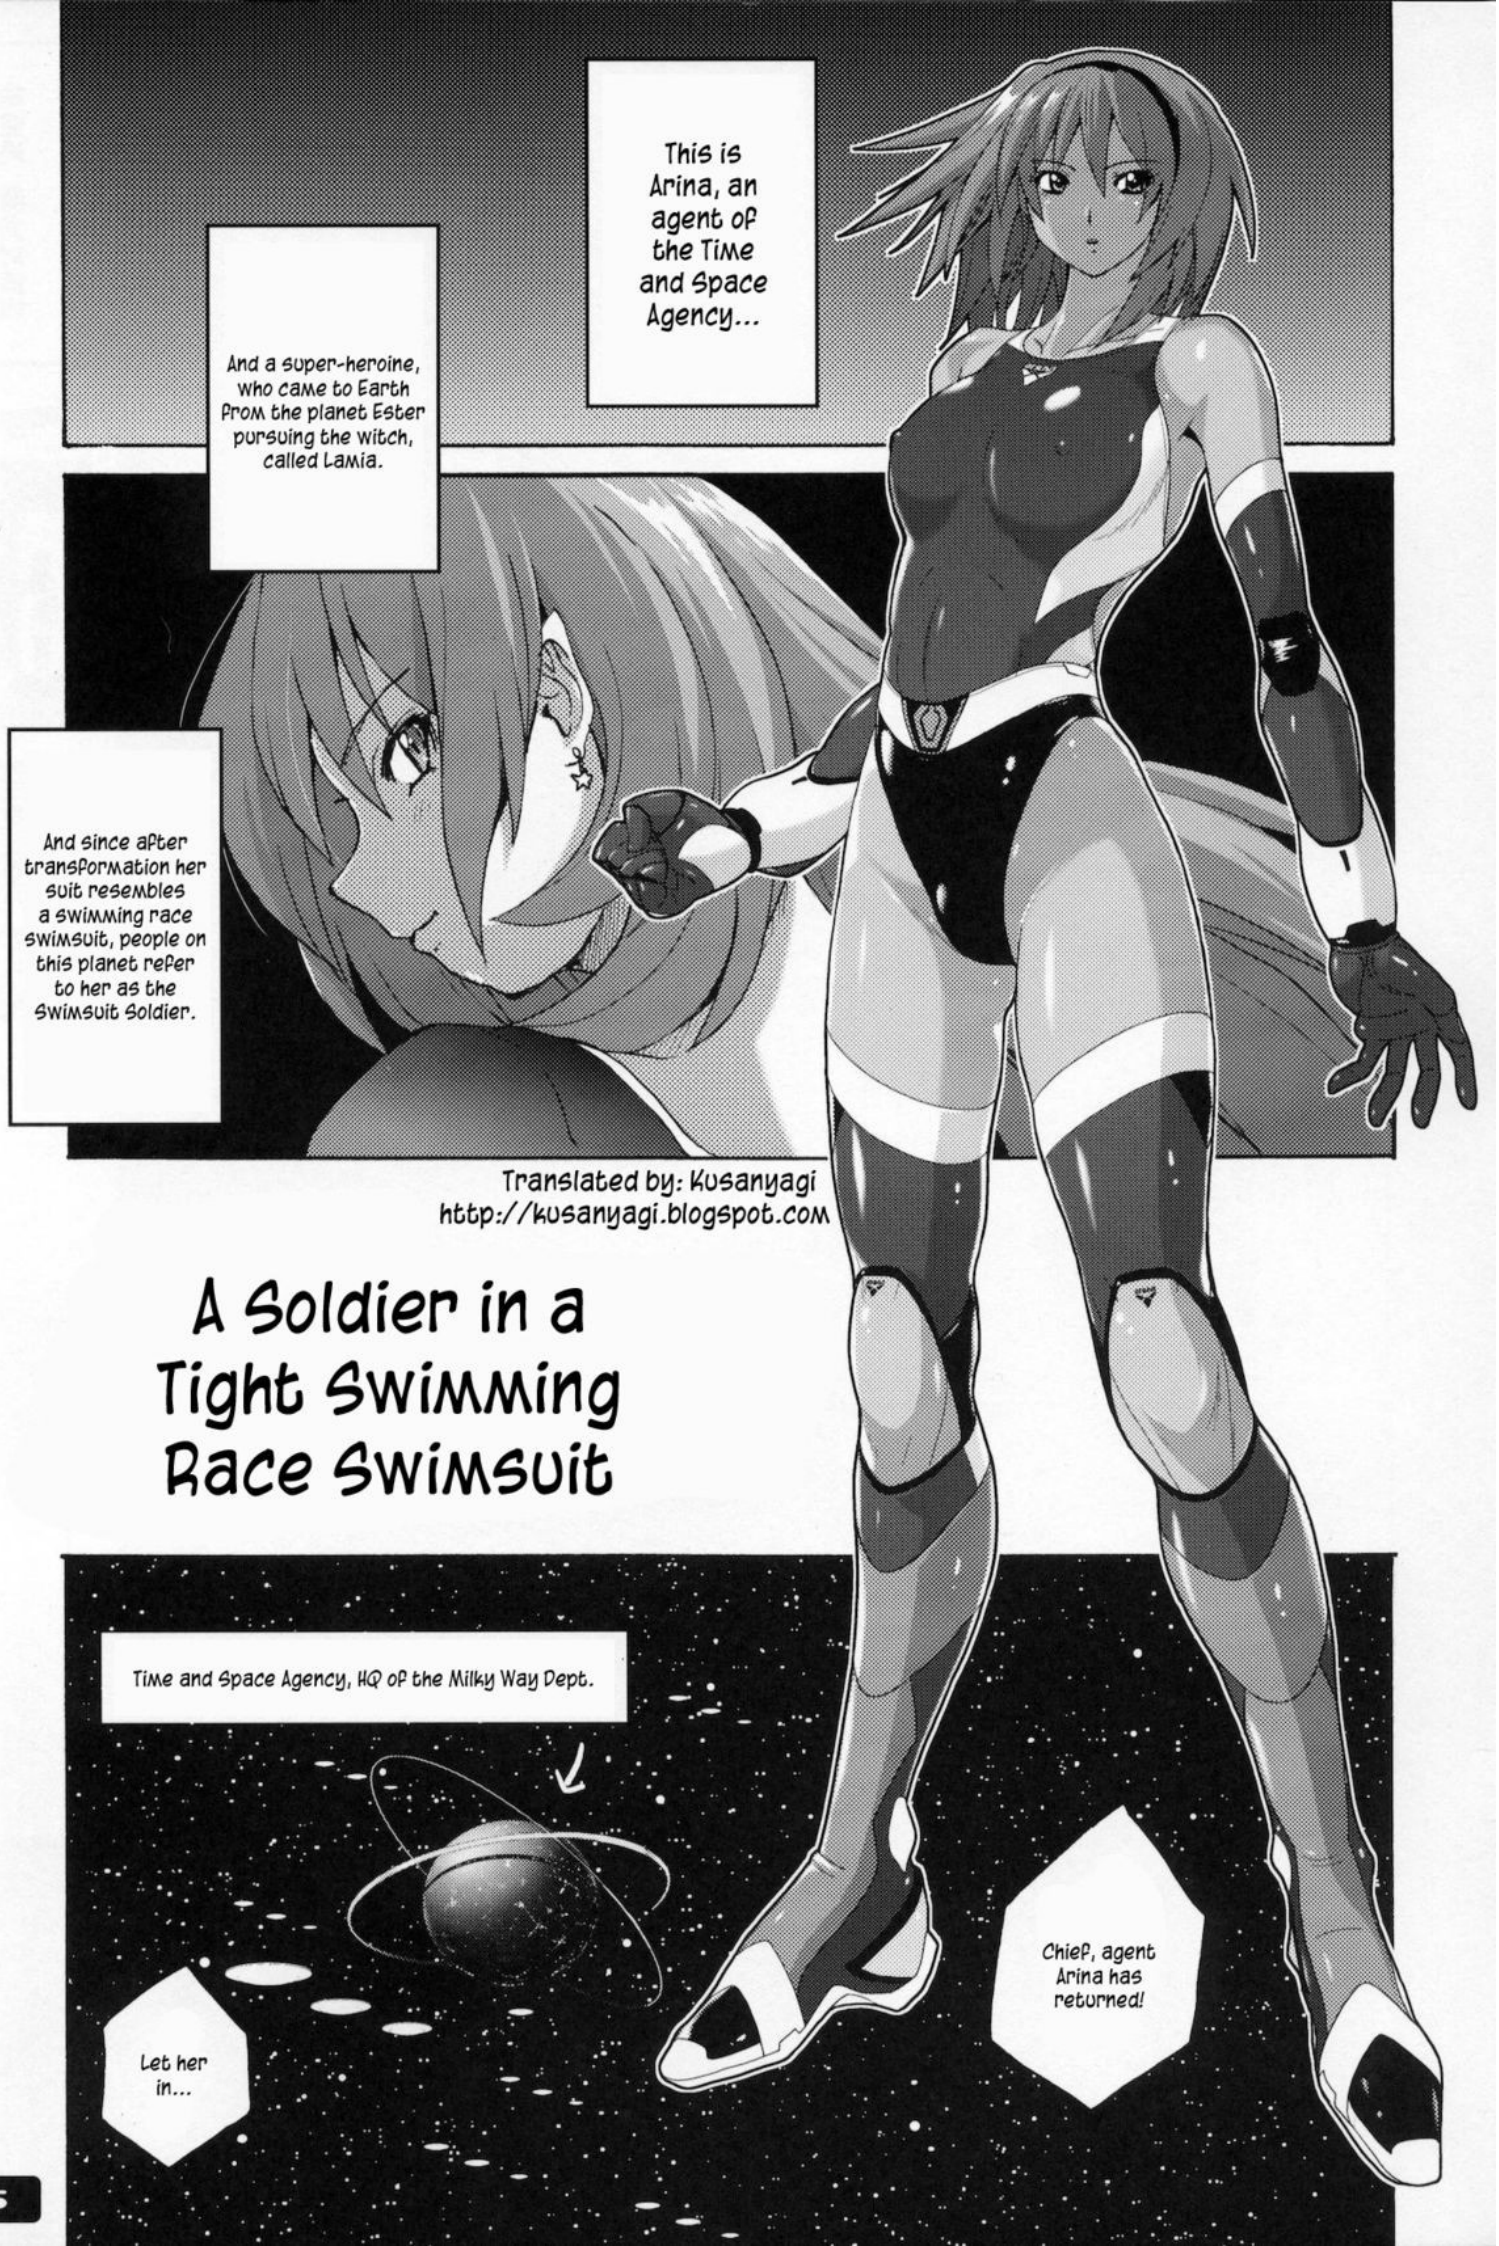

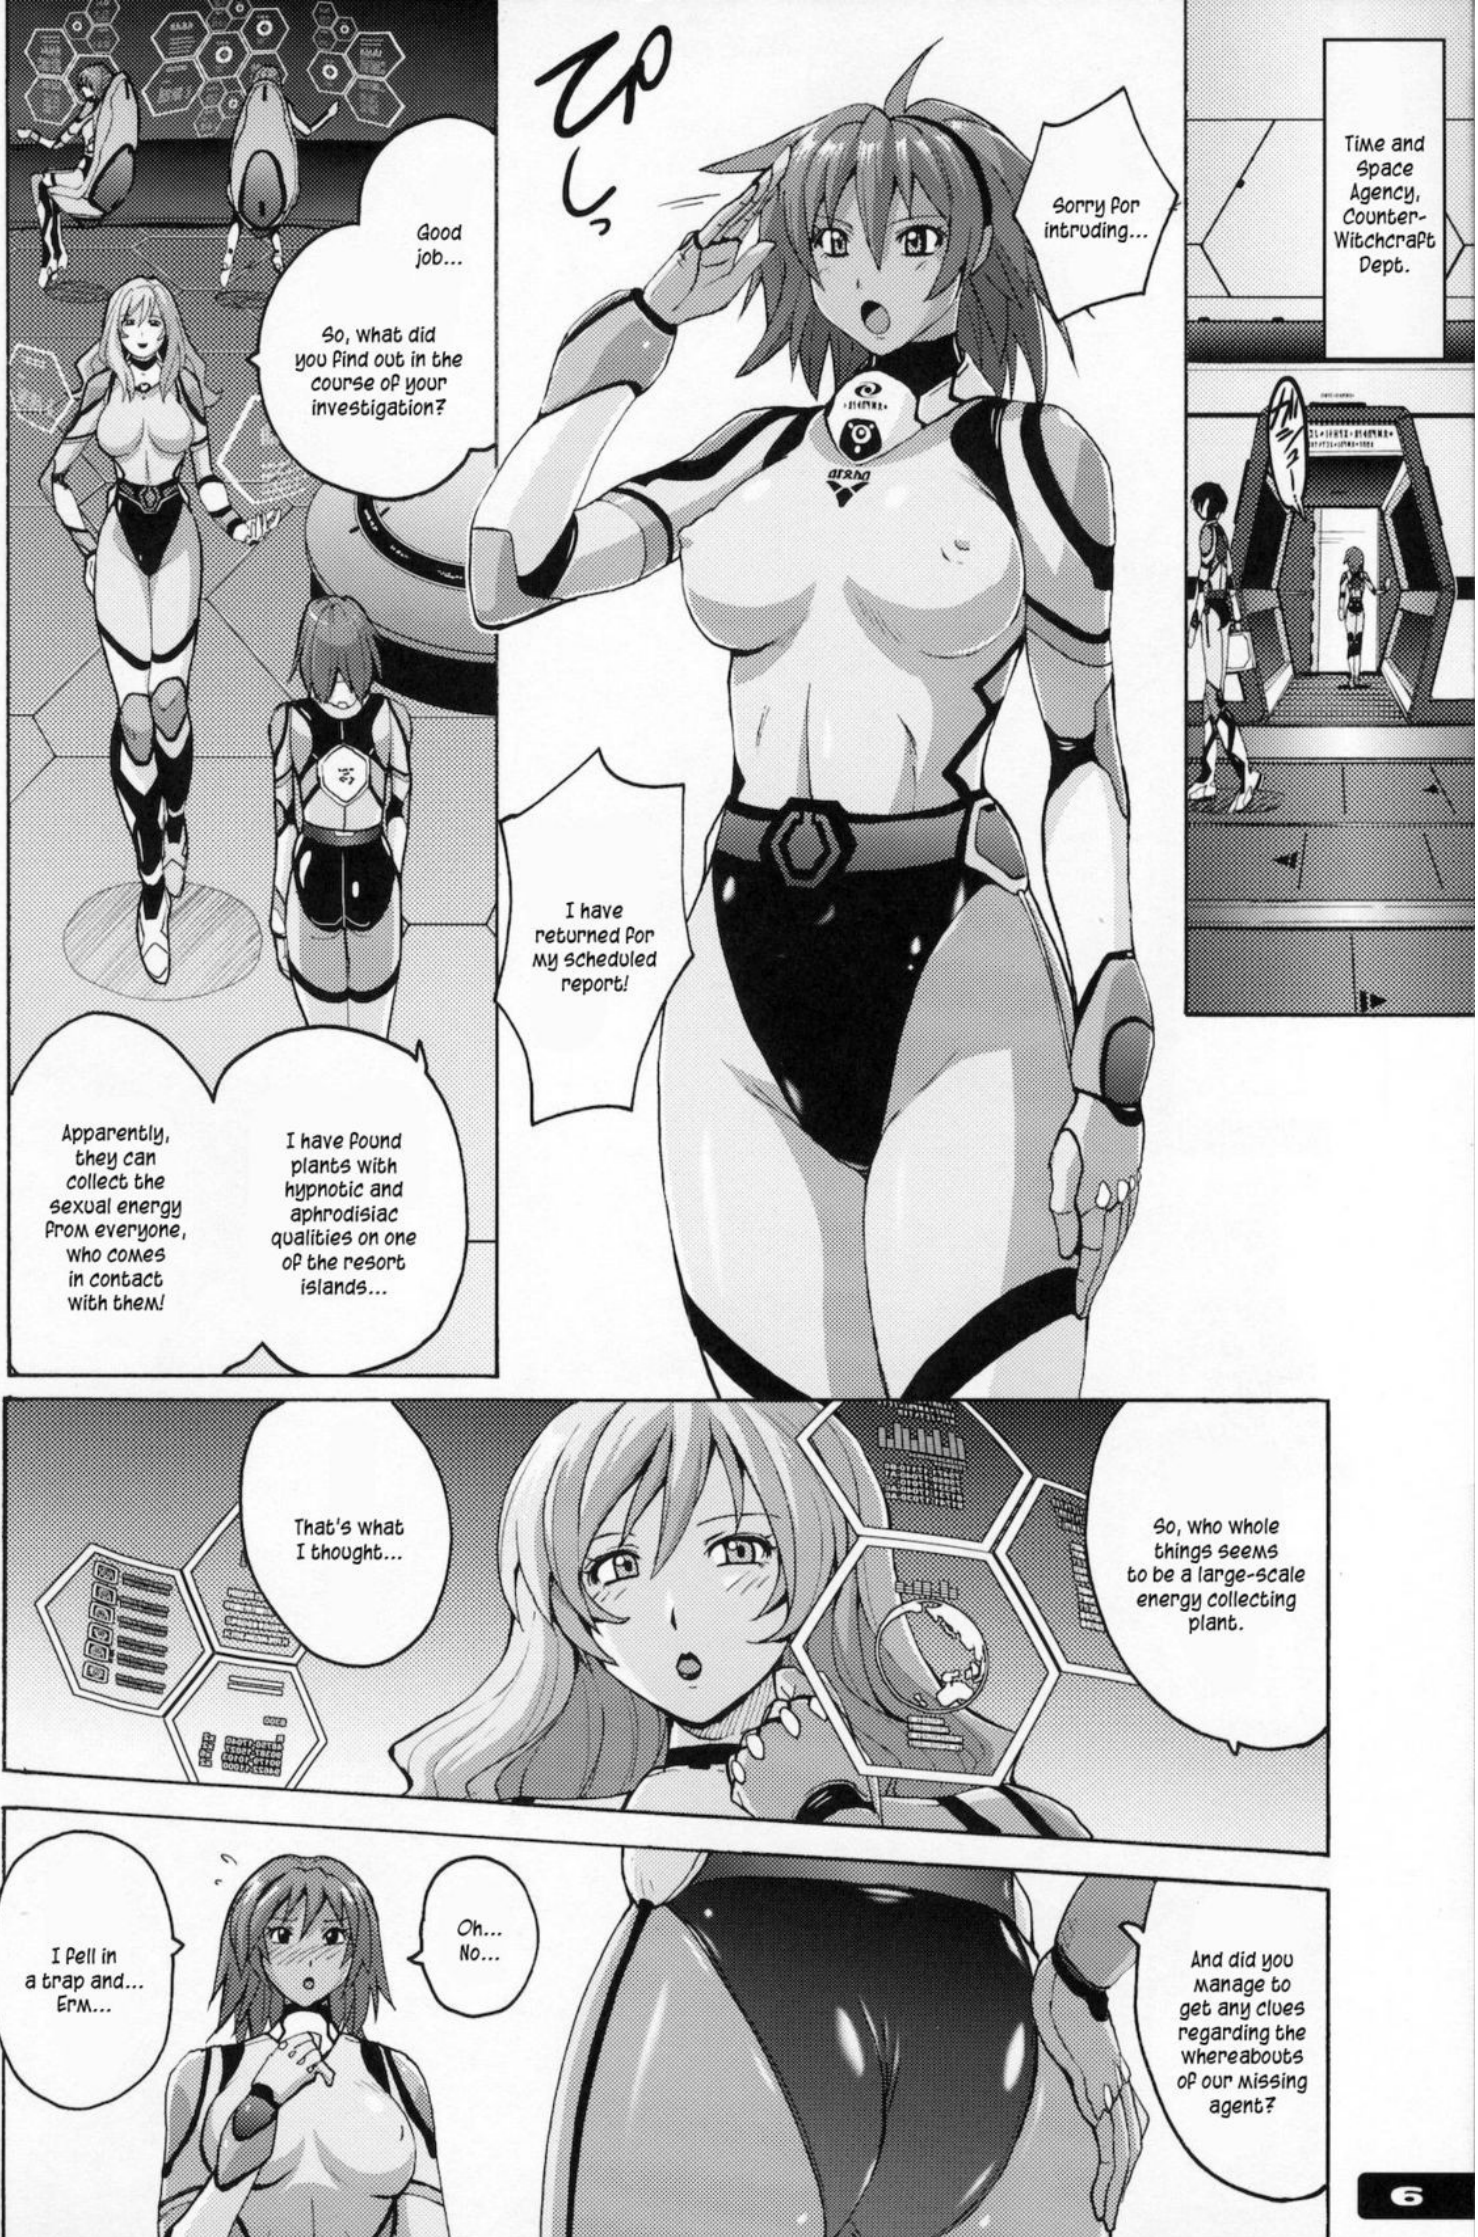

Elise
Chief of the Counter-Witchcraft Department of the Time and Space Agency.
She is a highly skilled agent and Arina really admires her.
She also has a futanari younger sister who is also an agent, but currently she is missing.
Other than that, she was once Lamia's teacher.
She is bisexual and by now, she has fucked silly many of her male subordinates.
The levels of her sexual energy are extremely high and thus, she can use her V-Panties** really well.

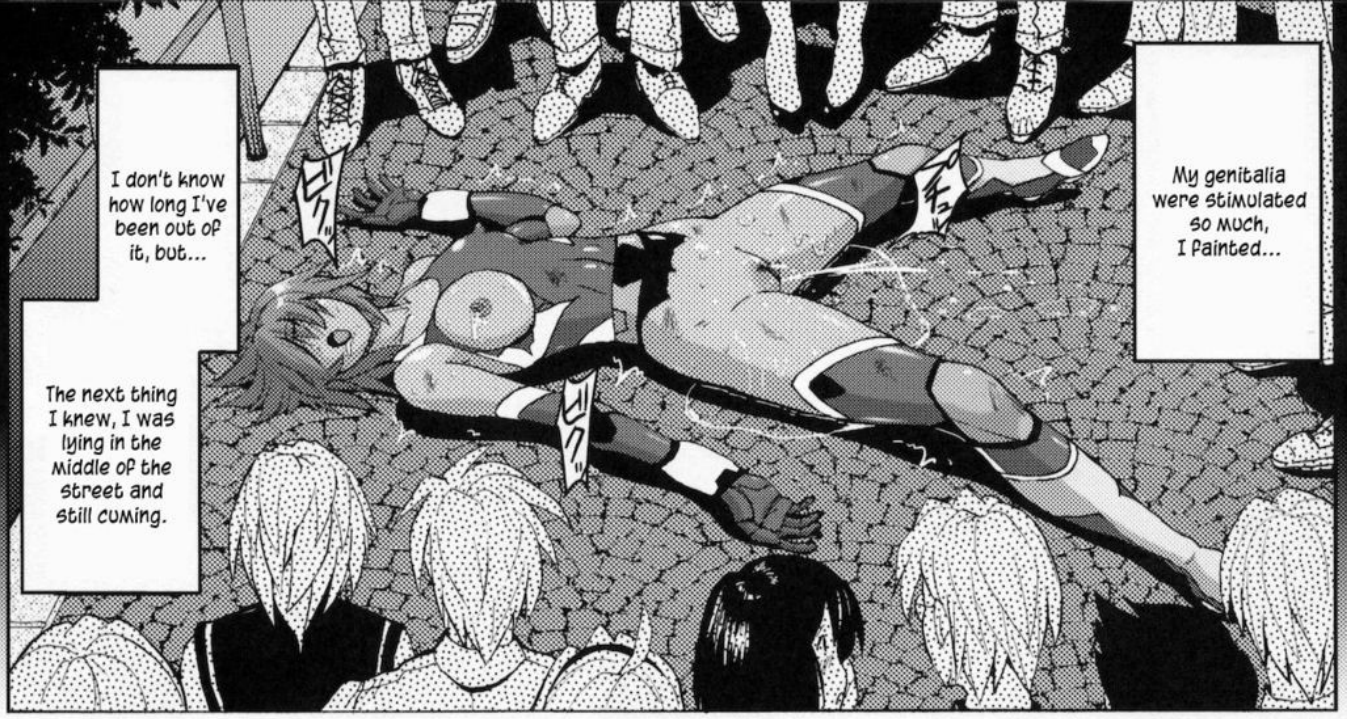

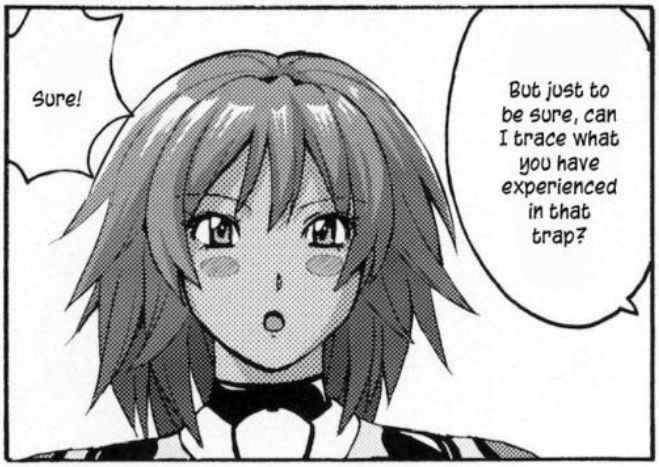

Lamia
A witch from planet Ester, whose witchcraft*** stems from sexual energy. She used to be an agent as well, but after she found out about Earth's FE Levels****, she decided to move there.
On Earth, she runs a sex fitness club, where she employs fetishists of both genders, feeding on their sexual energy. She has studied sexuality and witchcraft for a very long time and thus, she can easily manipulate one's sexual feelings. Additionally, she has also created various mechanisms and artificial creatures that can make humans cum.
According to the space law, moving to planets that are not part of the Space Federation is strictly forbidden, she always has problems with agents of the Time and Space Agency. Nevertheless, human fetishes make her witchcraft so strong, probably even the entire agency won't be enough to take her down now.
However, if you cut the source of her energy, she will once again become just a neat and clean girl.

*Sexual Energy
The life force of Esterians, who are sexually much more advanced than Earthlings. This energy is collected in genitalia and gives them pleasure as well as spiritual and magical powers. It is very similar to human lust.
**V-Panties
Transformable suit that can turn one's sexuality into energy. Underwear is its basic shape, but it can turn into a uniform or battle suit just as well, changing its shape and color.
In battle suit mode, they pull one's sexuality to the surface and provide sexual pleasure. This improves the agent's abilities, but it also makes him more sensitive and thus, unless he can keep the excitement under control, he can't stay in that suit for very long.
Nevertheless, if an agent gets excited on his own, the back side of these panties will shrink to a T-Back, which is accompanied by a sharp decrease in strength.
***Witchcraft
Same as human witchcraft. Witches can change shapes, use magic and so on.
****Fetish Element Level
A certain spiritual power, based in sexuality. It is located between one's clothes and body. Under certain conditions, it can increase one's sexual power. Humans have extremely high FE Levels, which are very addictive to Esterians, as they provide them with extreme stimulation. FE Levels are also important to the performance of Variable Panties.

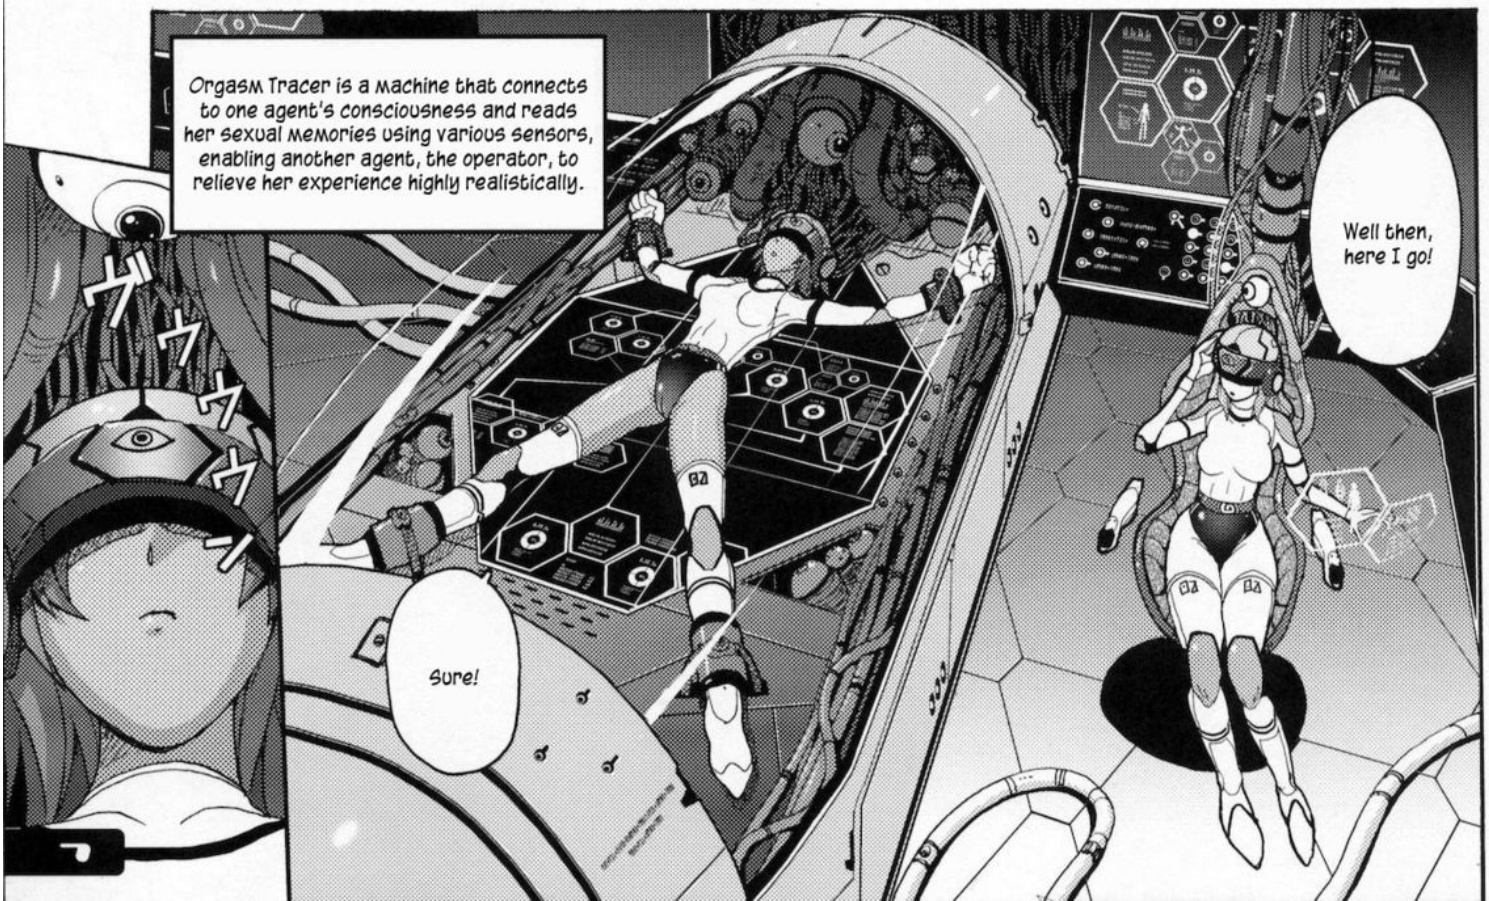

This is Arina, an agent of the Time and Space Agency...
And a super-heroine, who came to Earth from the planet Ester pursuing the witch, called Lamia.
And since after transformation her suit resembles a swimming race swimsuit, people on this planet refer to her as the Swimsuit Soldier.

A Soldier in a Tight Swimming Race Swimsuit
Time and Space Agency, HQ of the Milky Way Dept.
Let her in...
Chief, agent Arina has returned!

Time and Space Agency, Counter-Witchcraft Dept.
Sorry for intruding...
I have returned for my scheduled report!
Good job...
So, what did you find out in the course of your investigation?
I have found plants with hypnotic and aphrodisiac qualities on one of the resort islands...
Apparently, they can collect the sexual energy from everyone, who comes in contact with them!
So, who whole things seems to be a large-scale energy collecting plant.
That's what I thought...
And did you manage to get any clues regarding the whereabouts of our missing agent?
Oh... No...
I fell in a trap and... Erm...

I don't know how long I've been out of it, but...
The next thing I knew, I was lying in the middle of the street and still cuming.
My genitalia were stimulated so much, I fainted...

But just to be sure, can I trace what you have experienced in that trap?
Sure!

A regular trap wouldn't be able to make an agent cum so many times, she would faint, huh?
There is a high chance that you came in contact with Lamia's technology...

Orgasm Tracer is a machine that connects to one agent's consciousness and reads her sexual memories using various sensors, enabling another agent, the operator, to relieve her experience highly realistically.
Well then, here I go!
Sure!

Agh!

Its limbs keep attacking me one after another!
I have to find the actual body of this thing, otherwise my investigation won't move forward!
Uaghhhh!
Ugh...
Wha...!?
Crap! It was in the ground!

What is this place...?
It looks like an energy absorption chamber...
I see... It's a sex trap that will copulate with anything that emits sexual waves, huh? So, as long as I don't get excited, it should be fairly easy to get out of here!
Is this thing a local species? Or could it be...
Ughh!

Ughh!
This is... An aphrodisiac!
Oh, this is bad!
I'm getting excited!

Oah!
Oh!
Uohhh!
Uohh!
Ugh!
If things go on like this...
Uagh! It's so deep inside me...
I... I can't pull it out...
Ohh!

Nn...
Nn!
Oghhh!
Ohh!
Ohh!
Oghhhhh!
Ohhh!
Ohn!
Ohh!
ズズズ

It just penetrated my panties!
And it's also administering me relaxants, so I can't even clench my holes...
Uh!
Oh! Uohhh!
Spermaglers are organisms which enter one's genitalia and asshole, rummage in there and then burst, turning into liquid containing an aphrodisiac. They give extreme pleasure to one's genitals, forcing the person to have an orgasm and making sure that it doesn't end soon.

Uaghhh! Something is crawling inside of me!
Wha... What in the world is this!?
Oahhhhhh!
Uh!
Oh!
Ah!

Oh, no!
I'm going
to cum!
Uogh!
Ohh!
Ohh!
Ohhhhh!

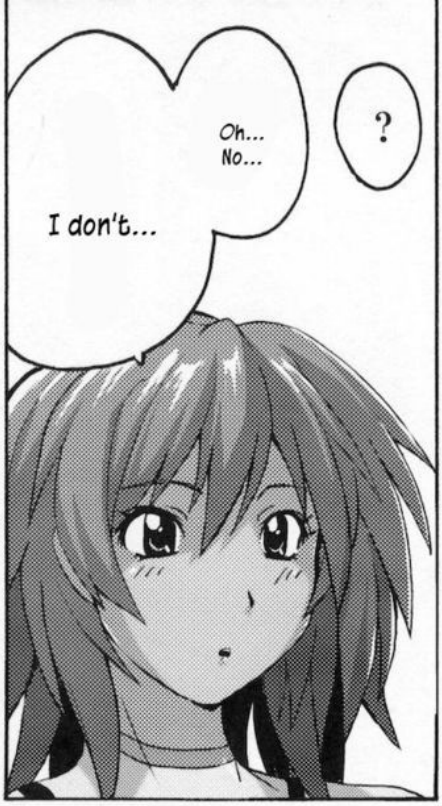

Oohhh!
I can't believe it...
It feels like even my womb is cuming!

Ahh!
Warning! Warning!
Ahhn!
Excitement Level Overload!
Uahn!
You are about to faint. Please stop tracing current memories. You will lose consciousness in 5 seconds.
Operator is having an orgasm and thus, she is deemed unable to operate the equipment.
Auto-shut down initiated.

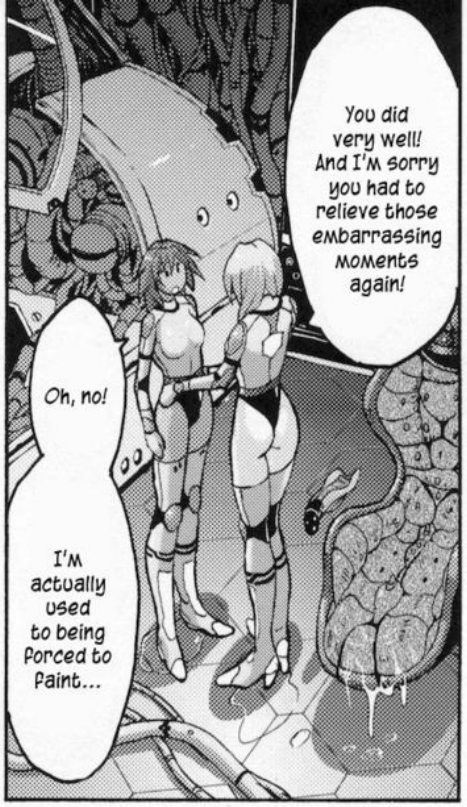

Are you alright, Arina?
Ah! Yes!
I am a little excited, but I'm get hold of myself in no time at all!
There is no doubt that was one of Lamia's energy collecting devices! Nothing else could give you such pleasure...

Well, the tracer reproduced everything correctly.
But it seems that this device has crossed even the boundaries that Lamia herself had set for it. Could it be just broken?
That thing has no emotions and thus, it copulates the same way it would digest its prey...
Ohh! Ohhh!
And it can keep you in the state of orgasm for quite a long time...

And I don't remember what happened after that...
Finally, I couldn't help it anymore and fainted...
It has subsequently violated both my pussy and asshole very violently...
And kept sucking on my erect clitoris for a very long time...

Oh...
No...
I don't...
?

Hey...
Do you have a lover?
...

You did very well! And I'm sorry you had to relieve those embarrassing moments again!
Oh, no!
I'm actually used to being forced to paint...

And it's also important to have sex during your breaks, if you don't want to get excited at work!
もみ…

Alright...
I'll do my best!
かぁ。

*Giggle...
Why don't you try transforming now?
さわ
You mean... Right now?
さわ
That's right!

Ah... Alright.
If all your sexual experience keeps revolving around being violated by monsters and forced orgasms, you will forget that you're a woman!
That's bad! Considering your age, you should be sleeping with guys as well already!
ナデリ

Variable Conversion!
Do you want to send me on some mission?
That's right!
My mission...

Wow... She has so much sexual energy!
Uh...
Because, you see, it's my job to take care of my subordinates as well!
Ah!
Did you know that your could use your battle suit this way too?
Huh!?

Your suit can give you the kind of pleasure you've never felt before; all you need to do is wish for it!
Ah!
Ahh!
Eh... Elise-sama, we can't do this! I'm getting excited...
Nn!
He-he!
Wha... What is that?
Your variable panties can change their shape according to your requests!
You can make them wrap around your clitoris to form a penis and then, you could even stick it inside a man's butt and turn it into a vagina!
That's fine!

Your panties started cutting into your flesh like crazy, because you got really excited! Isn't that right?
I bet that when your fell into that trap and were getting violated...
My panties are always so tight right after the transformation! How did she manage to pull them away this easily?
Now, look at that! Your penis is super-hard already just as well!
Ah!

That only happened because I was resisting and trying to escape!
Eh!? No... That's...

Ah!
That's...
Not true...
The aphrodisiac you were administered turned you on and you finally showed your masochistic nature, huh?
Oh, you little liar!
Uoh!

I want you to entrust your body to your sexuality and let your excitement rise from within you!
Oh!
Oh!
Nn!
You can forget that you're an agent for now! Just be a woman!
Ah!
Ah... Yes!
I bet it feels good down there already, doesn't it?
Ahn!
Good... Your nipples finally got hard too!
And panties can't lie, you know!
Look how hard your panties are cutting into your flesh already!

I guess this must be your weak spot then, huh?
But considering how big your clitoris is, I guess that's really no wonder, huh?
I can't believe you got this excited after I just tapped on your panties a bit...
Elise-sama! Don't...
This is just...
Wow! It's getting even bigger!
You can suck it just like a dick now!
I'm still under the influence of the aphrodisiac I was administered back in that trap and that's one of its side-effects...
Nn!
Uohhhh!

Oh!
Ah!
Uohh!
Nn!
Nn!
Nn!
Nn!
I'M going to...
Cum now...
Ah!
Ah!
Ugh! I'M cuming...
Oh, no!
Elise-sama...

Ah! I came...
Ah!
Again...
Ohh!
Uohh!

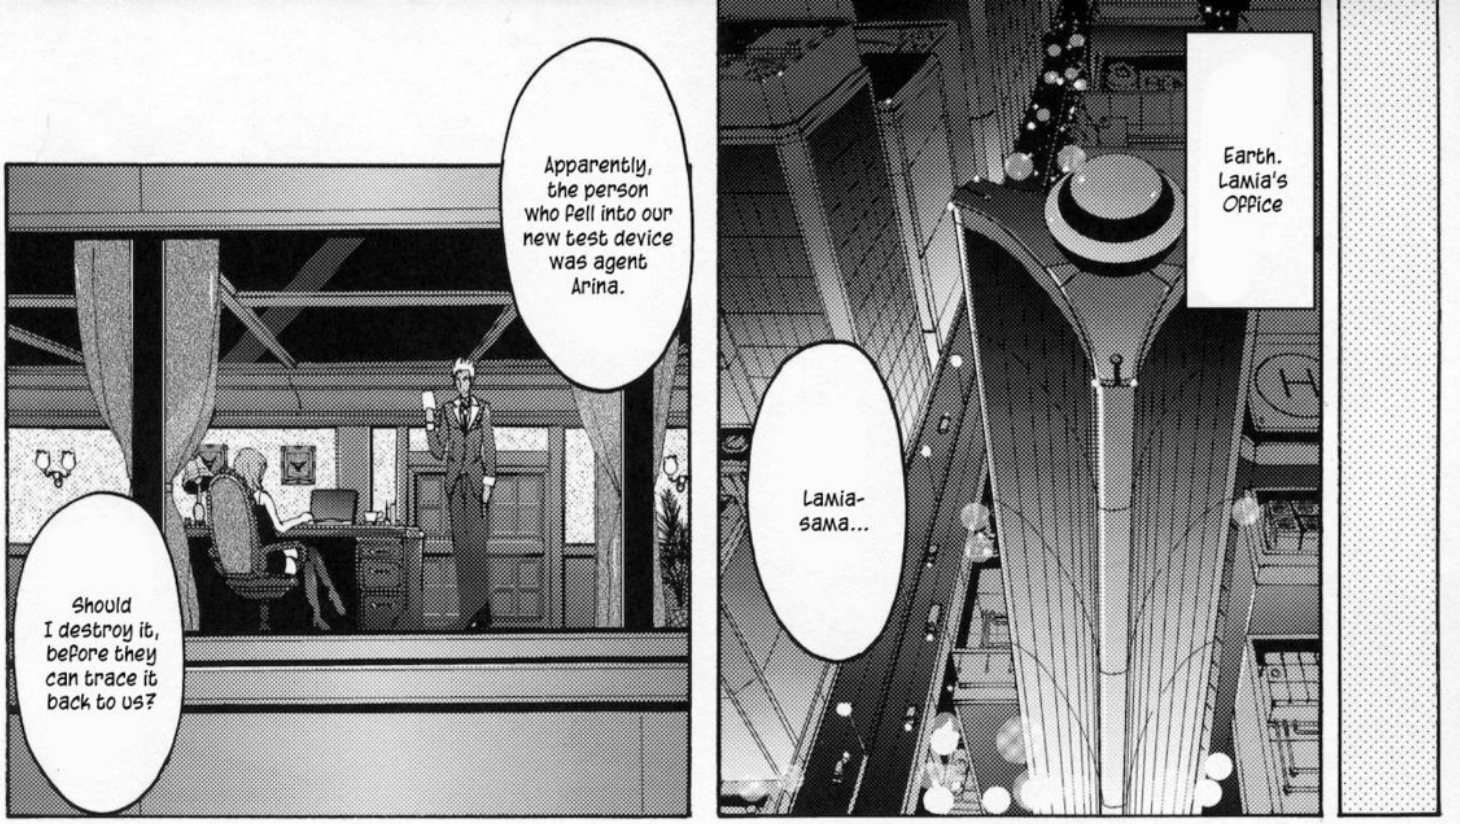

Ah!
Come on now, turn around!
Oh, no...
It's coming out! Oh, no!

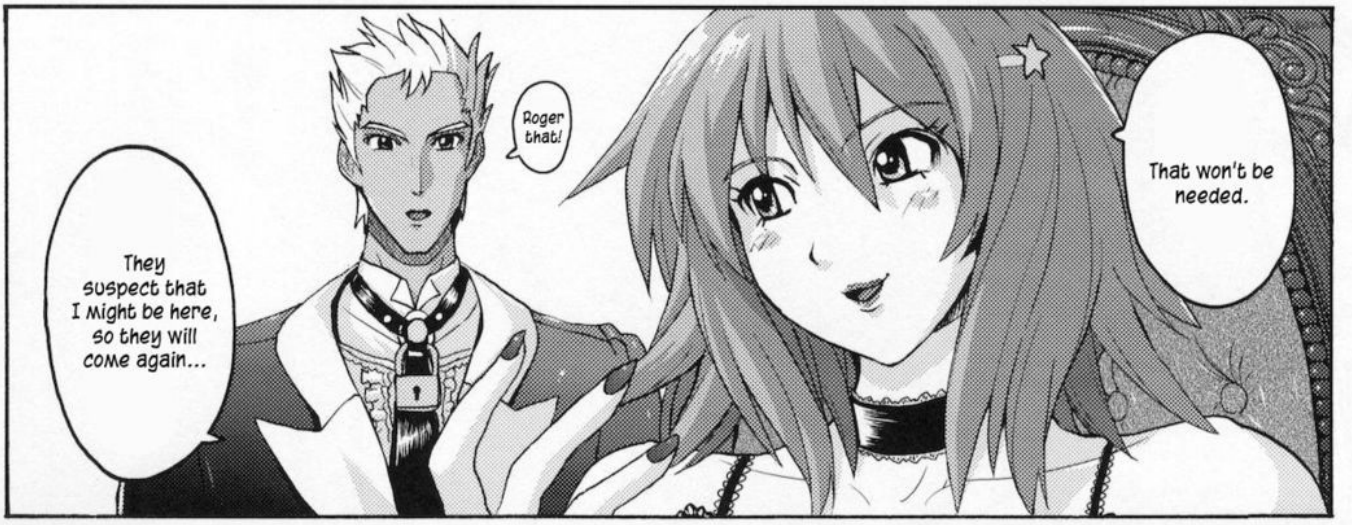

Did you cum already?
That's way too soon! Only men should cum from blow-jobs!

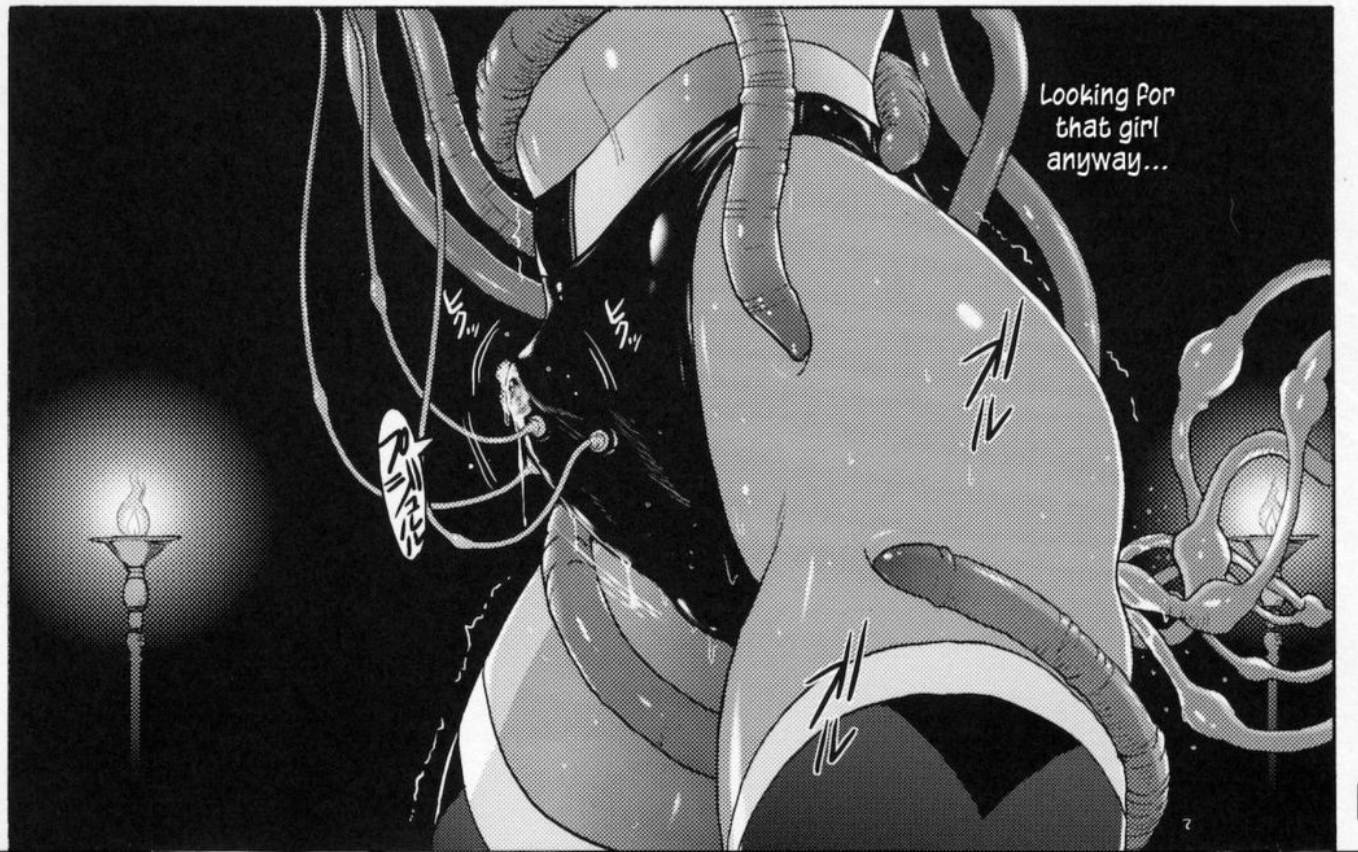

It's alright! Squirt it all out!
Ah! Ohh...
Ohhh...
Uhn!
I bet your panties have wrapped around your clitoris really tight by now, huh?
Ah!
Ah!
Ah!
Ah!

Ohn!
Ohn!
Ohn!
You know, you're such a strange girl! You can still keep fighting...
Even while getting violated by tentacles in front of a crowd, but you get shy while having sex with another person!
Or is it embarrassing, because I'm sticking my dick inside your work panties?
Ah!
Ah! I'm... I'm going to cum again!
I'm going to squirt like crazy, Elise-sama!
Come on now!
Let me see it!
It's alright!
No! Wait...
Ah!

オ゛ッ゛ッ゛ッ

Apparently,
the person
who fell into our
new test device
was agent
Arina.
Should
I destroy it,
before they
can trace it
back to us?

That won't be
needed.
Roger
that!
They
suspect that
I might be here,
so they will
come again...

Looking for
that girl
anyway...

Ah...
Ohh...
Ahh!

Postscript

Hello and nice to meet you! This is Murasaki Nya.
Thank you very much for taking this book into your hands.
This time, I tried a new theme.
If you read my previous works, you know that the characters who appear in this book have been around for quite a while.
In my first CG Collection, there is a picture called "Arina, a Soldier in a Swimming Race Swimsuit, " featuring the protagonist of this book as a giant fighting some monster. In that picture, her swimsuit is red, which is an "Ultraman" reference.
After that, she appeared in different setting in all of my subsequent books. I also published some pictures of her on my web-page and soon, she became one of my regular characters.
Therefore, I decided to make a manga on her as well, but since she has always been a kind of a comedy character, I just couldn't come up with an explanation for her wearing this swimsuit.
Additionally, I couldn't come up with any setting and scenes for this manga, so kept finding myself in a dead end.
Nevertheless, when I started drawing some bonus pages for my "Tight Swimming Race Swimsuit CG Collection 2," I felt like I could take this story somewhere and decided to make that its first chapter.
Now, if you're wondering why she's wearing black panties as part of her swimming race swimsuit, it is because I wanted to make her look more like American Super-Heroines, whom I like quite a lot.
And also, I wanted her to find herself in a pinch in that outfit. I guess you can say, I wanted to draw a heroine in panties in a pinch.
So, this is the beginning of the "Panties in a Pinch" series! (Probably)
Other than that, this time the Masochist Man didn't make an appearance, but he will definitely be in my new leotard book. And if I'm going to continue this series, I'm also planning on drawing him wearing a long-sleeve RushGard-type swimsuit. You will see the Masochistic Man in Panties in a Pinch just as well!

Well then, see you next time!
