To distract herself from her loneliness, she often invites her nephews who live in the neighborhood over, but...

I had basically decided that this would be how the nephews would look from the start. I don't know what I was thinking when I decided on the "hair over one eye" thing, but I ended up loving the look.

Originally I was gonna make this about a neat, short-haired housewife, but I decided to make two smaller works.

At first she was going to be a manager that gets trained by her boss, then I thought to maybe make her a wealthy widow. In the drafts, her character went every which way. Finally I was like, "screw it, I'll just draw what I want". And that's how her final version came to be.

# AFTERWORD

Oda-non here!

Thank you very much for picking up this copy of "A Sexy Married woman and A Female Boss"! This is an original book that I've wanted to do for a long time now. How did you like it?

I chose two scenarios that I personally liked a lot and went with those, but because of that they were heavily biased, and ended up being a lot of breast-teasing (and nipple-teasing).

It's caused me to reflect a bit...

There's still a lot more stuff that I'd like to draw, and I'd love to be able to do something like this again for another book. That being the case, I'm still a novice at this, but when the time comes, it would make me very happy if you chose to pick it up. Thank you very much for purchasing my work!
