TRANSLATOR'S NOTE:

Though puerile and gross, I thought this book was pretty funny as a teenager.

"I can't wait until it's translated," I thought, "so I can know what exactly's going on". Imagine my surprise coming back to it about five years later to learn that no one had even taken a glance at translating it. It wasn't that there were projects that had stalled, no: it was just one of those dumb things where almost every single one of an artist's works gets translated while one just languishes.

If you're not a fan of this translation, you're welcome to make your own. I'd be happy to give you my Photoshop raws to make the whole process a little easier. Just contact me on Twitter at @transmisogyne or Reddit at /u/princesscuck, or join my Discord server (which isn't hentai-related) at the code QnR5my6 and ping @amy#4198.

I hope you did enjoy it, though!
