TL Note:

First, i wan't to apologize for having broken english. If i misstype or miss-tl just put comment bellow. Anyway i was on verge of death for not having "corruption"-air . I'm not talking about bureucrat but women. So if there's male corruption-character story i'wont picking it up to. I was on fire (Heat :3)when Unreal 06-16 got upped and i decided to take this as my first project (for a whim). I'm still beginner so please spare me okay ♥.

Anyway thank you for listening all this bullshit, get ready to take some tissues or saliva (wha?).

Enjoy!
