I heard that women also participate in that festival until they are 20, do you participate too?

Hey! Yoshikawa. Is it true that your hometown has a naked dancing festival?

No..! I won't participate!! And they do wear loincloths, not nudity!

Huh..?

Oh! That festival is really happening! Let's all go together on the next date of the event!

Who told you that..?

!!

Let me see... It's a totally uninteresting festival and you guys shouldn't come! It's a village in the mountains and it's hard to get to..!

Tanaka's relative in the next class lives in your hometown and he knew you.

You're so desperate! The truth is, you're part of the festival, aren't you?

I didn't want everyone to know, so I went out of my way to choose a high school in the next county over...

I told them so much not to come here...!!!

Yay...

...

Everyone else is here, so keep up the good work!

Yes!
I found Yoshikawa!
I thought she was lying about not attending!

She's really only wearing a loincloth!

She's got really nice tits!
