Recently, Mantaro has been dreaming about his childhood. In his dream, he promised to marry his childhood friend. However, the girl he saw in his dreams wasn't real. One day, a girl named Niya, who looked just like his dream friend, has transferred to his school. Even though Mantaro tried talking to her a few times, she ignored him. Finally, Mantaro got so worried that he forced her to talk to him. That's when he found out her secret. Niya had a condition called "Nyancology" that made her show her cat parts whenever she's excited. To calm her down and return her body to normal, Mantaro had sex with Niya. After she told him "I finally came to see you", Mantaro realized that his dream was real.

# ニヤちゃん と マン太郎 の 朝事情

猫さんとヒミツの朝事情

Greetings, I am konomi from KINOKONOMI.  
Thank you very much for buying the second volume of Nyanology!!!

I have wanted to continue the series for a long time and before I noticed, 9 months passed. As usual, I drew more pages than I initially planned, but I was able to finish it somehow.

This volume is about the darkness in Niya-chan's past and Niya-chan and Mantaro getting closer to each other. Did you enjoy it?

I want to show off background characters Usami-san and that mysterious character in the end. There are other things I'm setting up (ranging from funny to dark and also related to the mystery of Niya-chan's dad) and I look forward to writing the sequel♪

I wonder if I should turn this series into a harem story. I really want Mantaro-chan's and Niya-chan's love to stay pure.

I want to polish Niya-chan's character until most readers fall in love with her♪

I'm also distributing the first Goya-chan book during the same winter Comiket, and I was so busy that I forgot to write something important in the afterword. I wanted to thank my friend nyu-tan for sending me the plot and helping with the storyboard♪ Everything nyu-tan did was wonderful. Without those beautiful drawings, I wouldn't be able to finish that book and I'm glad that someone helped me.

Whenever I couldn't think of composition or design, nyu-tan helped me and it was educational and helped me get better. It was a real collaboration♪ I had a lot of fun working on that doujin.

I was in a hurry when I was sending that doujin and I forgot to mention it in the afterword. Please forgive me, nyu-tan. I hope we team up again someday.

Without nyu-tan's help, I probably wouldn't be able to finish the Nyanology book in time too.

Please forgive me for borrowing this space to write about another book♪

My next event is Big Sight, a KanColle-only event that takes place in January next year! I'll be distributing a special submarine cup! I hope it's going to be fun!♪

Even though I mostly wrote about the Goya-chan book, this year I drew a lot of manga and illustrations. I want to thank everyone who helped me, friends who supported me, my customers, everyone who sent their feedback and my family♪ I am truly grateful♪

I'll continue to work hard next year!

I'll do my best drawing more cute manga and illustrations!

I wish everyone to have a nice year!

Happy holidays!

2013.12.17 konomi

This is Pyonte, a mysterious life form that was created while I was working on this doujin. He makes sounds like "gugugugu" and "pyoon". He is based on a certain popular game character.
