Epilogue

Thank you very much for buying this book!

To complement a little more history ...

Jeanne's father is a centaur and her mother human

In this region where centaurs or humans have fought for years, the union of Jeanne's parents, who in turn were the children of the leaders of each race, made possible the coexistence of both parties

However, Ishida is planning to marry Jeanne's mother, decides to steal the status and the wife of the feudal lord to increase his resentment.

It is thus that it brings together the humans who did not want to live with the centaurs and think of different kinds of conspiracies to revive the old conflict between the two parties, initiating a rebellion to usurp the post of the feudal lord and banish the centaurs who were inferior in number. .

Those were the antecedents related to the sleeve of this occasion

Haha

Even though it was difficult to draw a centaur having sex
