Private Elfin Academy For Girls Message

Well done, everyone. This is Fuenta.

This Private Elfin Academy For Girls story makes for my fourth part of my story.

This might... seem random... But they're pretty well connected.

It's set in the same place. And what's more the main character has black hair, a bowl cut and has bug catching as a hobby...

Then to top it off, it is linked to my previous work, "One-Man Mercenary Army"

which means my characters will not be holding back at all and doing it as much as they like...

On another note I, the author, will now reflect on a hobby of mine.

Horses.

Because Farmers always rely on strong studs the studs are surrounded by their siblings and relatives.

Finding new horses with strong bloodlines is, well, quite a feat and such is why it's called the horse problem.

It was then that I got to thinking, "could I use this?" that I came up with this series.

This time around I will be working on my two series so

Fukuyama-san will go on a little break. I've released a compilation so that's at least one thing taken care of...

Right now my "desire to draw" juices are overflowing so I thought I'd take advantage of that!

They do say to strike while the iron is hot, after all!

If you enjoy the works that come of this I will be very happy.

Next time around things are bound to swell and get bigger.

Just what purpose do the earrings hold? What is a "nest"? Just what is the structure of this academy?

Whatever the case be sure to look forward to the main character receiving many approaches.
