Comments: I don't know why the trap's face looked so cute in that panel. This was hot all around. Especially the last few pages. One note is that they use a slightly different word for "hostess club" in this, and it means a hostess club that lets you do lewd stuff as long as there's no direct contact. The literal would be like a "SexHostess Club", but I didn't want to translate it like that because having the word "sex" in there in English would make it seem like a sex club, or a place where you would actually have sex, but that's not correct in this context. So I just left it as "hostess club" because they're not too different.
