May you find health and vigor in the balance of your four humors*.

Hee! Hee hee! I wish you a fun and pleasant recovery!

Hnngh!

Ighh!

Doing the hospital rounds is so fun~ Gentlemen, keep ejaculating. The more semen you expel, the more your intracranial pressure will go down.

*TL note: Referring to humorism, an ancient Greek/Roman system of medicine.

Ah-no! Stooooop!

So there's no need to hold back, it's all for the sake of your treatment... hee hee!

#521, if you expel your fluids, you'll get better.

You... you're insane!

Nooo! I'm not- I don't need any treatment!!

This case
