UNUSUAL COMMON SENSE...IS erotic!

"Arisu Yamachou's special birth rate rising license" Owner of this license is allowed to impregnate girls in Arisu Yamachou to fight the declining birth rate.
*This is a special unrestricted license for investors.

Arisu Yamachou... Looks like my deceased father was one of the investors ...

Huh? What's this?

And it was the happiest moment of my life, but...

Somehow I managed to give her flowers.

I was in love with Kousaka-senpai ever since I was a little boy. Even though I knew that I'll never see her again after she graduates, I didn't have enough courage to confess to her.

She just threw the flowers away.

After I saw that, my love turned into hatred.

My father gave me a chance for revenge... I'm going there tomorrow ...

She moved to Arisu Yamachou after the graduation ...

But I'm married...
Do you want to do it here?

I'm sorry to disturb you, but please follow me.

Can I really use this card?
I'll test it on that girl.

I did it on a whim, but ...

Because of declining birth rate, this town lets me fuck any girl as long as I have the license.

Also, since I'm supposed to impregnate those women, I can cum inside them as much as I want.

I look forward to using it on that girl.

My father left me something amazing ...

Also ...

The bitch who insulted me should be there.

That this town only has one school ...

The woman I marked earlier told me ...

Because of the bad birth rates.

Milking girl
Manga by

My childhood friend Yuki became a milking girl.

Yuu-kun ...!!

Yuu-kun ...!!

Then ...

I need your mas-sage ...

Yuu-kun ...!!

It feels so good.

Yes.

Only girls who lactate even without being pregnant are chosen for this.

That's why all the girls fit for it are forced to become the milking girls.

There aren't many milking girls in the world.

They lactate more compared to pregnant women.

Their existence is extremely important.

They are called supervisors.

Meaning certain people should protect milking girls at all times.

Because breast milk is needed for all the dairy products.

They can only choose someone close like a boyfriend, a husband or a lover.

According to the law, milking girls pick their own partners as supervisors.

Milking girls usually marry their supervisors afterwards. They get pregnant and give birth to new milking girls.

That's why their supervisors should satisfy their sexual urges whenever the girls need it.

Due to a side effect, milking girls get excited while being milked.

Yuki has been leading a happy life while performing her duty.

No one but the supervisor can have sex with the milking girl.

Are you breaking the law!?

Huh? Don't you know?

Get away right now!

What are you doing!?

Yuki!!

Y...

That's stupid!!

Even though there's a shortage of milking girls, all of them have been protected too much.

The law has been changed and now anyone can fuck the milking girls.

The law was changed to make sure that she gets pregnant.

It's a genetic property, so she might give birth to another milking girl.

We need more milking girls.

There's not enough milk in the world.

Well, if your supervisor hasn't knocked you up yet, then he's out of luck.

STOP!

Thanks to that, we can have sex now.

That's why I like the new law.
