Editorial Note.

Hello, Yuki Yoshi here.

First off, after I released the summer comiket book, my mind went blank.

This time it's an original story with middle school netorare! Yup, sure is.

"Finally an original story, I'm all fired up to create a more realistic girl since they're hotter that way." With that in mind, my 'other head' came up with Kimura-san (14 yrs old.)

When she's alone in class she has this image of superiority. A big girl with a 'not a virgin' aura. Her hair is beautifully dyed with a light brown, she wears short skirts, make up and perfume casually. However, raised in a fatherless home she had to mature faster than her peers, because of that and against all expectations she's honest and responsible.

Her boyfriend, Takashina-kun is the soccer club's MVP, a handsome and popular in the school type of guy. He fell for Risa at first sight when they were classmates during 2nd year. They were friends for 10 months and finally kissed on the spring of their 3rd year. From then on, it only took a mere month for them to have sex, and it was crude manner. Carelessly boasting about it to his club mates lead to rumors spreading all over school, this caused a 'cold war' atmosphere between him and Risa.

The old man... is just an old man (; V).

He has the criminal habit of snatching up a student every year. Transferred as the dean of students, he has long and hidden connections with the school board... He's a sly old pervert. Even though he breaks the 'old man' character a bit, being able to keep drawing him without worrying about that was a bliss (^ q ^). Yet, I had my doubts about things like how far the characters will develop and how many secondary characters should be added.

The next part is still vague, because things are still awaiting priority and feasibility verification.

I already have plenty anime and game characters I want to draw.

Since my body is a piece of junk, when the times comes, I'll draw them with all my strength, even if I end up exhausted.

About winter comiket, since we're in the worst place, I'll refrain as much as possible from giving external declarations...

Well then, thank you for buying my first original book!

Yuki Yoshi Mamizu from the Hito no Fundoshi group.

I finally got my hands on those nendoroids I wanted so much!

The most recent pair [Saber & Rin cheering version], they are so cute, but regrettably when they came out... I missed them. Once I bought them, with the source material in my mind I made this super deformed sketch, it kinda looks similar but at the same time it kinda doesn't.

On another case, sleeping with a latex pillow is awesome. People suffering with stiff shoulders, please give them a try.

...This isn't stealth marketing, okay?
