MYSTERYMEAT3 TRANSLATIONS

-NO COMMISSIONS-

-NO DONATIONS-

-JUST FAP-

Good stuff. I have a real soft spot for nonhumans in general, and nonhuman traps just put the icing on the cake. Hehe. There really needs to be more traps like this. No, putting nekomimi or a butt-plug cat tail on a human trap doesn't count! It's not the same, dammit! Do I need to go on a Keima-style rant about this? Well, leaving that for later, the chapter itself was really good. I really liked the art above all.

The translation was easy. So was the editing. No notes of any kind for those.

I still don't have a definite order down for what I'm gonna translate next. I do know it'll be great though. I'm thinking maybe a dicca one that I really liked, or possibly a full color CG one with great art. Whatever it is, it'll probably be pretty long and/or have some effort involved, after all the short ones I've done recently. Until then.

HAPPY FAPPING!
