

I only had a single beer~ I'm not drunk~

You're that drunk and you still want more?

I want pistachios as a snack~

Hey, hey~ Let's drink some more, okay~?

Keep the change.

Oh wow, you're right~ It's an old-fashioned apartment building~

Mwha...? Where are we?

In front of my house.

Well, considering the taxi fare, it really is nice how cheap your drinks were tonight.

円

Ufufu~ It's nice, isn't it~

I'm actually kinda jealous how cost-effectively you can get drunk.

It's not a question of "how much" when we're talking about you...

I'm turning on the light, okay~

Wow, you're a cheap-skate~ I'm worried for your future~

Oh, shut up.

While you're at it, turn on the heater as well.

Flattery won't get you anything extra.

Sakito, you can be so kind sometimes~ I love you~!

...What, did you want something else, too?

Didn't you just say you wanted to drink more, Yuzu? I'll drop by the nearby convenience store real quick.

If you start feeling sleepy while I'm gone, you can go to bed.

Sakito, are you still going somewhere?

Bye then, be right back.

The drinks are on me, but I will have you pay for the pistachios.

Eeehh~? You really are the king of cheap-skates!

He could've at least said "I love you too" and given me a hug or something~

We're both feeling good after drinking and've gotten a little tipsy and all, so...

HUP!

Man...

I swear, it wouldn't hurt Sakito to start accepting my way of showing my love a bit more honestly~

I'm just
so
hopelessly
in love
with
him...

I love him
so much
even
smelling
his bed
is enough
to get me
going~!

I wonder if he'll start smelling like an old man some day...

But if it's Sakito's old man smell, I know I'll love it~

カラッ

That's kinda rude in a weird way...

I make sure to wash the back of my ears and my back well, just so you know.*

Ah, welcome back~

Sakito's bed...

It smells like him...

So... why are you not sleeping but rolling around in my bed?

MM
I'm sniffing your bed and getting ready for a little fun~
♡

*TL note: They're talking about the characteristic "old person smell", which is thought to emanate from either behind the ears or the back. The phenomenon is known as "karei-shuu" in Japanese.

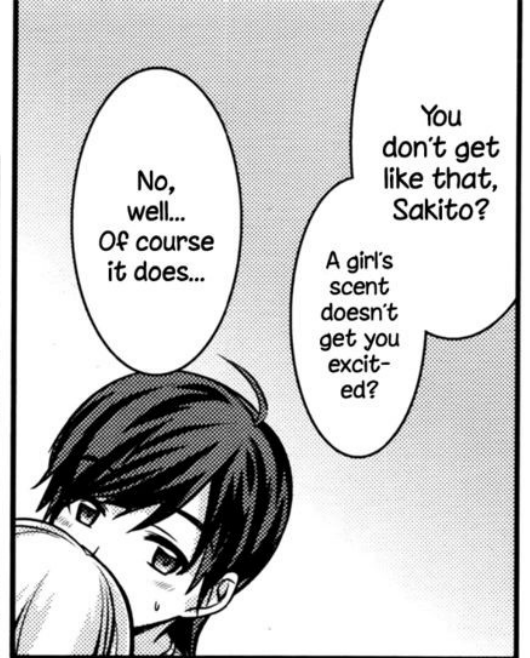

So that's what you meant!

Then aren't you just as bad, Yuzu?!

HAA HAA

Woow, you're a perv! A real weirdo!

So if you got comfy in my bed, you'd get a boner!

No, well... Of course it does...

You don't get like that, Sakito?

A girl's scent doesn't get you excited?

As long as I get to do naughty stuff with you, I'm fine with being a perv~!

So let's have sex, okay~?

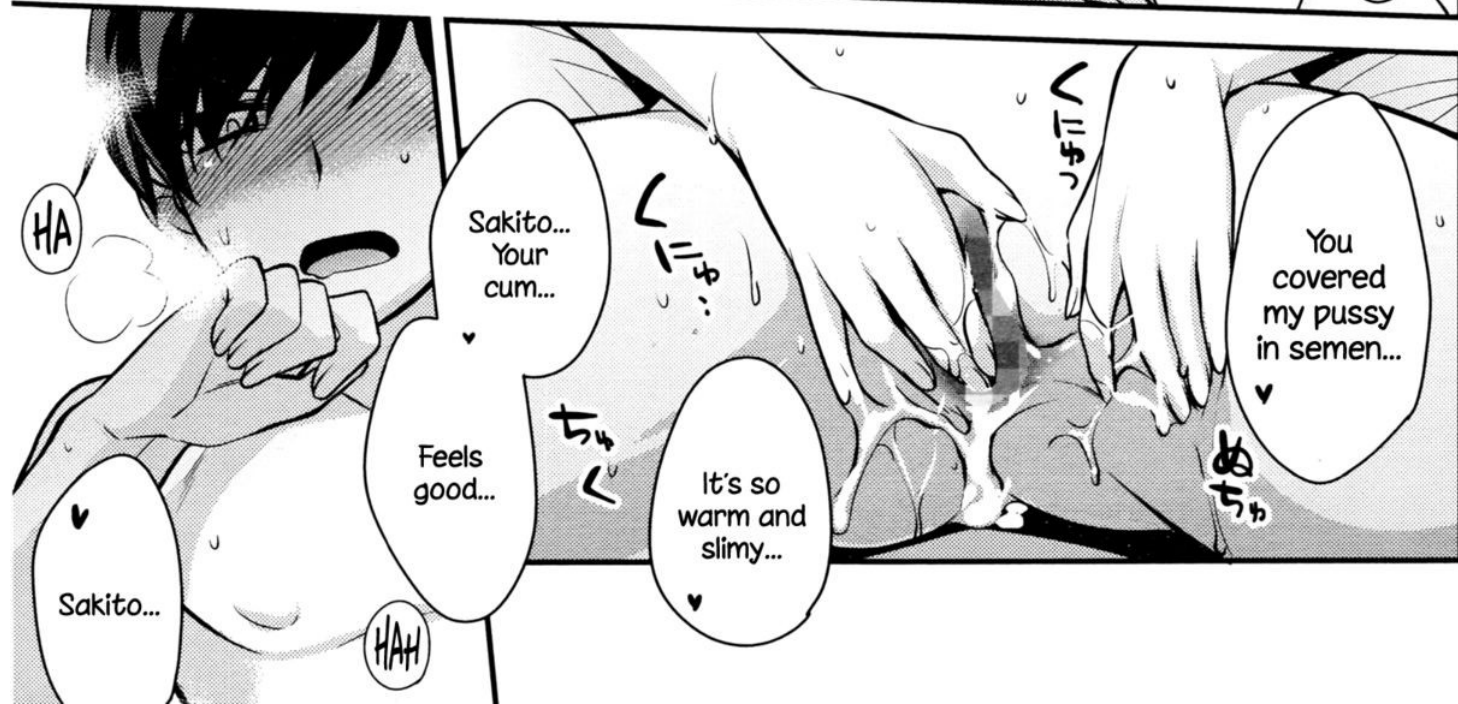

I want to do it with you and never stop, Sakito...
