

I'm back!

Mommy!

Mommy!
Let's do the usual!

Okay.

okay.

My Mommy is

really pretty and kind.

Welcome home,

Dai-chan.

Just a sec.

And her boobs are really big.

My mommy sucks out my wee-wee milk every morning.

アホ...

Say
"Ahh",

She
always
feeds me
breakfast.

I wash
it down
with her
milk.

Boobs are
supposed
to stop
letting out
milk when
babies
grow up,

but
Mommy's
body
seems to
be able to
let it out
anytime.

They're so soft and she smells so good that I usually drift off to sleep really easily.

At night I use her boobs as pillows.

Oh my!

What's this?

When that happens, Mommy rubs my wee-wee for me

while singing me a lullaby.

But sometimes my wee-wee gets hard and I can't sleep.

Now I'll wash your body. ♡

Alright, I'm pouring it now!

Mommy takes baths with me too.

Okay.

It tickles a little, but they're so soft and slippery that it feels really good!

When Mommy washes me, she does it with her boobs.

Now then,

Yeah!

Her boobs are so big that my wee-wee completely disappears.

Let it out, Dai-chan. ♡

Don't hold it back.

Is your wee-wee milk going to come out?

You did great, Dai-chan.

A lot came out, huh?

It feels so good that I can barely stand.

My wee-wee is always really sensitive after the milk comes out.

After my wee-wee milk comes out, Mommy uses her mouth to clean my wee-wee up.

Apparently learning to control yourself while feeling good is an important part in making a wee-wee into an adult.

You should try to avoid squirting your milk as much as possible.

Okay, I'll try.

Now let's practice having sex. ♡
