SUNFLOWERS ARE NOTHING SPECIAL, WE EVEN GREW ONE BACK IN THIRD YEAR.

Hello everyone, it's Minasuki Popuri.
Today's book is... a bit weird, I think. In fact, I drew it while raising a sunflower... it bloomed a few days ago. It made me happy.
I was just thinking how it was more enjoyable in the manga than doing it in person when I hit the deadline. People that are working hard consider phrases like "good luck!" to be taboo, but I makes me happy to hear those. Maybe it's because... I don't work hard at all lalalala fuck shit! It's all fine and dandy, but "Kokin-chan" kinda sounds like "cock", doesn't it. That's all, good night folks!
