Shinobu taught me about various things,

since all I really knew about were games.

For a while now, Shinobu, an otaku, cosplayer, and to top it all off, crossdresser...

has been taking older guys on dates in Akiba, the electric city.

Well... there was one other thing

My weekly day off,

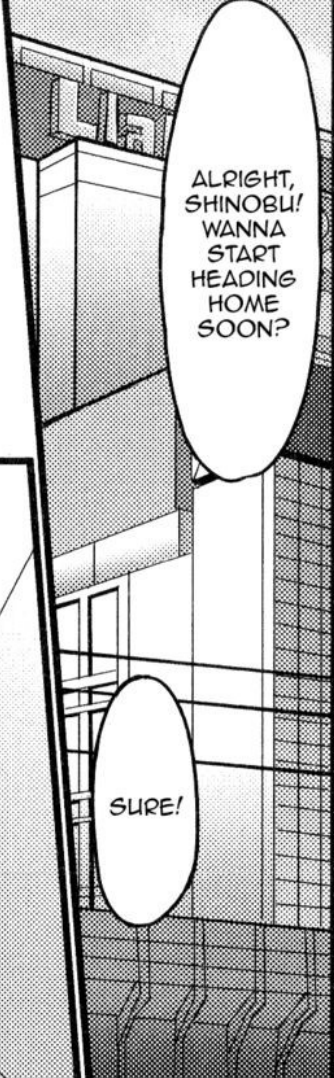

Shinobu and I would wander around the city. It got me firmly hooked on otaku culture.

Actually, after that first day he stayed the night,

He somehow managed to convince his dad,

And after he became even cuter by doing that, I've fallen for Shinobu so hard I don't think I'll ever get up.
