This chapter introduces Kiyomi's little brother. He ended up as a trap in leather hot pants, but at first I was thinking of making him more manly, with a punk design. They kept telling me to "make him more girly," "make him like a popular slutty girl," but... is this what popular girls look like?

COU

This is our second original work. Thank you very much for buying it. It came out pretty much the way I wanted it to, so I'm pretty happy. It has some reverse anal, but the boy looks like a girl, so I guess it's fairly mild? I thought it'd be more accurate to have Rei's vocabulary be a little more wild, but due to the story he ended up being more of a loser. Do popular slutty girls say stuff like shit girl, stay the fuck away from me slut, and this is totally bad? Dialogue is hard.
