Princess Miko also has her bad days. She was walking quickly, not caring about anything under her feet as she squatted down over a city. Rolling her skirt up to her waist, the princess's butt approached the ground. She wasn't wearing any underwear, and her small, pale butt loomed over the city.

Normally, the princess would walk and look around for a spot on which to defecate, but she has no time for that today. Her subjects beneath her have started to evacuate from the area, but the princess releases an explosion of diarrhea onto the city in an instant.

An absurd amount of brown matter was expelled from the proud princess's colossal anus and directly to the ground. The affected city was covered in an instant, but the soft feces still flowed from her behind. A flood of diarrhea swallowed everything directly in its path. The tsunami rose higher than any buildings in the city and there was no way to escape it. Her subjects vanished in the blink of an eye, and millions of people died in a matter of seconds.

The deluge of diarrhea finally reached a mountain range, slowing it down enough to stop its progression. Spared subjects in the neighbouring city cheered at the end of the princess's defecation. The princess looked tired, and she let out a sigh of relief. Her anus's muscles squeezed again, releasing a stool that had remained inside.

The gigantic anus's muscles tightened, letting loose another spray of diarrhea. The additional stool pushed the pile over the mountain and onto the still-intact neighbouring city, causing a great deal more damage! In the end, a city was annihilated by the princess's diarrhea, while another was partially destroyed. Her subjects learned to monitor the princess's physical condition more carefully from now on.

The princess is lying face down on the ground and twitches from a ticklish feeling. She thrusts her great butt high in the sky and looks up at it.

"How is it? I wonder if this feeling is okay..."

She wouldn't be able to understand them even if they answered, but she somehow felt that it was still okay. For normal humans, the princess's butt was extremely wide. In the center was a crater that had destroyed countless cities and ended numerous lives. Those had been incredible catastrophes but, despite that, it had become a popular sightseeing spot.

The princess flexes her butt and her anus raised in the center of the city. It was the main attraction of the resort. The bulge made by the princess's anus clenching was several hundred meters high for her subjects. It was necessary to use ropeways and helicopters to get to the top.

A line of luxury hotels had been built around the hole's summit, and multiple suspended bridges were built between the wrinkles. There were also helicopter tours to fly directly over the pit and the huge wrinkles that overlapped at the center of it. It was possible to feel the princess's body temperature and gas coming from inside her body.

"Hmph, my butt is itching a bit... Could someone scratch it for me?"

The itching might have come from the hole's surrounding buildings, and the princess wriggled her butt in discomfort. However they were not able to scratch even a single wrinkle of the princess's huge anus, and she was getting uncomfortable.

"Can't you just use a little more force? ...it's no use..."

She knew they couldn't help her, but that did little to ease the discomfort. If the princess's sphincter was itching even a little, the resort buildings on the wrinkles would pile up inside the bowl-like shape and be mercilessly ground between her wrinkles.

"Hmm... it can't be helped. I must endure it for my people."

The princess fights against the itching, trying not to forget about her subjects. She knows they're in there. Touring the city around her anus and trying to enjoy their vacations.

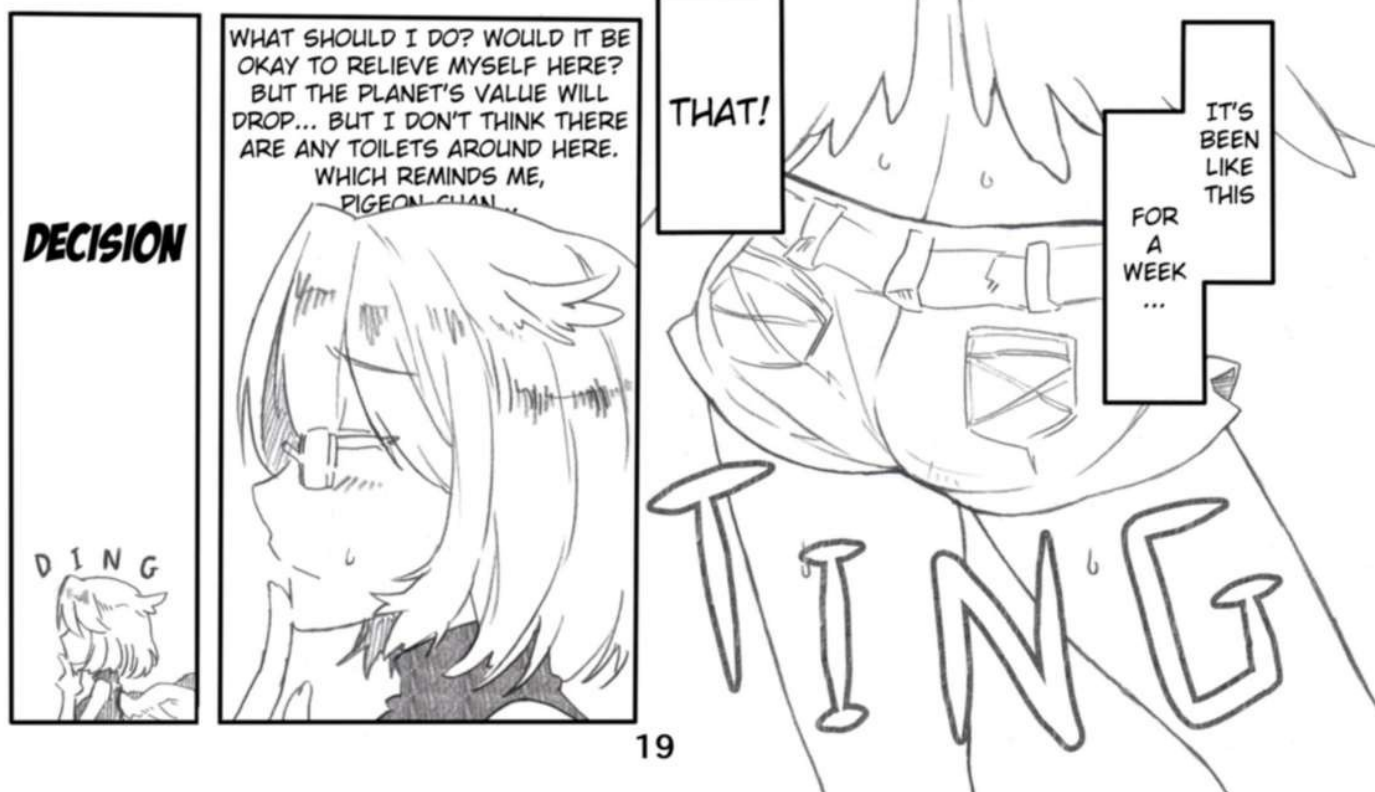

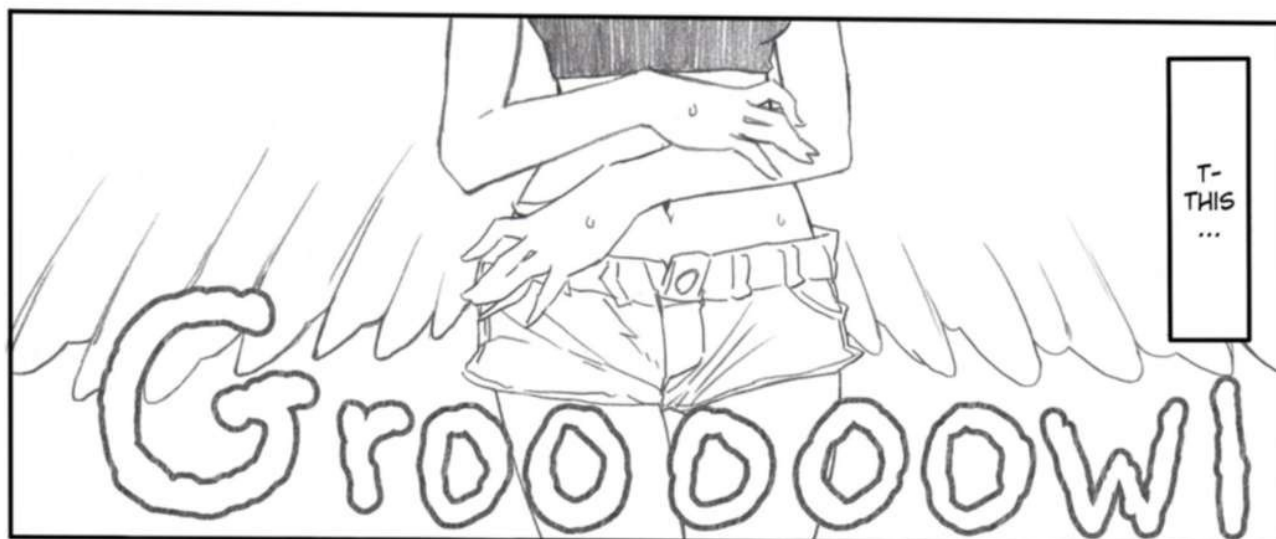

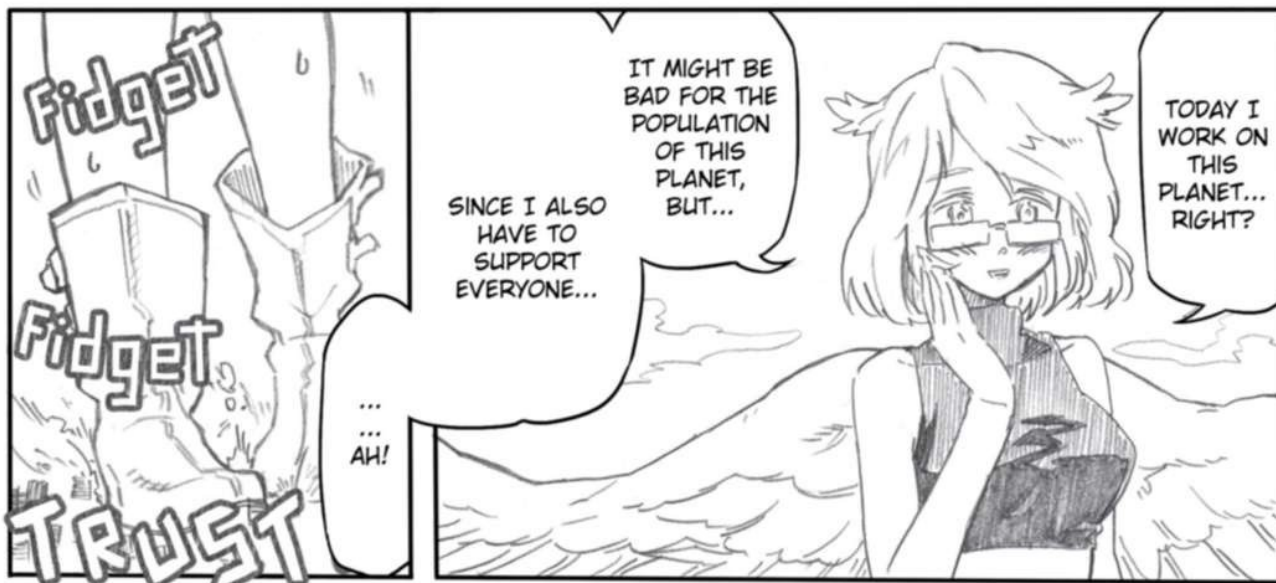

Because of this, they were unaware of the bad feeling from the deep vibrations under the ground. Because the princess had her butt raised all this time, her large intestine shifted, pushing gas to her rear. Almost subconsciously, she let some gas out from her anus.

(Ugh, I instinctively farted... They shouldn't know I did it with such a small amount, though.)

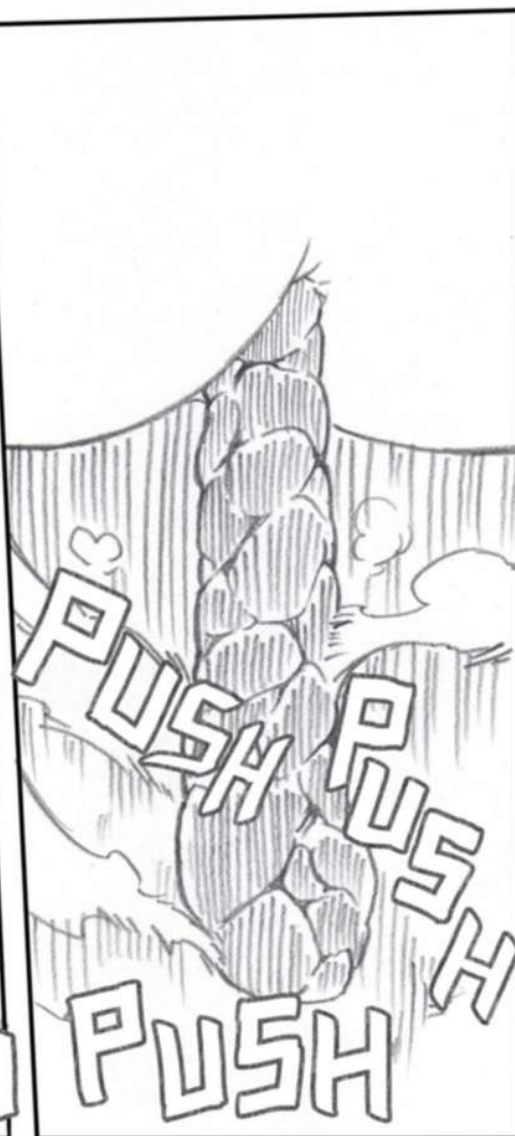

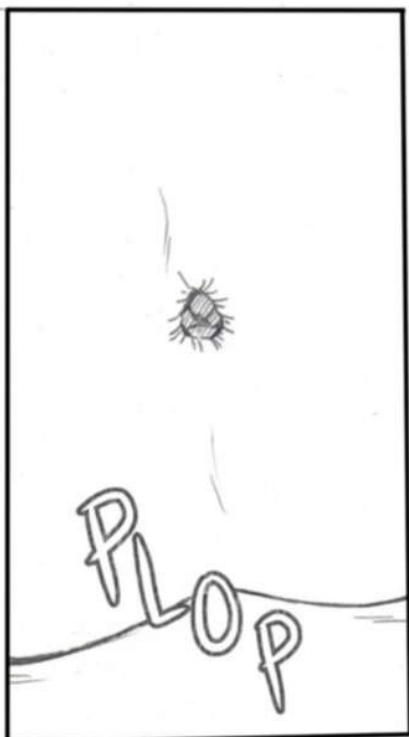

She didn't worry about it too much, as she focused her attention back to the itching sensations. The fart she released didn't make an audible sound to the princess, but it was a huge catastrophe for her subjects.

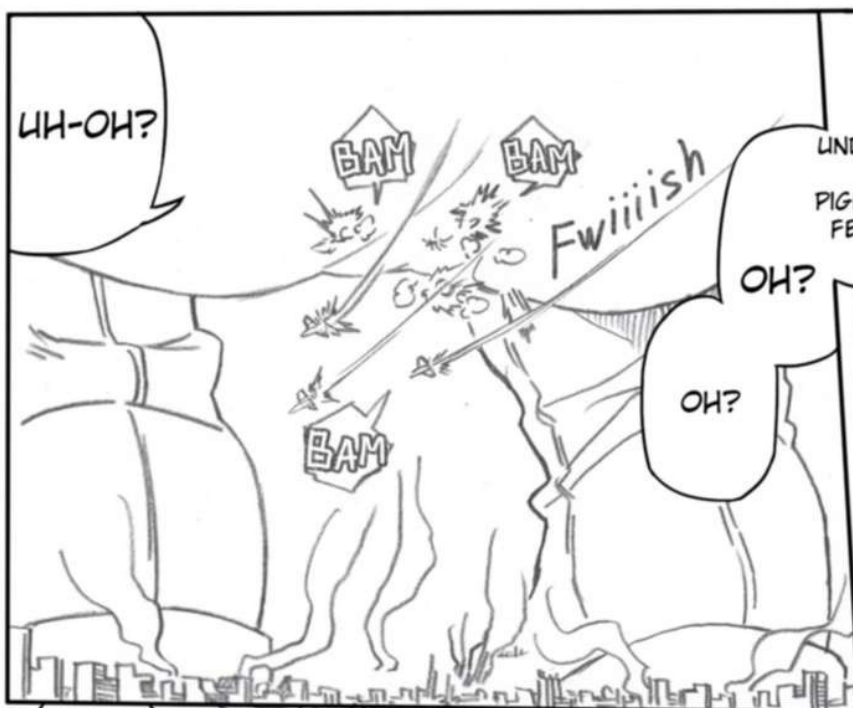

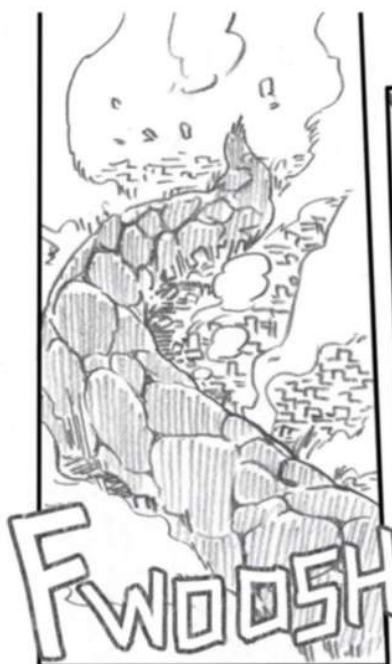

The ground shook violently, the huge wrinkles in the crater moved noisily, and a tremendous explosion occurred. A clearly-visible blast of dense, yellow-tinted gas burst forth from the abyss. There was not a single hotel on the summit resort left standing after the shockwave. The debris and tourists disappeared, blown away away like dust in the wind.

It was a miracle it ended with only that much damage. If the princess hadn't controlled herself and farted normally then even the city at the foot of the anus's mountains would have disappeared. The moment that fart was released, the force of the explosion would have pulverised anything too close before the gas could even settle on the ground. Even after the incident, the tourist spot around the princess's anus is still considered a success. It wasn't long before the facilities on the summit were rebuilt to continue business, and the fight against her itching is a daily occurrence.

Afterword

Terada Ochiko (Pages 4~18)

The princess characteristic + my selfish attitude is my favorite!
I'd like for the giga princess to anally violate more cities. What do you think?
Also, the filthy title logo is one of my favorite.

Arukari (Pages 19~24)

I wanted to make the Crow's manga, but I didn't have enough time due to circumstances...
To the people concerned, I'm so sorry!
I bow down as thanks to the people who read my work!
Thank you very much!

Mcarenos (Pages 25~28)

I'm Sone! Thank you for letting me participate as a guest!
I've become quite into the giga scat subject...

URU (Page 29)

It's my first time doing giga scat!
I tried to draw a view from under the giantess.
How was it?
