Let's see..

Your schedule for today, Ruri...

Huh? Where is she?

Hmn? The other one? If you mean Mari, she's already in the other examination room.

Wow... we're using that one with the pointed tip.

... senpai, you really do come up with some pretty rough ideas for training.

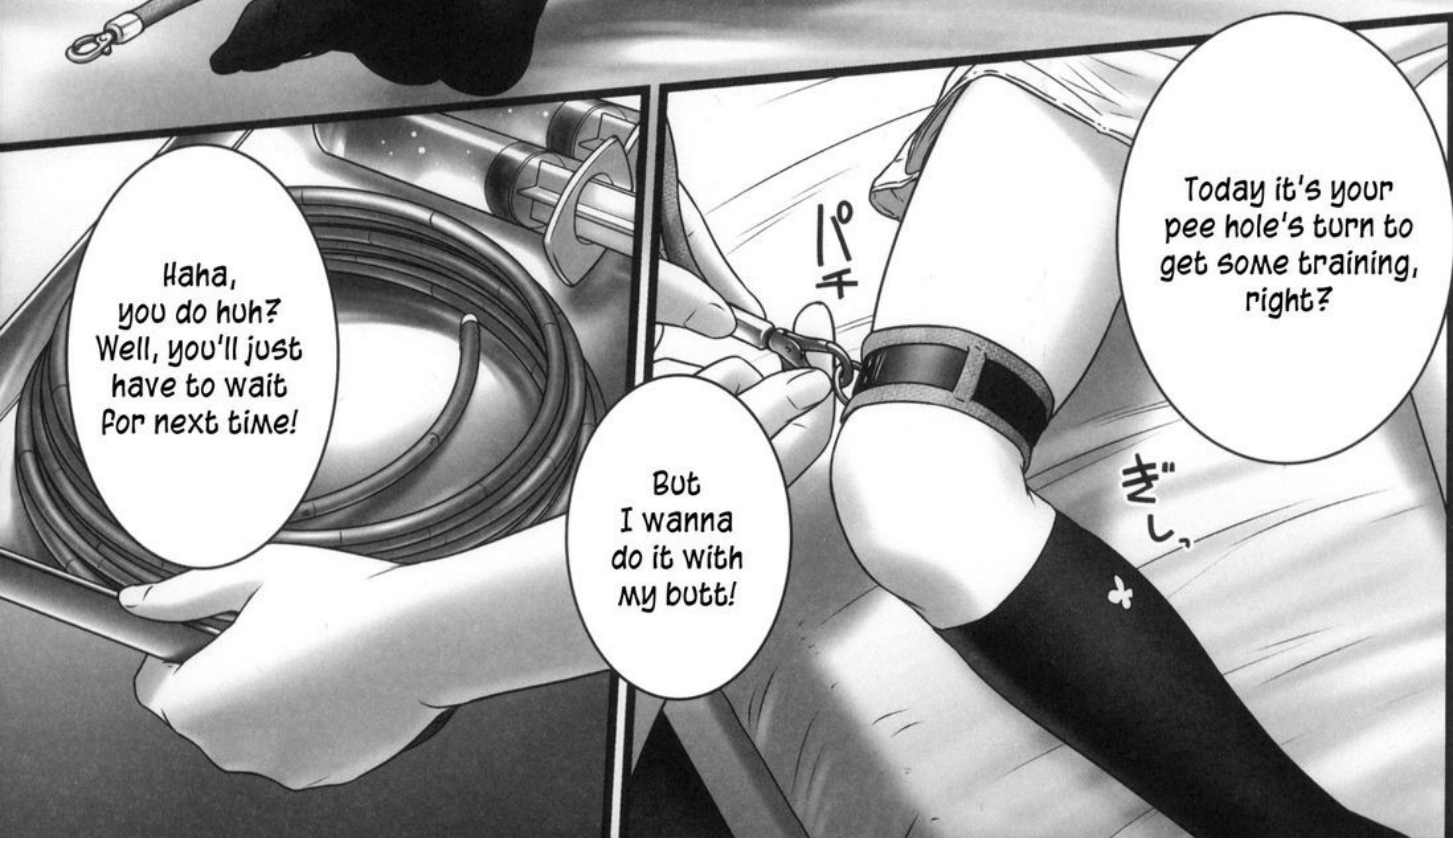

HMM?

Yoshino-sensei, are you gonna give me an enema today?

UPU~
You like enemas?
We really did work your ass hard last time, didn't we~?

ぎゅ
ぎゅ

ぐ
ぐ
ぐ

Haha, you do huh?
Well, you'll just have to wait for next time!

But I wanna do it with my butt!

Today it's your pee hole's turn to get some training, right?

ぱ

ぎゅ

Honestly,
when it comes
to little girls'
asses there's
almost no
holding you
back!

Nope!

You
anal
devil
you

Not
even
a little
one?!

hya

hya

Senpaiiii...!
I wanna give
Ruri an enema
though!

What's
'devastate'
I wonder..?

We're really
going to devastate
Ruri's urethra and
bladder here.

So I don't want
any any other feeling
to get in the way
of those pure and
intense sensations.

I can barely
hold back from
playing with it
myself.

When I look at
her cute and
tiny assle,

... not
that I don't
understand how
you feel.

You're gonna put the sound in?

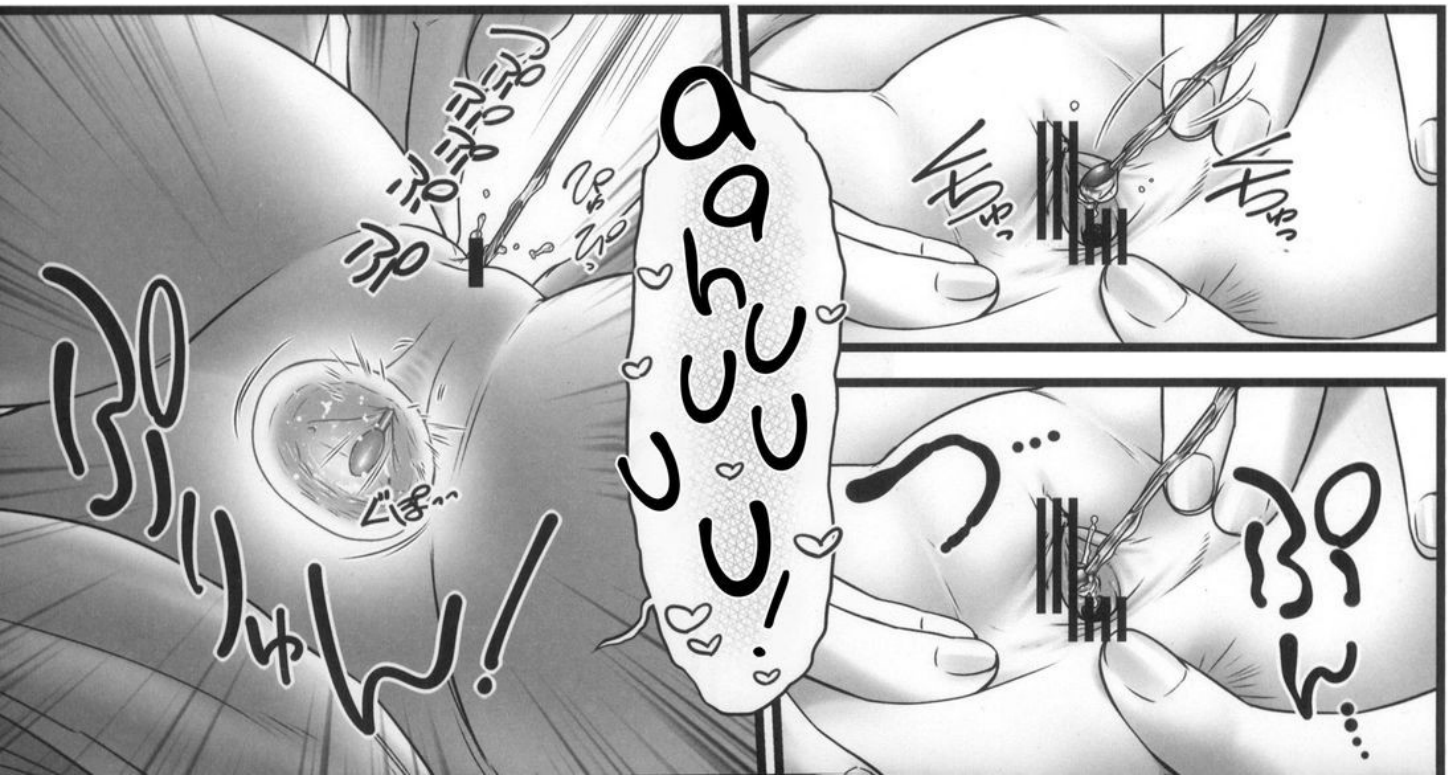

Let's get your pee-hole nice and ready first, Ruri.

Yes, that's right, the sound, well-remembered! Okay then Ruri, just relax...

If you feel like you want to pee then just let it out right there, okay?

I'm putting it all the way into your bladder, so it might poke around a little more than usual.

Yeah!

Take a good look, Ruri! This super long thing is gonna fill your bladder up from the inside and give your pee-hole a good rubbing as it goes! I wonder how many meters you can take?

Let's try hard to stuff in loads and loads okay!

We can't disappoint a girl with a face like that!

We certainly aren't! Just take a look at her face!

We're not using the anaesthetic cream, right?

How is it Ruri?
Can you feel it
rubbing up your
bladder and
pee hole?

100cm!
That's 1
meter!

There's
plenty left
to put in
though!

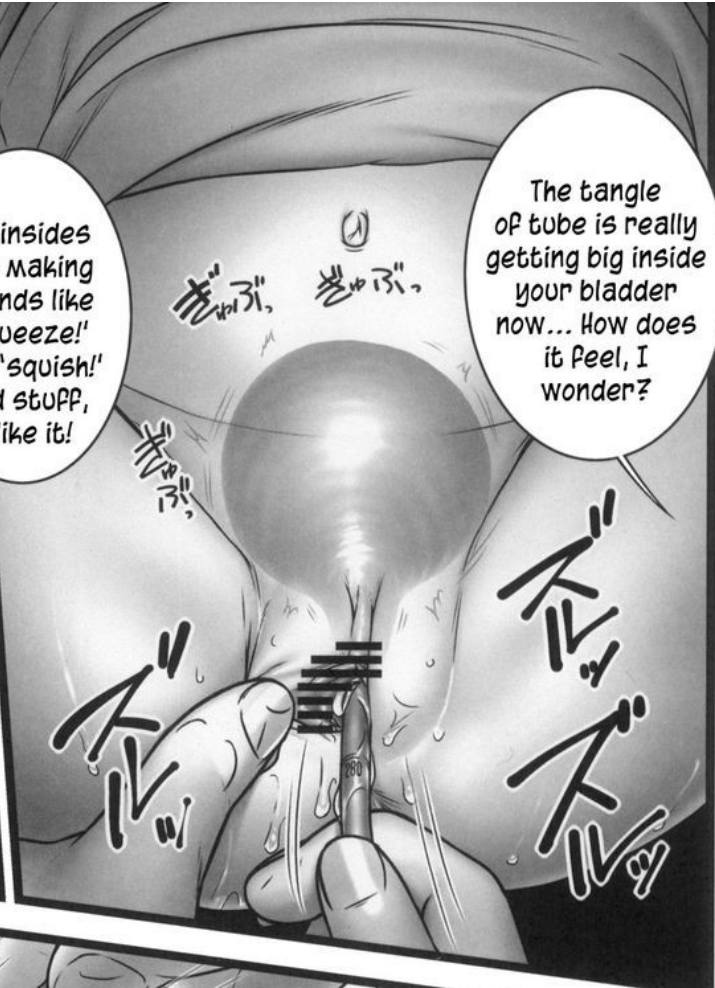

You really are something else Ruri... Most 6-year-old kids would be crying if we did to them what we're doing to you!

Hehe!
♡

My insides are making sounds like 'squeeze!' and 'squish!' and stuff, I like it!

The tangle of tube is really getting big inside your bladder now... How does it feel, I wonder?

Here comes 300CM! That's almost three times a good amount for someone your size! Let's keep going!

Right now the tube is rubbing your pee-hole on the way in,

and then later it'll be rubbing it again on the way out! Won't that be fun?!

Yeah...

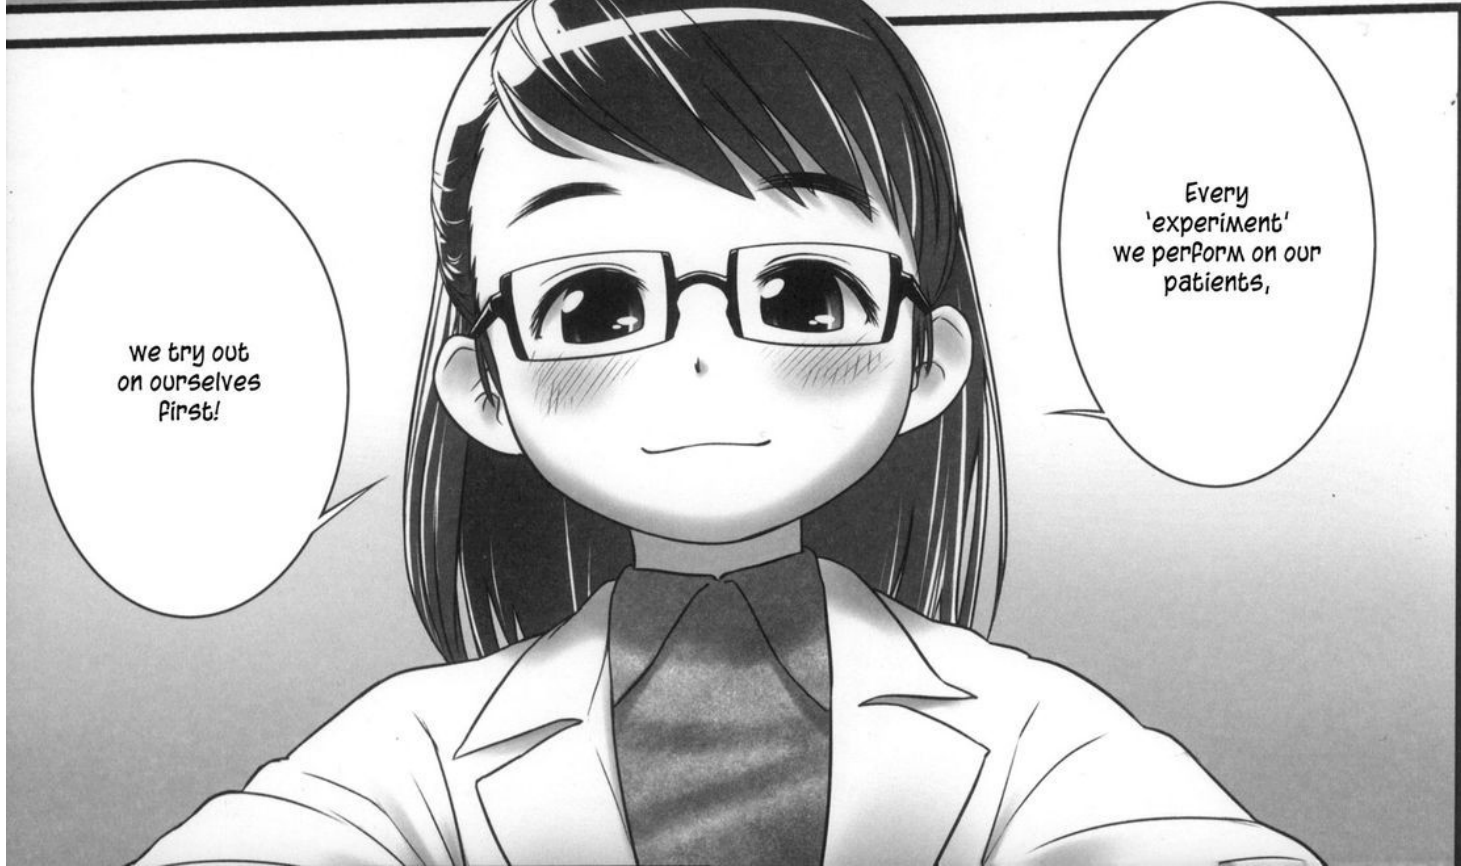

We've "examined" countless people up until now but...

...ordinarily someone would go their whole life without having anything so sadistic done to their urinary organs.

Ruri's six years old now, she's really begun to feel pleasure from this.

...Ruri and her sister Mari are simply incredible.

KYAAAT!

Whoopsie,
it's stuck!
Yay!

aah?! Uh-

心!
ん

Yay? Why the
heck do you
look so happy
about it?

We should use
an endoscope
to carefully
unpick it.

What are
you saying?
You don't know
how big the
tangle is.

ぎゅん

There can't be any
more than thirty
centimeters worth
left inside.

So the only
thing standing in
the way is Ruri's
peehole

ぎゅん

みち

Ruri isn't
that kind
of girl!

UPUPU~
I said this to you
before Taika...

ん

KYA

ぐんぐん

ほら!

ぐんぐん

ぐんぐん

ごお

ぐん

ぐんぐん

...she came like crazy from it!

Wow... even though you just ripped that huge tangle right out..

ぐんぐん

ぐんぐん

ぐんぐん

Oh, Hi Haruno-sensei!

Hahaha, sure have

Pheew~!
We're all done with Mari! Have you started with Ruri's pee-hole yet?

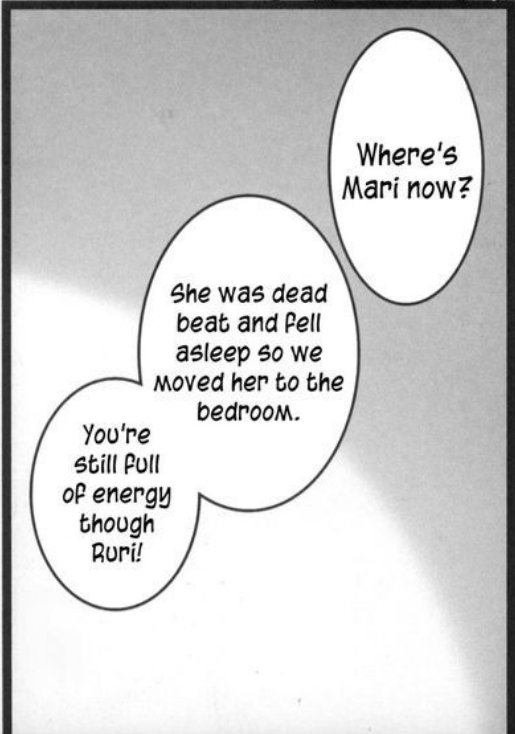

It's not something to cry about.

You're done already... you idiot! Pedo! Pervert!

That aside, how did it go widening out Mari's pee-hole?

Those insults apply to you too, by the way...

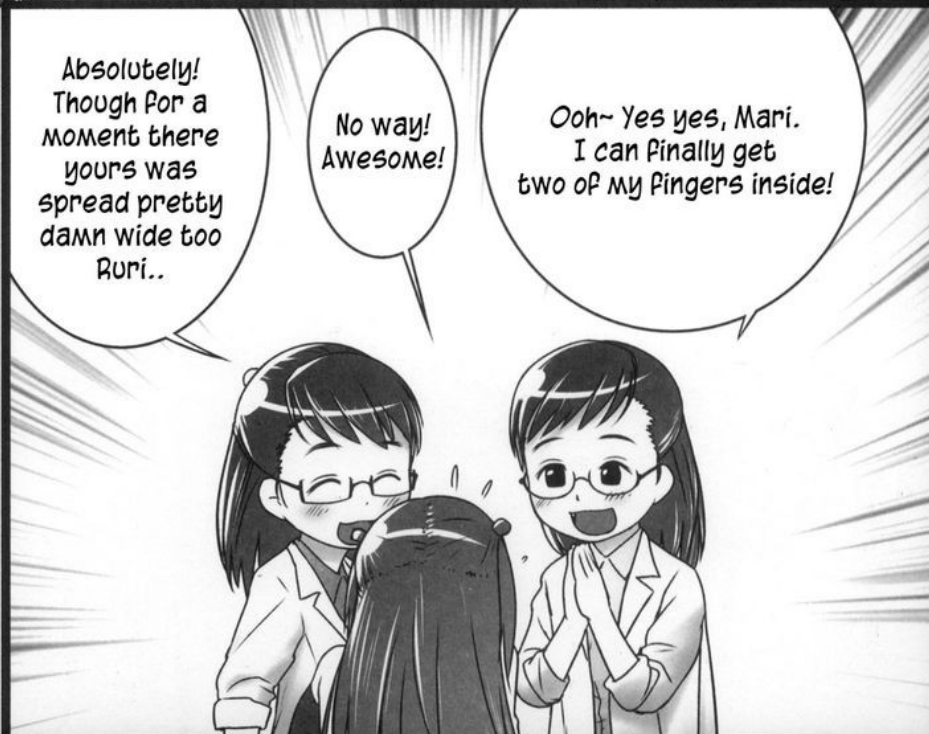

Sob Sob

Where's Mari now?

She was dead beat and fell asleep so we moved her to the bedroom.

You're still full of energy though Ruri!

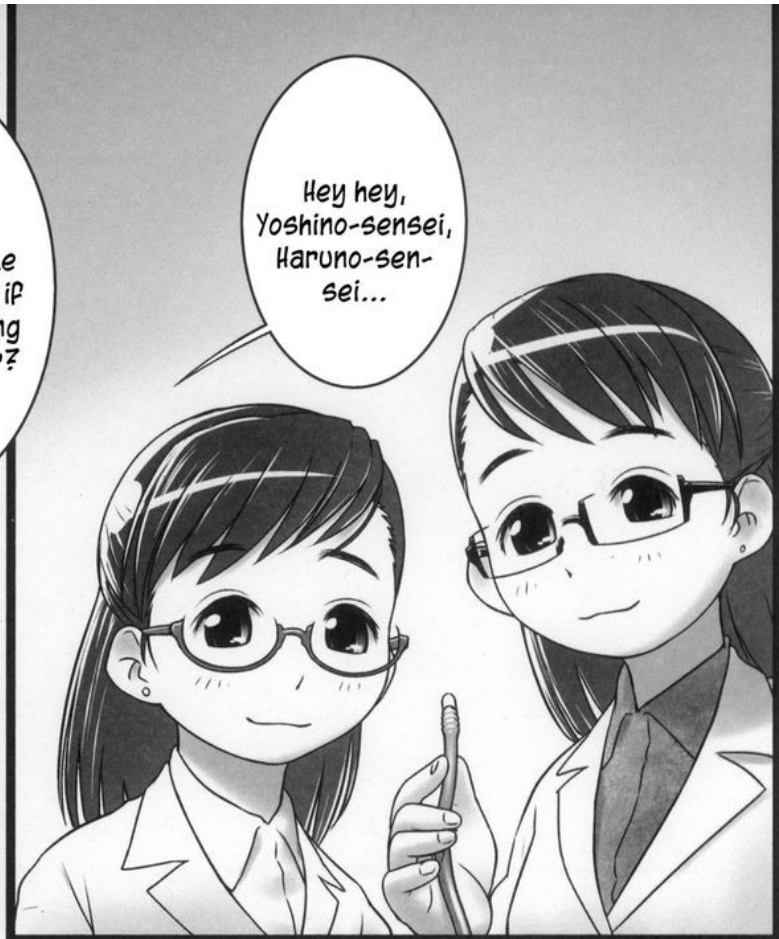

Absolutely! Though for a moment there yours was spread pretty damn wide too Ruri..

No way! Awesome!

Ooh~ Yes yes, Mari. I can finally get two of my fingers inside!

About next time um... is it okay if I bring Shii along from next door?

Hey hey, Yoshino-sensei, Haruno-sensei...

Shizuko Takio!

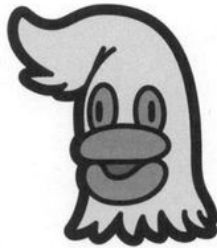

You're asking me?
Is it really ok to bring her along
Shii?
Who's that?
Oooh!

She's the Takio's kindergarten-age girl... what was it, Shizu something...
I think I've seen her when she's being picked up and dropped off.

Ogu here. To all the newcomers, hello. To all the people coming back, love ya!
Thanks a lot for picking up this book. It's still not too late to put it back down.

Well then, 'Oshikko-sensei ZERO' - I really did go and give this book an embarrassing title, didn't I?
It's the forerunner to the previous series of works.

This book sets out by means of a prologue some important characters in the story of Oshikko-sensei's early childhood. To see her childhood happenings depicted in all their graphic detail you'll just have to wait and see.

Incidentally, it's sometimes actually the case in paediatric medicine that when filling a child's bladder up with contrast media^[1] the child might say they can't take any more, yet looking at the situation it's necessary to go a little further.

Despite there being several justifications, that one of child patients reporting their own limits as being much less than those limits actually are was something I thought about a lot.

That said, I didn't use any kind of pretext like that in this book at all. It's nothing more than a fantasy of getting away with doing risky things.
If anything, that's just the same as always.

To all the good children of Japan:
Don't try to copy the things in this book or anything! You'll die!
(The characters in this book are receiving specialised guidance from an expert in the field)

[1] TL Note: Contrast Media is an imaging fluid used to enhance the visibility of internal organs during medical imaging processes such as X-ray or Magnetic Resonance Imaging
