## Chapter 3

[Love Trap of the Forest!?  
Physical Lesson turns into Military  
Training?]

- Rape School is built deep in the mountain regions, away from human habitats

- The forests around the area are as thick as jungles

- The area used to be for hiking and cross country as a part of physical lessons

- However, a military maniac disciplinary teacher set up traps all over the forest, waiting for students to fall for them!?

- Time to hurry. If nothing is done, deaths will surface!!

You won't be able to survive in a war this way, you Rookies!!

WAHAHA~ Weaklings~!

Do so in a military school!!

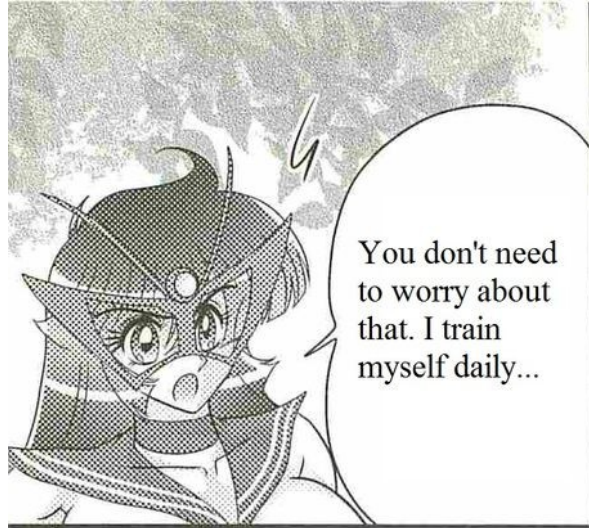

If you want to do military training...

This is just a normal school in Japan!!

Wah?

You don't need to worry about that. I train myself daily...

You have a nice body with a good potential to be trained~♡

Heh Heh Heh~ YOU, the rumored Zenra Knight huh~♡

Interesting, I shall accept your challenge!

HEY HEY HEY♡ If that's the case, try to break through my traps and defeat me

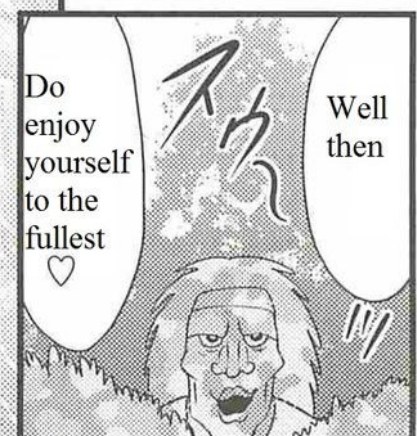

Nope...by using optical camouflage, he merged his presence into the forest!?

He disappeared!?

If you defeat me, I shall give you the map that shows the route to leave this forest safely♡ ...Not that you stand a chance anyway~

Do enjoy yourself to the fullest♡

Well then

He even masked his presence...  
Rumors about him being a former mercenary, seems like they're true

In this jungle...  
he's no different from an invisible man!!

I should watch out for his traps

...where?  
Where is he hiding?

Where is he?  
I must defeat him ASAP and save the students

A...

Females soldiers that are captured in Jungle Guerilla Warfare... That's how they are all treated...!!

That people are still suffering from war between countries... I have learnt alot... thank you, Sensei

I...I see... I did not know that.....AHHH

You don't appear that way to me

Is that really so?

Wh...what are you saying. I am a former mercenary... a pro in guerilla warfare...

Yes?

...bu...but Sensei... If I'm not wrong...you

..... Well,

WH... WHAT EVIDENCE DO YOU HAVE!!

Had never been...in an actual war!!

You just let a POW break free ♡

They can be easily undone just like this ♡

The way you tie up a POW with these ropes to prevent them from escaping...

AH!?

Do you really still call yourself a pro despite this?

It takes a pro to use traps and optical camouflage! Does that offend you!?

WH... What's wrong with that!!

...Sensei, Don't tell me you are just a military maniac who is into traps?

I am even better than an average mercenary!! Does that offend you!!

And also... I have these muscular body built from training and protein....

Uck!!

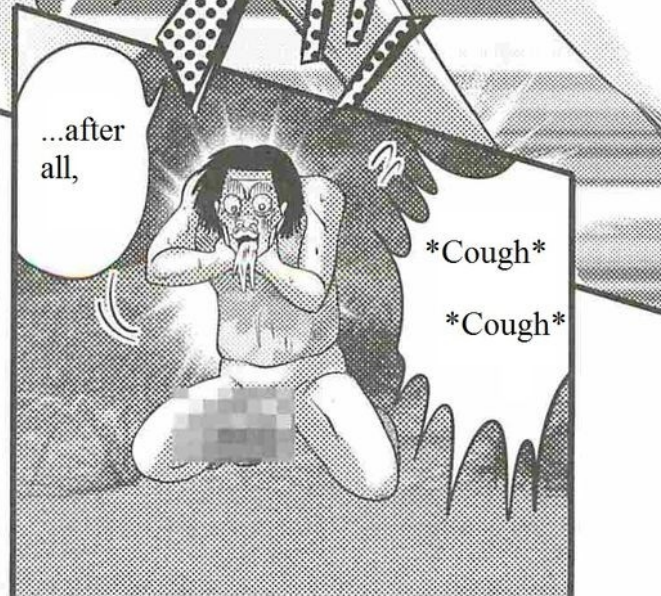

I am glad to hear that actually!!

Not at all ♡

There's no way I would stand any chance against a REAL mercenary ♡

Even for me, with just this stick alone...

...after all,

\*Cough\*

\*Cough\*

With that calibre, it's a miracle you got hired huh?  
...as a disciplinary teacher

Aside from being [Inexperienced in War], you are [Inexperienced in Combat] as well right!?

When you surpass me with traps alone, without any actual hand-to-hand combat... I already find it strange

ブルッ

Selling yourself as a REAL ex-mercenary to the new chairman...!?

Don't tell me! You made up a fake resume for the school to hire you!?

well...I doubt he is going to return here again...  
\*sign\*...  
I just got that feeling somehow~

To be continued

Ah... he escaped

...Ee...EEK~  
I...I'M SOR~RY
