Translator's Note

Oh boy. An entire vanilla manga, so vanilla that not even oral sodomy is involved, in the style of the 3D bits in intro to JoJo's Bizzare Adventure. When I saw it wasn't hypersaturated with stupid narration that would waste my time for no good reason, like so many mangas nowadays, I decided to take a crack at it because I figured it wouldn't waste too much of my time. So here I am at 4 a.m., lamenting my poor decision-making skills. No proofreading, one go, #YOLO.

Cynicism aside, I actually did enjoy reading this! It was a little cute, even if the whole 'high schooler is actually the seducer' thing is kind of played out and vaguely creepy. One thing did make me sad, though, though it's more a general issue with original works... it's just so strange and upsetting how these characters exist once and then disappear for ever, like tears in the rain. Maybe that's reason enough alone to stick to derivative works.

Anyway, as usual, feel free to point out any errors or mistakes or whatever. Chances are, half the things you'll point out are things I did on purpose, but I definitely want to know all about my fuckups.
