TO REPLACE THE LIVESTOCK, THE COW-EARED DEMIHUMANS, MINOCOWLS WERE BROUGHT IN FROM THE MAGI FEDERATION, JIHA, WHERE THEY ARE TREATED AS LIVESTOCK.

IN RECENT YEARS, A BILL WAS PASSED BY ANIMAL ACTIVISTS TO GIVE ANIMALS AND LIVESTOCK THE RIGHT TO LIVE AS FREE BEINGS.

THIS IS OUR COUNTRY, ODDLAND. WE'RE A DEVELOPED NATION WHOSE ECONOMY IS MAINLY DRIVEN BY TRADING.

THEY HAVE A MILD TEMPERAMENT, PRODUCE LOTS OF MILK AND BREED EASILY.

THE COUNTRY STARTED TO BRING IN TECHNOLOGY FROM ELKHEIM. THOSE WHO USED TO BE FARMERS ARE NOW WORKING IN FACTORIES PRODUCING GOODS.

UNDER THE NEW LAW, IT IS NOW ILLEGAL TO OWN LIVESTOCK, UNLESS YOU HAVE A SPECIAL LICENSE FROM THE GOVERNMENT.

INSTEAD, THEY ARE NOW KEEPING MINOCOWLS AS LIVESTOCK.

WHICH MEANS THEY HAVE NO HUMAN RIGHTS.

BUT MOST OF ALL, THEY ARE A TYPE OF BEASTMEN. THEY ARE DEEMED AS ENEMY OF THE GODS.

IT HAS BEEN A FEW YEARS SINCE IT WAS ILLEGAL TO KEEP COWS OR PIGS AS LIVESTOCK IN THE TRADING COUNTRY, ODDLAND...

DEGRADED TO LIVESTOCK

BY NEROMASHIN

MINOCOWLS THAT DO NOT BEHAVE ARE GIVEN A NOSE RING.

CATTLE BARN ARE REUSED TO HOUSE THE MINOCOWLS. THE RACKS USED TO CHAIN THE COWS IN PLACE HAD TO BE MODIFIED TO FIT THE MINOCOWLS, BUT THE COST INVOLVED IS MINIMAL.

HERE'S A BRIEF EXPLANATION ON HOW THEY ARE BREDED.

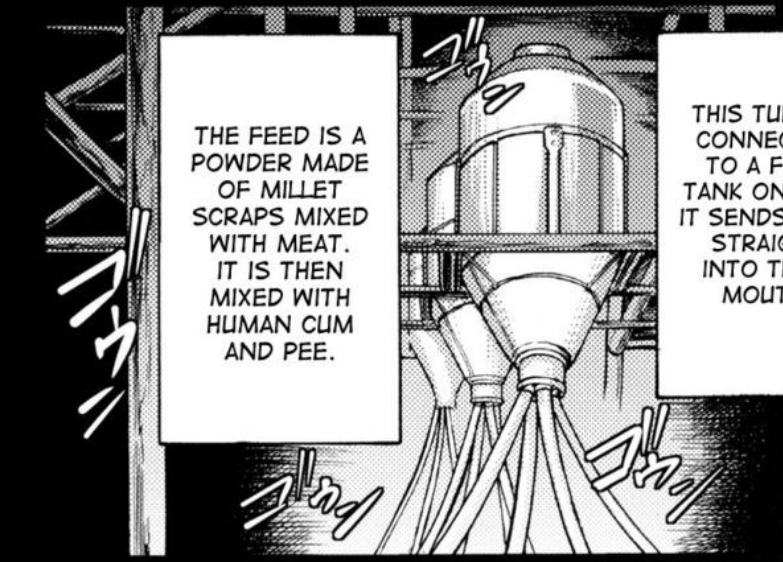

THEIR TAILS ARE UNSANITARY, AND WILL CONTAMINATE THE MILK IN THE BUCKET. THAT'S WHY IT'S IMPORTANT TO SECURE THEIR TAILS.

THEIR NOSE RING AND TAIL ARE PULLED TO THE CEILING.

THEIR MOVEMENT ARE RESTRAINED WHEN THE NOSE RING IS PULLED.

THE FEED IS A POWDER MADE OF MILLET SCRAPS MIXED WITH MEAT. IT IS THEN MIXED WITH HUMAN CUM AND PEE.

THIS TUBE IS CONNECTED TO A FEED TANK ON TOP. IT SENDS FEED STRAIGHT INTO THEIR MOUTH.

NEXT, A TUBE IS ATTACHED TO THEIR MOUTH.

THE
MINOCOWLS
MUST
BE FED
CONTI-
NUOUSLY.

MNGH...
OOHG!

THERE'S LITTLE
NUTRIENTS IN
THE FEED,
SO IN ORDER
FOR THEM
TO PRODUCE
LOTS OF MILK,

A MINOCOWL
CAN PRODUCE
TENS OF
KILOGRAMS
OF FECES
IN A DAY.

AAA-
AHN!

SO
NATURALLY,
THEY
PRODUCE A
SHOCKING
AMOUNT
OF FECES.

HOW THEIR
FECES ARE
DISPOSED
WILL BE
DISCUSSED
ANOTHER
DAY.

IF THEY ARE
LEFT FOR
EVEN ONE DAY
WITHOUT BEING
ATTENDED TO,
THEIR FECES
WILL PILE UP
TO THEIR KNEES.

HOWEVER, WILD MINOCOWL MALES ARE VIOLENT AND HARD TO CATCH.

IT WOULD MAKE SENSE TO KEEP THE MALE MINOCOWLS TOGETHER WITH THE FEMALES, SO THEY WILL MATE ALL THE TIME.

TO INCREASE A MINOCOWL'S MILK PRODUCTION, NOT ONLY DO THEY NEED TO BECOME PREGNANT, THEY ALSO NEED TO HAVE THEIR BREASTS STIMULATED, OR HAVE THEIR BODY AROUSED.

THAT IS WHY THE FARMERS ARE ALSO IN CHARGE OF MATING WITH THE MINOCOWLS BY THEMSELVES.

SOMEONE CAME OUT WITH THE IDEA OF TREATING THE MINOCOWLS AS PUBLIC CUM DUMPS.

TO FURTHER INCREASE THE MINOCOWL'S MILK PRODUCTION AND BIRTH RATE,

IT WAS SUCH A GROUND-BREAKING IDEA AT THAT TIME, MILK PRODUCTION WENT THROUGH THE ROOF.

THE COW SHEDS ARE OPEN TO PUBLIC. EVERYONE IS FREE TO USE THE MINOCOWLS TO RELIEVE THEMSELVES.

TIGHTEN UP YOUR PUSSY, DUM CLUMP COW!

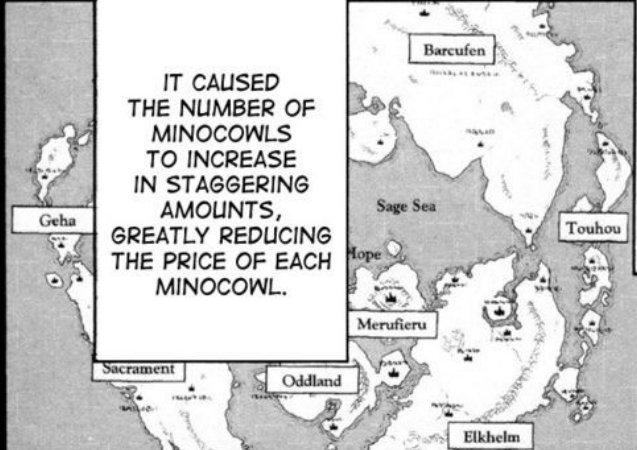

IHIIN! AAAH!

HAAAA. I'M ADDICTED TO THIS! I'VE GOT TO FLICK THESE BITCHES EVERY DAY!

NOT ONLY WAS THE IDEA WELL RECEIVED BY THE VILLAGERS, MERCHANTS, TRAVELERS AND EVEN OTHER DEMIHUMANS FREQUENTLY USE THE FARMS AS A PLACE TO REST.

AAAH! NOOO!

HEY, YOU'RE FROM THE CITY, AREN'T YOU? FANCY SEEING YOU HERE AGAIN.

IT CAUSED THE NUMBER OF MINOCOWLS TO INCREASE IN STAGGERING AMOUNTS, GREATLY REDUCING THE PRICE OF EACH MINOCOWL.

IN THE BLINK OF AN EYE, THE IDEA OF BREEDING MINOCOWLS SPREADED THROUGHOUT THE HUMAN REALM.

HERE, HAVE MY SEED! BE THANKFUL AND GET PREGNANT!

AAA-AAH!

THERE'S A RUMOR THAT THE FARMER WHO WON THE BETS BECAME A MILLIONAIRE.

FUCKKKK! I'M GONNA GO BANKRUPT!

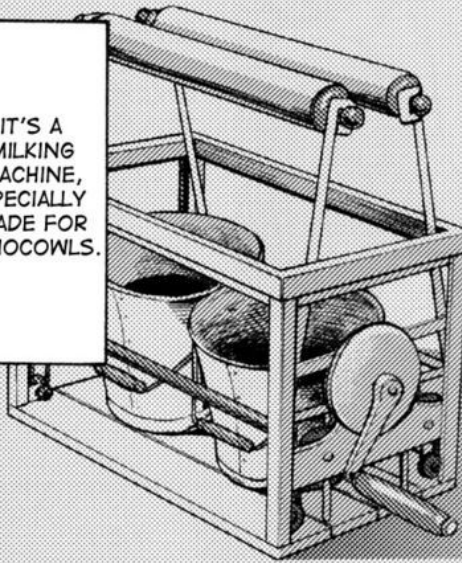

IHIIN!

IIGH....!

SHE GAVE BIRTH TO ONLY ONE THIS TIME?! GIVE ME BACK MY MONEY, FUCKIN' COW!

C'MON! SQUEEZE MORE OUT! YOU'VE ONLY GIVEN BIRTH TO 5 BABIES SO FAR THIS SEASON!

IN ADDITION, THE HUMANS HAVE FOUND ANOTHER WAY TO ENTERTAIN THEMSELVES WITH THE MINOCOWLS. EVERY SEASON, THE FARMERS BRING THEIR MINOCOWLS TO THE STREETS AND BET ON HOW MANY BABIES THEY WILL GIVE BIRTH TO.

IT'S A MILKING MACHINE, SPECIALLY MADE FOR MINOCOWLS.

HOWEVER, THERE'S A LIMIT TO HOW MUCH MILK THAT CAN BE PRODUCED WHEN THEY ARE MILKED BY HAND. IN ORDER TO INCREASE PRODUCTION, THE RESEARCHERS IN ODDLAND HAVE DEVELOPED A TOOL...

STILL, THE MOST IMPORTANT PART ABOUT BREEDING MINOCOWLS IS MILKING THEM.

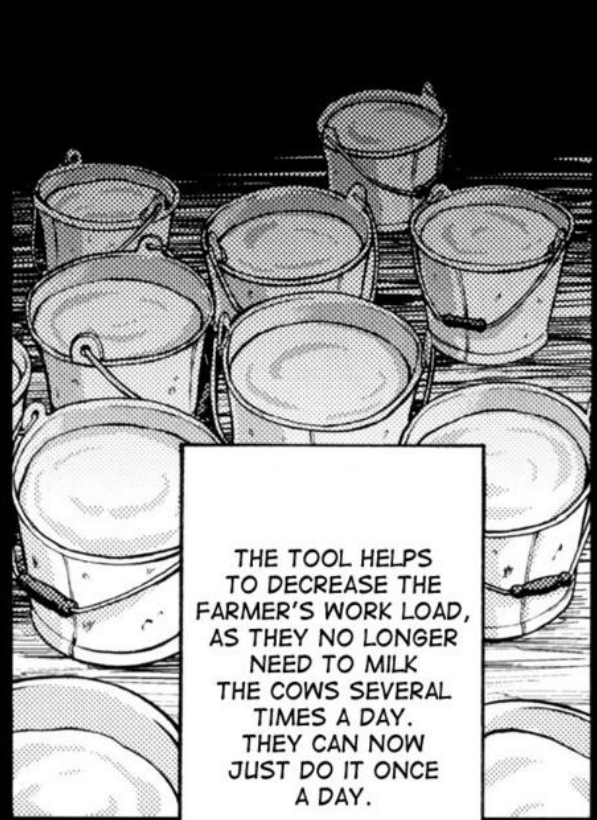

YOU POOR THING. YOUR TITS ARE SO SWOLLEN. IT MUST HURT.

ALRIGHT, YOU'RE NEXT!

히잉 히잉

HIIN ?!

THE TOOL HELPS TO DECREASE THE FARMER'S WORK LOAD, AS THEY NO LONGER NEED TO MILK THE COWS SEVERAL TIMES A DAY. THEY CAN NOW JUST DO IT ONCE A DAY.

THE ONLY PROBLEM WITH THIS METHOD, IS THAT THE COW WILL BE PERMANENTLY DAMAGED IN JUST A YEAR OR TWO. HOWEVER, SINCE MINOCOWLS BREED EASILY, IT SHOULDN'T BE A PROBLEM TO REPLACE THEM WITH NEW ONES.

I'M GONNA SQUEEZE IT ALL OUT!

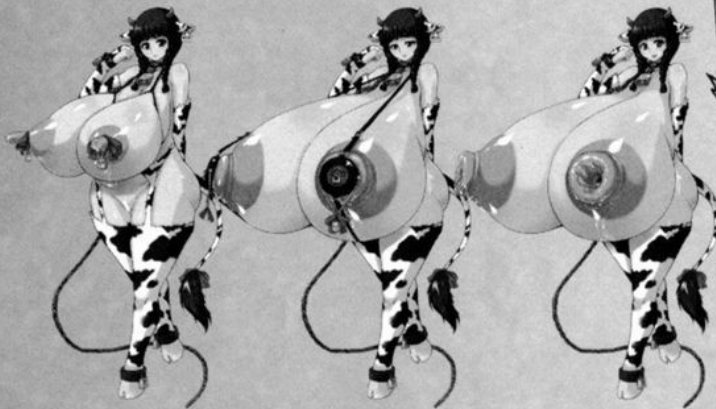

WE, THE PEOPLE IN ODDLAND RECOMMEND BREEDING MINOCOWLS THIS WAY. WE HOPE THIS METHOD WILL CATCH ON AND HELP BOOST OUR COUNTRY'S ECONOMY.

牛耳人 COW-EARED
DEMIHUMAN

ミノカウル

牛耳人ミノカウル COW-EARED
【Minocowl】《獣人種》 DEMIHUMAN

ORIGINALLY A BREED OF WILD DEMIHUMANS FROM ASTENIA, A HUMAN REALM, THE MINOCOWLS ARE NOW DOMESTICATED AS LIVESTOCK IN THE MAGI FEDERATION, JIHA. THEY HAVE CUTE LITTLE HORNS AND BIG HOOVES, WHILE HAVING A PAIR OF BREASTS THAT ARE BIGGER THAN ANY HUMAN. THEY PRODUCE A LOT OF MILK THAT ARE HIGH IN NUTRIENTS. THEY ARE MILD TEMPERED AND EASYGOING. HOWEVER, THAT MEANS THEY ARE EASILY TAKEN ADVANTAGE OF, AND WERE ALWAYS CAPTURED BY OTHER DEMIHUMANS FOR BREEDING...

THE FEMALE'S THREE SIZES (ON AVERAGE)

B 156.3cm W 68.5cm H 99.1cm

NOTES:

CAPTURED.
WHEN AROUSED, MILK WILL COME POURING OUT FROM HER MASSIVE NIPPLES.
A MINOCOWL WILL PRODUCE AROUND 20 TO 30 LITERS OF MILK A DAY.

《立絵ハリション一部公開》

垂牛耳人ミノバイス COW-EARED
【Minobis】《獣人種》 DEMIHUMAN

ANOTHER SPECIES OF COW-EARED DEMIHUMAN. IDENTIFIED BY THEIR DARKER SKIN AND BIGGER HORNS. ORIGINALLY FOUND IN THE BAAKFEND EMPIRE'S SOUTHWEST PLAINS AND ALPINES, THEY MIGRATED TO THE HOLY EMPIRE OF ASHURAN TO RUN AWAY FROM BEING CAPTURED AND DOMESTICATED. COMPARED TO MINOCOWLS, THEY ARE VIOLENT AND SHORT TEMPERED. THAT IS WHY IT IS EXTREMELY DIFFICULT TO DOMESTICATE THEM IN DAIRY FARMS. HOWEVER, THE MILK THEY PRODUCE ARE OF THE HIGHEST QUALITY.

THE FEMALE'S THREE SIZES (ON AVERAGE)

B 151.9cm W 67.2cm H 100.5cm

CAPTURED.
WHEN AROUSED, MILK WILL COME POURING OUT FROM HER MASSIVE NIPPLES.
A MINOBIS WILL PRODUCE AROUND 15 TO 25 LITERS OF MILK A DAY.
