

This is Ren-Chan, whom is my childhood friend, our school princess, and also my first love.

She attracted lots of bees in school, including myself; however, She has rejected all the confessions. I know the reason behind it. Under circumstances, she has to live under her abusive aunt. With her birthday, it marks the end of her torment, and she is free at last!

Seaman, thank you for the birthday gift!

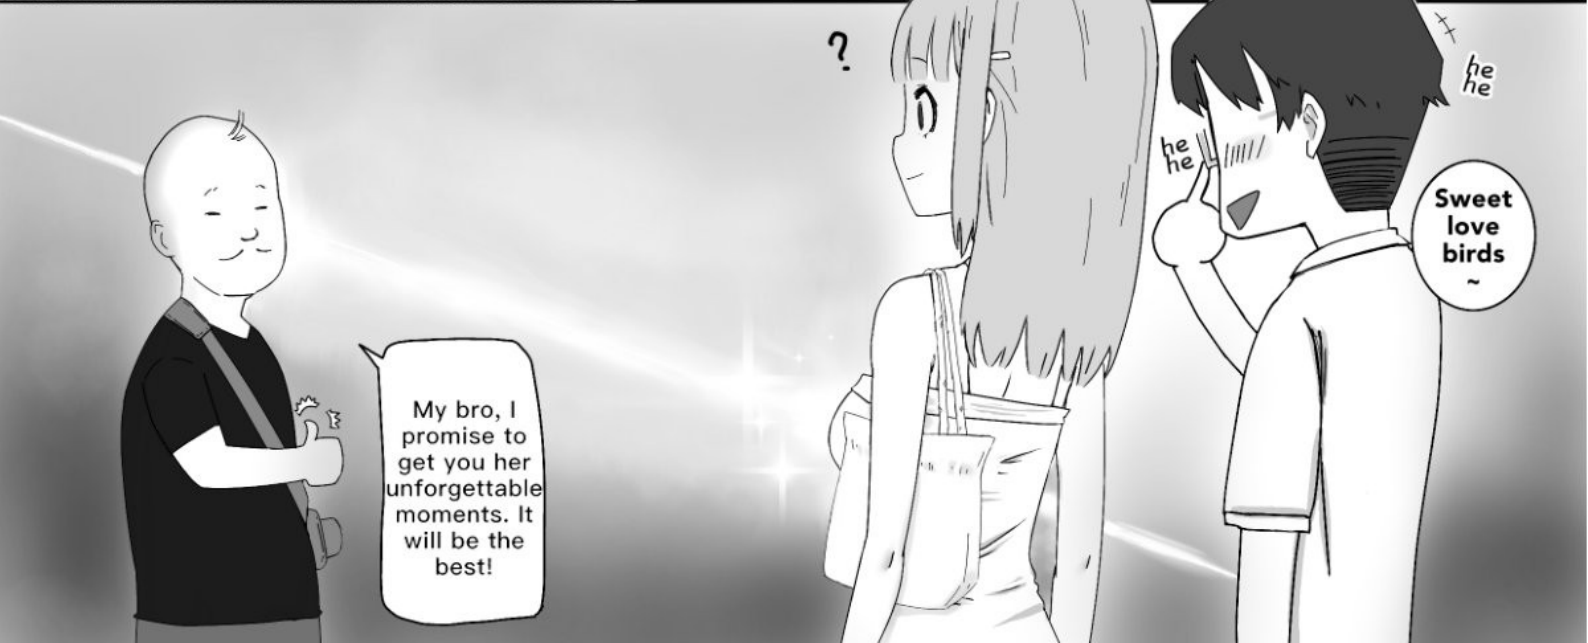

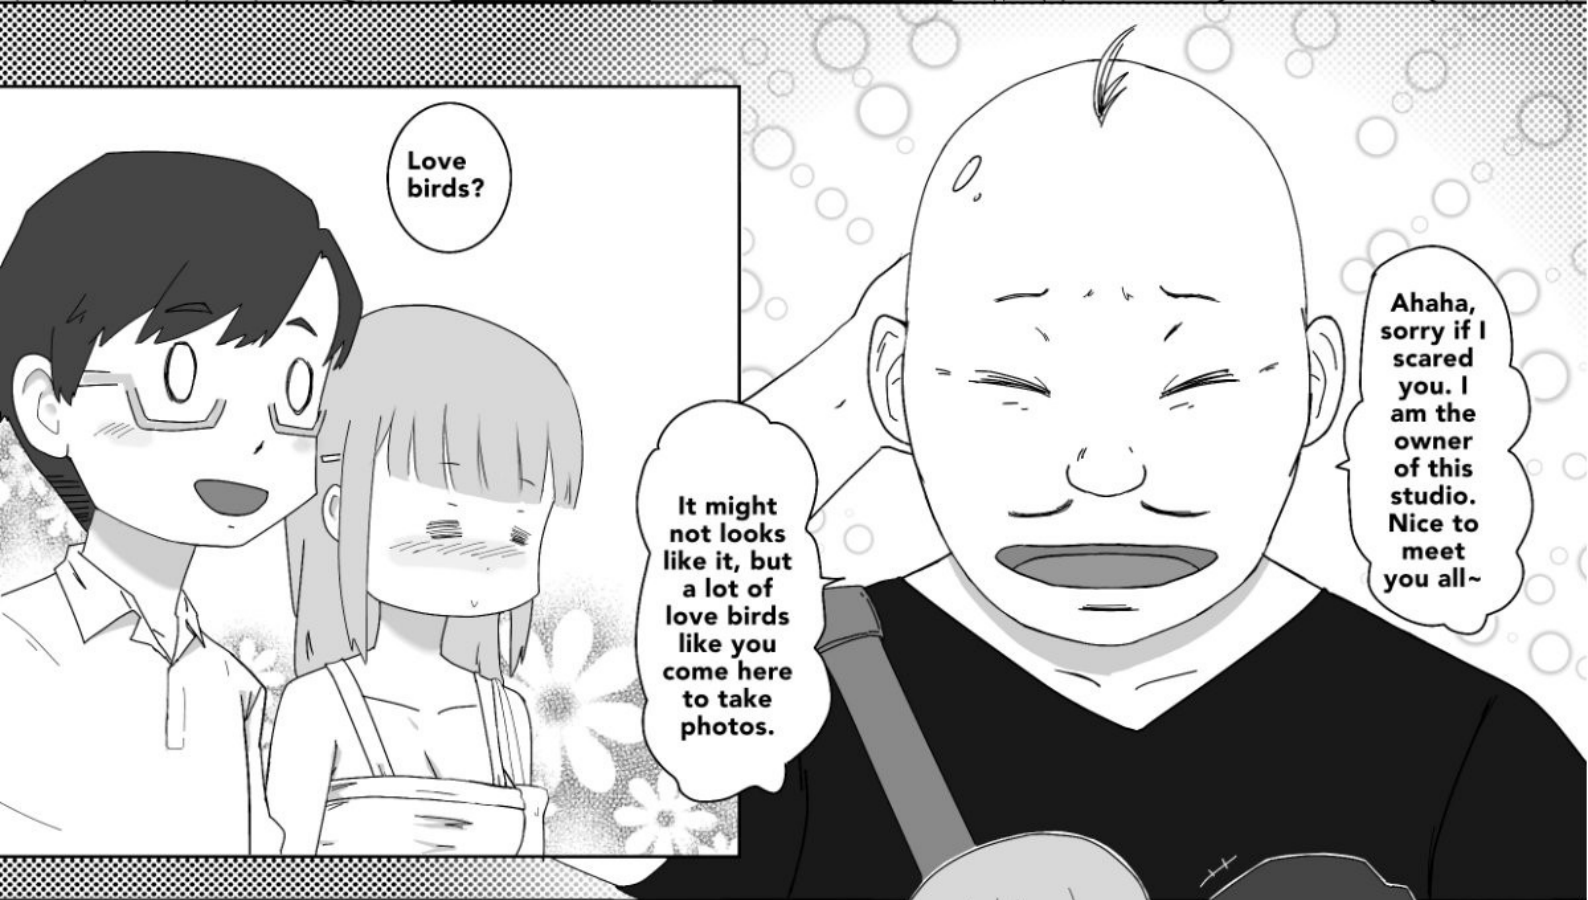

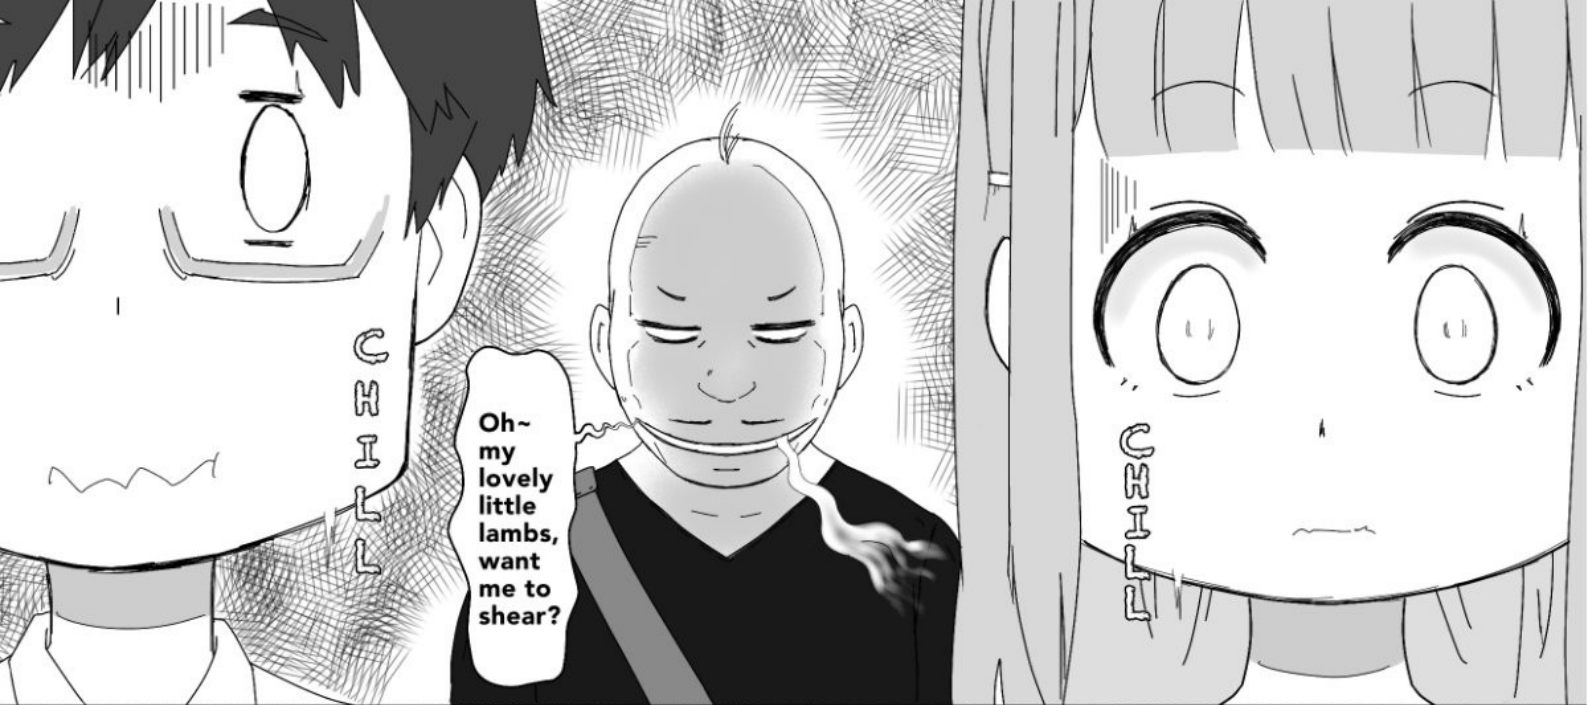

You  
You  
You  
Welcome!  
Ha!Ha!  
Ha!

Today, Ren-Chan becomes my girlfriend. As an otaku like me, this is my wettest dream come true.

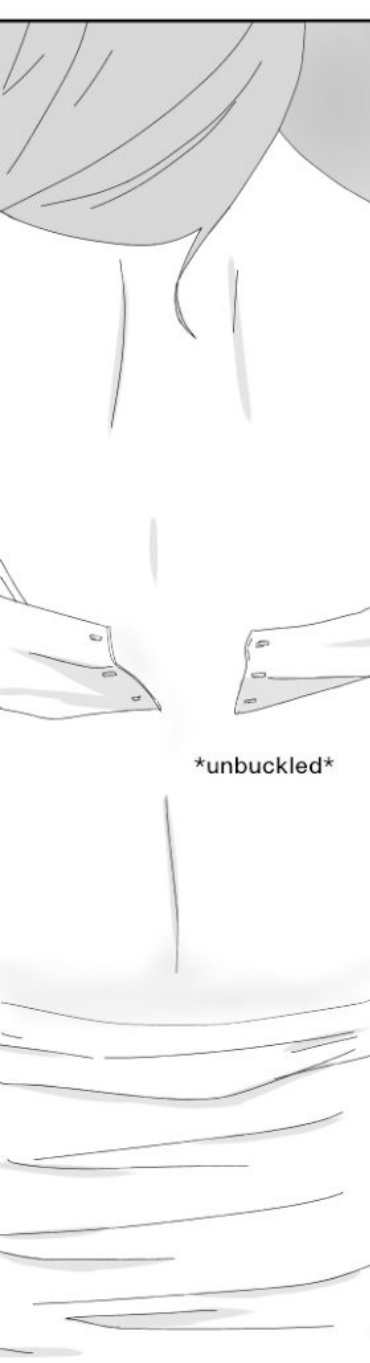

\*unbuckled\*

Did I hear it right? Ren-Chan will take nude shots for me? The last time I saw her naked is in kindergarten!

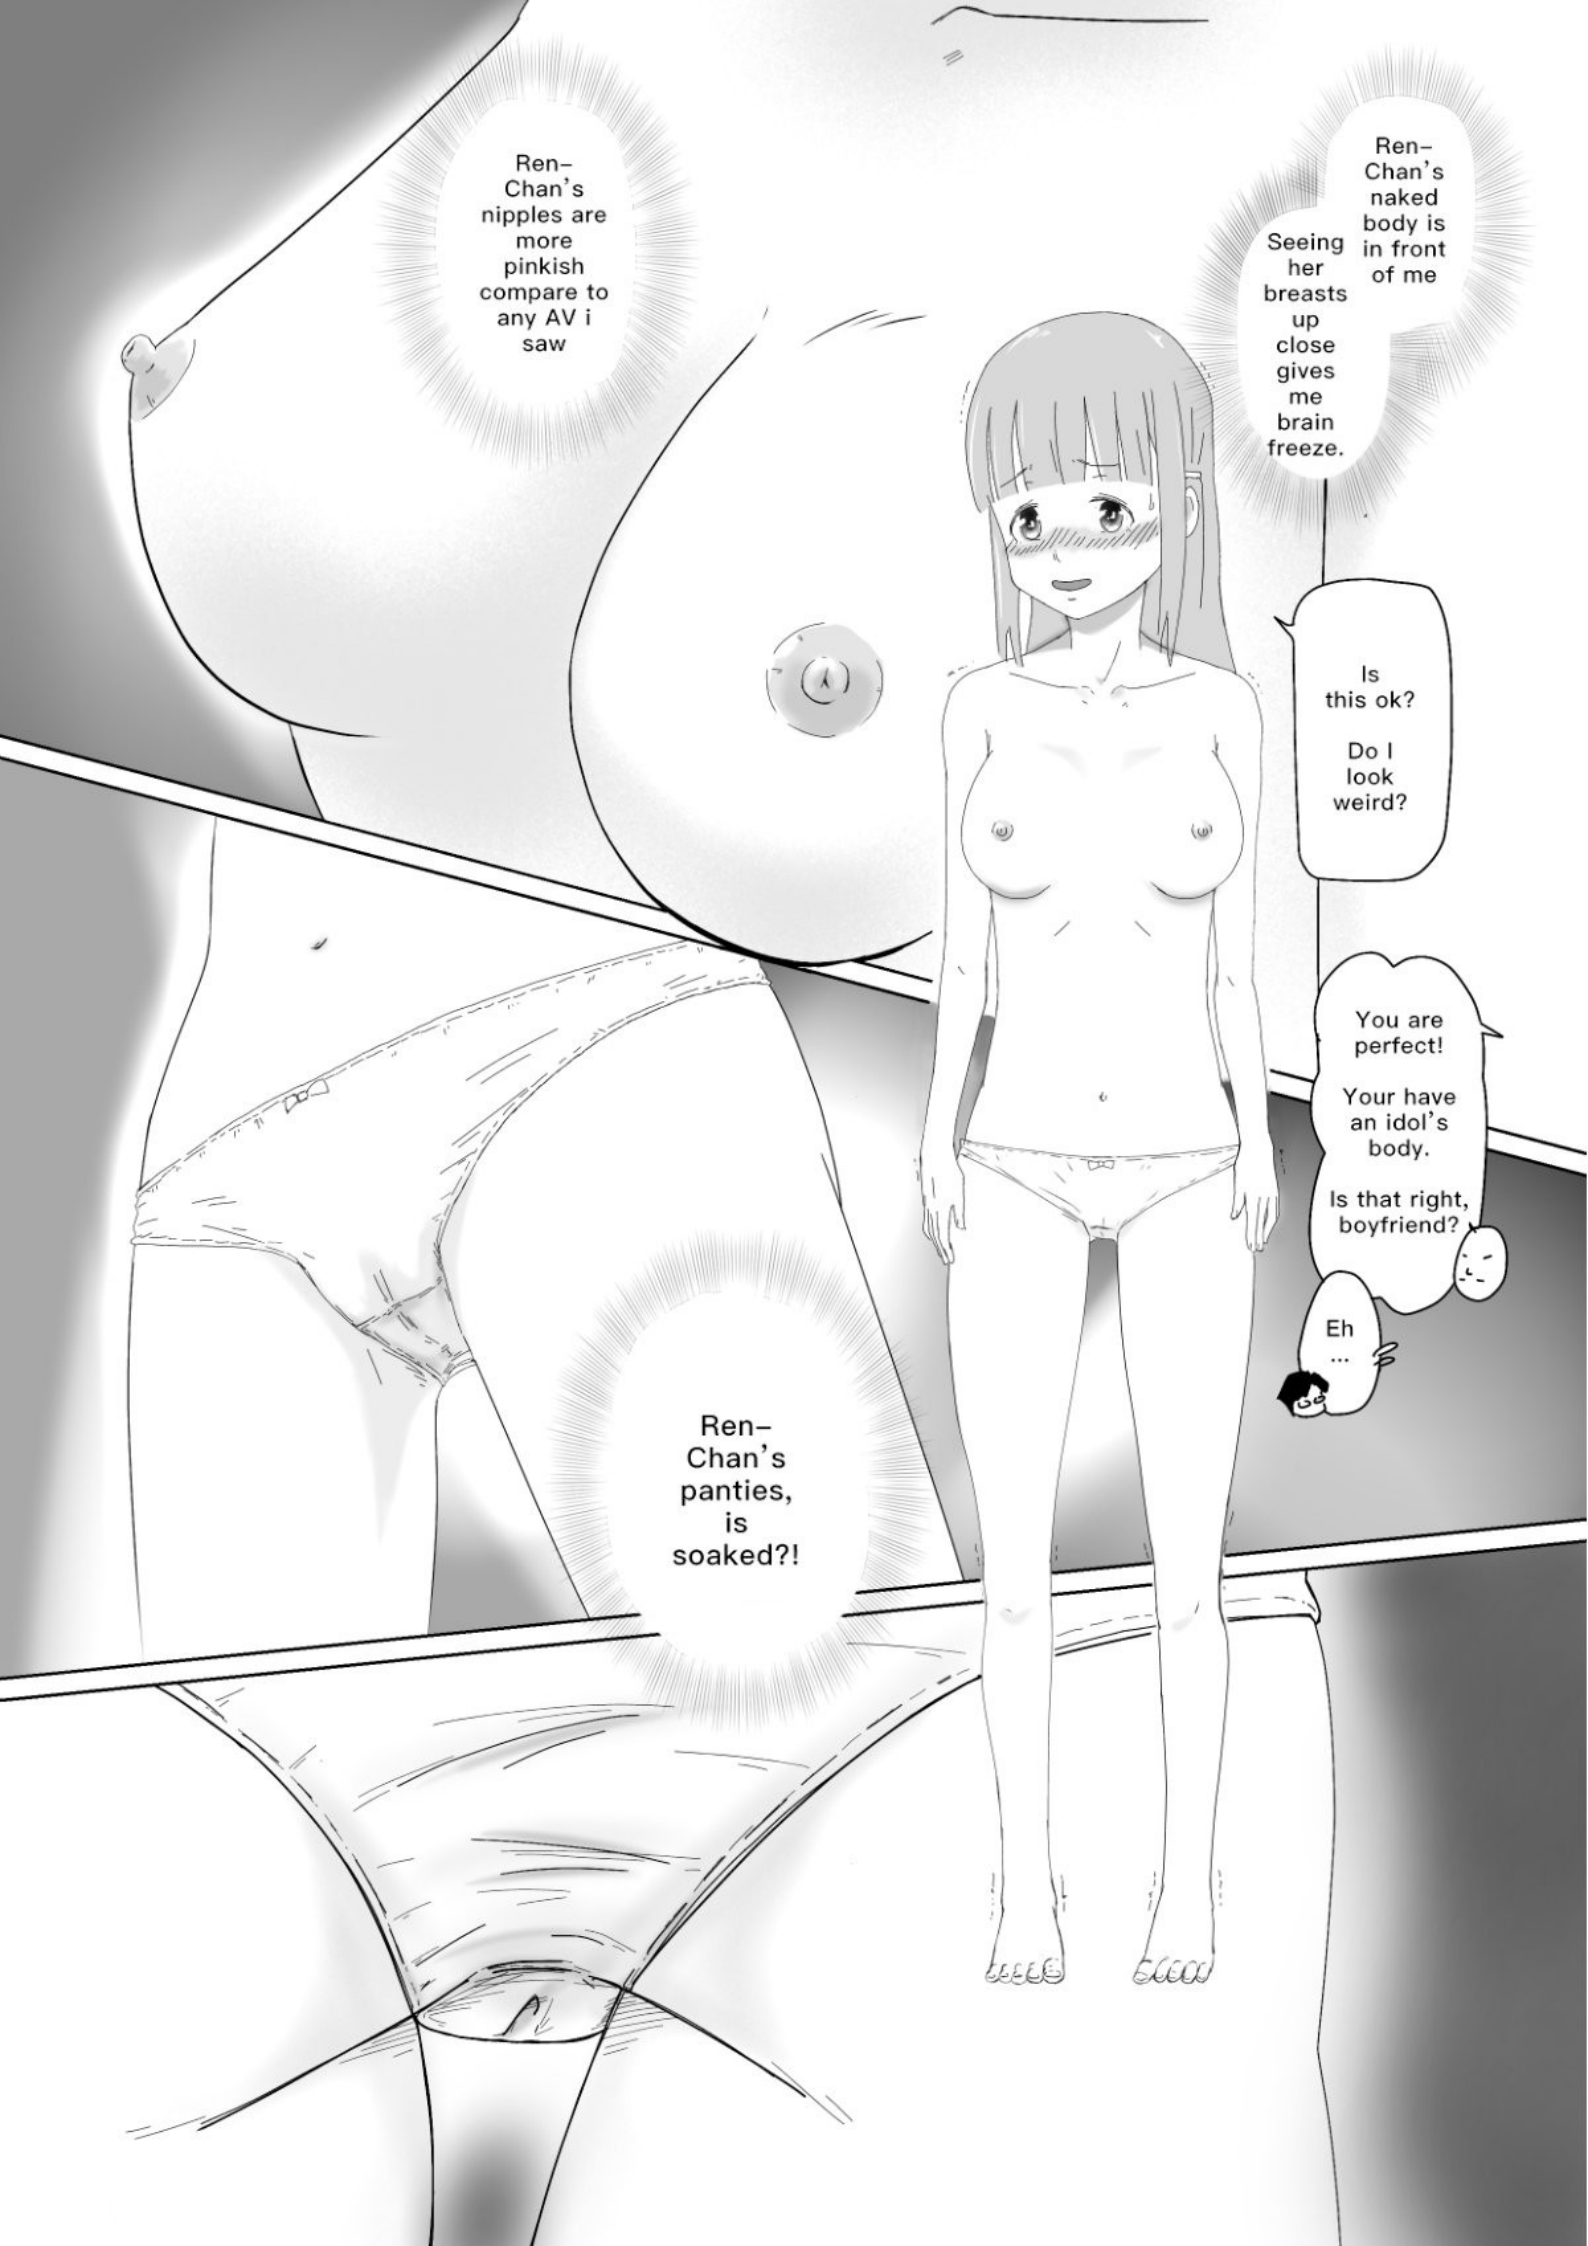

This is so embarrassing! I can't believe I said it... get naked in front of men? What am I thinking. My heart is about to explode!

## Post Note:

Thank you for reading up to this point. I hope you \*enjoyed \* it and help you in a way to get through a stressful day. This story is based on a classic NTR story "My virginity is lost in front of my boyfriend". I cannot find the original author for the credit, so I apologize. This counts as my practice run manga. I started from paper draft, to desktop, to ipad, to ipad pro, and to pc tablet as last, spanning 2 years. As my 2017 new year's resolution, I have to put it out the door before the end of the year.

It is difficult for me to draw h-manga nowadays. I am not a student any more, unfortunately. I still got my job, my family, etc. Bypass all that, what is left is a few hours before bed @ late night. For days I drop my pen @ 3am, I ended up cosplaying zombie to work, which is NSFW and NSFL...

The original story has 2 parts. I followed the main route for part 1, but I am going off track for part 2. I want to get it out by 2018, but I also want to start my long awaited non-h project. so, let's see. I have flushed out my work flow for the most part, thanks to this project. Hopefully things will go a lot faster.

I have uncensored version at hand, but I have yet find a platform to put it. After all, i have spent significant time on it, even it is just shit work. Comments for support, suggestions, and constructive criticism are very welcomed.

Hope you work hard, play hard, and Happy 2018!
