

Pleased to meet you.

Pain!
Fly Away!

But as it stands, it hurts just from having your shirt rub up against your chest, right?

Ow...!

That smarts!

happens to everyone, you see?

This particular condition...

It's not a disease, so you can put your worries to rest.

Ow Ow Ow...

He's no doctor, though, so keep it a secret, or he'll go to jail!

Just leave it to Onii-chan, he'll fix you right up, but...!

Well!

たまご

Umm...

Please do it!

I am so lying through my teeth right now...

What do you say?

There you go, if you can keep it a secret, I have no qualms about healing you...

Wow, so pretty~!

This pain is a signal that your body has started undergoing changes.

Stimulating the body urges the secretion of growth hormones...

And if your body grows quickly so too will the pain be healed quickly!
(Big fat lie)

Is that... so?

I don't really get it, though...

We stimulate this place!!

Hya!

Using this special medicine...
(Lol, it's just regular lotion!)

In addition to that...

Yeah, when I had it, it didn't go away the first time either...

I'll have to administer a special medicine to heal you for good!!

Yah!

But the tip is barely inside....!!

I'll release the medicine in a jiffy, ok?!

Hi

It hurts!!

You're tearing... me apart!!

Don't tell me you're actually enjoying this...

Nozomi-chan...

Oh it was
no trouble
at all... though
the treatment
became sorta
meaningless
halfway
through...
HaHa

Thank
you very
much for
today!

U-Um...

HaHa...

You
knew,
huh...?

don't
cheat
on me.

I'll
keep this a
secret from
everyone
else, so...

If
anything
like this ever
happens again,
fell free to
come to
me!

Oh!
And...

Yes?
