2012 脱力研究会

With the advent of the internet, I'm sure most of us are so far past that line that we can't even see it behind us. Ah, progress. Anyway, the art for this was fantastic, and I really liked the cuteish story. All in all, it was good shit.

I'm actually a day behind on this, as I was going to finish it last night and upload it earlier on today (technically yesterday, as I'm writing this at 3AM), but I had a little business to take care of first defending my loli/shotacon friends. I'll post it on my blog along with this TL if you're interested. Suffice it to say, it's an argument video of 15 minutes of angry rambling, 2 minutes of ad hominem attacks, and about 90 seconds of intelligent conversation. Why wouldn't you want to watch it?

Anyway, enough of my shameless plugging (teehee). My next translation will not be either of the new CGs that got uploaded recently. They were alright, but I didn't think they were good enough to start on immediately. I'd have to look back and see if there are any more I forgot about, but if there aren't then my next one may be quite long and therefore take me a while. Not anthology long, but relatively long compared to a 16 or 18 pager like my recent ones. Until then.
