An Illustrated Guide to Young People's Jobs in the Heisei Period

The Appeal of the Futanari Business P-Talent

It's a job where you appear in P General Labs' brochures or in promotion videos and promote new P products.

The job we introduce to you today is "P-Talent". That's what P modeling is called.

She started this job as a part-timer while in university, and now she's making a living doing it.

This is 23-year-old Niidou Mizuki-san's third year on the job.

In the time between, they lose their old Ps and grow new ones.

Photo shoots are done about once every two months.

Okay.

Okay! Now do it yourself.

P General Labs has 5 P-Talents at the moment.

Life of a P-Talent

She doesn't wear panties that could hold down her P either.

For a P-Talent, their P is their life, so Niidou-san doesn't wear pants that could leave marks on it. Only skirts.

She eats meals rich in protein and takes lots of zinc and vitamins.

Lying face down is also strictly prohibited.

She goes through stamina training every day to keep her P in shape.

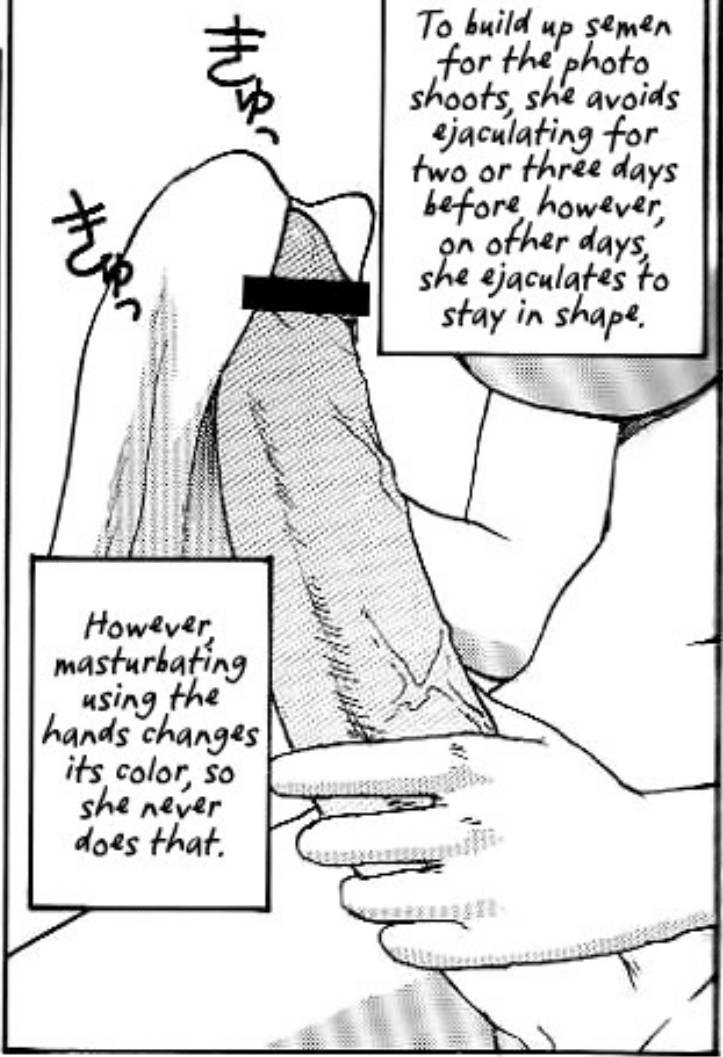

She sits up straight. Sinks into her own thoughts for a few minutes...

How does she do it then? Niidou-san will show us right now.

To build up semen for the photo shoots, she avoids ejaculating for two or three days before however, on other days, she ejaculates to stay in shape.

However, masturbating using the hands changes its color, so she never does that.

And she cums without even a little bit of stimulation with her imagination alone.

Niidou-san says it gives even more pleasure than just hand stimulation...
And on top of that, it's good practice in concentration.

During that time, Niidou-san keeps her p erect and ejaculates as per her instructions.

One photo shoot takes roughly two days.

Well then, the shoot has reached its climax already.

Niidou-san is instructing two facial models.

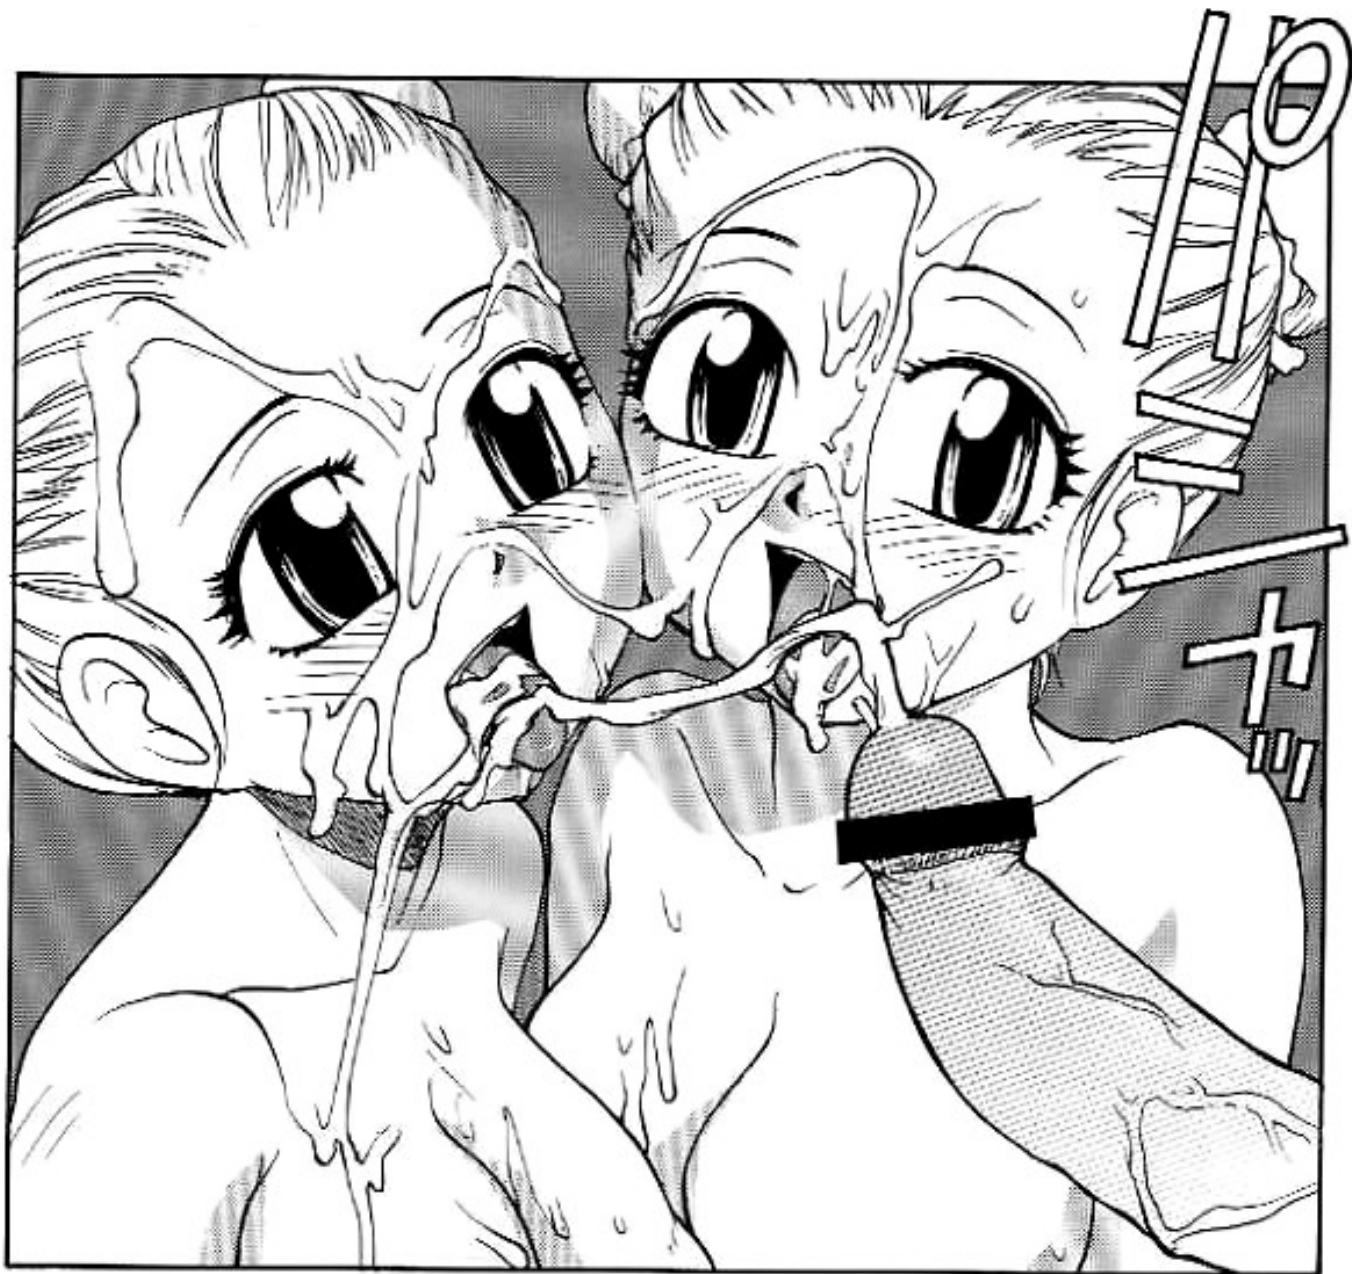

What kind of expression should you make to show the tastiness of semen...

Her right hand has begun to move.

Her reputation as a P-Talent is at stake right now.

- Test for a position in the company - Nothing special.
A lot of people start as P-Commentators.
- Qualifications - No special qualifications needed.
- What's Needed - Courage, concentration, self-discipline,
a body able to withstand genetic surgeries being
done once every two months.

Boys can't become them.

If you don't have a P, it's out of the question. For people without it, contacting P General Labs is the first step.
