Okay.. So I went ahead and translated one of Yanagida Fumita's work because I'm currently free at the moment due to enemployment and my neighbor still hasn't locked his wifi network. In doing so, I hope I haven't broken any weeb rules in the internet, because I can't really afford bail right now. Also, I recommend that you read Yanagida's other works, whoever is reading this. That person can really draw! There are actually two more books that has Chiyuru's other friends as their main characters. I love seeing stories weave together like that.

Finally, I don't really care if you leave this page out when reposting this set of images but please, for the love of everything shining under the stars, don't tell the authorities that I was behind this.

Also, I need work.

PS: I've considered putting the translator's notes here, but I wasn't sure if people even read those. Also, for those asking where page 2 is, I have no idea as well. It was like that when I got here.
