

Eh... You resorting to violent behaviour in the pub would cost you a fine of 14 coins, will you pay it or face the public execution?

Guard?
What happened?
Hey, I didn't accidentally break some law, did I?

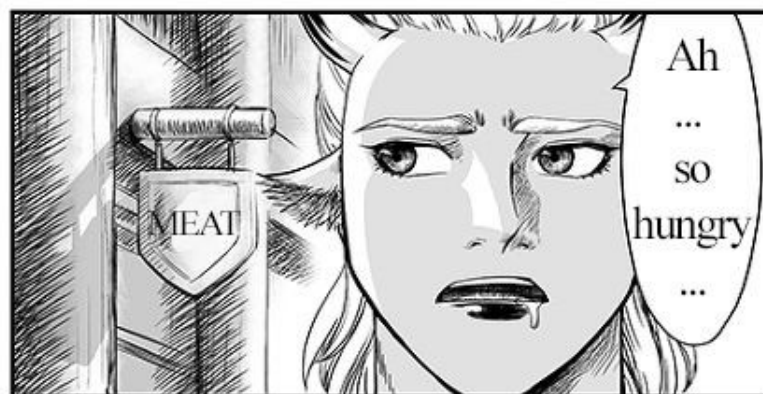

14 coins, huh... that's quite harsh.

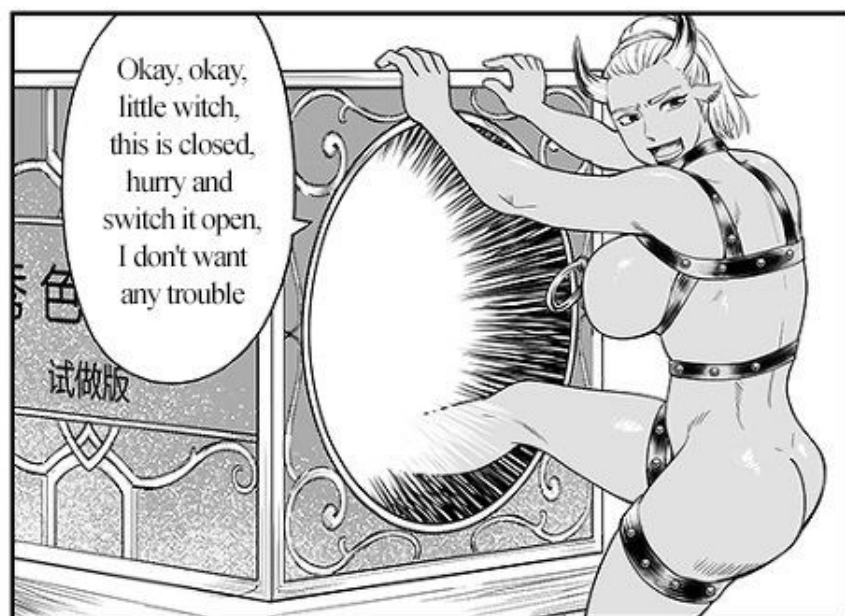

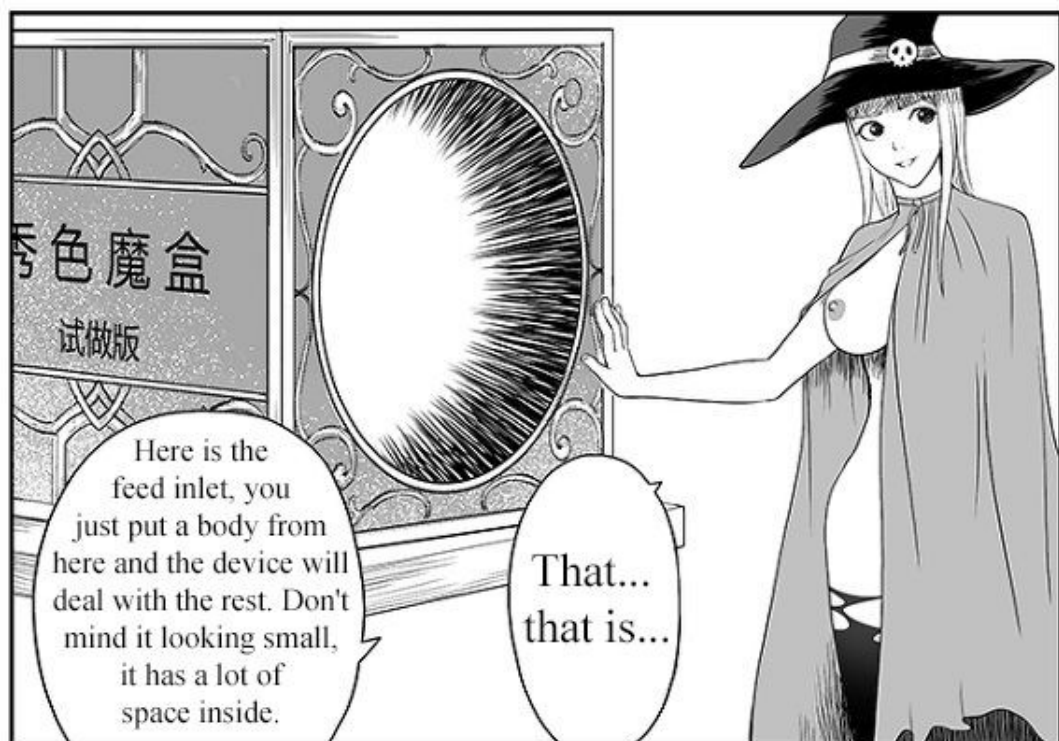

What is the execution today, beheading, cutting in half, tearing apart?

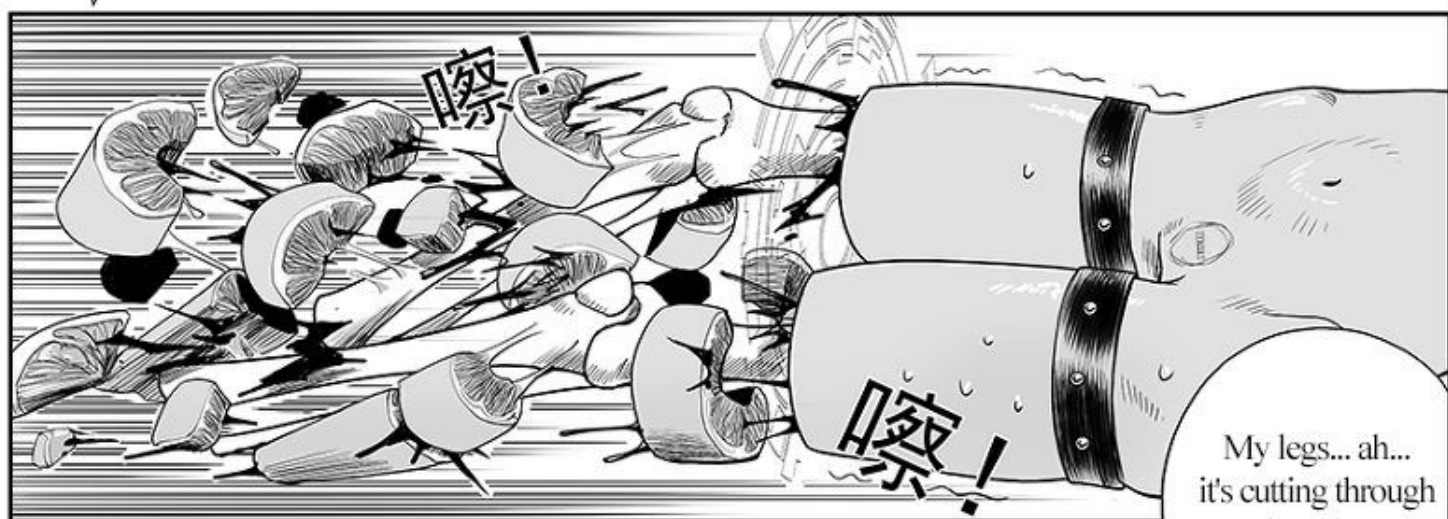

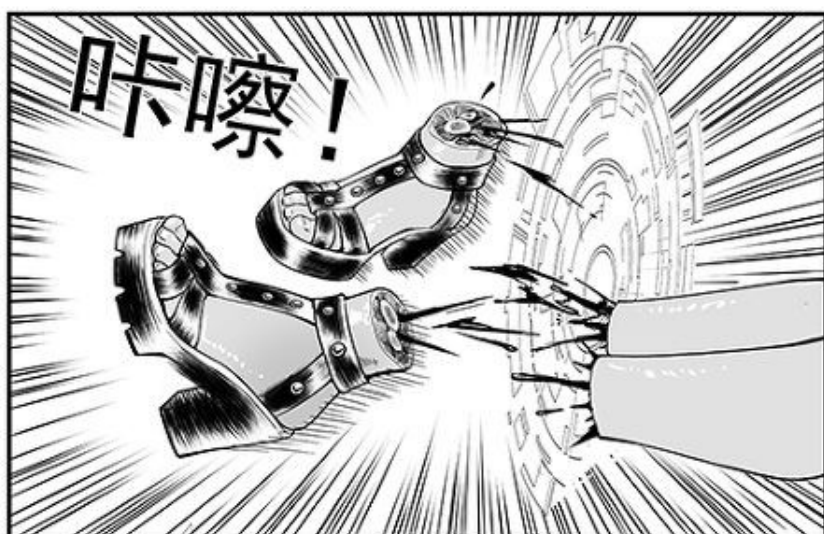

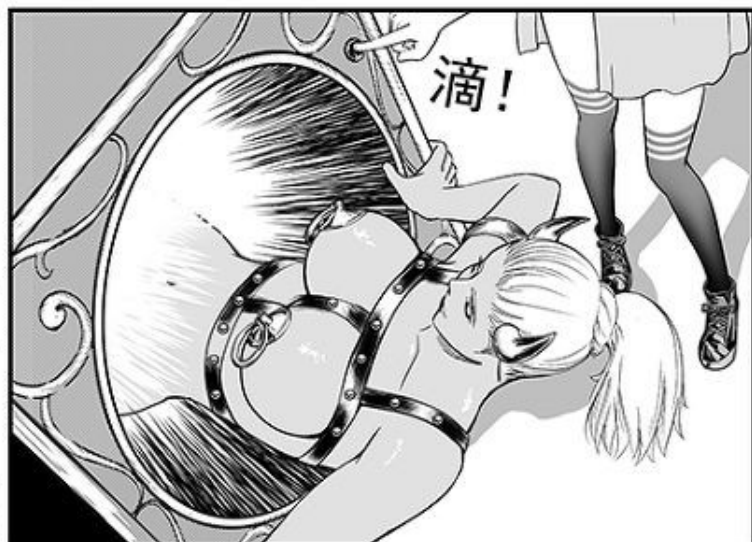

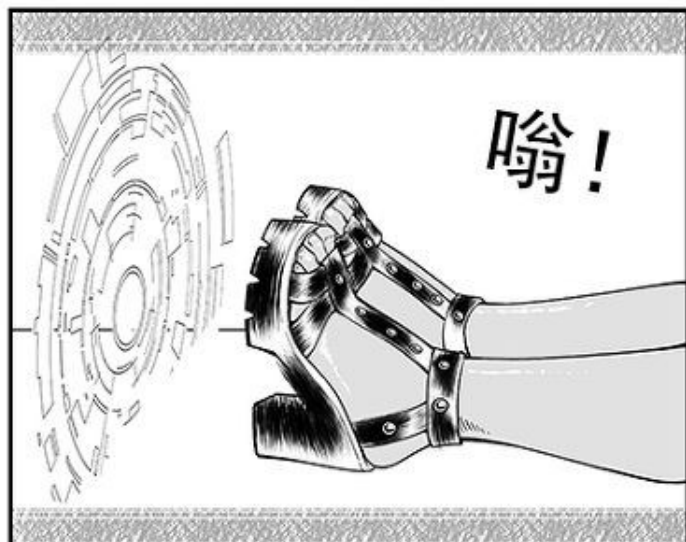

Today it is hanging, I believe your fit body will make a really good decoration.

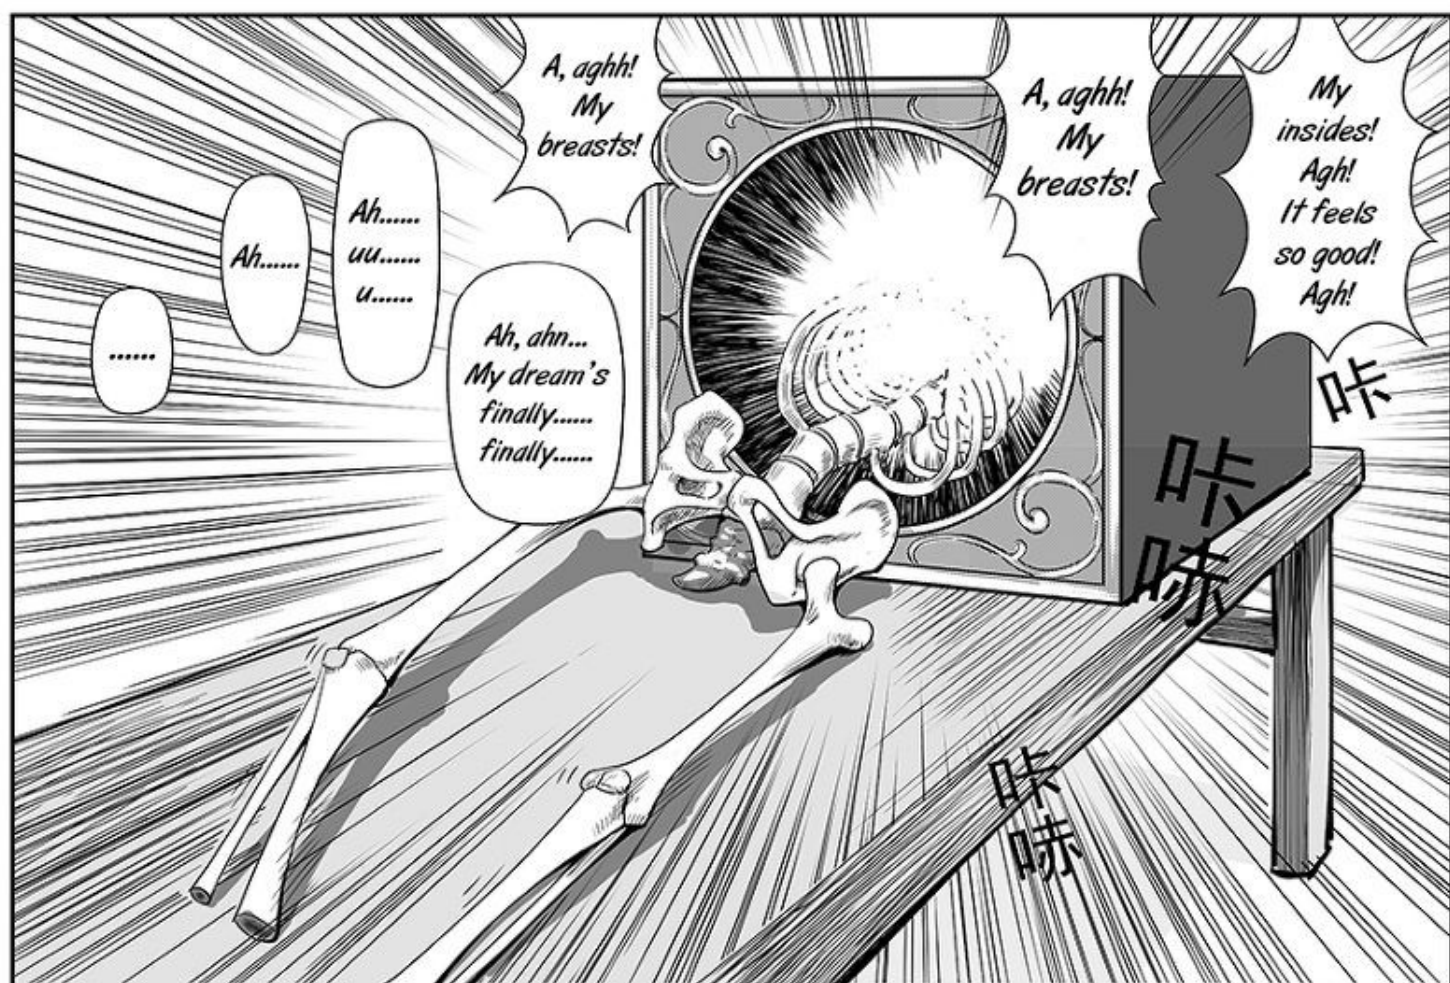

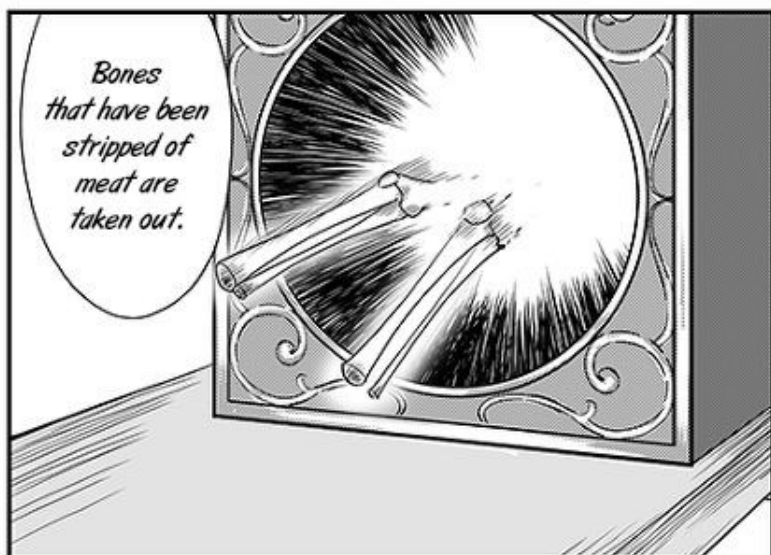

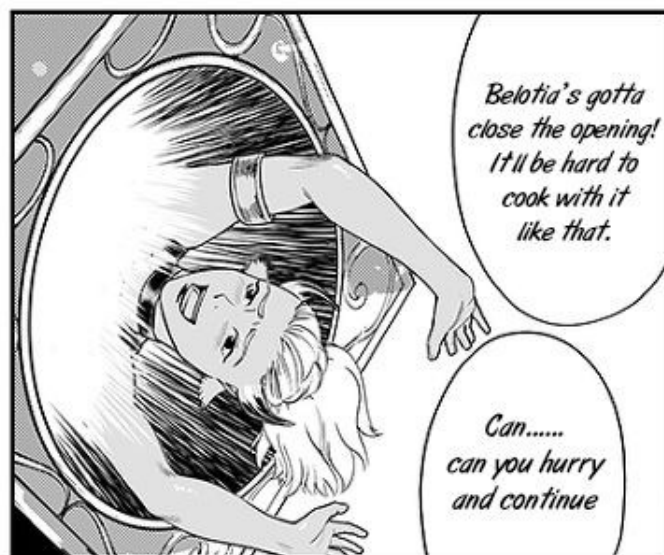

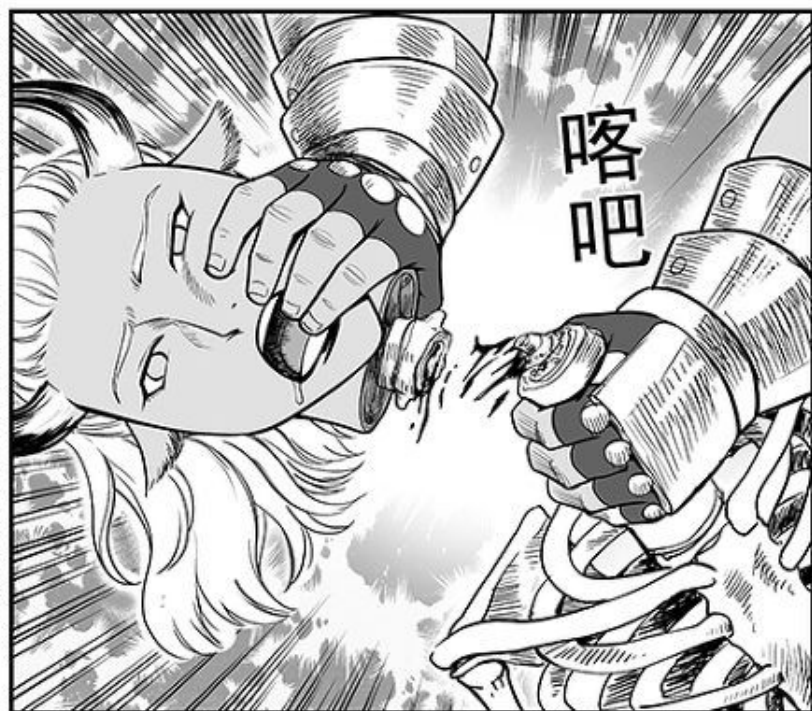

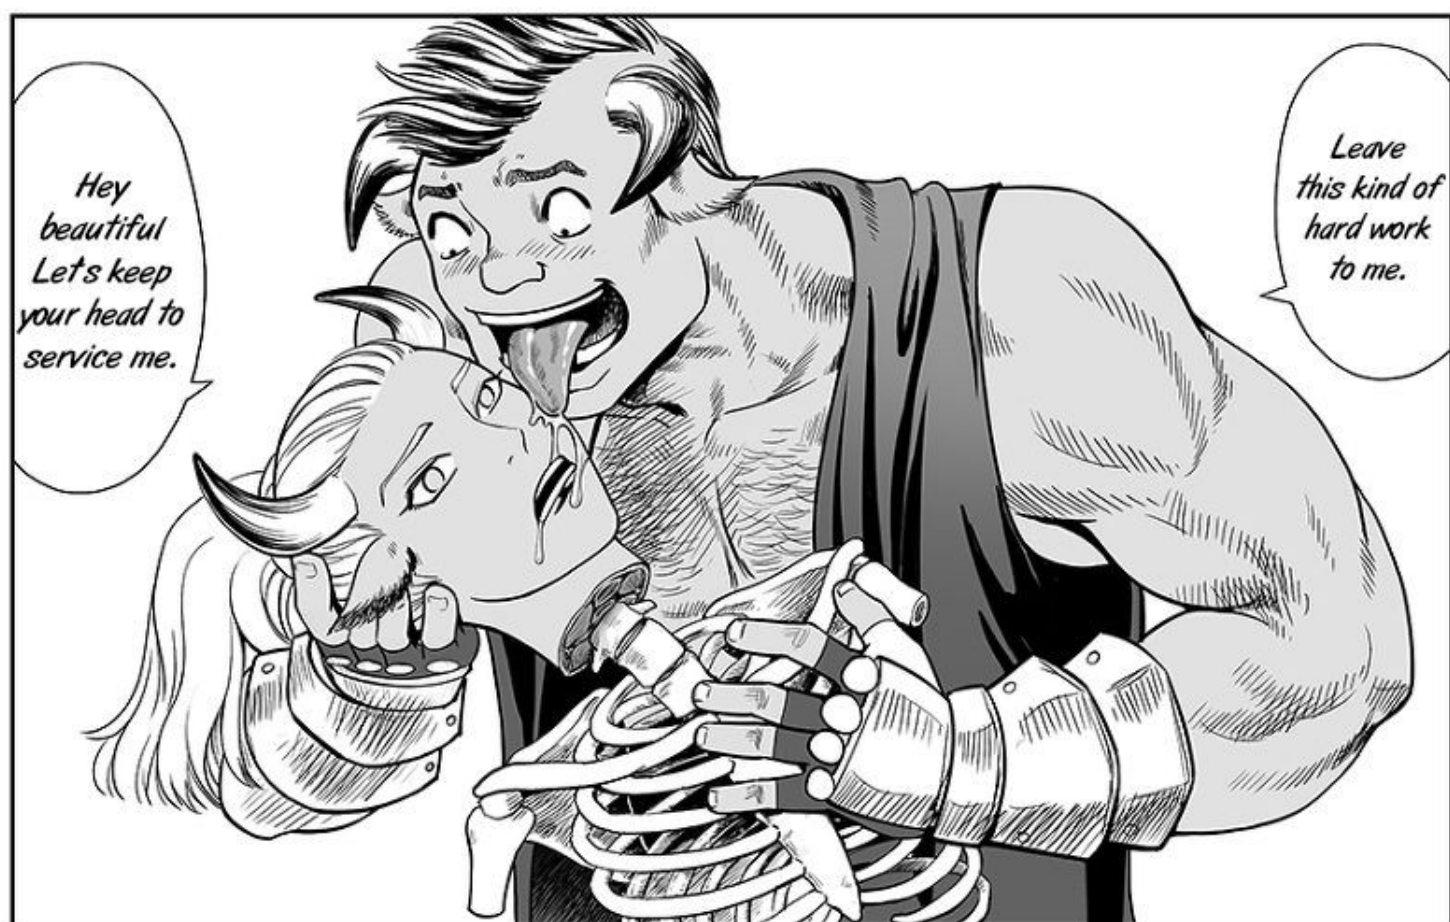

Miss Judith, right?

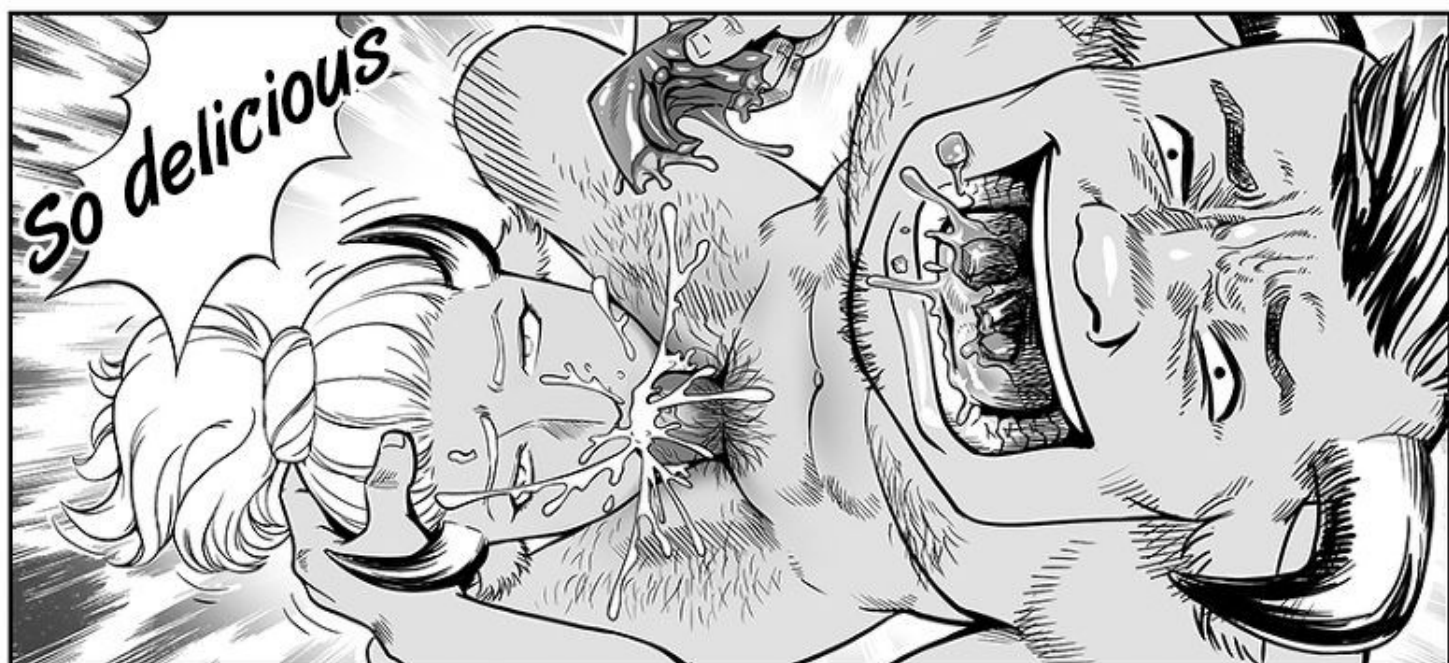

You can't
bring a chef
along when
adventuring,
right?

Everyone,
come try some!
Though it can't
compare with those
restaurant chefs,
my machine can be put
in a Storage Ring
to take away!

*It can be done.
However, I'll
have to make
a couple of
adjustments
first!
It'll only be
a moment!*

*Whether it's
now or later,
I'll definitely
be eaten by you
someday.....
heheh, you really
do dominate those
around you,
Captain.*

*Now is a
good chance to
put you to death,
but it's fine
if you don't
want to.*

*My dear
meat fox,
I want to eat
you because
I like you
too much.*

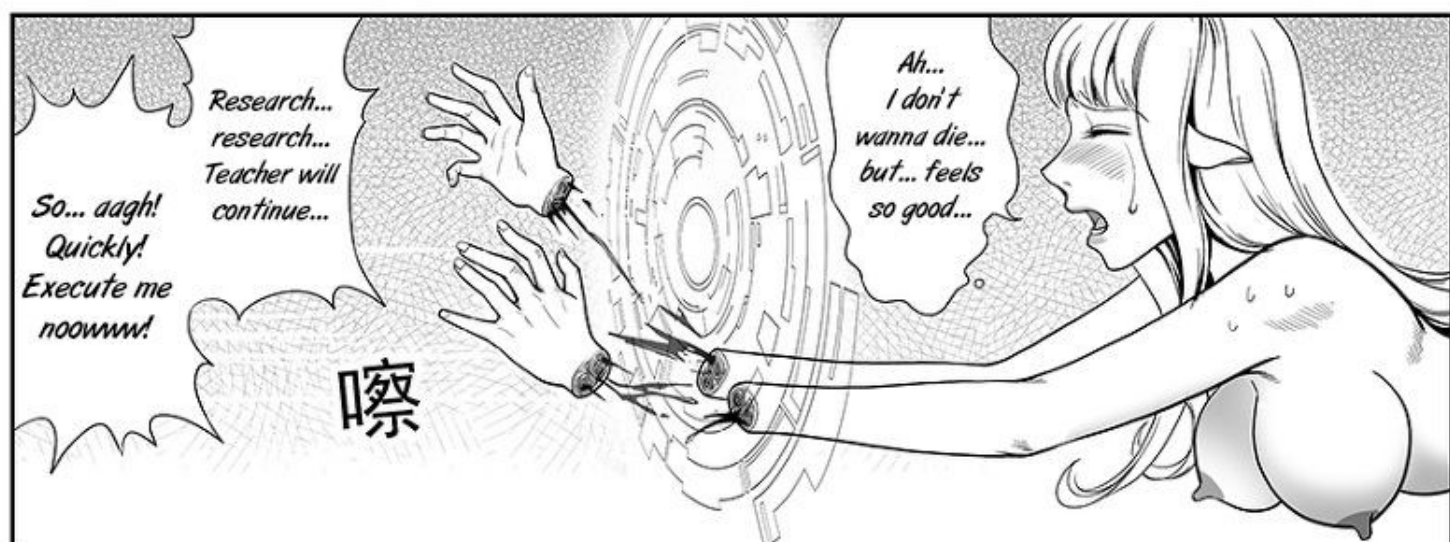

*Can you
provide raw
meat here and
not do the
cooking?*

*Our Captain's
culinary skills
are pretty good.
I want to have
Captain cook my
delicious flesh
himself*

*Miss
Belotia,
I'm asking
you,
please!*

*and have
my tail cut off to
process separately
and make a scarf.
That way, Captain
will be able to use
it to fend off
the cold*
