

...OH YEAH, YOU DID SAY THAT YOU STARTED KEEPING A HAPPY, RIGHT?

AFTER ALL, MY CUTE PET IS WAITING FOR ME TO GET HOME!

OH, SORRY. I CAN'T DO IT TODAY.

HEY, KINO! WE SHOULD DRINK TOGETHER SOME-TIME. HOW ABOUT IT?

UM... YEAH, ACTUALLY, NEVER MIND...

OH, ARE YOU ASKING THAT? DO YOU REALLY WANNA HEAR ABOUT ALL THE CUTE EPISODES FEATURING MY DARLING LITTLE HYO?

SO, HOW IS IT? IS IT ACTUALLY THAT CUTE?

ハッピーといっしょ 錆わさび

YEAH, IT'S FINE... WELL, AT LEAST HE'S FULL OF ENERGY...

SORRY, BUT THAT'S HOW IT IS. EXCUSE ME!

ひびひび

H-HYO!?

Welcome back...

Ha!

Ha!

WHAT'S WRONG? YOU'RE BEET RED...

HOW'VE YOU... BEEN... HYO?

I'M HOME! ♥

HMM... IS IT JUST A NORMAL COLD?

UM, MASTER

PLEASE HOLD ON FOR JUST ONE SECOND. I'LL LOOK IT UP.

MY BODY IS ALL HOT...

AND I KIND OF.. CAN'T CALM DOWN.

UM...

AND I FEEL A LITTLE LONELY, TOO... OR SOMETHING...

I FEEL KIND OF ITCHY... OR KIND OF TINGLY...

It's possible to suppress their mating season if steps are taken before hand, but once a harpy enters mating season, all you can do is wait it out. It won't affect the harpy's health, but it will most likely be quite troublesome for the owner, so the best thing to do as a harpy owner is to fuck it to relieve stress. (Liberal translation)

During the season when daylight hours are the longest, harpies will enter a protracted mating season in order to reproduce. Their body temperature will rise, and they will be unable to calm down during this period.

THANK GOODNESS. IT DOESN'T SEEM TO BE A DISEASE.

OH, HERE IT IS!

IT'S MY FIRST TIME, AND I'M NOT SURE WHAT TO DO, BUT...

UHM, IT SEEMS THAT'S REALLY THE CASE, SO...

U-UM... MASTER...?

How irresponsible!!

BUT THEN AGAIN, I CAN'T LEAVE HYO IN THIS STATE AND DO NOTHING ABOUT IT...

DAMN! JUST MAKE UP YOUR MIND, KINO KOUICHI!

SHE'S MY PET, RIGHT?

I CAN'T DO THIS TO HYO...

HYO...IF THIS STARTS TO HURT, SAY SO, OKAY?

If doing this will make Hyo feel better, even for a little while, then..

L.M... YES... PLEASE, I'M IN... YOUR CARE, MASTER.

I'm only doing this to relieve her because she seemed to be in pain from being in mating season...

Wait, what the hell am I thinking? Hyo is my pet!

I can't believe Hyo can make a sexy face like this...

She kept shaking her head while mercilessly sucking hard on me..!

How will we interact with each other after her mating season ends, I wonder...

But it seems like I won't have time to worry about that until after Summer ends.

IS IT OKAY IF WE...
DO IT ONE MORE TIME?
