I CAN'T

RAINING
RIGHT IN
THE MIDDLE

Hot damn, it's been a while. Sorry about the delay, I had some serious PC problems (tl;dr, I built a new one), and have been really busy in real life (unfortunately) to boot. But no, I don't plan on stopping any time soon. Hopefully my next few will be quicker, but even if not, once it gets to about mid-December I'll definitely be pumping these out a lot faster. Teehee.

As for the translation, I do have a small note. What I refer to as a "bet" is actually "罰ゲーム" (batsu geemu) or "Punishment Game." It's basically a game where the loser has to do something decided earlier by the participants. Since there really isn't a completely accurate translation for that in English, I just changed it to the closest thing I could think of. Not really a big deal, but hey.

The editing for this was easy. That's actually why I think I'm probably going to do the rest I chose out of Otokonoko Heaven Vol. 11 before I do any full colors. I just don't have the time for that right now. I was actually going to do Desire Case 2.5, as I found a blank copy I apparently edited earlier, but then I realized I'd have to go and edit all the fucking text in the background. Not happening right now. However, once I do have the time for full colors again, I'll probably do that one, so expect that.

Lastly, I haven't had the time to read through the latest trap or fetish (I was thinking of doing some futa-on-male that I really liked some time soon) releases, so I can't say anything about that. However, unless one of them completely blows my mind in terms of quality, I'm probably going to go through and finish the chapters in OnKH 11 I liked. Until next time (hopefully sooner this time)!

HAPPY FAPPING!
