Schoolgirls overwhelmed by lust.

Sumomo Dou Original Work

My personal vibe

Vibes used by most students

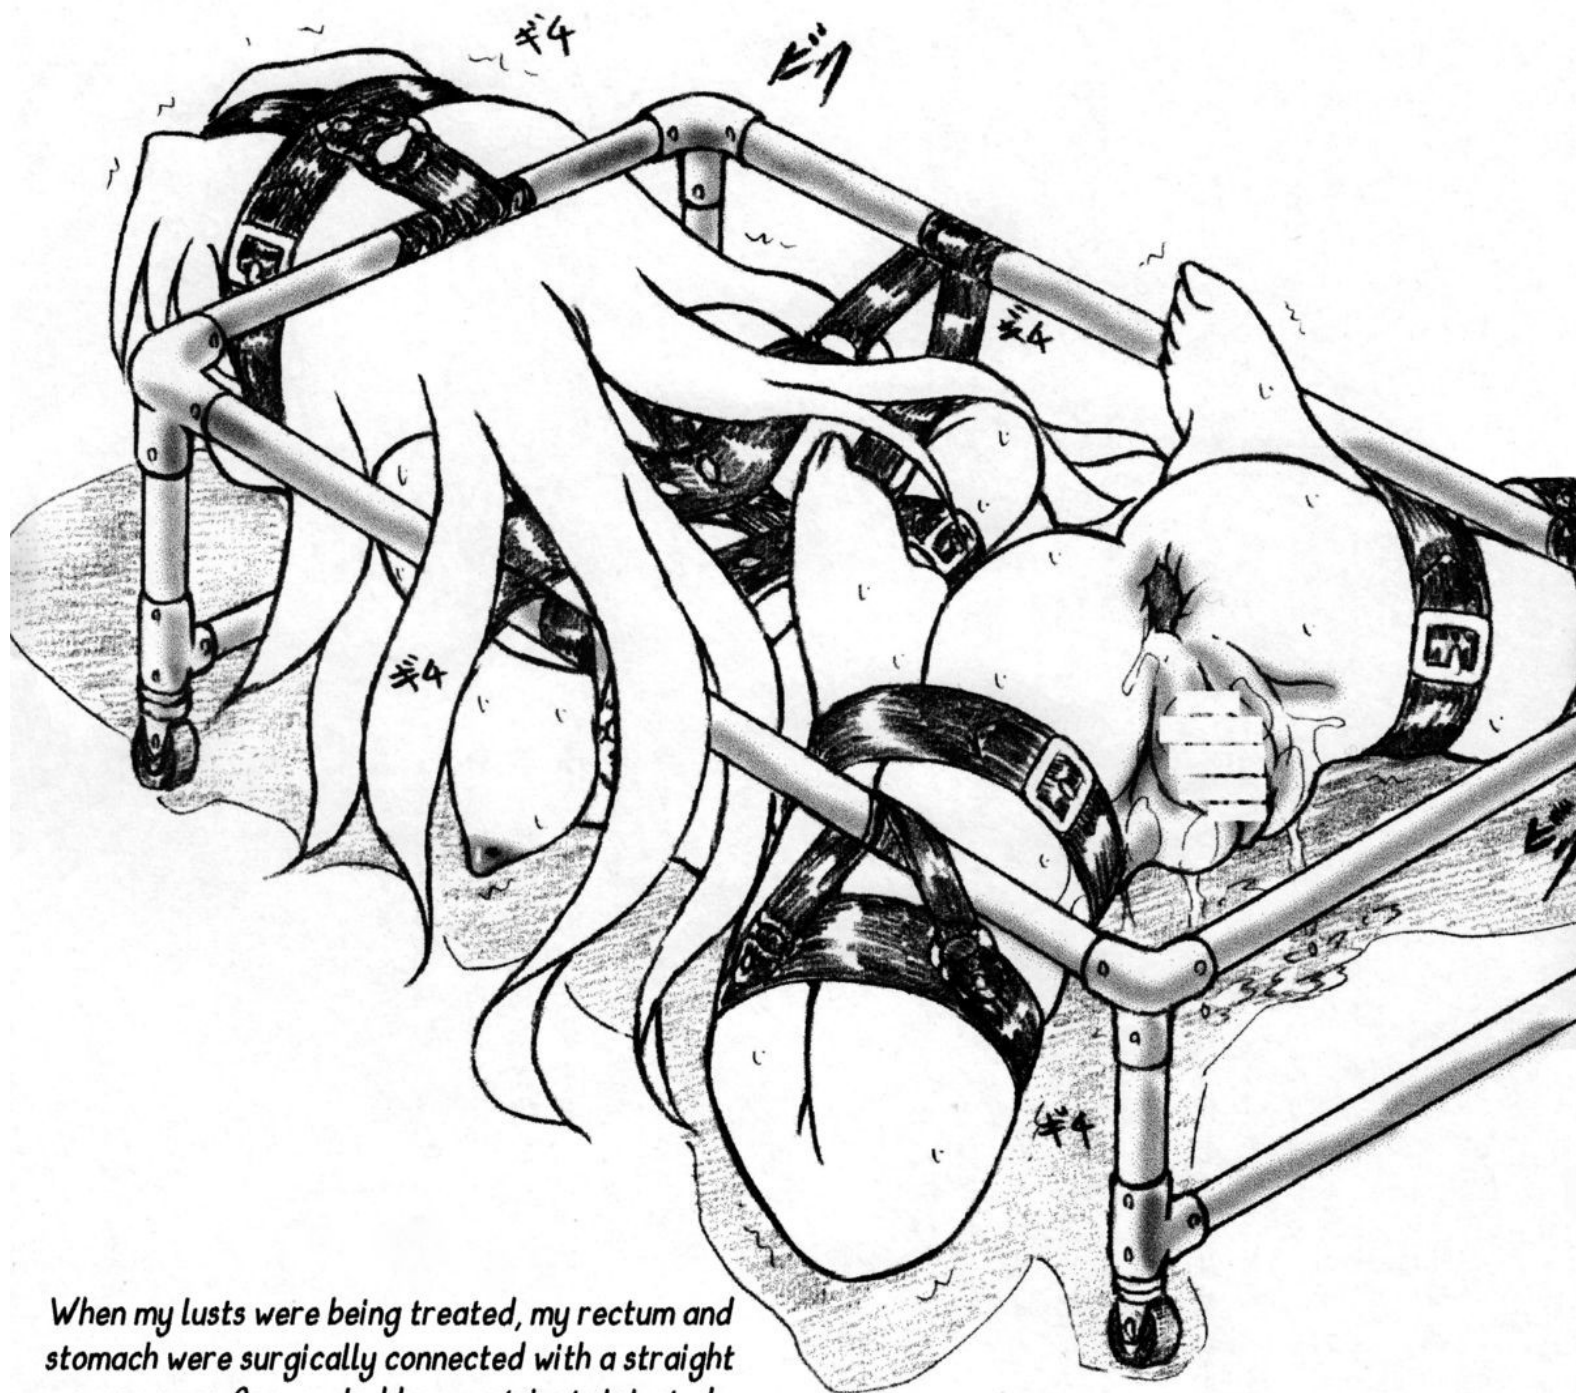

This is Sacred Wing Academy.
Medical treatments using pluripotent cells have become
commonplace over the decades...
Because changing gender, or even becoming futanari
is happening more often, this academy accommodates
schoolgirls after their desired treatments.*

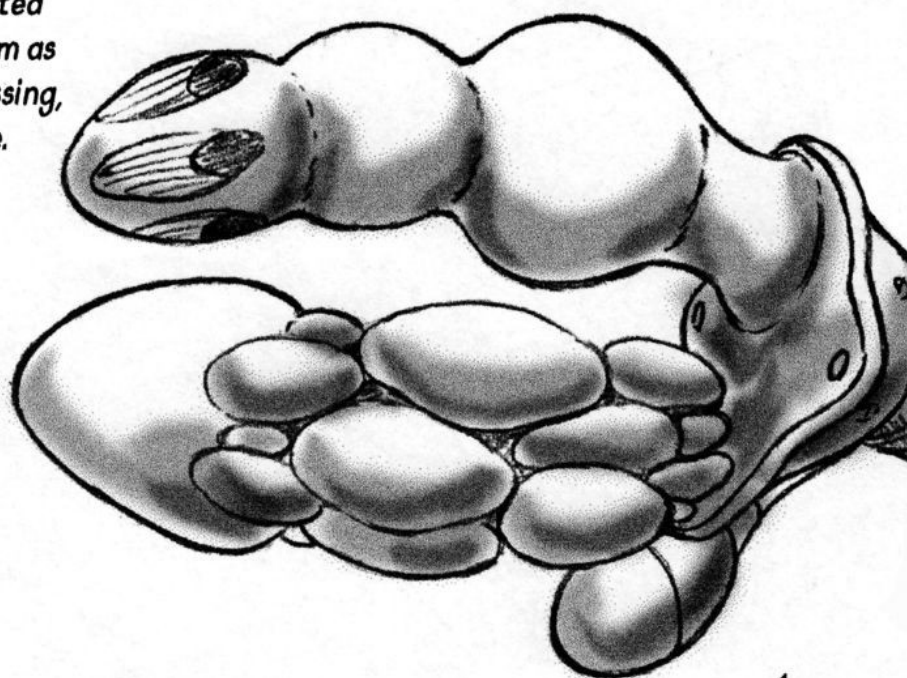

*In this boarding school, students are required to wear
panties with vibrators attached. Dorm-mates generally
check on each other to make sure they have it in before
they go to class. I'm in the same room as Miku-chan,
a childhood friend who became a futanari.*

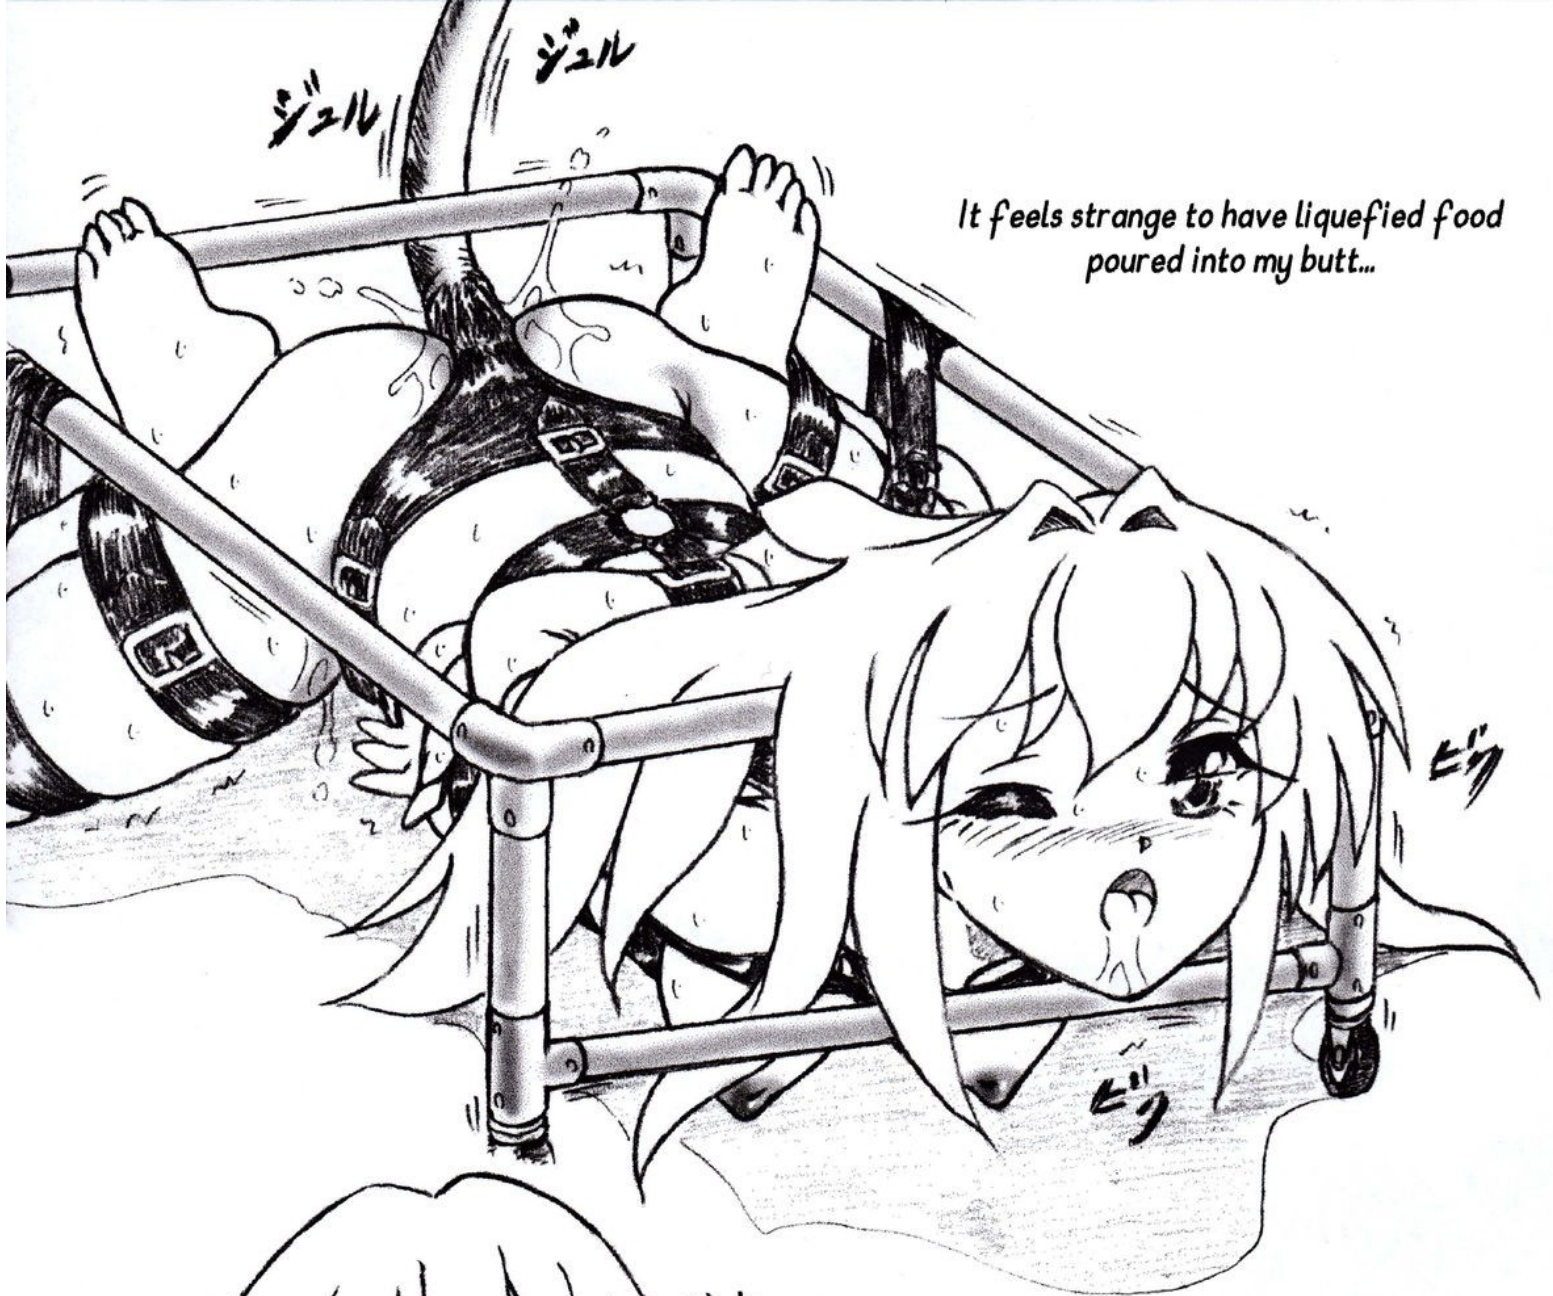

* 聖翼 - seiyoku - sacred wing
性欲 - seiyoku - lust

When my lusts were being treated, my rectum and stomach were surgically connected with a straight passage, so for meals, I have nutrients injected anally. I was very lucky to be in the same room as my childhood friend. This is a little embarrassing, but if it's Miku-chan, I think I can manage.

It feels strange to have liquefied food
poured into my butt...

はあ

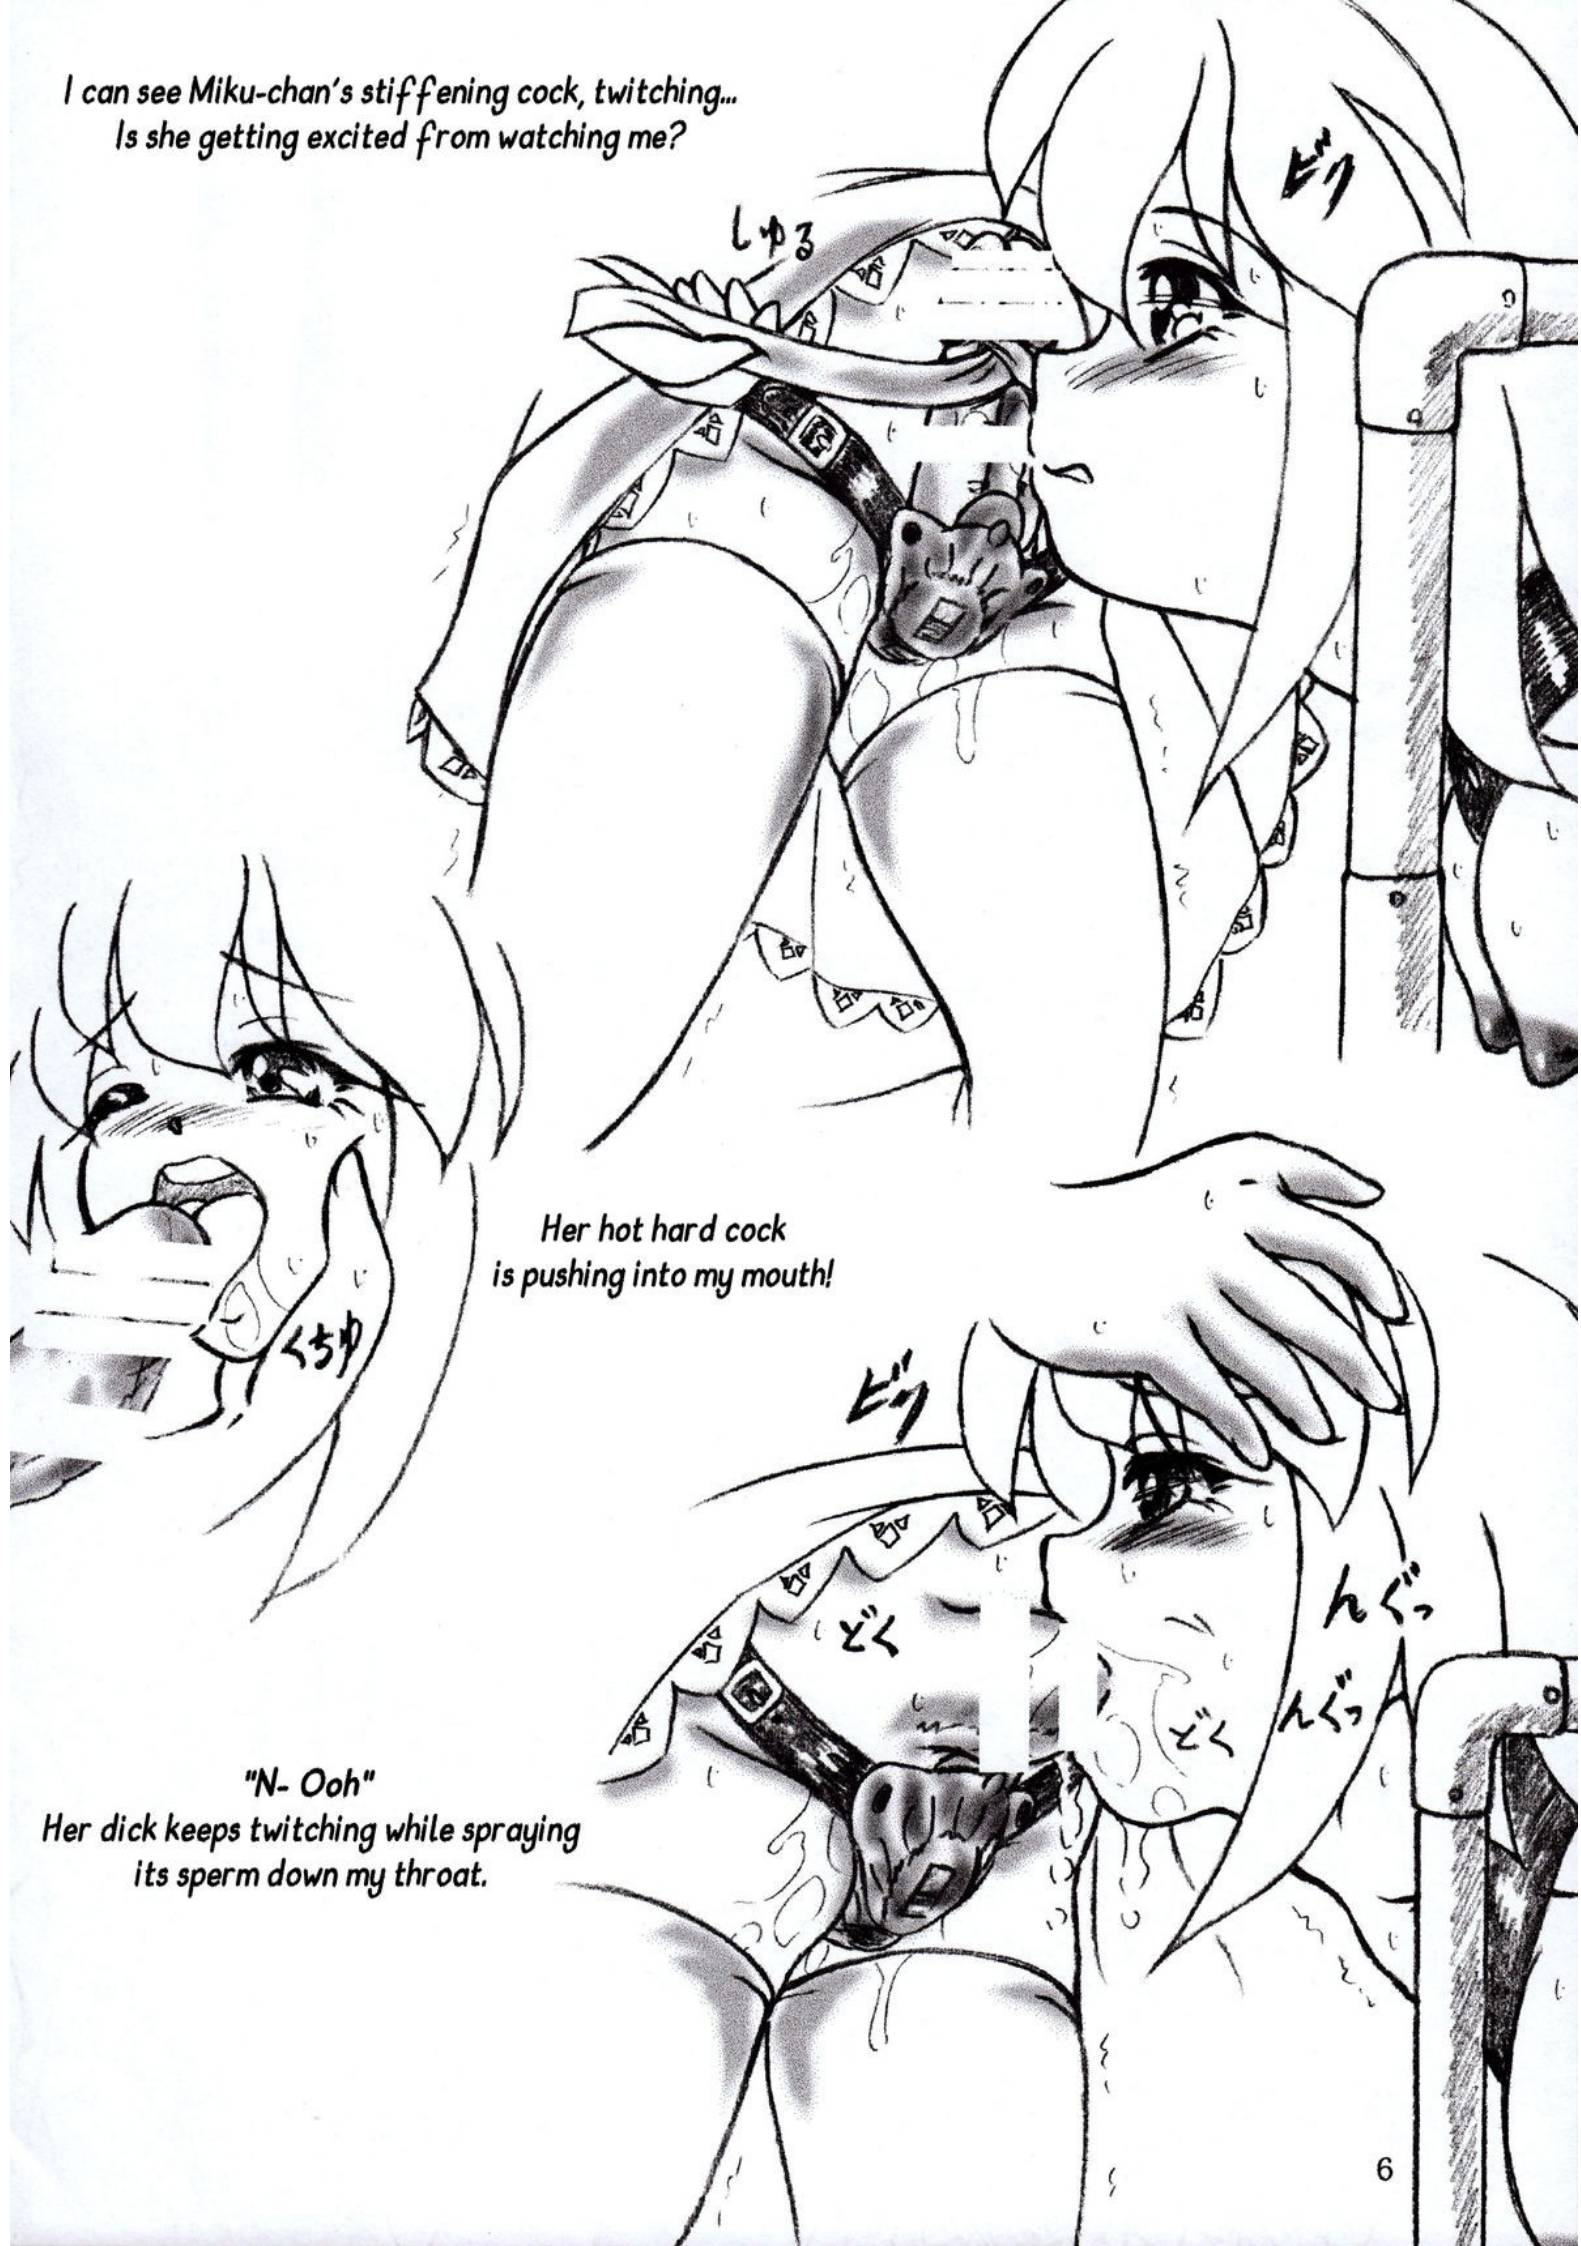

"...Miku-chan, inject it a little slower... Nhaa"

はあ

The food is gushing into my stomach through my rectum.
I can feel it swelling my belly.

*I can see Miku-chan's stiffening cock, twitching...
Is she getting excited from watching me?*

*Her hot hard cock
is pushing into my mouth!*

"N- Ooh"

*Her dick keeps twitching while spraying
its sperm down my throat.*

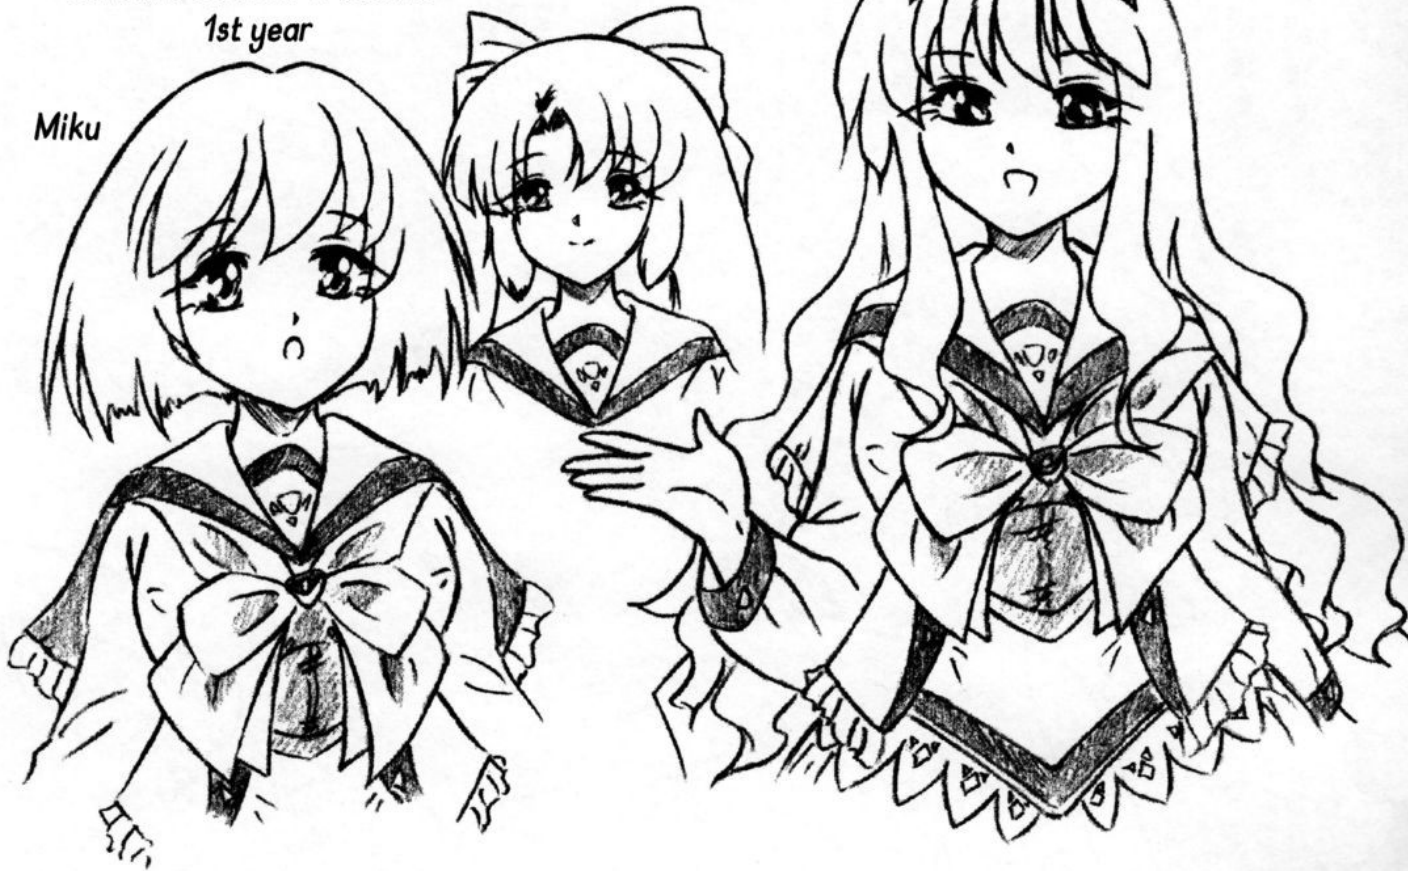

Student Council President
3rd year

"We heard about
you from Miku."

Student Council Secretary
2nd year

Student Council Treasurer
1st year

Miku

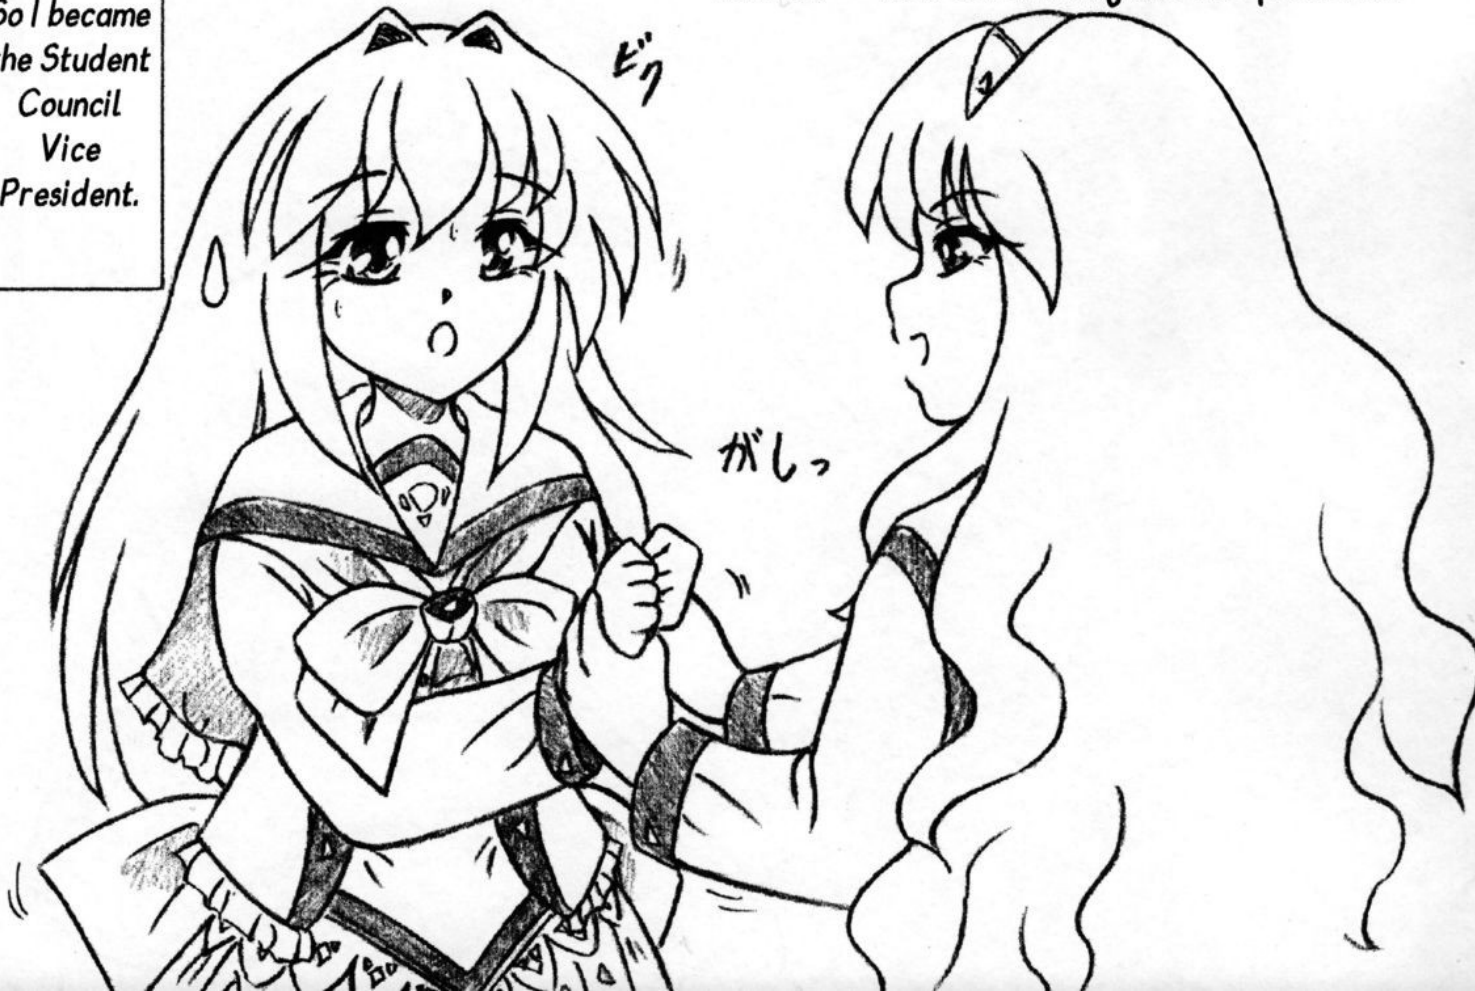

"You simply must join the student council.
...I know ~ How about being the vice president?"

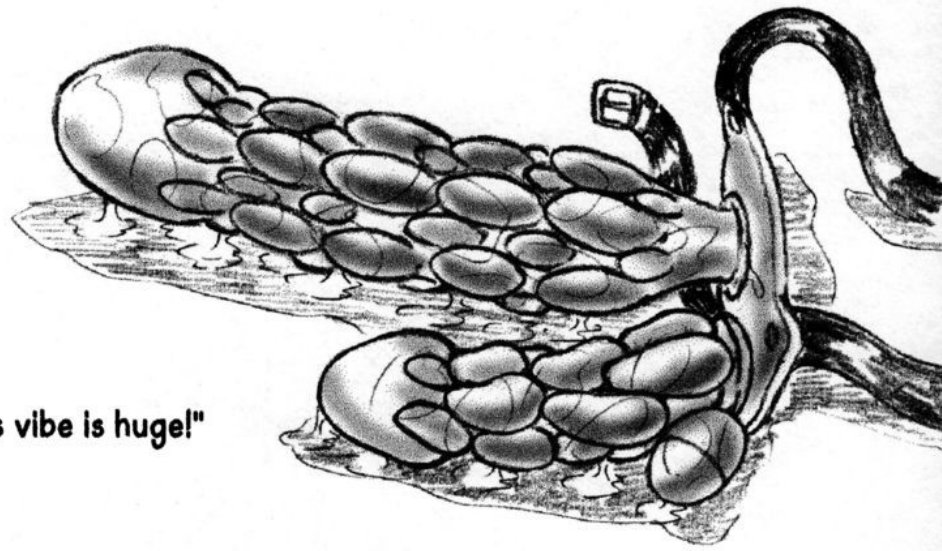

So I became
the Student
Council
Vice
President.

えっ?

がしっ

"This vibe is huge!"

"Well then, let's start your
welcome party."

Miku-chan's right leg is covered
in lotion and gently pressed
against my butt hole.

My butt hole is pushed open and her ankle
is buried in my rectum...
"I wonder how far I can go in."

Her toes slide into my stomach. "Nguh"

Her thighs stretch my ass to its limits,
and I start feeling her hot dick sliding
inside my pussy...

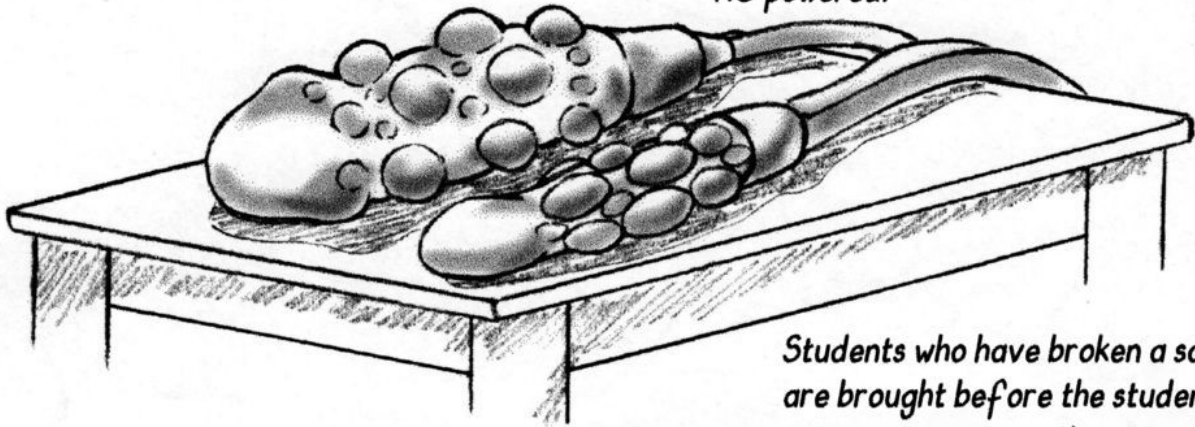

Her cock and leg are in to their roots,
her toes spreading in my throat.

The very next day, my work on the student council began.

Special-made punishment vibe. For use on students who break school rules.

AC powered.

Students who have broken a school rule are brought before the student council executives.

Her clothes were stripped off, and she was hauled from the classroom to the student council room.

This girl was watching dirty movies on her smartphone during lessons, it seems...

The extra-thick
punishment vibe
is stuffed into
her wet,
glistening cunt.

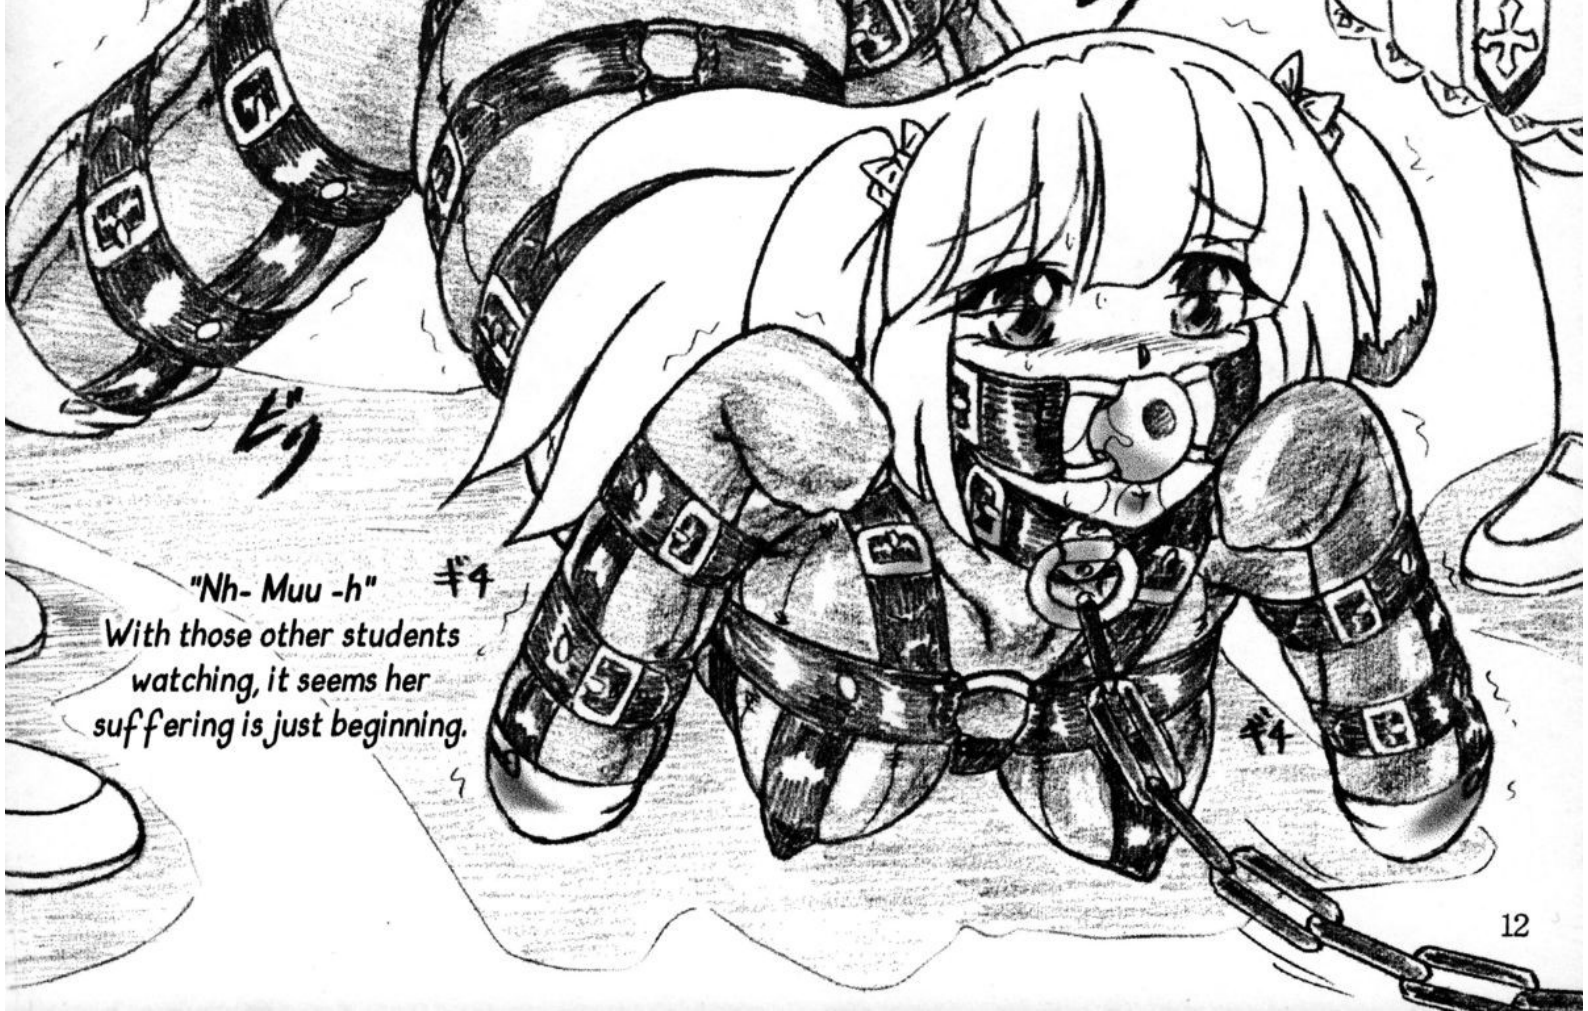

The motors in this vibe are very complicated,
moving in all kinds of ways to stimulate her
rectum and inside her twat when the switch is
pressed, letting her moaning voice fill
the Student Council room. "N-h Nh ooh"
The Student Council President slowly increases
the vibrator's output, leaving the girl's whole
body shuddering as urine and other fluids
spray from her crotch.

This girl is being punished because she didn't remember the vibrator panties she had to wear, and has to walk around like this for her classes.

Any time you flick the switch for her vibrator, she collapses right in the hallway, twitching.

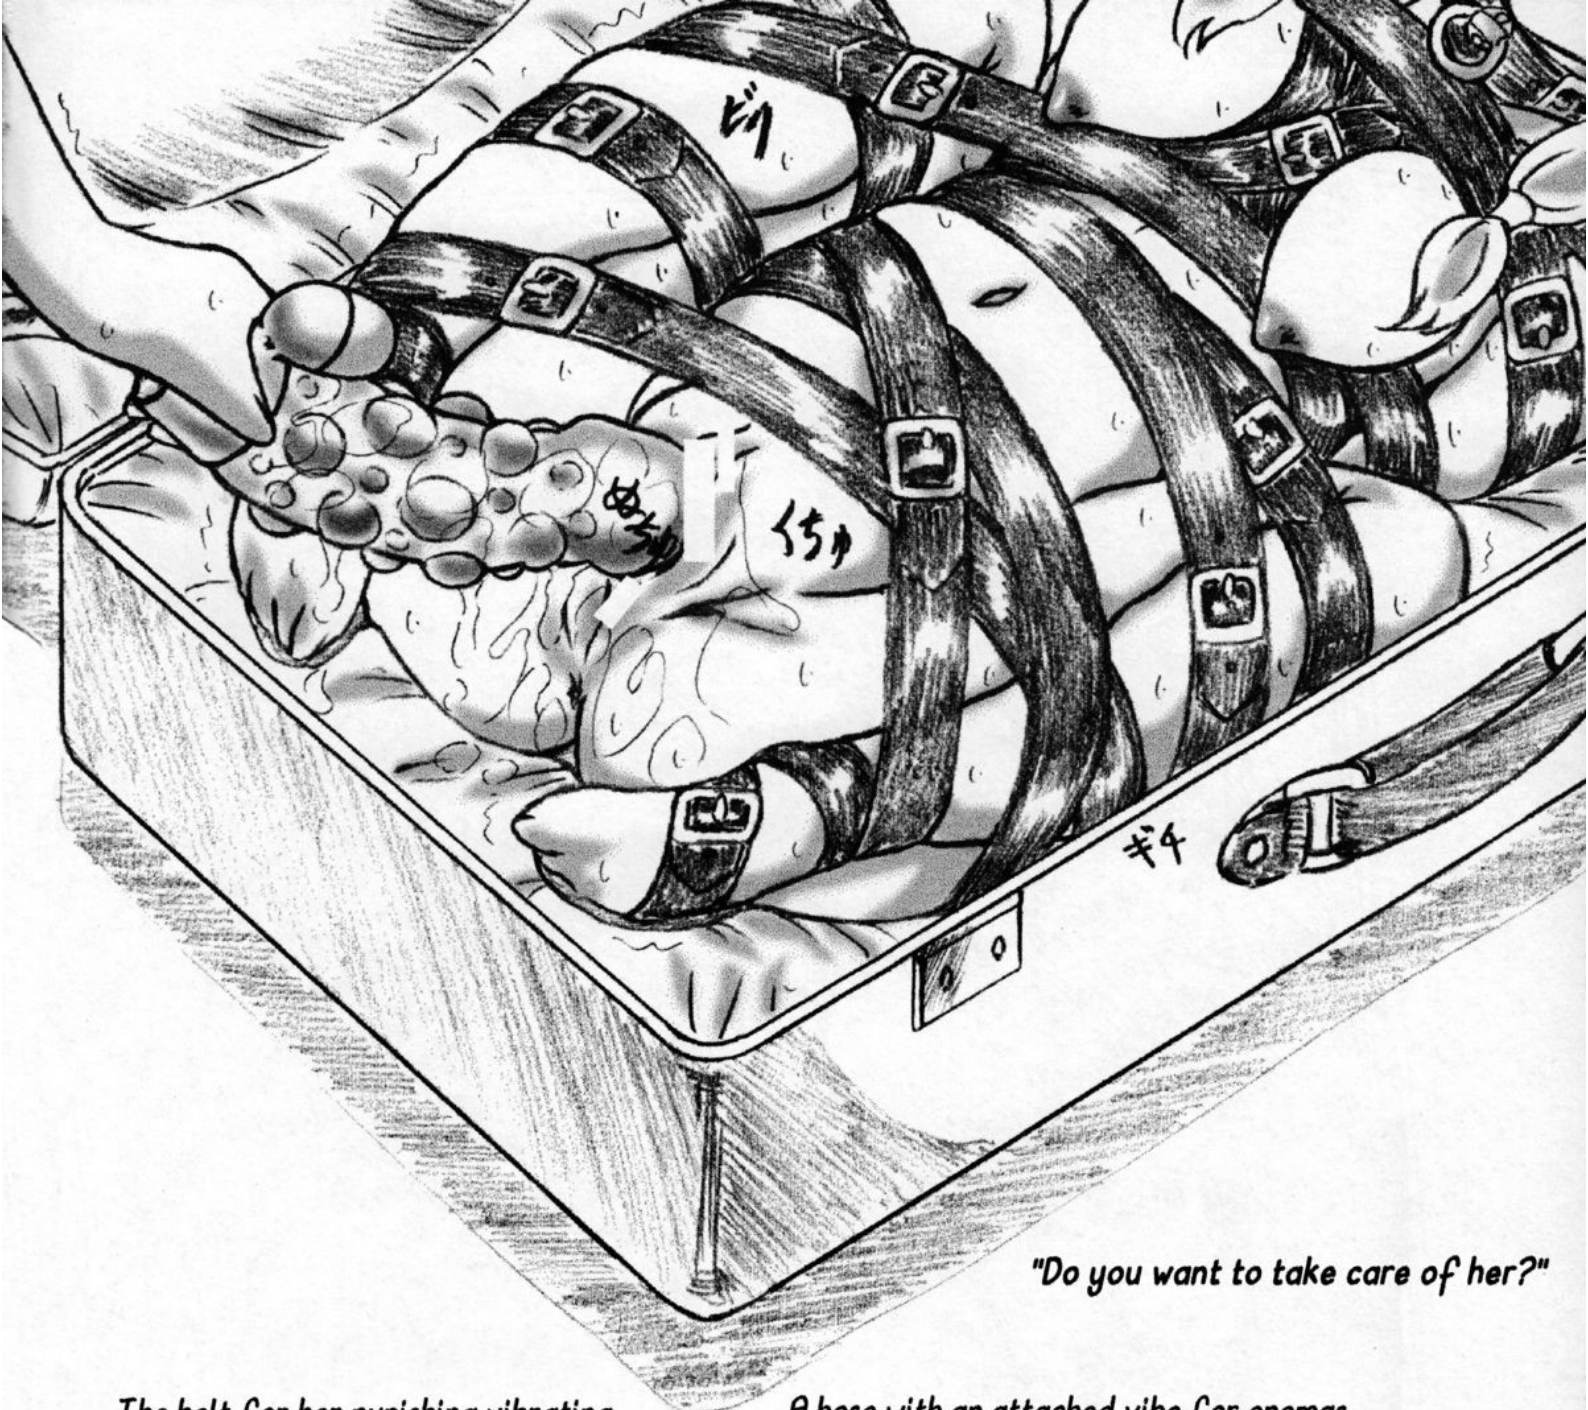

"Nh- Muu -h"
With those other students watching, it seems her suffering is just beginning.

The lid opens with a bittersweet odor,
and the president swaps out the batteries
on the toys and switches them on, turning
the dial up and down. "Uh uoh ah"

エィ

One day, I was shown a trunk case with
a female student placed inside.
"This girl was interfering with student
council activities. Naughty girl."

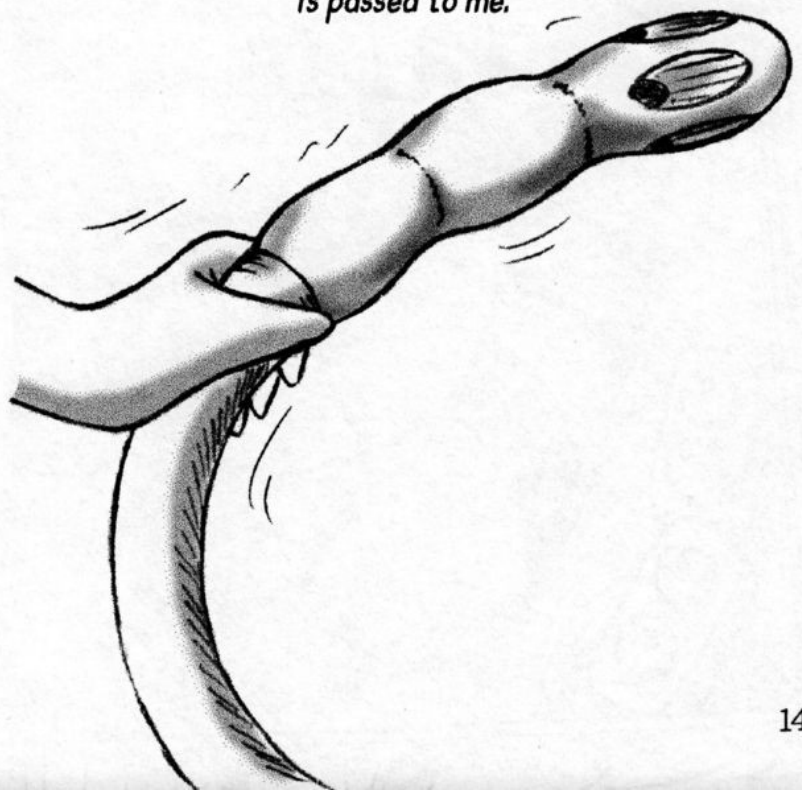

"Do you want to take care of her?"

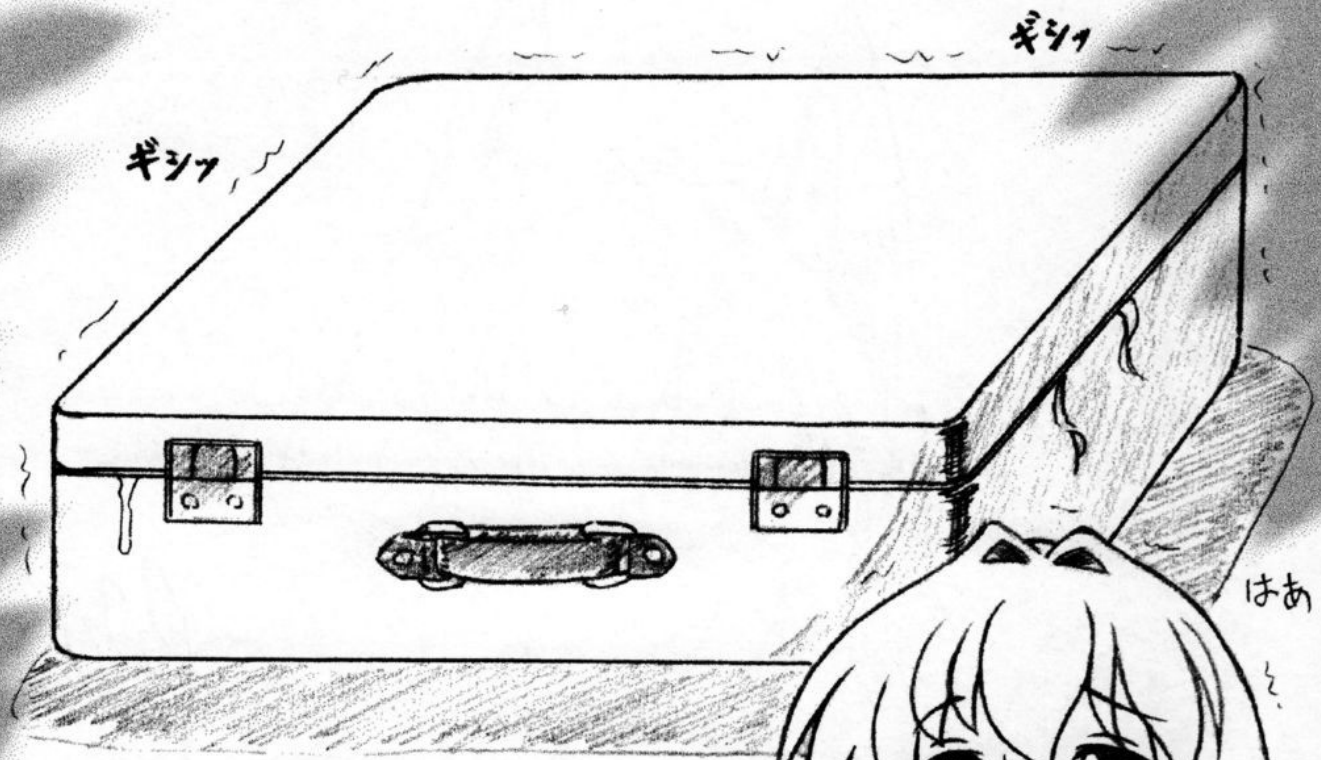

The belt for her punishing vibrating panties is undone, and the vibe in her anus is pulled out, followed by the one in her pussy. The enema vibrator is smeared in lotion and slowly put into her ass.

"Nnh Uoh"

The President plugs in the enema injection pump, and all of the thick fluid gets pumped into her bowels. The punishment vibes are then put back into place.

A hose with an attached vibe for enemas is passed to me.

Then, the trunk's lid is shut. I wonder how long it'll stay shut?
 "Ah... That's right, we were thinking of making you into an exhibit for the festival next month. ...How about it?"
 "The student council should always get to check out your wonderful body."

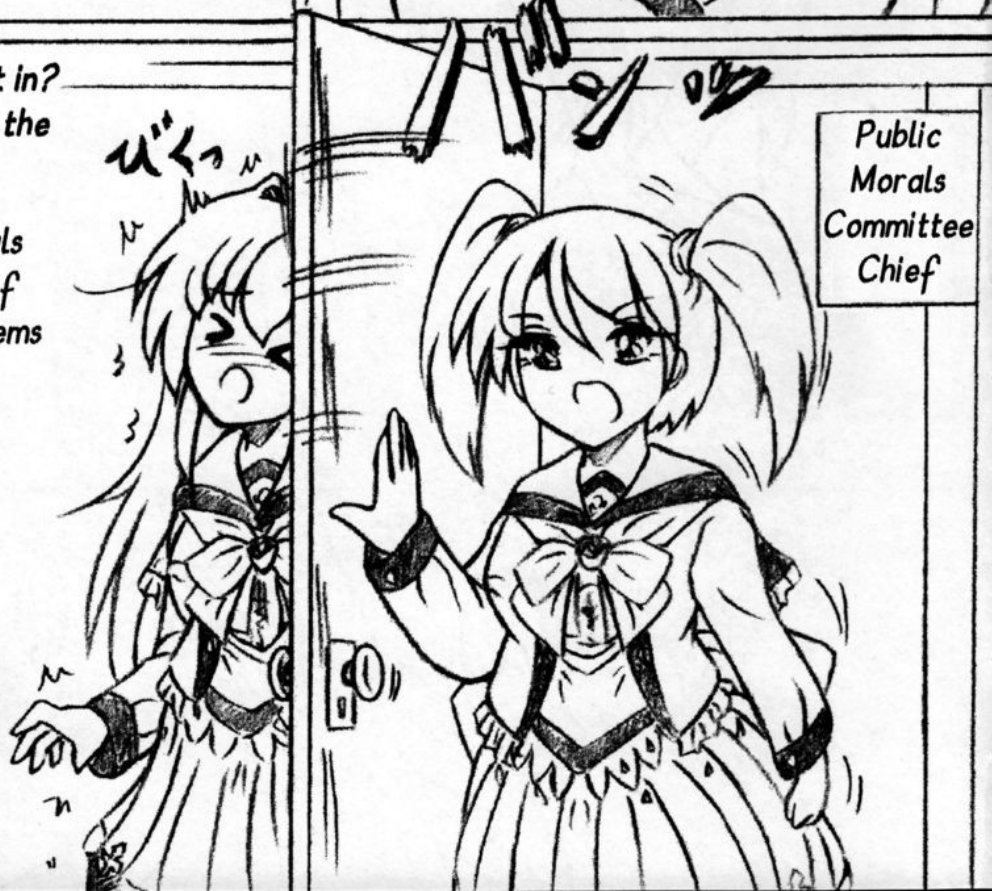

15

"Hey, is the Student Council President in?
 How long are you planning on having the Public Morals girl locked up?"

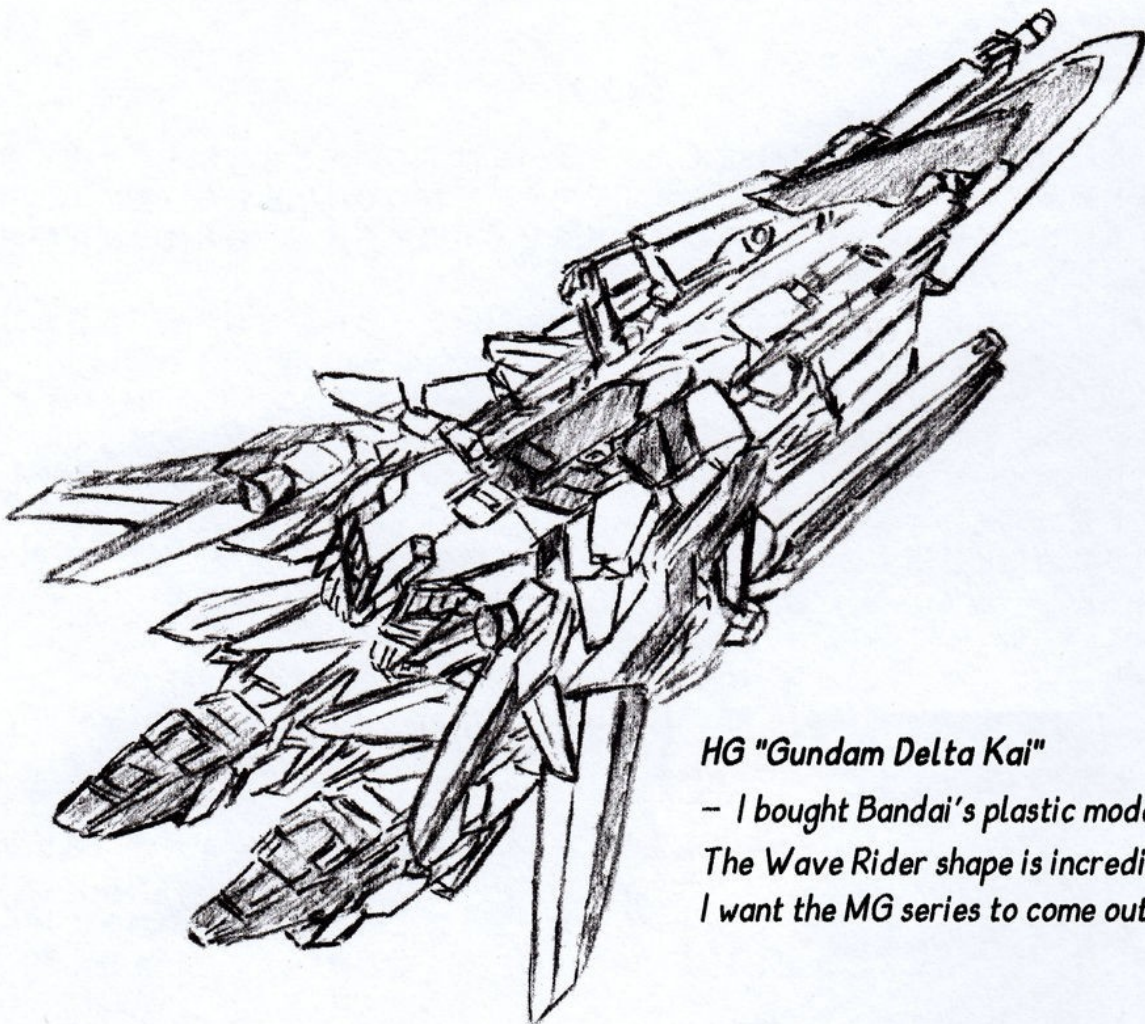

A confrontation with the Public Morals Committee... and then the challenge of a festival, where I... In this school, it seems I can have a wonderful life.

End

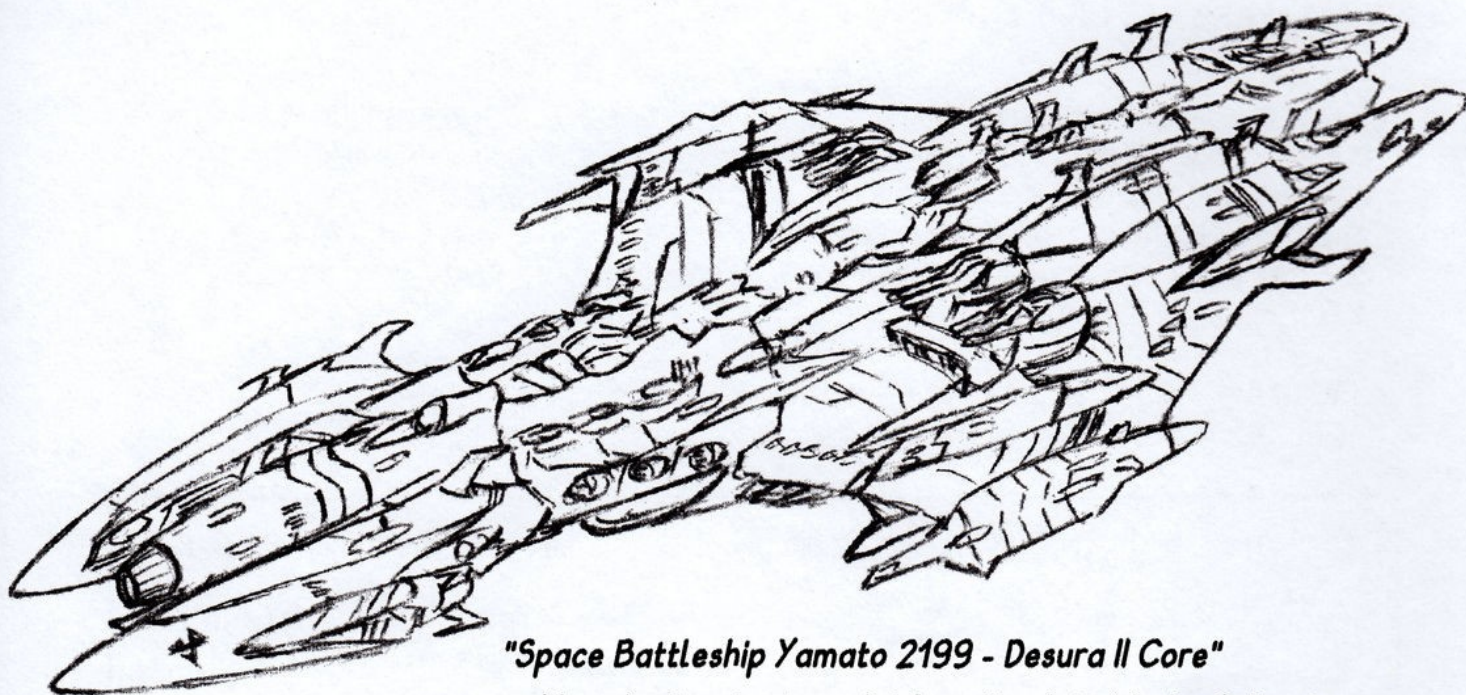

Space Battleship Yamato 2199
Kancolle Desura II Sei-chan.

HG "Gundam Delta Kai"

– I bought Bandai's plastic model.
The Wave Rider shape is incredibly cool~
I want the MG series to come out!

"Space Battleship Yamato 2199 - Desura II Core"

– I bought the plastic model from Bandai's Mecha Collection.
It's beyond tiny (11cm) and is insufficient... 1/1000 scale
would be 63cm, but isn't for sale. Are they going to release
something around 31cm (1/2000 scale)?

Author's note:

The title had "PuniPuni" added to it. If you ask, "why puni puni?"... On TV, they put on a phrase like that and up how many sell, so I put it on (hah) If this is well liked, I guess I could make a sequel, but I'm not sure... How do you feel about conflict with the public morals committee or the protagonist being exhibited at the school festival? For my next original work, I haven't yet decided what the subject should be (If you have decided, announce it on my homepage!).

I've used my Xbox360 to watch Youtube for years, but the left analog stick on the wired controller was buggy. I thought about buying a new one when it started randomly giving out, but it costs 3000 yen (~\$30). I have two wireless controllers I had gotten without buying them, so I decided to use one of them instead. I barely use them, and since they use 2 Eneloop batteries each, I never have to buy batteries. Alkaline batteries die quickly (and though they're 6 for 100 yen, it's not good for the planet). The Xbox360 is useful for using IE and watching Youtube... it should last for 10 more years.

Until recently, I've been watching Let's Plays for "Atelier Shari" and "Yoru no Nai Kuni." Watching while I draw my manuscript instead of playing for myself is convenient. I've started to watch "Atelier Sophie" (I've downloaded the PS3 theme, but haven't bought the game). Alchemy seems hard.

In "Prisma☆Illya - Zwei Hertz," Illya's Zwei Form is beyond adorable. I have no love for her gloves and arm guards, but the design of the Zwei Form with bare arms feels good. From "Atelier Shari," Sharistella is cute, too. Lately, those two are my favorite characters~ I really want their figures when they come out (I don't have the money to get them).

The recent fall anime, "Utawarerumono - The False Faces" has cute characters~ Will it be running for 2 Cours? I'm looking forward to the second season of "GATE"~ I liked the goth-loli priestess. I wanna have her all tied up...

※ Tragic Notice ※

Proceeds from download sales have dropped below half~ I may not be able to pay for a print version of a new work~ If that's the case, after I make about 30 copies of the copy book for Comiket, I don't know if I'll be able to announce a download version. I plan to increase the price per book of download versions... But I don't think it'll be enough! If I stop participating in Comiket, please understand it as me not being able to afford the fees..
I don't get much income from the download versions...

※ Plans for 2016: ● Comic 1: 2 new works

● Summer Comiket: 2 new works

● Winter Comiket: 2 new works
