I thought only women live on Clam Island. What happnened to you?
Cough...Most of them are women. But there are also some men among the employees at the control tower
슥
I was one of them. Until I did something wrong, and was dragged here..
덜썩
What did you do wrong?
I'm not that kind of person. But I happened to rape somebody

Anyhow..
Never seen
you before..

Oh.. There was a
shipwreck, but luckily
I was swept to this
Clam Island.

Aren't all the
girls nice here?
Why did you
rape?

You're right.
Very kind.
For the first month,
I was happy, even
though I was
stuck in this
island.

Having sex after sex,
everyday.
It was heaven.

Not to mention ..
the drug....
Best days of my life..

It was incredibly
addictive.

Then..
Suddenly...
This bitch..

Quit it
cold turkey.
Everything..
Drug...
Sex...

Without drug and sex...
I couldn't take it anymore...
And got caught red-handed
trying to rape..

And they put me here as a danger

This is too cruel. It was only an attempted case.

Not even the real rapists live like this

Drug shots and sex ?

Kinda reminds me of my own situation ?

Actually it was her idea, to escape together.. But she kept it a secret, and I was framed as someone who tried to escape alone.

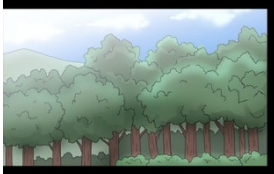

I need to get out of here first

Otherwise..

How did I let this come this far..
The pleasure...

Something's fishy with this island

What the hell is going on here?!
