NETSUNINE

Supplement

- **Dog Mansion:** "Dog" is how the young sex slaves of this Mansion are called, their job is to service the clients of this membership based brothel.

There also exists a branch called "Cat Mansion" where they crossdress wearing maid outfits, it acts as a Maid Cafe brothel.

- **Dogs:** Some were moved by their obscure circumstances while others were coerced, many of these sex slaves are actually heterosexual. There are also those who were sold into the business.

- **Black Dog:** Oldest of the 3 Dogs. Has a strong endurance which allows him to maintain his submissiveness at any moment, generally, clients with a kink for violent domination sexual plays tend to request him. His masochism levels are actually quite low, just because he's able to endure things doesn't mean that his mind and body are dull to pain. Even though he doesn't let it show much, he finds pleasure in jobs with little SM play. Even so, during his training period, he showed a pretty debauched attitude contrary to his actual robotic demeanor. His anus is more sensitive than his genitals.

- **Black and White Dog:** Newest face among the 3 Dogs yet the eldest in actual age. Formerly an earnest clergyman. While living in the dorms his only daughter has been the most important thing to him, sometimes the trainers overseers allow him to go meet her. His attitude towards erotic plays is to perform them diligently and skillfully. Doubts in face of the unexpected though he is easy to adapt. He can show great contempt and scorn towards those that aimlessly seek masochistic humiliation and disgraceful situations as a means of pleasure. For some reason, he's often treated as a pig rather than as a dog.

- **White Dog:** A Dog that joined a little before Black and White Dog. Muscular, hung and with endless sexual stamina, he meets all three vital requirements, but he's always showing defiance towards clients and trainers alike due to his honest and clean personality. Since he's so vigorous and sexually sensitive (characteristics which make him feel ashamed) he succumbs easily to pleasure, though he's able to regain his composure almost instantly. Due to his emotional brittleness, boldness, naivety, and a face that clearly shows what he's thinking at any moment, many clients find him amusing. Whatever it may be said, he doesn't really understand much about masochism.
